Dear Gardener,

For the better part of the year, we've searched high and low for the best new tomatoes, peppers and other vegetables that we feel you, our customers, would be interested in. We imagine, however, the toughest part is that you now have the difficult task of deciding which ones to try!

Of course we think all of our new items are rather extraordinary, but we've selected a few to rave about! For starters, take a look at Sun Dipper tomato on the Back Cover. It stands out for its unique shape and is fantastic for dipping. You may also want to check out our new book, Tomato Love, while you're there. It has some amazing recipes!

Some of our finest new varieties are award winners – Pink Delicious tomato (right) and Dragonfly pepper (page 5) are among the best of the best for taste, looks and all-around performance! You'll also find Lemon squash (page 5), Rainbow Candy Crush kale and Diamant cucumber (page 4). Although not award winners, they all are pretty terrific!

Now that we've made our decisions, we invite you to make yours. Whether you choose a few, or a lot, we hope your garden is the envy of the neighborhood and the most bountiful ever!

#### TOTALLY TOMATOES

P.S. Check these  out! Along with the information on pages 8, 9 and 41, we've added additional tips and suggestions that we think you will find helpful for an even more successful gardening season!

### Pink Delicious Hybrid V Tomato

**74 days. 2022 AAS Regional Winner (Southeast & Heartland)! Ribbed, beefsteak-type fruits are pink, deep oblate shaped and weigh approx. 8 to 11 oz. each. Hefty fruits are full of excellent flavor and much sweeter than typical pink varieties. In trials it produced earlier, had higher yields, more uniform fruits and better crack resistance than comparable varieties. Heavy yielder. Highly resistant to Tomato Mosaic Virus and Gray Leaf Spot. Indeterminate. #00552. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

**NEW!**

PINK DELICIOUS

### Quickfire Hybrid Hot Pepper

**50 days. 2022 AAS Winner!** A revolution in innovative breeding, this Thai-type award winner is by far the fastest maturing chile in trials! Bright red fruits have plenty of heat with a Scoville rating of approx. 40,000 units and grow up to 1 3/4" long. Bred for taste and yield, but has tremendous ornamental appeal as well. Compact, sturdy 6" plants produce a profusion of fruits and are perfect for container gardening as well as indoors on windowsills. #03072. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

**NEW!**

QUICKFIRE

### Orange Bell Pepper

**75 days.** Beautiful, large, blocky, 3 to 4-lobed bells grow 3 to 4" wide by 4 to 5" long. Thick-walled fruits ripen from green to brilliant orange and have a super sweet flavor.

Can be enjoyed at the green stage in just 50 days. Excellent for fresh eating, canning and freezing. Sturdy plants hold fruits high off the ground and produce abundantly.

#02841. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

**NEW!**

ORANGE BELL

### Indigo™ Dancing With Smurfs Tomato

**85 days.** An unusual blue, 1 to 1 1/2" cherry tomato with attractive red flesh. Fruits grow in clusters, are mature when they are red with dark purple blushing, have a nice flavor and are excellent keepers. A standout Indigo variety in Wisconsin trials. High yielding. Exhibits some tolerance to Late Blight. Indeterminate.

#00363. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.85 each

INDIGO™ DANCING WITH SMURFS

### Lone Ranger Hybrid Hot Pepper

**60-75 days. (Patent 11,324,189)** A serrano variety with large, light to medium green fruits that maintain their size throughout the entire growing season. Hot, 1 oz. fruits, with a Scoville rating of up to 22,000 units, average 4 1/2 to 5" long, have thick walls and an extra long shelf life. Great for farmers markets. Plants have excellent cover and good heat setting ability. Highly resistant to Bacterial Spot Races 0-3, 7 and 8. #03051. (A) pkt. (15 seeds) \$3.25; 3+ pkts. \$2.95 each

### Carrie Hybrid VFFFSt TSWV Tomato

**75 days.** A standout variety in Southeastern states where Fusarium 3 pressure is prevalent! Large to extra large, 7 to 9 oz., flattened, round fruits are deep crimson inside and out. Meaty flesh has a perfectly balanced sweet/acidic flavor. Strong, sturdy plants provide good cover to protect fruits. High yield potential. Intermediate resistance to Tomato Yellow Leaf Curl Virus. Determinate.

#00146. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each

**NEW!**

CARRIE

### Cumari Verdadeira Yellow Hot Pepper

**80 days.** Pea sized fruits, less than 1/2" long, are sweet and pack a punch of heat as well. From the same family as Scotch Bonnet and Habanero, fruits have a Scoville rating of 40,000. High yielding plants produce small yellow peppers which can be easily seen among the large leaves. Bushy plants are great as an ornamental. Originates from the Cumari region of Brazil. #03014. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

**NEW!**

CUMARI VERDADEIRA YELLOW

#### DID YOU KNOW...

**AAS Winners are varieties that have been tested in trials all over North America? Only a select few receive this award each year for displaying their superior all-around garden performance!**

**SYMBOLS TO NOTE**

## HEARTBREAKERS™ DORA HYBRID SERIES TOMATOES

**70-85 days.** Customers who fell in love with Dora Red last season will love these two newcomers just as much! Beautiful, bright orange and yellow fruits weigh up to ½ oz. each, have the same adorable heart shape when cut open and will make the perfect complement to Dora Red. Fruits explode with juicy, sweet flavor, have the perfect sugar to acid ratio and display nicely against lush green foliage. Excellent for small gardens, containers and hanging baskets. Plants remain compact and dwarf without pinching or pruning. Produces abundantly. Determinate.

**Orange #00337. Yellow #00338.**  
Prices, above 2, mix or match:  
(A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each

### Magnum Hot Pepper

**80-100 days.** Dark green, wrinkled fruits ripen to a beautiful bright orange and with an average of 210,000 Scoville units they are ragin' hot. Bonnet shaped, shiny habanero fruits are very similar to the extremely popular Scotch Bonnet pepper, measure approx. 2" by 1½" and can be used fresh or dried. Harvest at the green stage in just 80 days. Compact plants are well-branched, uniform and heavy yielding. More tolerant to cooler weather than comparable varieties.  
#03060. (A) pkt. (30 seeds) \$3.85; 3+ pkts. \$3.55 each

### Laguna Red Hybrid FFA Tomato

**68-72 days.** Attractive, large, scarlet red, globe-shaped fruits weigh approx. 8 to 12 oz. each and are very firm and smooth shouldered. Flavorful, deep red, juicy flesh has a good acid to sugar ratio. An ideal choice for farmers markets. Plants are widely adaptable and provide good leaf cover to protect fruits. Highly resistant to Fusarium Crown & Root Rot and Tomato Mosaic Virus with intermediate resistance to Gray Leaf Spot and Tomato Yellow Leaf Curl Virus. Determinate.  
#00423. (A) pkt. (10 seeds) \$3.15; 3+ pkts. \$2.85 each

