# WEED ZAP®

All Natural Organic Herbicide

## ONE APPLICATION

### BEFORE

### AFTER

**WEED ZAP** is an all natural non-selective herbicide. **WEED ZAP** “zaps” small broad leaf and grassy weeds. Its natural ingredients will eliminate plants that are six inches in height or less. These active ingredients are listed as food grade materials so **WEED ZAP** is safe to use around children and pets.

**WEED ZAP** is 100% biodegradable, which makes it an environmentally smart product to use around house, school, park, playgrounds or anywhere people and pets are present.

Maintaining a healthy, vigorously growing crop is one of the most important factors in reducing losses due to weed competition. Weeds compete with crop plants for sunlight, water and nutrients. Weeds also interfere with harvesting or other field operations.

**WEED ZAP** is an excellent tool for IPM programs and has a long residual effect.

**WEED ZAP** does not damage non-green, woody plant parts. Since **WEED ZAP** is a contact herbicide, adequate coverage is important.

## Advantages of Weed Zap

- Pleasant Clove Scent
- Easy to Mix and Apply
- Suitable for Organic Production
- Kills Most Weeds in 12 Hours
- Kills Broadleaf Weeds and Grasses

\* This flyer is not valid in Oregon.

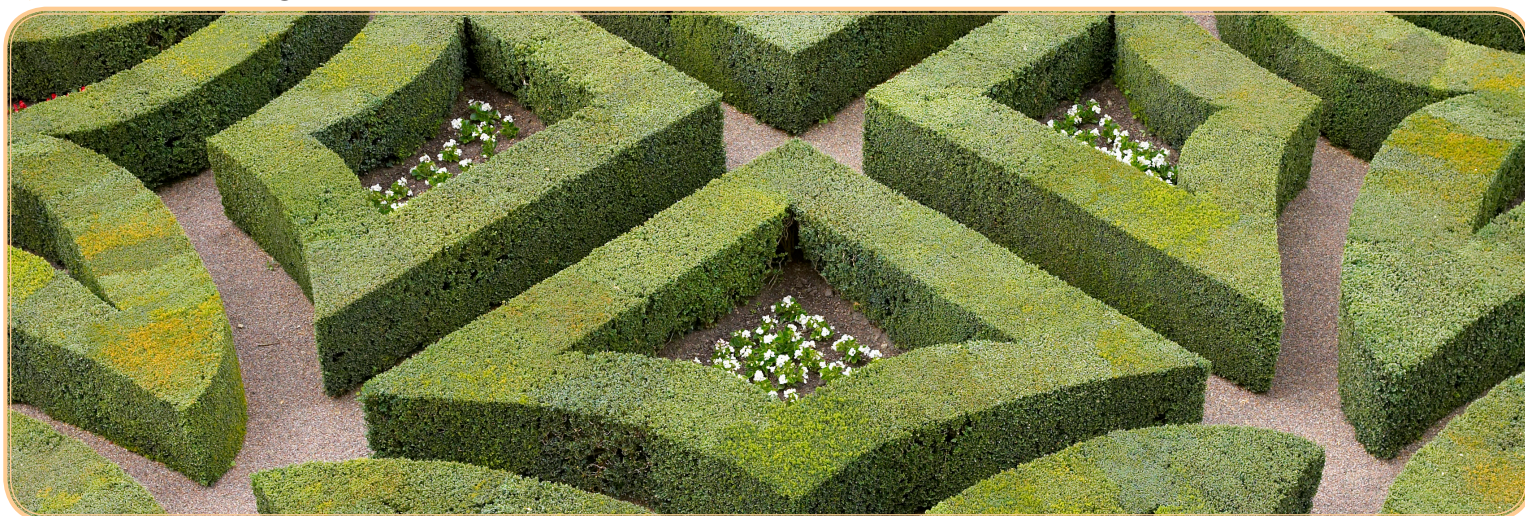

## MODE OF ACTION:

**WEED ZAP** binds to the surface of the plant, where it trans-locates into the cells of the plant. **WEED ZAP**'s ingredients begin to destroy the plant cell structure through a burn down process. Results can be seen in as little as six hours after application. **WEED ZAP** works best in non-shaded open areas, on herbaceous weeds 6" or less in height.

## IS EFFECTIVE ON:

- ♦ Bermuda Grass
- ♦ Bristly Oxtounge
- ♦ Bursage
- ♦ Canary Grass
- ♦ Chick Weed
- ♦ Common Cocklebur
- ♦ Common Mallow
- ♦ Dandelion
- ♦ Hairy Fleabane
- ♦ Knapweed
- ♦ Leafy Spurge
- ♦ Netseed Lambsquarter
- ♦ Pig Weed
- ♦ Prickly Lettuce
- ♦ Prostrate Pigweed
- ♦ Rag Weed
- ♦ Sowthistle
- ♦ Starthistle
- ♦ Wild Mustard
- ♦ Wood Sorrel
