

Choose Fair Trade Products

Jero Sandat and her husband own a ceramic workshop in Indonesia. Jero shares, “We have been working with Mitra Bali since 1995, and I have learned that there is no difference between men and women. The only difference is the type of skill, women can work the same as men. Like all mothers in the world, I want my children to have a better life, health, and success in their careers. There is no reason for customers not to choose fair trade products, it helps people like us and many others.”
