ALL NATURAL FERTILIZERS

NET WT 2 LB (.91 kg)

Shrimp Meal is an excellent all purpose fertilizer rich in nitrogen, phosphorus and calcium. It is wonderful for use on all types of garden vegetables, flowers and herbs, and it is useful when enriching new garden soils or compost piles. A valuable byproduct of the fresh Pacific shrimp processing industry, our finely ground Shrimp Meal will break down rapidly in the soil to promote vigorous plant growth and development.

GUARANTEED ANALYSIS

TOTAL NITROGEN (N)	6.0%	Derived from: Shrimp Meal
0.9% Water Soluble Nitrogen		
5.1% Water Insoluble Nitrogen		Listed by the Organic Materials Review Institute (OMRI) for use in organic production.
AVAILABLE PHOSPHATE (P ₂ O ₅)	6.0%	
CALCIUM (Ca)	10.0%	

APPLICATION RATES

10 cups ≈ 1 lb; ¼ cup ≈ 0.4 oz; 1 tbsp ≈ 0.1 oz

Vegetable Gardens & Flower Beds: To prepare new gardens, apply 2 lbs per 100 square feet and thoroughly mix into the top 3" of soil. For new transplants, add 1-2 tbsp per hole, mix into soil and water in well. To feed established plants, side dress 2-4 oz, once each month during the growing season depending on plant size and desired growth rate.

Containers: For new plantings, add 1-2 tbsp per gallon of soil and mix thoroughly **OR** add 10 lbs per cubic yard. For established plants, lightly mix 1-2 tbsp per gallon into the soil surface once each month during the growing season.

Trees & Shrubs: Spread 1-2 lbs per 1" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well. For new trees, prepare transplant hole and mix 1-2 cups with the backfill soil. Use amended soil to fill in around the new tree and water in well.

WHAT IS "N-P-K"?

NITROGEN (N) - Nitrogen is necessary for lush, green, leafy growth. An excess, however, will promote vegetative growth at the expense of fruit or flowers. Nitrogen is generally applied at higher concentrations in early growth stages. Use Down To Earth Bat Guano, Blood Meal or Feather Meal.

PHOSPHORUS (P) - Phosphorus will promote big, bright blooms and enhanced fruit production. Phosphorus is essential for fruiting, flowering, strong root growth and quality seed development. Use Down To Earth Fish Bone Meal or Seabird Guano.

POTASSIUM (K) - Potassium, or Potash, helps produce strong sturdy plants and quality fruit. Potassium naturally increases a plants resistance to all types of stress and is vital for cell growth and carbohydrate metabolism. Use Down To Earth Kelp Meal or Langbeinite.

ALL NATURAL FERTILIZERS

Use of a dust mask is recommended for application of any dry fertilizer product.
