

ASSEMBLY INSTRUCTIONS

Étagères à Fleurs

On a soft, level surface, unpack and identify the following component parts:

- Bottom Shelf(1)
- Middle Shelf(1)
- Top Shelf(1)
- Legs(3)
- 27 3/4" Vertical Supports (3)
- 12 1/2" Vertical Supports (6)
- Packet with 24 Nuts, 24 Bolts & 2 Wrenches

Please read the instructions completely prior to assembly. The only tools required are the enclosed hex wrenches. (Do not use the wrenches to secure the bolts until assembly is complete; hand tighten until snug).

1. Attach the three legs to the bottom shelf as shown. Place the groove in the leg against the bottom shelf, with the bent "foot" facing inward. Insert a bolt through the predrilled holes and back with a nut.

2. Attach the three 27 3/4" vertical supports to the bottom shelf. Align the grooves in the support with the predrilled holes at the back of the shelf as shown. Be sure that the bent "foot" is facing inward, then secure each support with a bolt and nut.

3. Set the bottom shelf upright. Place the back of the middle shelf into the corresponding grooves in the 27 3/4" supports and secure with three bolts. Connect the middle shelf and the bottom shelf with three 12 1/2" vertical supports, anchoring each with two bolts.

4. Align the back of the top shelf with the grooves in the 27 3/4" supports and secure with three bolts. Connect three 12 1/2" supports to the top shelf and the middle shelf, anchoring each with two bolts.

5. Tighten each bolt with the hex wrenches.
