SkyCafe® The Fort Knox Of Feeders®

AR360

AR362

A La Carte

1. How it Works

This feeder avoids waste and presents food at a natural rate. Seed is not poured into the tray to be wasted by rain, wind, or spillage by rowdy squirrels. Your birds will peck and pull seed from under the hopper wall just as they forage for food in nature.

Adapting to any new feeder may be affected by the following situations.

- Other established feeders & natural food sources.
- Mating; Nesting; Periodic migration.
- Hawks, dog, cat, raccoon, owl, opossum, snake.
- Frequent human contact at new feeder site.
- Very hot, wet or windy weather
- Sickness; Pesticide/Herbicide use; Mold
- Loss of cover or nesting area.

2. Assembly Instructions

Mate seed hopper (1) to the tray plate (2) and rotate the plate firmly until it locks into position. If you have a Sky Cafe A La Carte, assemble the dividers and insert them into the hopper.

Attach the s-hook (3) to one end of chain (4). Use pliers to close s-hooks onto end of chain. Thread chain thru rubber washer (5) then metal washer (6) then thru feeder dome (7).

Insert the v-wire (8) thru the last link on the end of the Chain inside dome. Insert v-wire ends into pre-drilled holes at top of hopper. Press vinyl tips (9) onto protruding ends of the v-wire (8).

Allow the dome to slide onto top of seed hopper. Make sure that all four dome guide posts remain on outside of the hopper.

3. Hanging Instructions

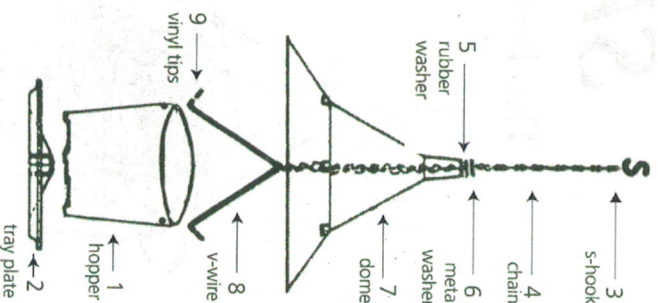

DON'T MAKE IT EASY FOR SQUIRRELS!

Hang your Sky Cafe 5' or more from the tree trunk and a minimum of 5' above the ground. Allow at least 6" of chain above the dome. Using more chain will discourage squirrels and make refilling easier. Never use rope to suspend your feeder. Squirrels can chew the rope apart.

Pole mounting: In order to get the best fit take the tray with you when purchasing a pole. Also when pole mounting feeder, be sure to purchase a baffle for underneath the Sky Cafe® such as the AR364 Wrap-Around Skirt™ in order to keep squirrels from climbing the pole. You will also need to secure the top of the feeder with the chain and s hook provided or you can purchase the AR365 Dome Cord & Lock.

4. Cleaning

Experts recommend at least monthly cleaning to remove harmful bacteria. Use mild, soapy water, then polish with a soft cloth to keep it looking like new. Never use solvents, abrasives, cleansers or spray cleaners.

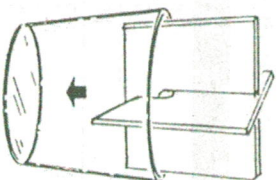

IMPORTANT

Use pliers to close S-hook onto end of chain.

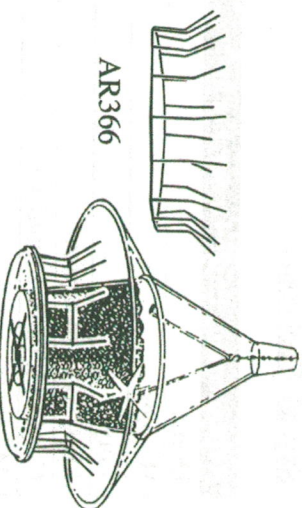

A La Carte® Dividers

Customize your AR360 Sky Cafe feeder. Divider creates four places for gourmet food selections. Crystal clear, 100% recycled plexiglas® and removable for easy cleaning.

Dove Guard

Made from vinyl coated steel discourages large birds and prevents the messy sweeping motion of grackles. 12" in diameter. Comes with strap locks to attach to tray.

Pole Mounting Accessories

Dome Cord & Lock Wrap-Around Skirt™

AR365

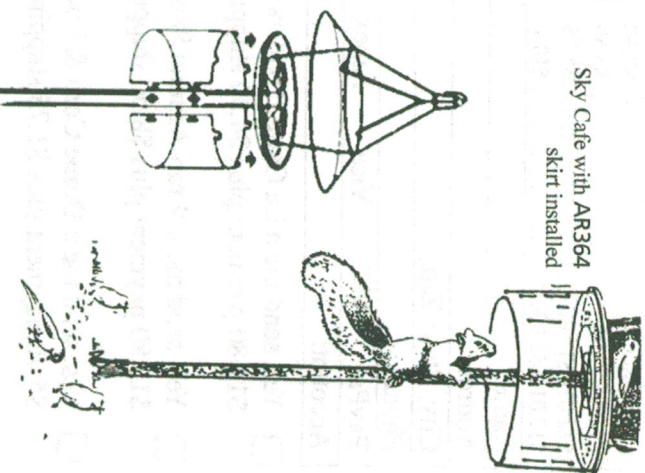

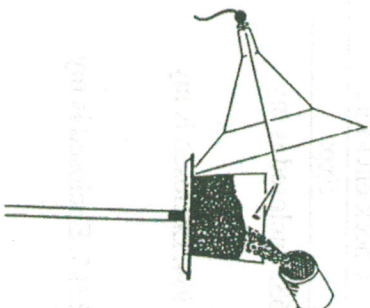

Squirrel Baffle

AR364

- A. Cord- secures dome
