

Geoflora Nutrients - Organic Dry Fertilizers

GEOFLORA BLOOM

Geoflora BLOOM is a 3-5-5 formula with reduced nitrogen levels to help ease the plant through the transition phase and bolster flowers and fruit production.

Diverse P & K sources for immediate and slow release phosphorus, reduced nitrogen to ease through transition.

Enhanced secondary metabolite production.

Promotes abundant fruit and flower development.

CDFA OIM and OMRI Listed for organic use.

Derived From: Alfalfa Meal, Bat Guano, Blood Meal, Bone Meal, Composted Turkey Litter, Crustacean Meal, Feather Meal, Fish Bone Meal, Fish Protein Hydrolysate, Kelp Meal (Macrocystis pyrifera), Magnesium Sulfate, Natural Volcanic Ash, Neem Seed Meal, Potassium Sulfate, Rock Phosphate.

GUARANTEED ANALYSIS

Total Nitrogen (N)3%
0.5% Water Soluble Nitrogen
2.5% Water Insoluble Nitrogen
Available Phosphate (P2O5)5%
Soluble Potash (K2O)5%
Calcium (Ca)5%
Magnesium (Mg)0.75%
Sulfur (S)1%
0.6% Humic Acid
.9% Yucca schidigera Extract (Wetting Agent)
1.0% Molasses (Microbe Food)
Contains Bacteria: Bacillus amyloliquefaciens, Bacillus subtilus, Bacillus pumilus, Bacillus

licheniformis, Bacillus megaterium.

Geoflora Nutrients - Organic Dry Fertilizers

GEOFLORA VEG

Geoflora VEG is a 5-3-4 NPK formula designed to be applied during transplant and as a top dress to ensure vigorous growth in plants.

Establishes strong microbial activity for increased nutrient uptake and availability.

Multiple sources of nitrogen discourage burning and work together with microbes to ensure a balanced release cycle and a diverse profile of micronutrients.

Promotes vigorous canopy growth and root development.

CDFA OIM and OMRI Listed for organic use.

Derived From: Alfalfa Meal, Bat Guano, Blood Meal, Bone Meal, Composted Turkey Litter, Crustacean Meal, Feather Meal, Fish Bone Meal, Fish Protein Hydrolysate, Kelp Meal (Macrocystis pyrifera), Magnesium Sulfate, Natural Volcanic Ash, Neem Seed Meal, Potassium Sulfate, Rock Phosphate.
