DR. EARTH

Sweet & Sour[®] CITRUS FERTILIZER

Working For A Better Tomorrow

Innovation is the engine of Dr. Earth[®], creating cutting-edge natural garden-friendly products. With our company's total commitment to clean and healthy gardening, we pursue perfection in every Dr. Earth[®] product. We take immense pride in everything that leaves our facility. As a member of the Sustainable Food Trade Association, our mission is to operate a sustainable business model to preserve our planet. We are committed to upcycling would-be food grade waste into fertilizers and soils. We are working for a better tomorrow and the reason behind all of it is you, our customers.

TruBiotic[®] For Soils: TruBiotic[®] is a broad spectrum biological soil inoculant. It consists of beneficial soil microbes and mycorrhizal fungi designed to bring life to all soil types in backyard gardens or container plants.

Always mix fertilizer with the soil for maximum results

FERTILIZER TEA

Mix 2 pounds, or 5 cups for every 5 gallons of water. Let the mixture set for 24 hours. Strain well and mulch all the solids around the root zone. The liquid portion (tea) can be applied at 1 to 2 cups for shrubs, or 2 to 4 cups for larger plants. Use full strength to foliar feed & for deep root feeding of all plants.

NOTE: Dogs love Dr. Earth because it contains food grade ingredients, but it's not a dog food nor should you allow your dog to eat it. Supervise your dog to prevent ingestion. Mix the fertilizer well with the soil and water it in to discourage them from eating it.

ITEM #901

SUCCESS TIPS

Citrus Fertilizer is ideal for growing delicious oranges, lemons, limes and avocados. Citrus trees compliment your home garden or orchard with fragrant blossoms, glossy foliage and delectable fruit. Our hand crafted blend is specially formulated with primary nutrients as well as our patented TruBiotics[®] to help promote lush new growth, abundant green foliage and bountiful blossoms and fruit. Made from premium ingredients, our citrus fertilizer is not only excellent for citrus trees, but also effective on fruit trees, vines and ornamentals.

CITRUS

New Plantings:

Before you plant, add 2 cups (approx. 1 lb.) per ½ cubic foot (approx. 5 gallons) of soil that will be added to the planting hole. Once planting is completed, water thoroughly.

Established Plants:

Use 1 cup (approx. ½ lb.) for every inch of trunk diameter (measured at 4"–6" above the soil line). Work into the soil gently inside of the drip line. Water thoroughly.

When to apply:

Every 3 months throughout the growing season.

AVOCADOS

New Plantings:

Before you plant, add 2 cups (approx. 1 lb.) per ½ cubic foot (approx. 5 gallons) of soil that will be added to the planting hole. Once planting is completed, water thoroughly.

Established Plants:

Use 1 cup (approx. ½ lb.) for every inch of trunk diameter (measured at 4"–6" above the soil line). Work into the soil gently inside of the drip line. Water thoroughly.

When to apply:

Every 3 months throughout the growing season.

GUARANTEED ANALYSIS:

Total Nitrogen (N).....	6%
6% Water Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅).....	3%
Soluble Potash (K ₂ O).....	3%

DERIVED FROM:

Feather meal, alfalfa meal, bone meal, potassium sulfate, fish bone meal, rock phosphate, kelp meal and kelp flour.

STORE: in a dry cool place.

Avoid direct sunlight.

EXPIRATION DATE:

Best if used before:

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

	Colony Forming Units (CFU) / gram
