AzaSol® WSP

| Section 1. Identification |  |
| :--- | :--- |
| GHS product identifier | : AzaSol® WSP |
| Product use | : Insecticide. |
| Supplier's details | : Arborjet <br> 99 <br> Wobueberry Hill Road <br> Woburn, MA 01801, USA <br> $1-781-935-9070$ |
| e-mail address of person <br> responsible for this SDS | ajinformation@arborjet.com |

## Section 2. Hazards identification

| OSHA/HCS status | : While this material is not considered hazardous Standard (29 CFR 1910.1200), this SDS contain safe handling and proper use of the product. Thi for employees and other users of this product. |
| :---: | :---: |
| Classification of the substance or mixture | Not classified. |
|  | Percentage of the mixture consisting of ingredien |
| GHS label elements |  |
| Signal word | : No signal word. |
| Hazard statements | : No known significant effects or critical hazards. |
| Precautionary statements |  |
| General | : Not applicable. |
| Prevention | : Not applicable. |
| Response | : Not applicable. |
| Storage | : Not applicable. |
| Disposal | : Not applicable. |
| Hazards not otherwise classified | : None known. |

## Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture |
| :--- | :--- |
| Other means of <br> identification | : Not available. |

## CAS number/other identifiers

| CAS number | $:$ Not applicable. |
| :--- | :--- |
| Product code | $:$ Not available. |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

| Description of necessary first aid measures |  |
| :---: | :---: |
| Eye contact | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| Inhalation | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

## Most important symptoms/effects, acute and delayed

## Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

## Over-exposure signs/symptoms

| Eye contact | $:$ No specific data. |
| :--- | :--- |
| Inhalation | $:$ No specific data. |
| Skin contact | $:$ No specific data. |
| Ingestion | $:$ No specific data. |

Indication of immediate medical attention and special treatment needed, if necessary
Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments : No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media

Specific hazards arising from the chemical Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Use an extinguishing agent suitable for the surrounding fire. Use water, dry powder, sand, foam, or CO2.
: None known.
: No specific fire or explosion hazard.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## AzaSol ${ }^{\text {TM }}$

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

| For non-emergency <br> personnel | : <br> No action shall be taken involving any personal risk or without suitable training. <br> Evacuate surrounding areas. Keep unnecessary and unprotected personnel from <br> entering. Do not touch or walk through spilled material. Put on appropriate personal <br> protective equipment. |
| :--- | :--- |
| For emergency responders$:$ If specialised clothing is required to deal with the spillage, take note of any information <br> in Section 8 on suitable and unsuitable materials.  <br> See also the information in "For non-emergency personnel".  |  |
| Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains |  |
| and sewers. Inform the relevant authorities if the product has caused environmental |  |
| pollution (sewers, waterways, soil or air). |  |

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures : Put on appropriate personal protective equipment (see Section 8).

Advice on general
occupational hygiene
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Do not store below the following temperature: $-4^{\circ} \mathrm{C}\left(24.8^{\circ} \mathrm{F}\right)$. Store in accordance with including any incompatibilities
local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters <br> Occupational exposure limits <br> None.

Appropriate engineering controls
Environmental exposure controls
: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Section 8. Exposure controls/personal protection

Hygiene measures
Eye/face protection

## Skin protection

Hand protection

Body protection

Other skin protection

Respiratory protection
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Recommended chemical resistant gloves: barrier laminate, Viton, butyl rubber, nitrate rubber, or neoprene rubber (>=14 mil).
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

## Appearance

Physical state
Color : Pale yellow.
Odor
Odor threshold

## pH

Melting point : $130^{\circ} \mathrm{C}\left(266^{\circ} \mathrm{F}\right)$
Boiling point : Not available.
Flash point : Not available.
Evaporation rate : Not available.
Flammability (solid, gas) : Not available.
Lower and upper explosive : Not available.
(flammable) limits
Vapor pressure : Not available.
Vapor density : Not available.
Relative density : Not available.
Solubility : Not available.
Solubility in water : $0.25 \mathrm{~g} / \mathrm{l}$
Partition coefficient: n- : Not available.

