

Our Rainbows & Unicorns Complete Aroid Potting Mix is expertly crafted to offer your plants everything they need. Just add distilled water, and witness the magic in your plant's growth!

Discover the Wonders in Every Ingredient:

- 1. Chunky Coco Coir: A natural, airy material that promotes excellent aeration and drainage, safeguarding against over-watering and root rot while fostering robust root development.*
- 2. Coco Pith: Exceptional in maintaining moisture balance, ensuring roots are well-hydrated without being waterlogged.*
- 3. Perlite: A volcanic glass derivative, crucial for creating air pockets in the soil, aiding in healthy root expansion.*
- 4. Diatomaceous Earth: A natural source of silica, this aids in soil aeration and drainage and contributes to stronger plant cell walls, enhancing the plant's ability to absorb nutrients. It also serves as a natural pest deterrent.*
- 5. Worm Castings: These natural fertilizers enrich the soil with essential nutrients, enhancing plant growth and soil structure.*
- 6. Compost: Our organic compost acts as a natural fertilizer, boosting plant vigor and soil fertility.*
- 7. Rooting Supplements: Specifically chosen to encourage robust root systems, leading to healthier and more resilient plants.*
- 8. Azomite: Provides over 70 trace minerals, ensuring a well-rounded nutrient profile for your plants.*
- 9. Premium 6-2-4 NPK Fertilizer: A balanced nutrient mix to support all stages of your plant's growth.*
- 10. Humic Acids: Improve nutrient uptake and promote vigorous growth, making your plants greener and lusher.*
- 11. Concentrated Microbial Root Enhancer with Mycorrhizae, Bacteria, and Trichoderma: These beneficial microbes form a symbiotic relationship with plant roots, enhancing nutrient absorption and promoting overall plant health.*

Just Add Water

How to Use:

Add Rainbows & Unicorns Potting Mix so the plant is positioned at the correct level.

Gently fill in around the roots with our mix, leaving about 1 inch of space at the top of pot.

Water well with distilled water and allow for drainage. Add additional mix if settling occurs.

Sit back and watch as your plant thrives.

Enjoy the journey of happy, healthy plant growth!
