GO BEYOND FERTILIZER

Boost Growth
Naturally

Stimulates Fruiting
& Flowering

Heal Stressed
Plants

(1 - 2 -.2) NET CONTENTS 64 OZ

Forti-FLY your plants with Nutrient+

Made from emulsified Black Soldier Fly larvae and packed with unique biostimulating enzymes, it triggers healing, growth, and fruiting—offering unparalleled plant care not found in artificial or other natural fertilizers.

-  **Rich in Essential Nutrients:** Contains Nitrogen, Phosphorus, Potassium, and other essential nutrients.
-  **Enhances Soil Health:** Supports vigorous plant growth, flowering, and possible resilience from plant stressors.
-  **Rapid Recovery:** Rich with chitin & glutamate which can help plants recover quickly from sunburn, frost, or broken branches.
-  **Sustainable alternative to fish hydrolysate:** Made from larvae grown from food waste diverted from landfills.

APPLICATION INSTRUCTIONS:

Shake well before using.

For Fruiting Trees: Apply three times a year: Valentine's Day, Memorial Day, Labor Day. Use in conjunction with mulch, compost, and castings.

For Vegetables: Apply at planting time. If growth is not thriving, reapply as needed.

For Stressed Trees of Plants: Apply weekly until the bottle is empty.

APPLICATION RATES:

For Trees: Add 1 undiluted cup for every 3 feet of tree height. Water deeply.

For Gardens: Dilute at a ratio of 4 parts water to 1 part Nutrient+. Apply 1 gallon of the mixture per 50 sq ft of garden area.

Ingredients: Emulsified black soldier fly larvae, black soldier fly frass hydrolysate stabilized with phosphoric acid, water.
