SINCE 1932

STICK-EM®
THE BUGO® BED BUG DETECTOR

JT EATON™
 SINCE 1932

8 | PACK

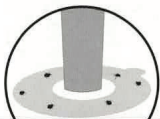

1 Carefully peel off the purple printed side of the adhesive circle

2 Stick the exposed adhesive side on to the floor around a bed leg (ensure that the edges meet, forming a continuous circle)

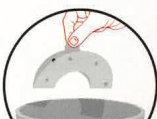

3 Remove the orange printed liner to activate The Bugo and catch some bugs

4 The Bugo can remain in place for up to 8 weeks

5 To remove The Bugo, slowly peel away from the floor surface

6 Dispose of the used Bugo responsibly

Warning not suitable for children under 36 months due to small parts

Note: Do not use The Bugo on absorbent, delicate, damp, dusty or recently decorated surfaces. Recommendations are for guidance only, as conditions of use are beyond our control. Testing a small area prior to use is suggested. The adhesive qualities of The Bugo will increase with time so take care when removing as The Bugo could remove coatings from hard floors and loose fibers from carpets. Do not leave The Bugo on surfaces longer than recommended. The Bugo may not work if used incorrectly or if bed bugs are present in the bedding, mattress or bed itself. The directions for use of the product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as presence of other materials or the manner of use or application, all of which are beyond the control of JT. Eaton & Co., Inc. All such risks shall be assumed by the user or buyer.
