

OLIVIA'S CLONING SOLUTION®

OLIVIA'S

CLONING SOLUTION®

NET 1 GALLON (3.78 LITERS) NET WT 8.5 LBS

Olivia's Cloning Solution® is a nutrient and propagation liquid that promotes vigorous growth and rapid root development for all types of plants, flowers, fruits and vegetables.

Directions for use: Shake contents very well. Mix 6 ounces (3/4 cup) to 1 gallon of water. Take your cuttings/clones/slips and immediately place in Olivia's Cloning Solution® or cut and place immediately in your growing medium. Water daily with Olivia's Cloning Solution® until roots appear. Keep growing medium or soil moist and warm with bottom heat (75° to 85°) for best results. Warning: Keep growing medium down water. Harmful if swallowed. Not to be taken internally. Avoid contact with eyes and skin. Wash well with clean water. Consult a physician immediately. Keep bottle in cool, dark place. Small life approximately 1 year from your date of purchase. Note: small black particles will appear in the formula and color will change to a darker almost black color over time - this is normal. Shake the bottle well before using. Ok if contents freeze-thaw at room temperature.
*Bottle may bulge/expand at bottom - this is normal - open cap to relieve pressure.
