Derived from:

Tank's Green Stuff 100% Organic
Compost, Heat Treated Chicken
Manure, Bat Guano, Calcium, Zeolite,
Gypsum, Biochar, Soy Meal, Feather
Meal, Blood Meal, Kelp Meal, Trace
Minerals, Seaweed Extract, Humates,
Humic Acid, Worm Castings.
Slow release Nitrogen Sources: Heat
Treated Chicken Manure, Feather
Meal, Blood Meal, Soy Meal.

Non-plant food ingredients
Dry wieght basis (in CFU/g)

Bacillus Pumilus.....	3,000,000
Bacillus megaterium.....	3,000,000
Bacillus subtilis.....	2,000,000
Bacillus licheniformis.....	2,000,000
Bacillus amyloliquefaciens.....	300,000

Feeds 200+
1-gallon containers
or
40 square-feet
of garden soil

Store in a cool, dry place.
Avoid direct sunlight.
Best if used within 1 year of opening.

In Ground

New Gardens: Before planting, apply 1/2 cup of SuperMix per square foot of soil. Spread evenly and mix into the top 6 inches of the bed. Plant accordingly and water thoroughly.

Established Plants: Mid-way through the growing season, remove surface mulch and sprinkle 1/2 cup per square foot of SuperMix onto soil around plants. Gently work the SuperMix into soil. Water as usual, replace mulch after application.

En Suelo

Jardin Nuevo: Antes de sembrar, aplique ½ taza de SuperMix por cada pie cuadrado de suelo. Espázzalo uniformemente y mezcle en las primeras 6 pulgadas de profundidad de la cama. Plantar adecuadamente y regar bien.

Plantas Establecidas: A mediados de la temporada de crecimiento, renueva el acolchado y esparza ½ taza por cada pie cuadrado de SuperMix en el suelo alrededor de las plantas. Suavemente mezcle el SuperMix en el suelo. Riegue regularmente, regrese el acolchado después de la aplicación.

In Containers

New Containers: Thoroughly blend SuperMix into potting medium, such as Tank's-Pro Potting Mix, using 1 cup per 10 gallons of soil. Fill the container and plant accordingly. Water thoroughly, ensuring drainage.

Established Containers: Evenly apply 1 cup SuperMix per 10-gallon pot, and gently work into the soil surface. Water as usual.

En Macetas

Macetas Nuevas: Mezcle el SuperMix con el suelo de plantar, como el Tank's-Pro Potting Mix, usando 1 taza por cada 10 galones de suelo. Llene la maceta y plantar adecuadamente. Riegue bien, asegure buen desague de la maceta.

Macetas Establecidas: Uniformemente aplique 1 taza de SuperMix por cada 10 galones de maceta, suavemente mezcle con el suelo de la superficie. Riegue adecuadamente.
