

Mosquito BITS®

BIOLOGICAL MOSQUITO CONTROL
Quick Kills Within 24 Hours

PRECAUTIONARY STATEMENT:

Hazards to Humans and Domestic Animals:

CAUTION: Harmful if inhaled or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID:

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

IF ON SKIN OR CLOTHING: Call a poison control center or doctor for further treatment advice.

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

Environmental Hazards: Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling

MOSQUITO LARVAE CONTROL

GENERAL INFORMATION:

MOSQUITO BITS® is a highly selective microbial insecticide effective against mosquitoes in a variety of habitats. When spread uniformly over the surface of containerized water the BITS release a biological mosquito larvicide at the water's surface. This larvicide gradually settles in the water where it is eaten by mosquito larvae growing there. MOSQUITO BITS® may be used in all types of containerized standing water sites where mosquito larvae grow. The BITS will give a quick kill within 24 hours. For more residual long term control please consider the use of MOSQUITO DUNKS® after applying MOSQUITO BITS®. Employ a seven to fourteen day interval between applications.

Biological
Mosquito Control

Mosquito BITS®
Kills Mosquitoes
Before They're Old Enough To Bite®
ALSO CONTROLS FUNGUS GNATS

USE IN: • Water gardens
• Flower pots • Bird baths
**KILLS MOSQUITO LARVAE
THAT TRANSMIT:**

• West Nile Virus • Encephalitis
• Malaria • Dengue Hemorrhagic Fever

Treats up to 2178 sq. ft.

Active Ingredient: *Bacillus thuringiensis* subspecies *israelensis*, Strain 144 solids, spores and insecticidal toxins2.86%
OTHER INGREDIENTS97.14%
TOTAL100.00%

*Potency: 7,000 International Toxic Units (ITU) per mg of product (0.091 Billion ITU per pound of product). Potency units should not be used to adjust rates beyond those specified in the Direction for Use Section.

Note: The percent active ingredient does not indicate product performance and potency measurements are not federally standardized.

Net Contents: 8oz. EPA REG. NO 6218-73 EPA EST. NO 6218-MD-2

See the Directions for Use for specific application instructions.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for additional precautionary statements and directions for use.

OUTDOOR USE AROUND THE HOUSEHOLD

Sprinkle one teaspoon per 25 square feet or one tablespoon per 75 square feet (1/2 lb. per 2178 square feet) over the surface of the containerized standing water found around the home. MOSQUITO BITS® should be applied uniformly. A seven to fourteen day interval between applications should be employed. Longer periods of mosquito suppression will be obtained with the subsequent use of MOSQUITO DUNKS®.

MOSQUITO BITS® can be applied to areas that contain aquatic life, fish and plants. Can be applied to areas used by or in contact with humans, animals, horses, livestock, pets, birds or wildlife. DO NOT APPLY TO finished, treated human drinking water sources.

APPLY TO CONTAINERIZED STANDING WATER FOUND NEAR THE HOUSE
SUCH AS • Water Gardens • Roof Gutters • Unused Swimming Pools
• Flower Pots • Bird Baths • Old Automobile Tires
• Rain Barrels • Tree Holes • Animal Watering Troughs

KILLS MOSQUITO LARVAE THAT TRANSMIT: West Nile Virus, Encephalitis, Malaria, Dengue Hemorrhagic Fever

FUNGUS GNAT CONTROL: Sprinkle or spread the granules over the soil until the area is covered. Water will release the Bti into the soil where the larvae of the Fungus Gnats will feed on it and die. Repeat this process for a three-week period for control. If Fungus Gnats reappear start process over, sprinkling granules on and watering again for a three-week period.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE

Reseal unused portions of product. Store in cool, dry, well-ventilated place.

PESTICIDE DISPOSAL AND CONTAINER HANDLING

If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. Batch code on container.

If Partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE TO USER: Seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product than as indicated on the label. User assumes all risks of use, storage or handling not in strict accordance with label instructions.
