The Best Way To Grow On Earth™

Soil Moist™

Water Aide™

Improves Water Efficiency

Mejora la eficacia del agua

Fewer Plant Waterings

Increases Water Penetration In Soil

Menos riego

Mayor penetración del agua en la tierra

**Ideal For All Vegetables,
Plants And Lawns**

Ideal para todo tipo de vegetales, plantas y césped

NOT A PLANT FOOD INGREDIENT

NO ES UN NUTRIENTE INORGÁNICO

NET WT. 3 oz. (85g)

PESO NETO 85 g (3 oz)

The Best Way To Grow On Earth™

Water Aide is an OMRI listed (certified for Organic use) adjuvant that is designed to improve water efficiency. **Water Aide** allows water to penetrate the soil. It helps retain moisture in the soil which reduces plant waterings. **Water Aide** reduces water runoff and helps with a more uniform movement of water through the Soil. Safe to use on all plants, vegetables and lawns.

APPLICATION:

Water Aide can be applied every 2-3 weeks during the growing season.

OUTDOOR:

Pots/Containers. Mix ¼ ounce with five gallons water. Agitate to insure the product is thoroughly mixed. Water plants.

On small shrubs, rose bushes and trees (less than 4' tall) use 1 to 1 ½ quarts of water. On larger material use 2 to 3 quarts of water. For flower beds and vegetables, water plants until soil is uniformly wet.

LAWNS/GARDENS:

Water Aide can be applied directly on lawns using a back pack sprayer. Mix ¼ ounce for every 2 gallons of water. Spray evenly over 250 square feet. Water after applying. Reapply every 3-4 weeks.

STORAGE:

Seal and store in a cool dry location.
KEEP OUT OF REACH OF CHILDREN
CAUTION: SLIPPERY WHEN WET
CONTAINS NONPLANT FOOD INGREDIENTS:

98% Inert Ingredients
2% Acrylic Acid Polymer

Information regarding contents and levels of metals in this product is available on the internet at: www.aapco.org/metals.html
