ALL NATURAL FERTILIZERS

NET WT 5 LB (2.27 kg)

Garden Lime sweetens your soil (raises the pH) to improve plant growth and maximize fertilizer performance. Natural limestone is ground into an ultra-fine powder then prilled into uniform granules for easy spreading. This allows for a rapid reaction time once applied to garden soils and lawns. Lime supplies calcium, an essential nutrient that is required for proper plant growth and development.

GUARANTEED ANALYSIS

CALCIUM (Ca) 34.0%
 CALCIUM CARBONATE (CaCO₃) 86.0%
 CALCIUM CARBONATE EQUIVALENT (CCE) 90.0%

Derived from: Limestone
 CAS# 1317-65-3

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:
 2% Lignosulfonate

Moisture content does not exceed 1.0%

Listed by the Organic Materials Review Institute (OMRI) for use in organic production.

| SIEVE ANALYSIS (before prilling) | |
|---|--------|
| Passing a 100 Mesh Sieve | 89.8% |
| Passing a 40 Mesh Sieve | 99.1% |
| Passing a 20 Mesh Sieve | 99.9% |
| Passing a 10 Mesh Sieve | 100.0% |
| Oregon Lime Score | 89 |

APPLICATION RATES

2 cups ≈ 1 lb; approximately 10 cups per 5 lb box

Most garden plants prefer a soil pH between 6.0 and 7.0. Performing a complete soil analysis or using a soil pH home test kit before application is recommended. If you do not know your soil pH, use the recommended application rates below.

Lawns: In spring and fall, apply 2.5-5 lbs per 100 square feet and water in well. Results may be enhanced if applied following aeration.

Vegetable Gardens & Flower Beds: To prepare new gardens, apply 1-1.5 lbs per 100 square feet by evenly distributing over soil surface by hand or spreader. For soil pH maintenance, test and apply seasonally as needed.

Trees & Shrubs: Spread ½-1 lb per 1" of trunk diameter around the base outwards to the drip line and water in well.

| To Adjust Soil pH | |
|--------------------------|---------------------|
| Current pH | Apply per 100 sq.ft |
| 6.0 | 3 lbs (6 cups) |
| 5.5 | 5 lbs (10 cups) |
| 5.0 | 10 lbs (20 cups) |