### Artisan™ Pink Jazz Tomato

**85 days.** Beautiful, large, pink beefsteak-type with yellow/gold stripes. Ribbed fruits have a very sweet, rich flavor and often weigh a pound or more each. Fruits are not prone to catfacing. A great variety for specialty markets. Very vigorous vines are relatively resistant to fungal leaf pathogens. Heavy yielder. Indeterminate.  
#00039. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

### Megatron Hybrid Hot Pepper

**65 days.** (Patent 11,324,190) An exciting, new jalapeño that boasts extra-large, 3 oz. dense fruits that average a whopping 4½" long! Smooth fruits are firm, mature to a deep red and have a good shelf life. With a Scoville rating of 5,000 to 8,000 units, they have the perfect amount of heat typically associated with jalapeños. Ideal for containers. Strong, compact plants produce high yields and are highly resistant to Tobacco Mosaic Virus and Bacterial Spot Races 0-3, 7 and 8.  
#03052. (A) pkt. (15 seeds) \$3.25; 3+ pkts. \$2.95 each

### Spark's Yellow Tomato

**80-90 days.** Very attractive, large, 3", blemish-free, beefsteak-type tomatoes can grow up to approx. 1 lb. each! Juicy fruits are round, golden yellow/orange and full of delicious flavor. Perfect for pastes, sauces, slicing and canning. Potato leaf plants produce good yields. Indeterminate.  
#00671. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

### Red Knight Hybrid Bell Pepper

**66 days.** One of our earliest maturing X3R® disease resistant (see pg. 41) bells. Big, blocky, thick-walled fruits are approx. 4½" by 4½" and can be harvested green when they are mild or left to mature to bright red for an almost sugary flavor. Perfect for stir-frying, stuffing, roasting or grilling. Widely adaptable. Highly resistant to Potato Y Virus.  
#03209. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each

ZAPOTEC  
OAXACAN RIBBED

### Zapotec Oaxacan Ribbed Tomato

**80-90 days.** Dates back to the Zapotec Indians of Oaxaca, Mexico. Large, deeply ribbed, pink/red fruits grow up to 4" in diameter, have a yellow blush and weigh up to 1 lb. Fruits are somewhat hollow, have sturdy walls and a mild, sweet flavor. Ideal for stuffing, baking and grilling. Indeterminate. **Purchase more!**  
#00847. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Cowhorn Pepper

**75 days.** Tapered, thick-walled, 6 to 9" cayenne peppers have a curled horn shape and mature from green to bright red. Fruits have a good flavor and are medium hot with an average of 5,000 to 8,000 Scoville units. Great for drying and making hot sauces. **Purchase more!**  
#03779. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

**NEW!**

DIAMANT

# Classic, Novel, Bold & Vibrant ...

## Diamant Hybrid Cucumber

**47 days.** Attractive fruits have a crisp texture and a fresh, mildly sweet flavor that is great for both fresh eating and pickling. Dark green, 4 to 5" fruits are nearly smooth, have very small, white spines and ripen early. Compact plants are parthenocarpic, so they don't require pollination to set fruit. Produces abundantly over a long season. Resistant to Downy and Powdery Mildew, Cucumber Mosaic Virus and Cucumber Scab. **#02014. (A) pkt. (15 seeds) \$4.55; 3+ pkts. \$4.15 each**

**NEW!**

THUNDERBIRD

## Thunderbird Hybrid VFFF Tomato

**72-75 days.** A vigorous hot set variety that thrives in warm, wet conditions! Very firm, smooth, meaty fruits are extra-large, deeply oblate, weigh approx. 8 to 12 oz. each and are deep red inside and out. Well-suited for farmers markets and home gardens as well. Fruits have a good shelf life. Plants provide good foliage cover to protect fruits. Features intermediate resistance to Gray Leaf Spot and Tomato Yellow Leaf Curl Virus. Determinate. **#00769. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each**

## Black Magic Hybrid Hot Pepper

**65 days.** Unique, very dark green, almost black fruits are thick-walled, grow approx. 3 to 4" long, have a Scoville rating of 2,500 units and will show some etching when ready to harvest. Fruits will turn red if left on the vine too long. High yielding plants have intermediate resistance to Bacterial Leaf Spot Races 1-3. **#03003. (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each**

**NEW!**

BLACK MAGIC

## Oma's Orange Tomato

**75-80 days.** Large, beefsteak-type tomatoes weigh 8 to 16 oz. and grow approx. 3 to 4 1/2" wide. Juicy fruits have delicious, dark orange flesh with the perfect balance of sweetness and acidity. Plants grow 5 to 6 ft. tall and bear fruit singly or in clusters of up to 3. Betty Moore of Stow, OH, has grown and saved the seeds since 1983, when she received them from her mother, Oma Rachel Lively Miller, who was given the variety from a relative in the 1930's when she married. Indeterminate. **#00520. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each**

**NEW!**

OMA'S ORANGE

**NEW!**

SHERYL

## Mercer Hybrid Bell Pepper

**72-78 days.** Extra-large, attractive, blocky bells grow up to 4 1/2" by 4" and mature from dark green to a brilliant, ruby red. Mid-early maturing variety produces firm, 6 1/2 oz. fruits that have excellent quality. Widely adaptable, it's especially well-suited for the North Eastern U.S. growing regions. Plants are vigorous, sturdy, provide good leaf cover and produce high yields. Highly resistant to Tobacco Mosaic Virus, Bacterial Spot Races 0-3, 7, 8 with intermediate resistance to Phytophthora Root Rot. **#03180. (A) pkt. (10 seeds) \$3.25; 3+ pkts. \$2.95 each**

## Rainbow Candy Crush Hybrid Kale

**45-50 days.** Use as a baby leaf or allow to fully mature – either way, leaves are more tender than typical colored kales. Flavor is mildly sweet and can be enjoyed fresh or cooked. Great for salads, smoothies and for making kale chips. In cooler climates, curled leaves are mostly vibrant pink and have bright green edges. Leaves will be darker green and more purple in hotter climates. Ornamental plants have an almost perfectly manicured look due to their naturally rounded, compact habit. Grows to approx. 12" tall by 18" wide. **#01456. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each**

## Bellerose Hybrid VFFT Tomato

**70 days.** Pink, beefsteak-type fruits are round, firm and weigh approx. 6 1/2 oz. each. Meaty fruits are juicy and have a nice sweet/acidic balanced flavor. Perfect for fresh eating and canning. Fruits have a long shelf life and exhibit excellent crack resistance. Intermediate resistance to Nematodes, Tomato Yellow Leaf Curl Virus and Tomato Spotted Leaf Virus. Indeterminate. **#00076. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

## Sheryl Hybrid FFF TSWV Tomato

**75 days.** Attractive, beefsteak-type fruits weigh up to 7 oz. each, grow in clusters of 2 to 3 and are deep crimson inside and out. Firm, meaty fruits are mildly sweet and perfect for fresh use. Excellent for fresh markets and home gardeners. Plants provide good foliage cover to protect fruits. Intermediate resistance to Tomato Yellow Leaf Curl Virus. High yielding. Determinate. **#00647. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each**

### DID YOU KNOW...

Tomato and pepper seeds germinate more consistently when soaked prior to sowing? Pre-soaking seeds for 8 hours, starting with warm water initiates the germination process in virtually all seeds. Treated or pelleted seeds should NOT be pre-soaked.

