ORGANOCIDE® BEE SAFE 3-in-1 GARDEN SPRAY

Read entire label before use. Use only in accordance with label instructions.

This ready to spray applicator is calibrated to dilute Organocide® Bee Safe 3-in-1 Garden Spray Concentrate in just the right proportion. Simply SHAKE WELL and attach the sprayer to your garden hose. Continue to shake occasionally while using. Natural products tend to settle if not agitated.

Directions for Use:

Do this 1st: Flush hot water from hose prior to connecting to spray head.

Do this 2nd: Make sure the valve on the Sprayer Nozzle is in the "OFF" position.

Do this 3rd: SHAKE WELL and connect to garden hose securely and turn the faucet on full force.

Do this 4th: Turn the Sprayer Nozzle valve to the "ON" position.

When finished: Turn the Sprayer Nozzle valve to the "WATER" position to rinse and clean.

For best results, spray during the coolest time of the day (early morning or late evening) and allow 3-4 hours for product to dry. Do not apply when temperatures exceed 95°F. A single application is normally enough for preventative control. Spray leaves and stems of plants, making sure tops & bottoms are covered, until run-off. For normal maintenance, spray once per month or as needed to spot treat areas. For severe problems, make two applications 3-4 days apart. Reapply in 7 days if problem persists.

Garden Insects: Organocide® Bee Safe 3-in-1 Garden Spray kills the eggs, larvae, nymphs, and the adult stages of over 25 soft bodied insects including (but not limited to) Aphids, Hemlock Woolly Adelgid, Leafrollers, Mealy Bugs, Thrips, White-Flies, Fungus Gnats and Psyllids.

Spider Mites: Including, (but not limited to) European Red Mite, Spruce Mite, Maple Mite, Southern Red Mite, Two Spotted Mite, Six Spotted Mite, Texas Citrus Mite, Russet Mite and Rust Mite.

Scale Insects: Including (but not limited to) Sago Palm Scale, Magnolia Scale, Oleander Scale, San Jose Scale, Hemlock Woolly Adelgid and Euonymus Scale.

Diseases: Organocide® Bee Safe 3-in-1 Garden Spray controls certain fungal diseases such as (but not limited to) Powdery Mildew, Downy Mildew, Black Spot on Roses, Helminthosporium and Greasy Spot on Citrus.

Target Plants: Vegetables, Fruits, Nuts, Vine Crops, Herbs, Ornamentals, Greenhouse Crops, Turfgrass, Landscape Plants, Bulbs, Flowers and Field Crops. Not For Indoor Use.

Fruit Trees: Organocide® Bee Safe 3-in-1 Garden Spray can be used monthly for regular maintenance and is safe and effective during all growth stages, however we recommend using our concentrated product while fruit trees are in bloom (at a rate of 1 oz. per gallon of water) as a foliar spray to target any infested areas. The concentrated product can also be used as a dormant oil (at a rate of 4 oz. per gallon of water) as it kills most overwintering adults and eggs, and thus slows seasonal build ups.

Plant Compatibility: When used as directed, Organocide® Bee Safe 3-in-1 Garden Spray has an unusually high degree of safety to most plants. However, some plants in the Euphorbia family (Crown of Thorns, Poinsettia) and succulents have shown some sensitivity. If in doubt, test first on a small area of foliage to determine plant safety.

ORGANOCIDE® BEE SAFE 3-in-1 GARDEN SPRAY

Antes de usar, lea la etiqueta completa

Use únicamente según las instrucciones en la etiqueta.

Este aplicador es listo para rociar se calibra para diluir el Organocide® Bee Safe 3-in-1 Garden Spray concentrado en la proporción adecuada. Simplemente AGITE BIEN y conecte el rociador a su manguera de jardín. Continúe sacudiendo ocasionalmente mientras que usa. Los productos naturales tienden a asentarse si no se agitan.

Instrucciones de Uso:

- Primero:** Enjuague el agua caliente de la manguera antes de conectarla al rociador
Segundo: Asegúrese que la Boquilla del Rociador esté en posición apagada "OFF"
Tercero: AGITE BIEN y conéctela a la manguera del jardín de manera que quede bien ajustada y abra el chorro al máximo
Cuarto: Abra la Boquilla del Rociador, a la posición "ON"
Cuando finalice: Coloque Boquilla del Rociador en la posición de agua "WATER" para enjuagarla y limpiarla

Para mejores resultados, rocíe durante la hora más fresca del día (mañana o tarde en la noche) y permitir 3-4 horas para que el producto se seque. No aplicar cuando las temperaturas superan los 95 ° F. Por lo general, una única aplicación es suficiente para el control preventivo. Rocíe las hojas y los tallos de las plantas, asegurándose de que las partes superiores e inferiores estén cubiertas hasta que se escurran. Para el mantenimiento regular, rocíe una vez al mes, o tal como sea necesario para tratar las áreas con manchas. Cuando se trate de un problema grave, aplíquelo dos veces, dejando tres días de por medio entre las aplicaciones. Vuelva a aplicar en 7 días si el problema persiste.

Insectos de Jardín: Organocide® Bee Safe 3-in-1 Garden Spray mata los huevos, larvas, ninfas, así como los insectos adultos, en todas sus etapas, de más de 25 insectos de cuerpo blando incluyendo (sin estar limitado a) áfidos, pulgón de la tsuga, enrolla-hojas, chinches, gorgojos, tisanópteros, moscas blancas, mosquitos de hongo y psila peral.

Ácaros: Incluyendo (sin estar limitado a) ácaros rojos, ácaros araña de abeto, ácaros roya, ácaros rojos de cítricos, arañas de dos manchas, arañas de seis manchas, ácaros plateados, ácaros rojizos y ácaros enrolladores.

Insectos en Escamas: Incluyendo (sin estar limitado a) escamas de sagú, escamas de magnolia, escamas de adelfa, escamas de San José, pulgón de la tsuga y escamas de bonetero.

Enfermedades: El Organocide® Bee Safe 3-in-1 Garden Spray controla ciertas enfermedades causadas por hongos como (sin estar limitado a) roya polvorienta, roya negra, machas negras en las rosas, helmintosporium y manchas de grasa en los cítricos.

Para Uso en las Siguiente Plantas: Vegetales, frutas, nueces, vides, hierbas, plantas ornamentales, plantas de invernadero, grama, plantas decorativas, bulbos, flores y cultivos de campo. No es para usar en interiores.

Árboles Frutales: Se pueden usar mensualmente para mantenimiento regular. Se puede usar en todas las etapas de crecimiento, excepto durante la floración. También se puede usar como un aceite latente, ya que mata a la mayoría de los adultos y los huevos que pasan el invierno, y por lo tanto ralentiza la acumulación estacional.

Compatibilidad con las Plantas: Cuando se usa según las instrucciones, el Organocide® Bee Safe 3-in-1 Garden Spray ofrece un alto grado de seguridad para la mayoría de las plantas que se poco común. Sin embargo, algunas plantas de la familia Euphorbiaceae (como corona de espinas y flor de pascua o poinsettia) y plantas cornasas han demostrado tener cierta sensibilidad al mismo. Si tiene alguna duda, pruebe primero en una área pequeña del follaje para determinar la seguridad específica con la planta.
