

FORTIFY SKY

CHLORINE DIOXIDE TECHNOLOGY

FORTIFY SKY is a portable, moisture-activated, chlorine dioxide generation system that has the power to **maintain clean surfaces** and facility air with unmatched effectiveness, leaving no residue or post-treatment cleanup requirement. The controlled release technology in FORTIFY SKY emits trace amounts of chlorine dioxide, making this a safe product to use for routine odor control.

FORTIFY SKY

- ✓ A versatile humidity-activated pure chlorine dioxide gas generation technology.
- ✓ NO chemical mixing, and NO expensive generator technology.
- ✓ Perfect for routine odor control in cultivation facilities.
- ✓ Inexpensive and scalable to any size facility.

TARGETED APPLICATIONS

- Clone rooms
- Veg rooms
- Flower rooms
- Curing rooms