BELLEROSE

# Eye-catching & Appetizing – Try ‘Em All!

## Sweet Pea Currant Tomato

**75 days.** High yielding plants can produce literally thousands of fruits per plant! Tiny, ruby-red, ¼" fruits explode with delicious, sweet flavor. Grown in trusses of 10 to 12, fruits won't fall off the vine like most currant tomatoes. Perfect for garnishes, snacking or mixing into a fresh summer salad. Indeterminate.

**#00740. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each**

## Dragonfly Hybrid Bell Pepper

**75 days. 2022 AAS Winner!** Beautiful, 3½" purple, 4-lobed, blocky bells are deliciously sweet. Unlike other purple varieties that tend to have thin, papery walls, these fruits are thick and meaty. As delicious as the green stage as it is when purple and fully mature. Compared to similar varieties, it has a much better purple color that doesn't fade and has a more robust flavor. Fruits grow high on the plant, hold well and if left on the vine, turn bright red. High yielder. Resistant to Tobacco Mosaic Virus Races 0-2.

**#02840. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

## Rambler Hybrid VFFA Tomato

**68-72 days.** An adaptable, high-quality salad variety featuring extra large, attractive fruits that weigh approx. 8 to 12 oz. each. Dark red, globe-shaped fruits are very firm and have deep red flesh. Great for fresh markets. Plants are widely adaptable and produce excellent yields. Intermediate resistance to Gray Leaf Spot and Tomato Spotted Wilt Virus. Determinate.

**#00597. (A) pkt. (10 seeds) \$3.25; 3+ pkts. \$2.95 each**

## Bull Nose Bell Pepper

**65-80 days.** An heirloom dating back to the 1800's. Crisp, 3 to 4-lobed, glossy bells ripen from green to red, have an excellent flavor and can be used at any stage. Peppers grow 3 to 4" and are great fresh, stuffed and pickled. Very productive, extra sturdy plants.

**#03108. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each**

## Lemon Summer Squash

**55 days.** Attractive, 3 to 4 oz. fruits resemble the color and shape of a lemon and are approx. the size of a baseball. Oddly shaped fruits have an excellent flavor and are perfect for frying, sauteeing and chopped up fresh in salads. Vining plants produce heavy yields over a long growing season

and feature good resistance to insects and pests. Ideal for farmers markets and home gardeners.

## Tomato Helpers

### Tomato Crater

Designed for growing tomatoes, but can also be used on a variety of garden plants. An easy way to get water and plant food to the roots, right where it's needed. A convenient two-part interlocking design allows it to be placed around plants, eliminating risk of plant injury. Slots in the base allow for a wire cage to be inserted. The red color warms the soil and reflects red light up into the plant to stimulate plant growth. Helps retain soil moisture, reduces the need for weeding and protects against cutworms and other ground insects.

Provides years of use. **#53370. Pkg. of 3, \$24.95; 2+ \$22.95 each**

### Red Tomato Tray™

Increases tomato yields by 40%! Red light is reflected off the tray to the plant to stimulate growth. Helps roots retain consistent moisture. Protects against drought and cutworms – yields earlier and tastier harvests. Use with tomato, pepper and vining plants. 12" x 12".

**#53123. Pkg. of 3, \$16.95; 2+ \$15.95 each**

### SRM-RED™ Reflecting Mulch Film

Increases tomato production 12 to 20% over traditional black mulch! Developed by Clemson University and the USDA. Thin plastic film uses a patented technology to reflect wavelength-specific infrared light from the sun up into the plant. Warms the soil and retains moisture.

**#53321. 48"W x 30'L, \$21.95 each**  
**#53322. 48"W x 100'L, \$37.95 each**

# GRAFTED PLANTS

 Wondering why you should pay more for grafted plants? What makes them worth the extra price? These were some of the questions we also asked when grafted vegetables first appeared on the market. We admit we were skeptical – until we grew them ourselves and saw the proof. Grafted plants were stronger, produced fruit faster and because they were able to fend off diseases, the yields were higher.

Grafting joins the top of one plant (the scion) to the root system of a separate variety (the rootstock). As the tissues fuse, the vigor and disease resistance of the rootstock combines with the exceptional fruit qualities of the original variety. The result is a "Super-Powered" plant. Plants will be shipped in 2¼" pots. Please read and follow the special growing instructions included with your plants. **We are unable to ship plants to the following states: AK, CA and HI.**

**3+ Plants \$12.95 each; 6+ \$10.95 each; 9+ \$8.95 each**

**MINIMUM ORDER - 3 Plants - Plants may be mixed and matched to meet minimum order (EXCLUDES Ketchup 'n' Fries® below).**

## TOMATOES

- Amish Paste**

#00001PG. See pg. 10.
- Mortgage Lifter**  
#00481PG. See pg. 24.

**DarkStar V Hybrid**  
**70-75 days.** Large, 8 to 10 oz., purple beefsteak-type fruits are oblate, ribbed and full of visual appeal. Dark purple/red flesh has a rich, smoky flavor and texture that is very similar to Cherokee and Carbon (page 22). Expect higher yields, healthier plants and better fruit quality than most heirlooms. Highly resistant to Late Blight. Indeterminate. #00223PG.

**Thorburn's Terra-Cotta**  
**75 days.** This rare find was introduced in 1893 by James Thorburn, a famous New York seedsman. He claimed the heirloom was extraordinary in many ways – particularly in color, flavor and keeping qualities. Beefsteak-type fruits have attractive skins in varying shades of terra-cotta, orange-pink flesh and green seed gel. Very eye-catching and amazingly delicious, fruits are not only great for fresh eating, they are also excellent for making unique sauces. Indeterminate. #00768PG.