## octanol/water

Auto-ignition temperature : Not available.
Decomposition temperature : Not available.
Viscosity : Not available.

## Section 10. Stability and reactivity

## Reactivity

Chemical stability : The product is stable.

Possibility of hazardous reactions

Conditions to avoid : No specific data.

Incompatible materials : No specific data. products

Hazardous decomposition : Under normal conditions of storage and use, hazardous decomposition products should
: No specific test data related to reactivity available for this product or its ingredients.
: Under normal conditions of storage and use, hazardous reactions will not occur. not be produced.

## Section 11. Toxicological information

## Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
| :--- | :--- | :--- | :--- | :--- |
| AzaSol | LD50 Dermal | Rat | $>2000 \mathrm{mg} / \mathrm{kg}$ | - |
|  | LD50 Oral | Rat | $5000 \mathrm{mg} / \mathrm{kg}$ | - |

## Irritation/Corrosion

Not available.
Sensitization
Not available.
Mutagenicity
Not available.
Carcinogenicity
Not available.

## Reproductive toxicity

Not available.

## Teratogenicity

Not available.
Specific target organ toxicity (single exposure)
Not available.

## Specific target organ toxicity (repeated exposure)

Not available.

## Aspiration hazard

Not available.

Information on the likely : Not available.
routes of exposure

## Potential acute health effects

Eye contact : No known significant effects or critical hazards.
Inhalation : No known significant effects or critical hazards.
Skin contact : No known significant effects or critical hazards.
Ingestion : No known significant effects or critical hazards.

## Section 11. Toxicological information

| Eye contact | : No specific data. |
| :---: | :---: |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |
| Delayed and immediate effects and also chronic effects from short and long term exposure |  |
| Short term exposure |  |
| Potential immediate effects | : Not available. |
| Potential delayed effects | Not available. |
| Long term exposure |  |
| Potential immediate effects | : Not available. |
| Potential delayed effects | Not available. |
| Potential chronic health effects |  |
| Not available. |  |
| General | : No known significant effects or critical hazards. |
| Carcinogenicity | : No known significant effects or critical hazards. |
| Mutagenicity | : No known significant effects or critical hazards. |
| Teratogenicity | : No known significant effects or critical hazards. |
| Developmental effects | : No known significant effects or critical hazards. |
| Fertility effects | : No known significant effects or critical hazards. |

## Numerical measures of toxicity

Acute toxicity estimates
Not available.

## Section 12. Ecological information

## Toxicity

Not available.

Persistence and degradability

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
| :--- | :--- | :--- | :--- |
| AzaSol | - | - | Readily |

## Bioaccumulative potential

Not available.

Mobility in soil
Soil/water partition coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available.
to Annex II of MARPOL
73/78 and the IBC Code

## Section 15. Regulatory information

## U.S. Federal regulations : TSCA 8(a) CDR Exempt/Partial exemption: Not determined United States inventory (TSCA 8b): Not determined.

FIFRA Information: This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of nonpesticide chemicals. Following is the hazard information as required on the pesticide label:

## CAUTION

Harmful if absorbed through skin.
Avoid contact with skin, eyes, or clothing.
Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.
Avoid breathing spray mist.
Remove contaminated clothing and wash clothing before reuse.

Clean Air Act Section 112 : Not determined.

This reprinted material is not the complete and official position of the National Fire Protection Association, on the referenced subject which is represented only by the standard in its entirety.

## Section 16. Other information

Copyright ©2001, National Fire Protection Association, Quincy, MA 02269. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.

## Procedure used to derive the classification

To the best of our knowledge, the information contained herein is accurate. However, neither the abovenamed supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.
Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
