"I absolutely love this product!
My barn is bug free and it's all natural,
can't beat that! I highly recommend this
instead of the automatic fly sprayers."

Trygg, TX

"No flies, not one...the horses go in the
barn to escape the flies."

Ken C, VT

"Something so small works so great no
flies or other bugs and everyone
comments how nice it smells in the barn."

Tasha, WA

"I have these hanging at the entrance to
my horse shelters. It keeps the flies from
entering...When the horses need fly relief
they retreat to the shelters."

cek67, OH

Instructions for use:

- Use one BugPellent for approximately every 4,000 cubic feet of indoor space, or 1 BugPellent for every 1.5 stalls
- Hang BugPellent from a beam or other structure between 7-12 ft high, at least 3 ft from a wall, to allow proper air flow.
- Can be located in or near a stall.
- For additional coverage place one BugPellent in each entryway at least 6 ft. inside barn
- WARNING: DO NOT HEAT, BURN, OR INGEST. IN CASE OF ACCIDENTAL INGESTION, CALL POISON CONTROL. WASH HANDS THOROUGHLY AFTER HANDLING. NOT TO BE HANDLED BY CHILDREN.