### GARDEN SAMPLER

1 plant each of Big Bertha (pepper), Epic (eggplant) & Goliath (tomato).  
#39681(X). \$30.95

### TOMATO SAMPLER

1 plant each of Amish Paste (paste), Big Beef (beefsteak) & Cherokee Purple (heirloom).  
#39680(X). \$30.95

**Be sure to look for our tomato cages and supports on page 10!**

## PEPPERS

- Big Bertha Hybrid**  
#03116PG. See pg. 41.
- King Arthur Hybrid**  
#03144PG. See pg. 43.

**Carolina Reaper** #03755PG. See pg. 55.

## EGGPLANT

**Epic Hybrid**  
**70-75 days.** Formerly known as Dusky. Purple-black oval fruits can be picked at 3 to 5" for mini eggplants or harvested when mature at 8 to 10" long. Perfect for roasting or grilling. Can be grown in containers. #02275PG.

## SHIPPING DATE INFORMATION

All plants on 6 and 7 will be shipped at the proper planting time for your area.

Approximate dates when shipping begins:

**Zones 7 to 10: APRIL 15 to MAY 1**

**Zones 3 to 6: MAY 1 to MAY 15**

To find your zone, please see the USDA Zone Map on page 60 or visit our website for an easy-to-use Zone Finder.

Please note: Adverse weather in your area, or ours, may affect the shipping schedule.

We are unable to ship plants to the following states: AK, CA and HI.

## Ketchup 'n' Fries®

**Harvest tomatoes AND potatoes from a single plant!**

We are pleased to offer these specialty, hand-grafted plants that have quickly become customer favorites! Since Luther Burbank's experiments in the early 1900's, researchers have explored ways to find a commercially practical way of grafting a tomato plant top onto potato roots. After many years of trials, American grafting leader, SuperNaturals Grafted Vegetables, LLC, has brought Burbank's vision to reality with the release of Ketchup 'n' Fries by TomTato®.

Grow plants in the garden or in a patio container (at least 15 gallons or larger) with a 6 to 8 ft. stake or cage – a great variety for maximizing garden space. With a Brix of 10, plants produce possibly the sweetest cherry tomatoes you will ever taste AND delicious potatoes, too! During the growing season, up to 500 or more cherry tomatoes can be produced. When all the tomatoes have been gathered, cut plant back to ground level and approx. 2 weeks later, harvest up to 4½ lbs. of tasty, light yellow potatoes! All natural. Non-GMO. Easy-to-grow. Grafted plants will be shipped in 2¼" pots. Please read and follow the special growing instructions included with your plants. #39580.

**\$16.95 each; 3+ Plants \$14.95 each; 6+ \$12.95 each**

**If you are not satisfied with the quality of your plants upon delivery, please let us know immediately.**

# These Simple Steps Yield Totally Terrific Tomatoes

## SEEDING:

Determine the proper time for seeding tomatoes by counting back 6 to 8 weeks before the last average spring frost in your area. Not sure of the frost date? Consult your local county extension service.

Timing will determine the quality of seedlings, so plan your schedule carefully. Seedlings started too early become leggy and may become stunted in containers. Seedlings held too long indoors will have a difficult time adjusting to conditions in the garden. Seedlings started too late will delay harvest.

The easiest way to schedule seeding is to use two or three dates about a week apart. It takes 7 to 14 days at a temperature of 70 to 80°F for germination, so staggered seeding would give several sizes of plants for staggered planting and a slightly staggered harvest.

When ready to seed, use a good seed starting (see page 63) or soilless mix. Firm gently, but do not pack, and moisten. Make a hole in the center of the potting mix about 1/4" deep, drop in two or three seeds and refill the hole. Or simply use **Jiffy-7® Peat Pellets** (see Order Form).

## Seedling Heat Mats

Designed for gardeners who need to germinate only a few flats. Unroll the mat on any flat surface and place starter tray(s) directly on top. Direct contact with the poly-vinyl mat means no heat loss. Built-in thermostat holds

temperature at 10 to 20°F above room temperature to a maximum of 85°F. 110 volts. UL approved.  
#53252. 9" x 19-1/2" (for 1 flat), \$35.95  
#53253. 20" x 20" (for 2 flats), \$59.95  
#53254. 48" x 20" (for 4 flats), \$94.95

If sowing in market packs or flats, sow seeds sparingly in rows or scatter thinly across the soil surface, cover with 1/4" of potting mix and firm lightly. Mark containers with variety names and planting dates. Water thoroughly with a fine spray or wet soil from the bottom, allowing water to be absorbed until surface is moist. Keep containers moist, but not wet, and in a warm place, 70 to 80°F, until seeds germinate. To speed germination, apply bottom heat with a seedling mat, checking often, so seedlings can be moved to full light as soon as they emerge.

## GROWING ON:

As soon as seedlings emerge, locate them in the sunniest spot available. Grow lights (at right and pg. 63) may also be used, positioning plants 4 to 8" below the light source, and lighting 12 to 18 hours per day, but off at night. Seedlings grow best at temperatures of 60 to 70°F. Provide air circulation and keep soil surface moist.

If growing plants in market packs or flats, young seedlings are ready for transplanting to individual pots when they develop their first pair of true leaves. Thin plantings down to the strongest single seedling by pinching off weaker ones at the soil level.

Fertilize sparingly when seedlings are 3 to 4 weeks of age, using a foliar feed concentration (1/3 to 1/2 of regular strength) of a complete (20-20-20) water-soluble plant food.

## HARDENING OFF:

About a week to 10 days prior to transplanting to the garden, begin adapting plants to outside conditions. Utilize a sheltered location such as a cold frame or screened-in porch to protect from wind and sun at first, then gradually accustom them to garden conditions as the weather permits. Hardening off strengthens plant cell structure and results in sturdier and more rapidly growing plants after transplanting.

## Light-Booster Single Plant House

Also see **Light-Booster Double Plant House** on pg. 63.

Ideal for growing a wide variety of plants in seed trays and pots. Reflective, silver foil backing bounces light back onto plants, increasing light levels by up to 70%, boosting growth for healthier, more robust plants. Protects plants from frost and harsh weather. Double zippered front panel rolls up to provide easy access. Side vents are covered in micromesh preventing overheating. Frame is made of powder coated steel with tough plastic joints. Extra thick cover is made of tough, long-lasting woven fabric and thick, clear plastic. 29.5"W x 63"H x 15.7"D.  
#52958. \$124.95

**NEW!**

## SITE PREPARATION:

As soon as all danger of frost has passed, seedlings are ready for transplanting to a prepared site in the garden. Tomatoes thrive in any reasonably good soil that is well drained and gets full sun. The soil should be tested (pg. 66) and the pH adjusted to within the range of 5.5 to 6.5, preferably in the fall. This is also a good time for deep spading or plowing to a depth of 8 to 12", and the soil should be enriched by adding compost, leaf mold or peat moss, as needed.

