

PowerUP Toys – Instructor Guide Book

We have added a new section into our main webpage that I would like to invite you and your class to join - its called "Flight Deck".

LINK:

<https://flightdeck.poweruptoys.com/>

Flight deck allows your group to create a project page and to share ideas, videos and photos of their class and to interact with others throughout the USA. We just started this site so I would appreciate your participation and help to build our community.
