# Neptune's Harvest

## Crab and Lobster Shell

### Suggested Application Rates

Apply in early spring as soon as soil can be worked. For perennial crops, apply at the end of dormancy. Mix thoroughly with the soil or growing media, taking care not to apply in concentrated form directly to the roots. For trees and turf, apply directly as a top dressing.

**GARDENS:** 3 lbs. per 100 square feet

**ROW:** 1 to 2 lbs. per 100 feet

**TREES:** 1 lb. per inch of tree diameter

**COMPOST:** 3 to 6 ounces per cubic foot

**TURF:** 10 lbs. per 1,000 square feet

**POTTING:** 2% of total volume by weight

**SEEDBED:** 1 lb. per 100 square feet

**BEDDING PLANTS:** 1 oz. per tray

**BULBS:** 1/2 oz. mixed in soil under bulb

**Derived From:** Crab and Lobster Shell Meal

**Nitrogen Derived From:** Crab and Lobster Shell Meal

**Crab Shell** is an organic plant food rich in calcium and magnesium and naturally contains nutrients plants need. High calcium fertilizers have been shown to benefit bulbs and because crab shell is high calcium, it will also help to inhibit blossom end rot.

We recommend **Neptune's Harvest Crab and Lobster Shell** for all your indoor and outdoor growing needs.

**Caution:** Keep out of reach of children. Do not take internally.

Do not apply near water, storm drains, or drainage ditches and if heavy rain is expected. If applying this product to your lawn/garden, sweep any product that lands on the driveway, sidewalk, or street back onto your lawn/garden.

Meets the requirements of the National Organic Program (NOP) for use in organic production.
