INGREDIENTS

Garlic, corn oil,
cedar oil, magic

EASY 3-STEP APPLICATION

1 TAKE

Take off the lid of the bottle and pour the contents into a sprayer filled with one gallon of water. Use whichever pour technique that best represents your personal brand. Close the lid of the sprayer.

2 SHAKE

Shake the sprayer until the mixture is combined thoroughly. Make this your James Bond moment and treat it like a giant martini.

3 MAKE

Make your way to the backyard and spray the mixture in a sweeping manner on grass, flowers, mulch, tree canopies and shrubs. A choreographed spray routine is encouraged, but not required.

80-85% reduction in mosquitoes after 1st application.

Repeat every 2-3 weeks.
