

AgroThrive™

General Purpose Fertilizer 3-3-2

ORGANIC

FORMULATED FOR
Everything That Grows

SHAKE BEFORE USING

NET WT. 14.07 GAL (54.0 L) (3.0)

AgroThrive General Purpose Fertilizer is a premium organic bio-fertilizer formulated to provide both nutrient supply and stimulation of soil microbes. **How does it work?** Our General Purpose bio-fertilizer feeds plants and enhances soil microbial activity which helps nutrient release in soil, and nutrient availability to plants. **What's the result?** Vigorous root and foliar growth and improved disease resistance.

OUR BIO-FERTILIZERS are made from organic materials that may otherwise end up in landfills. We divert over 2,000,000 lbs of food industry waste from landfills per year as a result preventing the potential production of over 10,000,000 cubic feet of methane. **AgroThrive, Inc. is 100% solar powered.**

DIRECTIONS FOR USE: *Shake well before diluting with water.*

Mature Plant Application: Mix 1/2 cup of General Purpose bio-fertilizer with 1 gallon of water to cover 35 sq ft of garden. Apply every 2-3 weeks.

Nursery & Foliar Application: Mix 3 TBSP of General Purpose bio-fertilizer with 1 gallon of water to cover 150 sq ft. Apply weekly.

Can Be Used For: Soil drench, foliar feeding, hydroponics, and other fertilizing systems.

After diluting, apply to soil before watering. Use all the diluted portion. Store unused concentrate capped.

GUARANTEED ANALYSIS:

Total Nitrogen (N).....	3.0%
0.16% Ammoniacal Nitrogen	
2.63% Other Water Soluble Nitrogen	
0.21% Water Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅)	3.0%
Soluble Potash (K ₂ O)	2.0%

DERIVED FROM: Grain fermentation solubles and fermented fish by-products.
