

PaleoPower®

BIOLOGICAL SOIL CONDITIONER

Home & Garden Guide

Restore • Rebuild • Regenerate

What is PaleoPower®?

PaleoPower® is a living soil conditioner formulated to support biological balance within the soil.

It enhances nutrient availability, promotes strong root development, and supports longterm soil vitality.

Designed to work in harmony with the biological processes that sustain healthy soil systems.

Why Use PaleoPower®?

PaleoPower® supports:

- ✓ Soil biological activity.
- ✓ Root development.
- ✓ Nutrient efficiency.
- ✓ Plant vigor and resilience.
- ✓ Compost and organic matter transformation.
- ✓ Long-term soil health.

Suitable for vegetables, flowers, herbs, fruit trees, lawns, raised beds, shrubs, and container gardens.

What's Inside?

- A co-fermented consortium of beneficial soil microorganisms.
- Organic molasses (microbial energy source).
- Natural stabilizers.
- Water carrier.

Guaranteed minimum:

1 × 10⁹ CFU/mL at time of manufacture.

Expected Results

Visible improvements in plant vigor may be observed within one growing season. Long-term soil vitality develops with consistent use.

How to Use PaleoPower®

(Home Garden Rates)

PaleoPower® is a concentrated formulation and must be diluted prior to application.

General Application Rates

Crop/Use	Application	Method
Vegetable & Flower Beds	Mix 2–4 oz per gallon of water	Apply as a soil drench around the root zone. Use: • At planting or transplanting. • Mid-season to reinforce soil biological activity • After heavy rain or plant stress.
Transplants & Seedlings	Mix 2 oz per gallon of water	Dip root ball before planting or water into the planting hole.
Trees & Shrubs	Mix 3–4 oz per gallon of water	Apply evenly around the drip line of the plant.
Compost	Apply 8–16 oz per 1,000 sq ft compost pile (diluted in water)	Apply during turning to support biological activity.

Best Practices

- ✓ Use clean, chlorine-free water (let tap water sit 24 hours if needed).
- ✓ Mix gently.
- ✓ Use within 6–12 hours of dilution.
- ✓ Apply during moderate temperatures.
- ✓ Avoid applying in extreme heat or direct midday sun.

Use & Safety Information

Read all directions before use.

PaleoPower® is a concentrated biological formulation and must be diluted prior to application. Use only as directed.

This product is intended for agricultural and horticultural use only.

Precautions

- Keep out of reach of children and pets.
- Avoid contact with eyes and skin.
- Avoid inhalation of spray mist.
- Do not ingest.

Individuals with compromised immune systems should avoid handling.

Storage and Disposal

- Store in original container in a cool, dry location out of direct sunlight.
- Do not freeze.
- Use diluted solution within 6–12 hours of mixing.

Frequently Asked Questions

What is PaleoPower®?

A living soil conditioner designed to enhance biological function, nutrient availability, and root development.

Is it approved for organic gardens?

Yes. PaleoPower® is OMRI Listed® for use in certified organic production and suitable for organic and regenerative gardening practices when used as directed.

Can I use it in containers?

Yes. PaleoPower® is suitable for raised beds, container gardens, and indoor plants.

Can I use it with fertilizers?

Yes. PaleoPower® is compatible with most fertilizers and soil amendments.

Will it burn my plants?

No. When diluted and used as directed, PaleoPower® will not burn plants.

Does it have an odor?

PaleoPower® may have a mild natural fermentation smell. This is normal and indicates active biological components.

Dispose of unused product and empty containers in accordance with applicable local, state, and federal regulations.
