

# Woolly Belly Pellets

## DIRECTIONS FOR USE

### REPOTTING PLANTS

Mix 1/2 cup per each gallon of soil.  
For succulents, use 1/4 cup per gallon.

### POTTED PLANTS

Sprinkle 1 tbsp pellets around each plant, push into soil with pencil, cover with soil, repeat every 6 months.

### GARDEN OR RAISED BED

Sprinkle pellets with sown seeds or till 1 lb. pellets over 30 sq. ft. or mix 1/2 cup with each gallon of soil.

### SEED STARTING

Replace peat moss in seed starting recipes, see website for more info.

### SHEEPY SHREDS

Use Sheepy Shreds as a wool mulch to conserve water, regulate soil temperature and more!

POT SIZE	SOIL AMOUNT	PELLETS
5-6 inches 13-15cm	1 quart (1L) soil	1/4 cup
7-8 inches 18-20cm	1 gallon (4L)	1/2 cup
8.5 inches 22cm	2 gallons (7.5L)	1 cup
12 inches 30cm	5 gallons (19L)	2.5 cups
