DIRECTIONS FOR USE

Use only as directed.

Shake concentrate before use. Measure 2oz (4 TBSP) of concentrate for 32oz of water / 8oz (16 TBSP) of concentrate for 1 gallon of water. Mix solution thoroughly with water. Soak soil and root zone (not meant for foliar application). Keep solution agitated while applying. Don't let stand for prolonged periods- Mix a new batch for every use.

FREQUENCY Apply every 7-14 days for vigorous foliage.

STORAGE

Store in the original container, and do not mix with other fertilizer or pesticide products while storing the product as this could affect shelf stability. During winter months, be sure and store the container in an area protected from freezing conditions. Product has a shelf life of 2 years.