In early spring, till or spade the surface again, and rake to break up clods and remove debris. Fertilize as recommended on your soil test result form. Manure should be used, if at all, with caution, because excessive nitrogen tends to cause tomato plants to produce an overabundance of foliage rather than fruit. Using a fertilizer with a high phosphorus and potash analysis and low in nitrogen (such as 5-10-10) may be beneficial. If the soil is already fairly rich, the addition of organic matter along with a dressing of superphosphate should be sufficient. Some additional side-dressing of fertilizers may be necessary on light, sandy soils at regular intervals (14-21 days) during the growing season.

## Jump Start T5 4 ft. Grow Light System With Timer

Using the built-in timer, simply choose your lighting schedule with a single button press – 12 hours on/12 hours off or 18 hours on/6

hours off. Easy lamp height adjustment makes it a snap to direct light where plants need it most. Just plant seeds and use the simple toggle clamp to lower it to a few inches above the soil. Raise it as plants grow, staying 3 to 6" above the plant canopy. Includes T5 high output grow light fixture with 6400K full-spectrum lamp, Jump Start Light Stand and 6 ft. cord with on/off switch.  
#52960. \$134.95

**T5 Replacement 4 ft. Bulbs**  
#74671. Pkg. of 4, \$49.95

In larger plantings, rows of staked tomatoes should be 30 to 42" apart and spaced in the row at 24 to 30". If tomatoes cannot be staked, row spacings of 6 ft. and plant spacing of 4 ft. in the row are needed for proper air movement and plant development. Staking is the preferred method in limited spaces to produce a much higher percentage of clean, undamaged fruits.

## Tomato Trellis

Get better quality tomatoes and save space by keeping vines off the ground. Provides greater exposure to sun and air for a healthier plant.

Ideal for tomatoes, cucumbers and other vining crops. Durable, extruded one-piece nylon net won't burn or harm tender shoots by sun "heat-up". Tangle-free and reusable. Handy 7" reach-through mesh makes harvesting easy.  
#53283. 5'W x 15'L, \$14.95  
#53284. 5'W x 30'L, \$17.95;  
2+ \$16.45 each

Supports such as wooden stakes or wire cages (pg. 10) should be 40 to 72" tall, the shorter for **determinate** varieties; taller for the **indeterminates**. Determinate or bush varieties reach a certain height and stop growing bearing most fruit over a 4 to 6 week period. Indeterminates continue to grow and flower throughout the season, but have less mature fruits at any one time. **Indeterminate Short Internodes (ISI)** combine the controlled growth habit of a determinate with the unlimited production potential of an indeterminate.

## TRANSPLANTING:

When transplanting, choose a cloudy, wind-free day if possible, or plant in the late afternoon. Be sure the danger of frost has passed, but emergency protection devices, such as plastic jugs with the bottoms removed, or **Kozy Coats™** protectors, may help if a late frost occurs.

## Kozy Coats™

Reusable water filled teepees will reward you with an early season of delicious tomatoes, cucumbers, melons and other heat loving plants. The earlier you plant, the earlier you'll pick. No need to worry about heavy frost or late blizzards. Protects plants through the worst spring weather. Even if the water turns to ice, plants are still protected. Keeps heat in to warm the soil around plants. #53725. Pkg. of 3 for \$18.95  
#53726. Repair Sleeves, Pkg. of 10 for \$8.95

Water plants thoroughly about 1/2 hour prior to planting, using a full-strength water-soluble fertilizer (pg. 64).

When planting, always make sure holes are large enough to accommodate all the roots without crowding. Plants should be set in deeper than they originally were in containers. Since tomato plants root freely from any portion of the stems buried beneath the soil, they may be planted down to the first leaves. For plants that have become leggy, dig out furrows and lay in the plants, burying excessively tall stems.

Partially fill the hole with soil to within about 3" of the surface and water in thoroughly, being careful to settle soil around roots, eliminating air pockets. Finish filling the hole with soil and firm soil around stem.

## Tomato Growing Guide

By John Page. An easily understood, comprehensive explanation for growing the best tomatoes. 32 pages.  
#82455. \$3.95

## CULTURE:

Keeping plants well-watered during the growing season, particularly during periods of drought, will help ensure better yields and help control problems such as Blossom End-Rot, a blackening of the fruit on the blossom end due to a calcium deficiency often related to water uptake. Proper soil testing, lime applications and foliar treatment with calcium solutions will also help avoid this problem.

### Jack's Classic® Tomato FeED 12-15-30

Water soluble plant food for vigorous plant growth from roots to green foliage, abundant flowering and fruit set. Contains micronutrients and magnesium for improved feeding results under diverse soil and growing conditions. It also includes calcium, an

effective nutrient to help prevent Blossom End-Rot. Enhances blooming and keeps leaves green by preventing leaf tip yellowing. Use on tomatoes, peppers, cucumbers, eggplant, squash and zucchini. **Cannot ship to AK, AZ, HI, ND or TN.**

**#51236. 1-1/2 lbs., \$16.95**

The control of weeds is also extremely important when it comes to growing tomatoes, they compete with plants for water, food and space. Keep soil cultivated to about a 1" depth or remove all established weeds and use a liberal application of mulch to prevent any new weeds from emerging. Mulch materials, such as straw or plastic film (pg. 6), also help conserve moisture, protect fruits from rot and blight diseases and maintain even soil temperatures.

Plants grown on stakes or trellises will need tying at regular intervals throughout the summer. Do not tie stems so tightly that they are likely to be strangled by the ties as the stems grow and thicken. Use soft string, strips of old sheeting or other soft, stretchable materials. For those of you into recycling, strips of old pantyhose make excellent ties!

Ripening time varies with location and growing season and is influenced by soil and weather conditions, but the days to maturity cited in this catalog gives you the approximate number of days from transplanting until the first fruits should ripen.

Leave the fruits on the vine until they become completely ripe for best flavor and food value. When tomatoes reach their full color, they are ready for picking – pull them off gently to prevent bruising.

After picking, tomatoes should be stored in a cool, dark place (but NOT in the refrigerator), where they will keep better than if left on the vine. In hot, damp weather fruits will be firmer if picked slightly before they are fully ripe and allowed to ripen indoors away from direct sunlight.

At the end of the season, all green fruits should be picked before the first hard frost. The greenest fruits may be used for making pickles and those of ripening size may be stored in shallow boxes or trays in a cool, frost proof area where they will ripen gradually and provide usable (although not vine-ripened quality) fruits for many weeks.

