

# BotaniGard<sup>®</sup> MAXX

MYCOINSECTICIDE

BotaniGard MAXX is a biologically-based insecticide (combination mycoinsecticide and botanical insecticide liquid) with multiple modes of action for quick knock-down and control of aphids, thrips, weevils, whiteflies and more.

## BENEFITS & FEATURES

- The latest generation of biorationals for insect control
- A unique combination of a mycoinsecticide and botanical insecticide
- Excellent rotation partner with BotaniGard
- Results comparable to conventional chemical chemistries
- Versatile solution for pest control across an extensive list of crops
- An effective and fast acting alternative for an Insect Pest Management (IPM) program

## PROVEN & EFFECTIVE

For more than 20 years, Certis Biologicals has been a pioneer in the field of biological pesticides. With a proven, broad portfolio of crop protection solutions for organic and conventional production, Certis Biologicals has the answers growers need in today's dynamic Controlled Environment Agriculture (CEA) markets. A leader in commercializing new product innovations in bio-control to solve tomorrow's agricultural issues.

### INSECT CONTROL

BotaniGard MAXX is a biological insecticide for the control of aphids, thrips, weevils, whiteflies and more. BotaniGard MAXX is an excellent rotational partner with BotaniGard.

### QUICK KNOCK-DOWN

BotaniGard MAXX can be used alone or in rotation. BotaniGard MAXX acts by contact. When insect pressure is high, use BotaniGard MAXX for quick knock-down, then follow up with BotaniGard use.

### MULTIPLE MODES OF ACTION

The combination of *Beauveria bassiana* strain GHA and natural pyrethrins provides multiple modes of action. The different modes of action make this an effective resistance management tool.

## ACTIVE INGREDIENT

Natural Pyrethrins

*Beauveria bassiana* strain GHA

# BotaniGard<sup>®</sup> MAXX

MYCOINSECTICIDE

### PRODUCT INFORMATION

#### SHELF LIFE

Below 32 °F (0 °C): Do not freeze  
Refrigeration 40 °F (4 °C): Not needed  
70 - 75 °F (21 - 24 °C): 12 months\*  
Best to store below 85 °F

Extensive listing of outdoor and greenhouse vegetables, fruits, nuts, herbs, forage and cereal grains with a broad use on greenhouse flowers and foliage plants.

- Natural Pyrethrins
- *Beauveria bassiana* strain GHA
- Available Sizes: 1 qt, 1 gal and 2.5 gal
- Registered for use in the USA
- 12-hour REI, 0-day PHI

EPA registered: Reg. No. 82074-5

\*From the date of manufacture

### APPLICATION NOTES

#### SUGGESTED USE

- BotaniGard MAXX is most effective when used early, at the first appearance of the insect pest
- BotaniGard MAXX works by shutting down the insect nervous system and exposing them to an insect killing fungus
- BotaniGard MAXX is compatible with a wide range of insecticides, some fungicides and spray adjuvants
- Use as a rotational partner in an IPM program for resistance management

#### BROAD SPECTRUM CONTROL

- Aphids
- Borers
- Leafhoppers
- Leaf-feeding insects
- Mealybugs
- Mites
- Planthoppers
- Plant bugs
- Psyllids
- Leaf-feeding beetles
- Soft scales
- Thrips
- Weevils
