Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration.

Skin contact:

Rinse skin with water. If skin irritation develops, seek medical attention.

Eye contact:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

Ingestion:

Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

Acute symptoms:

May cause eye irritation. May cause respiratory tract irritation if inhaled in dust form.

SECTION V- FIRE FIGHTING PROCEDURES

Suitable extinguishing media:

Use water spray or other appropriate media for surrounding fire.

Unsuitable extinguishing media:

Do not use direct water stream on burning material.

Hazardous decomposition products:

May decompose upon heating to produce toxic fumes of carbon oxides.

Special protective equipment and precautions for fire fighters:

Wear self-contained breathing apparatus with full positive pressure face piece and appropriate protective clothing.

SECTION VI-SPILL OR LEAK PROCEDURES

Accidental release measures:

Avoid contact with eyes. Avoid inhaling dust and decomposition products.

Cleanup measures:

Spilled material should be swept or vacuumed with a non-sparking vacuum. Wear appropriate PPE as described in Section 8. Place collected material in a clean, closed container for waste disposal. See Section 13 for waste disposal recommendations.

SECTION VII-HANDLING AND STORAGE

Handling:

Avoid contact with skin, eyes, and clothing. Avoid generating and inhaling dusts. Wear protective clothing described in Section 8. Wash thoroughly after handling. Remove immediately contaminated clothing and PPE. Wash before reuse. Maintain exposures below permissible limits described in Section 8.

Storage:

Store in a cool, dry location for flavor acceptability. Avoid temperature extremes. Avoid storing near nonfood items with strong odors – odors may affect overall flavor.

SECTION VIII-PROTECTION INFORMATION

Particulates Not Otherwise Regulated	15 mg/m ³ (total) 5 mg/m ³ (resp. frac.)	N/E	N/E	N/E

Ventilation:

Provide sufficient general and local ventilation to maintain exposures below permissible limits.

Respiratory protection:

If ventilation is not adequate to maintain exposures below permissible limits, use a dust mask or air purifying respirator with particulate cartridge. Inspect and test respiratory protection before use.

Skin protection:

Do not use gloves or protective clothing that show signs of permeation or degradation.

Eye protection:

Safety glasses are recommended. Do not use degraded eye or face protection. Maintain a safety shower and eye wash facility in the work area.
