IV Organic 3-in-1 Tree Guard Paint Just-Add-Water

This effective formula, containing ALL organic ingredients, is a natural means to reducing the risks of trunk and branch damage caused by, but not limited to, sunburn (avocados and citrus are particularly susceptible), boring insects (such as beetles), and gnawing rodents (such as moles, voles, mice and rabbits). Recommended application is ONLY one time per year!

Application Directions: 1. REMOVE BAG OF PAINT POWDER AND OIL VIAL FROM CAN. 2. EMPTY PAINT POWDER CONTENTS FROM BAG INTO CAN. FILL 1/2 CAN WITH WATER. 3. STIR WELL. 4. ADD THE OIL VIAL CONTENT. 5. FILL THE REMAINDER OF THE CAN WITH WATER. 6. STIR WELL EVERY 5-10 MINUTES WHILE USING THIS PRODUCT TO ENSURE UNIFORMITY OF CONTENTS WHILE APPLYING PRODUCT TO TREE TRUNK AND/ OR BRANCHES. 7. APPLY WITH A PAINT BRUSH OR ROLLER. SPRAYER MAY BE USED IF CONTENTS FILTERED THROUGH FINE STRAINER. CONTENTS SHOULD COVER APPROXIMATELY A DOZEN YOUNG TREE TRUNKS (3 GALLONS SIZE) WITH A SINGLE COAT. Can contents: 1 bag paint powder & 1 oil vial.

Use Restrictions:

Do not apply at temperatures below 40°F or in wet conditions. Do not apply this product to the plant roots and/ or leaves. Do not apply to known sensitive plant species, such as hibiscus, without prior testing a small area to ensure damage does not occur. Product functions more like a "furniture paint" when only 1/2 the recommended water is added; however, it is recommended that this product be applied diluted as instructed in the directions. First year bark growth on some plant species are typically too waxy for good adhesion of this product, requiring second and third coats to accomplish full coverage. Do not consume this product. If product gets into eyes, flush immediately with running water for at least 15 minutes. Wearing gloves is recommended to avoid any possibility of skin irritation.

STORAGE AND DISPOSAL

It is recommended that you only mix what you intend to use on the same day. Unused liquid (mixed) product may be refrigerated for up to 2 weeks, or frozen for up to 2 years. Paint powder that has not been mixed may be stored in a cool and dry area for up to 5 years. Contents are environmentally safe.

CONTENTS: ORGANIC WHITE PAINT, ORGANIC NEEM OIL, ORGANIC CASTOR OIL
