For immediate release

No kill date

August 2020

### **SaniDate® All Purpose Disinfectant Approved by EPA as effective against Human Coronavirus – Added to EPA List-N**

**EAST HARTFORD, CT** – BioSafe Systems is pleased to announce SaniDate All Purpose Disinfectant has been approved by the U. S. EPA as effective against *Human Coronavirus*, and will be immediately added to the *EPA List N-Disinfectants for Use Against SARS-CoV-2*.

SaniDate All Purpose Disinfectant (U.S. EPA Reg. No. 70299-27) is a hydrogen peroxide and peroxyacetic acid-based one-step antibacterial disinfectant, cleaner and deodorizer for hard, non-porous surfaces, including food contact surfaces. SaniDate All Purpose Disinfectant works through the power of oxidation to kill mold, mildew, and bacteria on contact. With no bleach, no ammonia and no harsh chemicals, SaniDate All Purpose Disinfectant is the sustainable alternative used every day in hotels, restaurants, medical facilities, childcare facilities, schools, offices, vehicles and in the home.

\*Registration is pending in Canada. Product review is currently underway with Health Canada and once approved, SaniDate All Purpose Disinfectant will be added to Health Canada *Disinfectants for Use Against SARS-CoV-2 (COVID-19) List*.