### Jobe's® Tomato Spikes

A timed-release fertilizer concentrated into spike form for easy application and consistent vigorous growth of tomato plants. Special 6-18-6 analysis is customized for growing tomatoes. Push two spikes into the ground about 6 to 8" from base of each stem and water as required. 18 spikes per bag. **#59450. \$7.95; 3+ \$6.95 each**

### TOMATO SEED COUNT

One oz. of most varieties contains 8,000 to 10,000 seeds. Our pkts. contain the number of seeds stated in the description. Larger sizes contain the following approximate counts:

1/32 oz. contains 250 seeds    1/16 oz. contains 500 seeds    1/8 oz. contains 1,000 seeds  
1/4 oz. contains 2,000 seeds    1/2 oz. contains 4,000 seeds

## DISEASES & PESTS:

To combat diseases, you can grow varieties bred with resistance to common disease problems. With the help of your local extension service, determine what diseases are common in your area. Look for varieties with codes indicating resistance to those diseases. The codes below follow the variety names. NOTE: Even resistant varieties may need some preventative fungicide application, especially in wet seasons when disease pressure is high.

**V – Verticillium Wilt**  
**F – Fusarium Wilt (FF – Races 1 & 2; FFF – Races 1, 2 & 3)**  
**N – Nematodes**  
**T – Tobacco Mosaic Virus**  
**A – Alternaria Stem Canker**  
**St – Stemphylium Gray Leaf Spot**  
**TSWV – Tomato Spotted Wilt Virus**  
**BS – Bacterial Speck**  
**EB – Early Blight**  
**LB – Late Blight**  
**YLCV – Yellow Leaf Curl Virus**

Tomatoes can be attacked by a range of diseases and pests, so inspect plants for problems throughout the growing season. Damaged or stripped foliage is almost a sure sign of tomato hornworms and holes bored into fruits mean tomato fruitworms have hatched. Blotched and yellow foliage may mean blights are present, while stunted plants could mean nematodes have invaded.

Organic gardeners often choose to hand pick uninvited guests, or perhaps utilize insecticidal soaps or pyrethrins as treatments in combination with natural predators. Other gardeners, especially those with larger plantings, may need chemical pesticides for control of various insects and diseases. Be certain that the pesticides you use are labeled for your specific crop and pest, and follow label directions.

### Zonix™ Biofungicide

OMRI Listed. Prevents and protects against Downy Mildew, Late Blight, Root Rot and more. Works by killing the spores that spread disease and helping plants absorb nutrients more easily, giving them better protection. Apply as a foliar spray before the first signs of disease or as a preplanting soil drench to kill disease spores. Can be used to treat seeds, transplants, roots, cuttings and both ornamental and edible plants. Easy-to-use. Mix 1/2 to 3/4 oz. per gallon of water. **#50270. 8 oz. Concentrate, \$49.95**

## CONTAINER GARDENING:

Those with limited space or even just a porch or patio, take heart! Container gardening continues to gain popularity, resulting in varieties bred specifically for growing in pots. Some of our best-selling container varieties, **Better Bush Hybrid** (pg. 16), **Bush Early Girl Hybrid** (pg. 17) and **Patio Hybrid** (pg. 21) are all excellent performers.

Check out our popular **Tomato Patio Planter Bags** (pg. 67). They're ideal for tomatoes and peppers.

For even smaller containers, some of our most popular cherry varieties like **Micro-Tom** (pg. 36) considered to be one of the worlds smallest tomato plants, **Tumbler Hybrid** and **Tumbling Tom Yellow** (pg. 39) perform especially well in hanging baskets.

Always use a good, well-drained potting mix for containers. See our **Ferti-lome Organic Potting Mix (O/F)**. Water when the upper surface of the media dries out.

Fertilize every 10 to 14 days with a water soluble fertilizer or timed-release fertilizer such as **Jobes Tomato Spikes**.

## PRESERVING:

Tomatoes are so versatile that many gardeners plant extras for canning, freezing and juicing. You can easily prepare your own soups, juices, spaghetti and other sauces, tomato pastes, pickles and many other recipes. An enormous amount of information and recipes are available in **The Pickled Pantry** (below). Your local extension service is also helpful for information on home freezing and canning.

### Sauce Master Deluxe

Strains and purees tomatoes, fruits and vegetables quickly and easily. Special screw-type action strains food through a screen while separating and expelling skins and seeds. Also prepares jams, jellies, baby food, pureed soups and mashed potatoes. Stainless steel with an extended refuse chute, large plastic hopper, plunger and a squirt guard to

save on cleanup time. Includes a spout, standard spiral and stainless steel screen, recipes and instructions. The base clamps to edge of tabletop or counter. Easy to assemble and clean. Hand wash only. **#54246. \$75.95**

**#54249. Berry Screen, \$19.95**

**#54251. Salsa Screen, \$19.95**

**#54257(X). Get the Sauce Master & both screens for just \$92.50. Save 20%!**

### Kitchen Crop™ Steam Canner

Saves time, energy and water! Requires only 2 quarts of water as it steam-cooks fresh and frozen foods. Cuts preheating time by 50% over water bath canning and eliminates heavy lifting. Steam is hotter and more efficient than boiling water, killing enzymes that can attack flavor and texture of canned fruits. A built-in temperature indicator on the lid tells you exactly when to begin processing time. The base and rack make an excellent roaster. Aluminum construction ensures quick heat-up and cool-down times. Not recommended for low-acid vegetables and meat. Ideal for tomatoes, fruits and other high-acid foods. Process up to 7 quart or 8 pint jars of high-acid foods at one time. **Note:** Will NOT accommodate half gallon jars. **#53975. \$67.95**

### The Pickled Pantry

By Andrea Chesman. Fresh, contemporary recipes for pickling everything from apples to zucchini. Beginners will welcome the simple, low-fuss methods and thorough coverage of the basics and dedicated home canners will love the large-batch recipes and the stunning variety of flavors. Full color illustrations throughout. Paperback. 304 pages. **#57483. \$19.95**

### CHERRY TOMATO SEED COUNT

One oz. of most cherry varieties contains approximately 12,000 seeds. Our pkts. contain the number of seeds stated in the description.

Larger sizes contain the following approximate counts:  
1/32 oz. contains 375 seeds    1/16 oz. contains 750 seeds  
1/8 oz. contains 1,500 seeds    1/4 oz. contains 3,000 seeds

# Meet Our Famous Giants ...

See Tomato Disease Code Key on page 9

GOLIATH™ BUSH

## Goliath™ Bush Hybrid VF

**68 days.** This remarkable tomato has continued to gain in popularity since its introduction! Specially developed for patio gardeners and those with limited garden space and unsurpassed by any other bush variety. Its attractive, compact plants grow up to 3½ ft. tall and have a patio look ... the surprise is their huge, red, 3 to 4" fruits packed with flavorful meat and high sugar content. Bears consistently up to frost and needs little staking. Determinate.

