

Three Tier Cascade Planter (KC 23)

Assembly Instructions

- Place the Large 23inch Basket on a flat surface.
- Screw the Check Nut onto one side of Long Rod to approx 1inch. Insert and tighten the same end of the rod into the Welded Hex Nut at the bottom center of 23inch Basket and secure it by tightening the Check Nut.
- Take the Pipe, insert its bottom over the Long Rod & rest it on the 23in basket.
- Take the 18inch Basket, pass it over the top end of Long Rod & rest it on the top of Pipe.
- Take the 2nd Pipe, insert its bottom over the Long Rod & rest it on the 18in basket.
- Take the 14inch Basket, pass it over the top end of Long Rod & rest it on the top of Pipe.
- Insert the Washer & Tighten the Hex Nut onto the Long Rod.
- Now your Three Tiered Cascade Planter is Ready.
