

SHAKE WELL BEFORE EACH USE

UNSCENTED

AVENGER ZONE

INSECT KILLER

Kills Ants, Cockroaches,
Silverfish, Fleas and Spiders

Controls Ants for
up to 4 Weeks

Leaves No
Visible Residue

Quick
Knockdown

ACTIVE INGREDIENT:

2-Phenethyl Propionate*	1.00%
Pyrethrins*	0.40%
OTHER INGREDIENTS*	98.60%
Total	100.00%

* Contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN

CAUTION: See Back Panel for First Aid and Additional Precautions
EPA Reg. No. 62577-13-92967 EPA Est. No. 92967-GA-1

NET CONTENTS: 14 OZ. (396g)

SHAKE WELL BEFORE EACH USE

AVENGER INSECT KILLER SHIELD

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

- Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.
- Do not enter or allow others to enter until sprays have dried.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment and food preparation surfaces or wash them before use.
- Do not apply directly into sewers or drains or to any area like a gutter where drainage to storm sewers, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only.
- Remove pets, birds and cover fish aquariums before application.

Shake well before using. Avenger Insect Killer - Shield is a specifically formulated contact aerosol for use in Homes.

Avenger® Insect Killer - Shield will not stain carpet, floors or walls. Since it is impossible for the manufacturer to test all combinations of surfaces, fibers and coatings, good applications practices recommend that you test the spray in an inconspicuous area when treating a new fiber, paint or surface. **Crack/Crevise and Void Treatments: Important: Use the injector nozzle tip provided. Interior Treatments:** For crawling insects, inject into all crack/crevice and void spaces where insects may be crawling, hiding or living. Release approximately 1 second of product per crack/crevice application and from 2 to 3 seconds per cubic foot of closed void space treated. Apply more liberally for heavy infestations. Applications can be made behind baseboards, cabinets, walls, ceilings, door and window frames, and around water pipes and appliances. Ensure contact with as many insects as possible. **Grain Weevils, Flour Beetles, Chocolate Moths, Drugstore Beetles, Trogoderma, and Elm Leaf Beetles:** Inject into cracks and crevices and/or voids where these insects may be harboring, such as cabinets, pantries, wall voids and in machinery. **Exterior Perimeter Treatments:** For crawling insects, apply to cracks/crevices where insects may enter premises or harbor. Areas to be treated include weep holes, under siding, wall voids, soffits, around attic vents, windows, doors and pipes. Treatment of infested fences and tree holes is permitted. **Wood Destroying Insects (Localized Treatment): Beetles, Borers, Carpenter Ants, Carpenter Bees, Termites and Wood Wasps:** Locate suspected infestation and/or insect tunnels and cavities. Drill pilot holes 8 to 10 inches apart into insect tunnels, galleries and inaccessible closed voids. Inject 5 to 10 seconds per hole. Do not contact electrical wiring, plumbing, etc. when drilling. For carpenter bees, seal bee entrances after application. **Dry wood Termites:** Probe to locate galleries, drill holes and inject 5-10 seconds spray per hole into active galleries. **Powder Past Beetles:** treat infested wood using injection tube. Apply small amounts directly into and around entrance holes. Applications using this product for termites is not a substitution for mechanical alteration, soil treatment or foundation treatment but are merely a supplement. Not recommended as sole protection against termites. For active termite infestations, get a professional inspection.

Questions or Comments: Call 1-888-444-7231 weekdays, 9:00 a.m. to 5:00 p.m. EST

Chemical Safety Information: Call 1-800-535-5053 anytime (InfoTrac Chemical Response System) VOC compliant in all states.

PRECAUTIONARY STATEMENTS - Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mist. Wear long-sleeve shirt, long pants, shoe, socks and water-proof gloves. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Environmental Hazards: This pesticide is toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and runoff may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment washwater or rinsate. See Directions for Use for additional precautions and requirements. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

Physical or Chemical Hazards: Flammable. Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Limitation of Liability: To the extent consistent with applicable law, Avenger Products LLC makes no warranties of merchantability, or of fitness for a particular purpose, nor any other express or implied warranty except as stated above.
