KEEP OUT OF REACH OF CHILDREN

This product is not classified as hazardous under the criteria of OSHA's Hazard Communication Standard 29 CFR 1910.1200, and are classified as Particulates Not Otherwise Classified or Nuisance Dust under ACGIH.

PRECAUTIONARY STATEMENT: Minimize dust in handling and storage. Wear protective eye-wear if dust causes eye irritation. Microorganisms may have the potential to provoke sensitizing reactions. If eye irritation occurs, flush eyes with clear water. If respiratory irritation occurs, move to fresh air.

STORAGE: Store in cool, dry place and do not expose to excessive heat or direct sunlight.

EXPIRATION DATE: For maximum microbe activity, use within two years from the manufacturing date on the container. Information regarding the contents and levels of metals in this product is on the Internet at <http://www.aapfco.org/metals.html>.

CONDITIONS OF SALE WARRANTY:

1. Seller warrants that this material conforms to the description of the label and is reasonably fit for use as directed hereon. Seller neither makes nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material.
2. Buyer or user accepts all responsibility for results due to misuse or improper handling of this product.

HOW TO USE EARTH'S ORIGINAL ORGANICS

FOR CONTAINER PLANTS:

Apply 1/2 cup per 5 gallons of soil once every two to four weeks.

FOR ESTABLISHED CONTAINER & INDOOR FLOWERING PLANTS:

Apply 1 tablespoon per 12 inches of container diameter once a month.

VEGETABLE AND FLOWER GARDENS:

For new in-ground plantings, apply 2 cups per ten square feet of area. For established gardens apply 2 cups to 10 to 20 square feet of area.

ADENIUM & PLUMERIA:

Apply 1/4 cup per foot of height once every 2 to 4 weeks. For container plants apply 1 tablespoon per twelve inches of pot diameter.

FLOWER BEDS:

Apply 2 cups per 10 to 20 square feet of area once every 4 to 8 weeks.

CITRUS AND FRUIT TREES:

Apply 2 cups per inch of the tree trunk diameter once in the spring and once in the fall.

ROSES, HIBISCUS & FLOWERING PLANTS:

Apply 1/4 to 1/2 cup per 2 feet of height beginning in the spring and continuing into the fall.

POTTED CACTI & SUCCULENTS:

Apply 1 tablespoon per 12 inches of container diameter monthly beginning in the spring and continuing into the fall.

FLOWERING TREES:

Apply 2 cups per inch of the tree trunk diameter bi-monthly to monthly from spring to fall.

WATER SLOWLY AND THOROUGHLY AFTER APPLICATION

TO USE AS A TEA:

Apply 1/2 to 1 cup of fertilizer per 5 gallon of water. Allow to steep for 48 to 72 hours. This may then be used straight or used at a rate of 1 to 4 cups per gallon of water.
