

Protect Your Crop Organically

Our Product

- **Pest Defense**

Spray Garlic Barrier on crop leaves, lower growth, and around greenhouses to repel spider mites, aphids, fungus gnats, and suppress powdery mildew. Safe for crops, workers, and animals.

- **Simple Application**

Dilute Garlic Barrier with water to deter pests and reduce fungal pressure without affecting nutrient programs or crop flavor. Works on roots, foliage, and surrounding surfaces.

- **Clean, Organic Results**

Apply to canopy and lower foliage to repel insects and limit fungal outbreaks. OMRI-listed, odorless, and safe for workers while keeping harvests clean and chemical-free.

How It Works

Simply mix Garlic Barrier with water and spray your canopy or feed at the roots. Its systemic action keeps pests away naturally and—no chemicals, no residues, no risk to your organic certification.
