## From Trash to Treasure

### JACK STACK'S FAMOUS BEEF BURNT ENDS

It's hard to imagine a point in time where beef burnt ends were seen as nothing more than throw-away scrap, but that's where they started! Cut from brisket points deemed too fatty for slicing, beef burnt ends are tender, perfectly marbled morsels of beef encased in a hickory-smoked bark that delivers next-level flavor with every bite. Now a Kansas City staple, beef burnt ends had a very different life in the 1950's - with some barbecue restaurants using them as "freebies" for hungry customers waiting in line. See pages 18 - 19 for more details!

## FIORELLA'S JACK STACK BARBECUE

From our earliest days as a storefront barbecue stand to today - one thing has remained constant in our experience: family. Now in our 4th generation of family-ownership, it's important that every guest feels like family; in our restaurants, in our catering & event venue, and in their own homes with our shipped product - smoked with heart and HOPE for their dining room tables.

Looking ahead to the holidays, it's important to acknowledge how the last year tested us all. It certainly wasn't easy, but we're honored to have played a part in keeping the heart of Kansas City alive with our barbecue pits. Further still, we're humbled to have been able to sit alongside you through this challenging time. The remarkable barbecue experience you deserve is waiting for you - and we couldn't be more excited to deliver.

This year, we've bundled our best-sellers to create gift packages that fit any budget - with the option to add-on one of our signature desserts for \$13. Whether you're celebrating together or "together-apart," we've got plenty of barbecue love to share for everyone on your list. Happy holidays from the team at Jack Stack Barbecue - and thank you for filling ours with HOPE for the new year!