#00002. (A) pkt. (30 seeds) \$4.35; 3+ pkts. \$3.95 each; (D) 1/32 oz. \$13.95; 2+ \$12.95 each; 4+ \$11.95 each

GOLIATH™ CLUSTER

## Goliath™ Cluster Hybrid VFFT

**65 days.** Typically Goliath™ varieties are big, bold, stand-alone beauties, but this superior cluster-type with all the wow factors caught our eye. Bright red, flavorful, 4 to 5 oz. fruits present themselves for select picking or cluster harvest, holding their fine form and flavor up to 2 weeks. Indeterminate.

#00196. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (V) 100 seeds \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

GOLIATH™ EARLY

## Goliath™ Early Hybrid VFFNT TSWV YL CV

**60 days.** Superb size, perfect shape, continuous production, luscious flavor and broad disease resistance. Expect extra-large harvests of big, round, 7 to 10½ oz., red, sweet fruits. It extends the growing season at the front end by almost a week without sacrificing the things we love most about Goliath™. A better yielder than most early varieties. Indeterminate.

#00003. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each

## Goliath™ Italian Hybrid VFFNTA

**76 days.** *Variety Boy-Oh-Boy.* One of our most versatile Goliaths™! Adds robust flavor to all your favorite dishes. Firm, 8 oz. beefsteak-type fruits, with excellent flavor, turn from apple green with green shoulders to bright red at maturity. Vigorous plants have strong disease resistance. Indeterminate.

#00007. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$11.95; 2+ \$10.95 each; 4+ \$9.95 each

GOLIATH™ ITALIAN

## Goliath™ Old-Fashioned Hybrid T LB

**78 days.** *Variety Beef Maestro.* This large-fruited wonder has all the qualities of a fine heirloom variety – big fruits that are 13 oz. or more and a pleasing combination of sweetness, flavor and very smooth texture. Fruits are oblate and a little flattened with slightly rough shoulders. Plenty of vigor over a long harvest. Indeterminate.

#00009. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$11.95; 2+ \$10.95 each; 4+ \$9.95 each

GOLIATH™ OLD-FASHIONED

# Cages & Supports for Tomatoes & Peppers

## Collapsible Tomato Cages

Simple to set up with one square cage per determinate plant and two stacked on each other per indeterminate plant. Easy to disassemble and store at the end of the growing season as they fold flat. Spikes are made of heavy gauge wire for durability and will sink about 6" in the ground to stabilize cages. Measures 14½"W x 14½"D x 40"H. #83021. 3 for \$39.95

## Jumbo Tomato Cages

These folding cages provide more growing space and support for raising big tomato plants. Constructed of heavy-duty galvanized steel with a powder coated finish of green or red. Taller and wider than Collapsible Cages, with 8 support legs. Measures 18"W x 18"D x 58¼"H.

#54276. Green #54277. Red  
Pkg. of 2 for \$44.95; 2+ pkgs. \$41.95 each

## Collapsible Pepper Cages

A smaller version of our popular Collapsible Tomato Cages. Easy to set up, disassemble and store at the end of the growing season. Perfect for eggplants, as well. 32"H x 14"W. #53472.  
Pkg. of 3 for \$29.95

COLLAPSIBLE PEPPER CAGES

GOLIATH™ PRIME BEEF

GOLIATH™ SUNNY

COLLAPSIBLE TOMATO CAGES

JUMBO TOMATO CAGES

# And See Why Goliath Rules!

## Goliath™ Gentle Giant Hybrid

**68-70 days.** *Variety Key West.* A cubanelle-type with early maturity and large fruit – about 7 to 7½" in length by 2½" in width. Fruits mature from light green to a beautiful red and are perfect for grilling, stuffing, adding to salads and pizzas or eating fresh from the garden – as you will be tempted to do. Plants have added resistance to three races of the dreaded Bacterial Spot disease. #03149. (A) pkt. (15 seeds) \$5.85; 3+ pkts. \$5.35 each

## Goliath™ Goldrush Hybrid

**72-75 days.** *Variety Chardonnay.* This treasure is worth its weight in gold and the rush continues to enjoy its rich rewards! Fruits mature from green to bright yellow, producing sweet and flavorful, crispy, 4-lobed bells. Luminous fruits average 3½" by 4" each and make a bright gold presentation against dark green foliage. Plants are compact and open for easy harvest, with high yield potential. Tobacco Mosaic Virus and Bacterial Leaf Spot resistant. #00011. (A) pkt. (20 seeds) \$3.65; 3+ pkts. \$3.35 each; (V) 100 seeds \$11.95; 2+ \$10.95 each; 4+ \$9.95 each

## Goliath™ Griller Hybrid

**70-73 days.** *Variety Santa Fe Garden.* This variety's finest characteristic is its versatile flavor – pungent enough to make a fantastic roaster, but mild enough to eat fresh if you like a little bite. Smooth fruits, up to 8½" long and about 1" wide, mature green to red and yield better than other hot peppers under cool growing conditions. Widely adaptable with good disease resistance. #00008. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (V) 100 seeds \$10.95; 2+ \$9.95 each; 4+ \$9.05 each

# Totally Tomatoes Exclusives!

*We invite you to try all 5! Your taste buds will thank you!*

## Belle of the Ball Hybrid F

**70 days.** A true hybrid heirloom bred from parents that originated in France over 100 years ago and were reselected for their uniformity. Beautiful, slightly flat, round fruits average 6 to 8 oz., are juicy and full of wonderful flavor that has the perfect balance of acid and sweetness. Great fresh or cooked. High yielder. Determinate. #00069. (A) pkt. (30 seeds) \$3.85; 3+ pkts. \$3.55 each

## Little Hot Shots Hybrid

**60-65 days green; 70-75 days red.** These cute, ¾" cherry peppers are fairly hot, with a Scoville rating of 9,000 to 10,000. Fruits ripen from dark green to a deep crimson red and can be enjoyed at either stage. Excellent fresh, roasted for chili paste, pickled or dried. Sturdy plants grow up to 20" tall and produce an abundance of fruit. An excellent choice for patio containers. #03781. (A) pkt. (30 seeds) \$3.85; 3+ pkts. \$3.55 each

## Super Stakes

Garden stakes are green plastic coated with a steel core. Weather and rust-proof with water tight closures on both ends – won't rot or split. Perfect for tomatoes, peppers and vining plants. Spurred to prevent ties from slipping. Reusable year after year. #57850-4. 4 ft., 20 for \$34.95

