 Roadside Ditches • Cisterns and Water Supply Tanks • Animal and
 Livestock Watering Troughs • Aquaponics • Hydroponics • Agricultural
 Crop Irrigation Water • Rice fields • Pastures, and other water habitats
 where mosquito larvae occur.

In New York State, For Use in Containerized Waters with no Outflow to the Natural Environment.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. In New York State, For Use in Containerized Waters with no Outflow to the Natural Environment. Do not apply directly to treated, finished drinking water reservoirs.

APPLICATION INSTRUCTIONS

Mosquito Larvae:
Flooded Mosquito Larval Breeding Sites (Outdoor Use): Apply CHUNKS® to the sites listed on this label and according to the dosage table. In highly polluted water with a high organic content, such as sewage ponds, the application rate can be increased to as much as four (4) times the normal dosage based upon evaluation by the user of water organic content and/or seeing mosquito larvae in the water.

When mosquito larval populations are high, aquatic vegetation dense, or the water highly polluted at the time of CHUNKS® use, pre-treatment with Summit® B.t.i. Granules or MOSQUITO BITS® is suggested. CHUNKS® will then suppress mosquito larval development for up to 30 days. Some mosquito larvae that hatch after CHUNKS® application may partially develop before dying. Allow a minimum of 48 hours for control.

Flooded Mosquito Larval Breeding Sites (Indoor Use): For use in areas that collect water from time to time, such as elevator shafts, basements that flood, sump pump wells and any drainage areas with standing water or subject to flooding within buildings. Apply CHUNKS® according to the dosage table.

Pre-Flood Treatment: CHUNKS® can be applied to the sites listed on this label when they are dry and in anticipation of them becoming flooded after rain. Use the correct amount of CHUNKS® according to the dosage table.

Evaporative Coolers: Apply four (4) CHUNKS® per 100 square feet of cooler box. For smaller coolers, refer to the dosage table for the appropriate application rate.

STORAGE AND DISPOSAL	
Do not contaminate water, food, or feed by storage or disposal.	
PESTICIDE STORAGE:	Store in a cool, dry place. Do not store near heat or open flame.
PESTICIDE DISPOSAL AND CONTAINER HANDLING:	<p>NONREFILLABLE CONTAINER. Do not reuse or refill this container.</p> <p>IF EMPTY: Place in trash or offer for recycling, if available.</p> <p>IF PARTLY FILLED: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.</p>
