

ecoMULCH Specially Engineered 100% Biodegradable Seasonal Use Weed Barrier

100% opaque to light ~ Kills weeds through Physics not Chemicals
 Excellent weed prevention & control during vital plant establishment period
 100% Natural Biodegradable Fibers (Corrugated Box Clippings)
 ~ no plastic to clean up
 Porous – allows air and water through ~ best environment for growing
 Earthtone Natural Brown Color ~ thermally beneficial helps warm soil
 Decomposes over a growing season ~ eco-friendly, enriches soils as it decomposes
 Creped Finish ~ for greater flexibility
 Any ecoMulch remaining can be tilled into the soil at end of season

UTILITY

- ✓ All vegetable crops and herbs
- ✓ Flowers, annual planting's
- ✓ Fruit, young trees, brambles etc.
- ✓ Installation: Can be tractor applied
- ✓ Irrigation: Suitable for overhead or drip tape methods

APPLICATIONS / PROCESS

- Commercial Growers
- Natural/Organic Growers
- Nurseries
- Home Gardening
- Seasonal Landscaping
- Habitat Restoration

SPECIAL FEATURES

Open Porous fiber structure allows air, water and nutrient transmission to soil below. Enriches soil microbial action and provides ideal conditions for optimal plant development

100% Biodegradable, slowly decomposes as plants mature and canopy is established. Any remaining pieces can be tilled/turned into the soil.

TECHNICAL DATA

Construction Reclaimed Cellulose Fibers, 100% Biodegradable; 100% Compostable
Type Surface Creped
Finish Colour Earthtone Natural Brown
Thickness Standard Weight .009"

AVAILABILITY

General Wide range of Sheet and Roll sizes

ADDITIONAL INFORMATION

Tariff Code 100% Biobased
