

TUNDRA™

HYBRID-FERTILIZER FOR FRUIT AND FLOWER DEVELOPMENT

Tundra™ is a 0-7-8 hybrid fertilizer that enhances crop nutrition in fast-growing flowering and fruiting crops. Combining traditional and biological ingredients, Tundra™ can be integrated into a complete crop nutrition program to maximize vigor, yield, and quality. Tundra™ improves nutrient uptake which ultimately enhances flavor and fragrance.

TUNDRA™ BENEFITS

- Prevents nutrition-based plant disorders.
- Enhances abiotic stress tolerance.
- Supports microbial populations.
- Nutritionally enhances plant vigor and flower/fruit quality.
- Improves efficiency of applied fertilizers.

APPLICATION RATES

Crop	Container (mL/Gal)	Field (Gallons/Acre)
Greenhouse	5 - 10	2 - 3
Vegetable & Row Crops		
Permanent Crops (vines, trees)		
Berries		

Suitable for use on a wide variety of crops as a soil drench. For optimal results, use Tundra™ at least bi-weekly while plants are in flowering and/or fruiting.
