BACKWOODS®

JERKY SEASONINGS

Enhancing Flavors For Wild Game & Domestic Meat

Barbecue

For consistently flavorful jerky use the recommended number of pounds of meat this package is intended to produce.

Marinade Method:

- Remove all sinew and fat. For best results, use a cut from the hind legs.
- Cut meat into strips 8" long and 1/8" thick.
- **To make the entire package at one time:** Dissolve entire seasoning and cure packets into 2-1/2 cups of water for 5 pounds of meat.
- **To make smaller batches:** Dissolve 8 teaspoons of seasoning, a scant 1/4 teaspoon of cure (1.1g) and 1/2 cup of water per pound of meat in a glass bowl.
- Place strips of meat in the bowl and marinate for at least eight hours in the refrigerator.
- Remove strips from marinade (discard remaining marinade) and place in oven or dehydrator.

Ground Meat Method:

- **To make the entire package at one time:** Dissolve entire seasoning and cure packets into 5 ounces of water. Mix with 5 pounds of meat.
- **To make smaller batches:** Dissolve 8 teaspoons of seasoning, a scant 1/4 teaspoon of cure (1.1g) and 1 ounce of water per pound of meat in a glass bowl. Mix with meat until mixture becomes tacky.
- Roll a small amount of meat with a rolling pin until 1/8" thick and cut into strips. For fast, easy, uniform strips use the LEM Jerky Cannon®.

Process in one of the following ways:

- Preheat oven to 200° F. Place in oven on a cookie sheet and leave door open to first stop. Dry for 1 hour and 15 minutes on each side or until desired texture and dryness is reached.
- Place on rack in dehydrator and dry according to manufacturer's instructions.

Refrigerate or freeze finished product.
Keep cure out of reach of children.
Do not use more cure than recommended.
