Fruiting & Flowering Fertilizer 3-3-5

• POTASSIUM ENHANCED •

ORGANIC

FORMULATED FOR
Vegetables, Fruits & Flowers

SHAKE BEFORE USING

NET WT: ONE GAL./128 OZ. 8 LBS

AgroThrive Fruiting & Flowering Fertilizer is a premium organic bio-fertilizer formulated to meet the needs of vegetables and fruit and flower bearing plants. **How does it work?** Our Fruiting & Flowering bio-fertilizer feeds plants and enhances soil microbial activity which helps nutrient release in soil, and nutrient availability to plants. **What's the result?** Faster growth, higher yields and flavorful fruit and vegetable bearing crops.

OUR BIO-FERTILIZERS are made from organic materials that may otherwise end up in landfills. We divert over 2,000,000 lbs of food industry waste from landfills per year as a result preventing the potential production of over 10,000,000 cubic feet of methane gas. **AgroThrive, Inc. is 100% solar powered.**

DIRECTIONS FOR USE: *Shake well before diluting with water.*

Mature Plant Application: Mix ½ cup of Fruiting & Flowering bio-fertilizer with 1 gallon of water to cover 35 sq ft of garden. Apply every 2-3 weeks.

Nursery & Foliar Application: Mix 3 TBSP of Fruiting & Flowering bio-fertilizer with 1 gallon of water to cover 150 sq ft. Apply weekly.

Can Be Used For: Soil drench, foliar feeding, hydroponics, and other fertilizing systems.

After diluting, apply to soil before watering. Use all the diluted portion. Store unused concentrate capped.

GUARANTEED ANALYSIS:

Total Nitrogen (N)	3.0%
2.41% Water Soluble Nitrogen	
0.59% Water Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅)	3.0%
Soluble Potash (K ₂ O)	5.0%

DERIVED FROM: Grain fermentation solubles, fermented fish by-products and sulfate of potash.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

Meets the National Organic Program requirements for organic production.

PLEASE RECYCLE.
