

## 2-EXTRA STICKY CARDS

Bugs In The Pantry™ sticky cards can become saturated with bugs long before the pheromone lure stops attracting. No problem. Slide the saturated card out of the trap and pull the active lure off of it. Stick the lure onto one of the fresh sticky cards in this package. Slide the fresh card with lure into the trap to catch more moth and beetle species that lay yucky larvae producing

eggs in your stored food and other. stuff.
