

Kids' Science Club

Autumn 2022

Due date: _____

Dear families,

Our class is participating in Educational Innovations' Kids' Science Club. It's a wonderful way to "bring science home", and with every order, we earn free points that can be used to bring even more hands-on science into our classroom.

There are so many benefits to fostering a love of science in children! It gives them a head start on the essential STEM (Science, Technology, Engineering, and Math) skills they'll need in school, in life, and even in the workplaces of the future.

Plus, it's just a lot of fun!

Please take a moment to explore the science toys and experiments in this flier. If you'd like to order something for your child, simply fill out the form on the final page and return it with your payment (cash or check made out to _____).

Please note the due date for all orders is _____.

If you prefer, you can place an order on your own, and it will be delivered straight to your home. There are details on the final page of the flier for how to proceed. Please remember to include MY NAME and OUR SCHOOL NAME on your order, so we can earn free points!

Thank you for your continued support in helping me make your child's education meaningful and successful. Please let me know if you have any questions or need help with your order. Happy browsing!

Sincerely,
