

PALEOPOWER®

Put the Heartbeat Back Into Your Soil®

BIOLOGICAL SOIL CONDITIONER

PaleoPower® Functions

- Fixes atmospheric nitrogen
- Solubilizes phosphate
- Produces phytohormones
- Provides essential minerals
- Degrades glyphosate and AMPA

PaleoPower® Benefits

- Increases crop yields
- Improves germination
- Enhances water retention
- Restores a healthy soil microbiome
- Increases soil carbon

Improves Plant and Soil Health Through a Consortium of Beneficial Bacteria

Application Instructions

Soil and Foliar

- Shake well before use
- Mix with water or other diluent
- Recommended application rate: 8–16 fl. oz. per acre.
(1 gallon treats up to 16 acres)
- Apply at the beginning of the growing season and again after harvest
- May be mixed with herbicides

Garden and Greenhouse

- Shake well before use
- Mix with water at a rate of 1.0 mL (½ tsp) per gallon
- Apply weekly as a soil drench from seed to harvest

PaleoPower® Makes the Difference

Independent, multi-year studies show that PaleoPower improves soil health and increases yields.
