Slug Saloon

Safe, Effective,
Food Grade Bait, Child & Pet Safe

Mix nontoxic malted barley bait in the Slug Sal Draw lots of slugs into the saloon where they drown in the brew. Use one trap (place on the ground or sink it down) for every 10 sq. ft of infested garden area and visit the Saloon every days to empty the tray. Each trap comes with enough bait for one month. Replacement bait enough for 3 months. Made of tough, weather resistant polyethylene for years of service. Bulk packages available for farms.

Slug Saloon - each with 1 month supply of bait, measuring spoon, and easy to follow instructions.
3 Month Bait Refills – each with bait, measuring spoon, instructions
Bulk Pack – 10 Slug Saloons, with 3 pound bait, 6 month supply, enough for a season.

Snailer

Attract destructive snails and slugs with nontoxic, people- and animal-safe bait in this long-lasting trap. A one way door lets them enter but not leave. Comes with a one-month supply of bait; 2-month supply is available. Use one per 10 sq. feet for heavy infestation; one per 400 sq. feet for maintenance purposes. Bulk package available for farms.

Snailer – each with 1 month supply of bait, and measuring spoon. Instructions on box bottom or on card.
2 Month Bait Refill – 7 ounces of bait and a measuring spoon.
Bulk Pack, 6 Snailers with 5 pound bait, 6 month supply

Call for retail or wholesale orders.

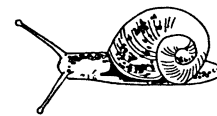

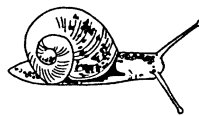

Stop Slugs!

Use Instructions

1. Remove the **Slug Saloon** lid.
2. Place the **Saloon** in area of heaviest slug infestation. The **Slug Saloon** may be placed on top of the soil or pushed into the soil to the lip of the tray.
3. Measure three (1) spoon full of the **Slug Saloon** safe, non-toxic bait with the free spoon provided (or one (1) teaspoon full) into the **Slug Saloon** tray
4. Slowly fill tray with water, stirring to mix thoroughly.
5. Snap **Slug Saloon** lid onto tray.
6. Check every 2 to 3 days. Empty contents of **Slug Saloon** and repeat above.

Stop Slugs & Snails!

Use Instructions

6. Remove the **Snailer** lid.
