---	--------

TOTAL 100%

WARNING Keep Out Of Reach Of Children

128 FL OZ / 1 GALLON

KILLS AND REPELS

ADULT MOSQUITOS • FLEAS • TICKS • FIRE ANTS

HOW TO USE

Read the entire label before use and please use only as directed. Apply with spray equipment such as Pump Sprayers, Hose End Sprayers or Backpacks as described below.

Hose End Sprayers:

Fill reservoir with straight concentrate. If sprayer has adjustment set it to the "1 TBS" setting. Then connect it to a garden hose.

Pump Style or Backpack Sprayers:

Concentrate must be diluted, add 6 fluid ounces of concentrate to each gallon of water into the tank. Shake for 30 seconds. Do not mix with other products.

HOW TO APPLY

Begin by spraying around your home from ground level up to 8-10 feet high. Apply to lawns, grasses, shrubs, patios, walls and firewood piles. Spray only until plants or surfaces are just wet. Continue into the yard, spraying turf, plants, and trees as high as possible. Work outwards to the property line and include fences and hedges. Walk at a steady pace and use a sweeping motion, slightly overlapping treated areas. Complete coverage is important, especially in shaded areas. Repeat as needed for a bug free outdoors!

WHEN TO USE

Begin treating when insects start to appear. Apply twice the first week to break the full pest lifecycle. Treat early in the morning or later in the afternoon when biting pests are most active. Repeat as needed for continual best results, usually every 1-2 weeks works well. Remember, thorough coverage is important, year-round use enhances results. Reapply after heavy rain. Don't treat in temperatures over 90° F/32° C as foliage may be damaged. Not for use on food/feed crops or aquatic sites.

FOR BEST RESULTS

- Remove areas where mosquitos like to live like tall grass and piles of leaves.
- Check your entire property and drain/remove any standing water. Check your neighbor's properties too. Even a thimble full is enough for mosquitos to breed in!

PRECAUTIONARY STATEMENTS

This product contains a strong concentration of essential oils, some people may be sensitive to the scent. Avoid contact with eyes, skin, or clothing. Causes moderate eye irritation, wear eye protection and gloves. Not for topical use on the skin. Do not ingest. Do not apply when pollinators are present.

First Aid

If in eyes wash gently and thoroughly with water for 15-20 minutes. If on skin, wash with soap and water for 15-20 minutes. If irritation persists or if ingested, consult a physician.

Storage and Handling

Store in cool area out of sunlight. Avoid excess heat or freezing. Rinse empty container and recycle if possible. Dispose of any excess product according to local regulations.

BRAND STORY

Living in Florida in 2011, my family was overrun by mosquitos! Coming from the eco-friendly country of New Zealand, using toxic pesticides was not an option for me. But there was nothing plant based that would effectively handle the mosquitos, and other biting pests. After 3 years of development and lab testing, Mosquito Magician was born. Using only pure and natural essential oils and plant-based emulsifiers, we now protect families and pets throughout the US and beyond. Thank you for being part of our journey.

MORE BENEFITS

- ✓ Neutral pH Formula
- ✓ Non-Staining
- ✓ Essential Oils Give A Pleasant Scent
