

IV ORGANIC®
3-IN-1 PLANT GUARD™

Visit www.IVOrganics.com for more product details.

This effective formula, containing ALL organic ingredients, is a natural means to reducing the risks of trunk and branch damage caused by, but not limited to, sunburn (avocados and citrus are particularly susceptible), boring insects (such as beetles), and gnawing rodents (such as moles, voles, mice and rabbits).

Protect newly installed plants and trees that are especially susceptible to excess sunlight & damage caused by insects. Coat all exposed leaves, branches and trunk to prevent sun stress and sunburn, especially at times of extreme heat.

Recommended Application: Up to three times (3x) per year.

Use Restrictions:

Thoroughly shake contents before use. Always test a small area and wait a few days to ensure damage does not occur. First year bark growth on some plant species are typically too waxy for good adhesion of this product, requiring second and third coats to accomplish full coverage. Do not consume this product. If product gets into eyes, flush immediately with running water for at least 15 minutes. Wearing gloves is recommended to avoid any possibility of skin irritation.

STORAGE AND DISPOSAL

Product should be used within one (1) year of use.

Store unused product in a cool and shaded (or dark) location.

Contents are environmentally safe. 

CAUTION KEEP OUT OF REACH OF CHILDREN
