

EM•1[®] Microbial Inoculant

EM•1[®] is an easy to use, organic soil conditioner comprised of Effective Microorganisms[®] that provide your plants and lawn with essential vitamins, amino acids and enzymes that enhance growth and resistance to disease. Use to:

- Restore the balance of healthy soil
- Naturally loosen compact soil
- Improve water infiltration & drought tolerance
- Improve plant quality: size, color, and shelf life
- Improve seed germination & root development
- Increase nutrient availability

Use as a drench or foliar spray. Perfect for any gardening project.
