Total.....	100%

CAUTION KEEP OUT OF REACH OF CHILDREN

Plant Protection

1 Quart (0.94 Liters)

Biorepel[®]

Biorepel[®] is an all natural repellent made from garlic extract. When applied, the strong garlic odor dissipates within minutes but remains offensive to insect pests including insects that fly.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USE.

This product may separate into layers after prolonged storage. This is normal.

Thoroughly mix 1 part of Biorepel[®] with 100 parts of water. Agitate mixture for one minute before application.

Application: Biorepel[®] works best for your plants as a preventative. Apply Biorepel[®] at the first sight of insects. Repeat application at 7-10 day intervals, as needed.

For vegetables, spray several days before blooming. Do not apply during or preceding pollination.
Biorepel[®] may be used on vegetables, fruit trees and berries, cucurbit crops, flowers and roses.

Avoid contact with skin, eyes or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

STORAGE AND DISPOSAL: Store in a cool, dry place. Dispose of properly.

Personal Protective Work Clothing: Applicators and other handlers of this product must wear: Long sleeved shirt and pants, shoes and socks, protective eyewear and gloves.

This product is exempt from registration with the Federal EPA under section 25 (b) of FIFRA. Biorepel[®] has not been registered with the Environmental Protection Agency. Safergro represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide and Rodenticide Act.

CAUTION: Do not apply to seedlings or very young plants. Do not apply at less than 7 day intervals. Biorepel[®] is suitable for most plants. Always test a small area before large scale application.