WHERE'S THE HEAT? HABANERO

## Where's The Heat? Habanero

**80-85 days.** Attractive fruits are bright golden-yellow and completely sweet – however, there may be an occasional hot pepper, although not as hot as a typical habanero. The best part about these beauties is that they have the same fruity flavor hot habaneros have, but without the insane burn. Large, upright plants create a nice canopy to protect fruits from sunscald. #03797. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

GOLIATH™ SWEET

SWEET SNAX

PERFECTLY PINK

LITTLE HOT SHOTS

BELLE OF THE BALL

## Goliath™ Jalapeño Hybrid

**70-75 days.** Giant, 5" by 2", broad shouldered, thick walled beauties mature from a dark, glossy green to scarlet red. Their large size and consistent production all season long makes them ideal for all your slicing, grilling and stuffing needs. Fruits pack good heat with excellent flavor and texture. Scoville rating is 3,000 to 5,000. Resistant to Tobacco Mosaic Virus and Potato Virus Y. #00006. (A) pkt. (20 seeds) \$5.65; 3+ pkts. \$5.15 each

## Goliath™ Sweet Hybrid

**71 days.** *Variety Cabernet.* If you've grown to love the Goliath™ family of superb tomatoes you'll really appreciate this sensational sweet bell, one of the largest yet! Massive, 4-lobed fruits set well under a variety of conditions. Vigorous plants develop huge, elongated, thick-walled bells measuring 4" by 7", with plenty of substance and terrific flavor! Left on the plants, fruits will turn from green to dark red and contain more Vitamin C than oranges! Photo courtesy of The Ervin Walter family in Cresco, Iowa. #00005. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.55 each

GOLIATH™ JALAPEÑO

# Large, Mouthwatering Hybrids!

Varieties on pages 12-16 typically grow fruits 10 oz. or larger

AMERICAN ORIGINAL RED

## American Original Red Beefsteak Hybrid

**65 days.** Gardeners everywhere will love the heirloom look and feel of these large, 12 to 14 oz. beefsteak fruits that were bred to hold their texture and flavor longer after picking. Packed with exactly the right amount of flavor for fresh eating in salads and on sandwiches. Indeterminate.

#00025. (A) pkt. (20 seeds) \$6.25; 3+ pkts. \$5.65 each

BEEFMASTER

## Beefmaster Hybrid VFNASt

**80 days.** One of the most popular hybrid beefsteak-types with improved disease resistance, better yields, larger fruits and good tolerance to cracking/splitting. Solid, meaty, bright red tomatoes weigh up to 2 lbs. Bacterial Leaf Spot resistant. Indeterminate.

#00061. (A) pkt. (30 seeds) \$5.05; 3+ pkts. \$4.55 each

BELLA ROSA

## Bella Rosa Hybrid VFFAST TSWV

**75 days.** Large, 10 to 12 oz. bright red tomatoes are round, firm and highly flavorful with a good balance of acid and sugar. A heat tolerant variety which does well in hot, humid areas. Plants produce high yields. Perfect for home gardens. Determinate.

#00066. (A) pkt. (20 seeds) \$5.65; 3+ pkts. \$5.15 each; (V) 100 seeds \$14.25; 2+ \$13.25 each; 4+ \$12.25 each

## Better Boy Hybrid VFNASt LB

**75 days.** A spectacular, mid-season variety with plump, juicy, deep red tomatoes that often weigh more than 1 lb. Once they arrive they just keep on coming! Fruits are extremely flavorful, with flesh that's juicy, yet firm. Heavy foliage protects fruits from sunscald. A highly adaptable variety that thrives in nearly any climate. Demonstrates excellent disease resistance. Indeterminate.

#00068. (A) pkt. (30 seeds) \$5.75; 3+ pkts. \$5.25 each; (G) 250 seeds \$19.95; 2+ \$17.95 each; 4+ \$16.45 each

BETTER BOY

## Better Boy Plus Hybrid VFNTAST TSWV

**75 days.** Bright red, unbelievably juicy fruits weigh up to 1 lb. and with a higher Brix of 6.6, it's packed with an unbeatable, sweeter flavor. PLUS it's highly resistant to Tobacco Mosaic Virus, Tomato Spotted Wilt Virus and Fusarium Crown & Root Rot. Indeterminate.

#00074. (A) pkt. (15 seeds) \$5.35; 3+ pkts. \$4.85 each

## Big Beef Hybrid VFFNTAST

**73 days. 1994 AAS Winner.** A miracle of modern breeding. In AAS trials, judges described this variety as "the best tomato yet developed". Smooth fruits are globe-shaped, weighing 9 to 16 oz. Widely adaptable, it's a good choice in virtually any climate, readily overcoming adverse growing conditions. Coupled with old-fashioned, rich flavor, it features bred-in hybrid qualities – colossal fruit size and yield, uniformity and a full spectrum of disease resistance. Indeterminate.

#00075. (A) pkt. (30 seeds) \$6.75; 3+ pkts. \$6.15 each; (G) 250 seeds \$21.95; 2+ \$19.95 each; 4+ \$17.95 each

BETTER BOY PLUS

## "PLUS" COLLECTION

One packet each of Better Boy Plus, Big Beef Plus, Celebrity Plus (pg. 17) & Lemon Boy Plus (pg. 19). #00889(X). 4 pkts. for just \$17.50

## Big Beef Plus Hybrid VFFAST TSWV

**75 days.** With the added crimson gene, this beauty is visibly deeper red inside and out. Fruits are sweeter with a higher Brix of 6.2 and weigh 9 to 16 oz. PLUS it's highly resistant to Tomato Spotted Wilt Virus, Fusarium Crown & Root Rot and Tomato Torrado Virus with intermediate resistance to Root-knot Nematode. Higher yield potential. Indeterminate.

#00080. (A) pkt. (15 seeds) \$5.75; 3+ pkts. \$5.25 each

## Big League Hybrid

**65-70 days.** Produces the largest fruit of any true container variety on the market to date! Beautiful, 14 to 21 oz., beefsteak-type, red tomatoes grow on plants that will require support due to the sheer weight of the fruit. Plants only grow up to 48". Determinate.

#00086. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each

## Big Zac Hybrid

**80 days.** This prize winner was bred by Minnie Zaccaria, a New Jersey gardener who tirelessly sought the perfect cross-pollination of two heirlooms, creating this enormous tomato with fruits that repeatedly tip the scales at an amazing 4 to 6 lbs. An excellent tomato in every respect – meaty, delicious and true-growing every time! Furthermore, it has impeccable ancestors ... a beautiful red heirloom beefsteak-type and a large, pink, open-pollinated beefsteak heirloom. Indeterminate.

#00087. (A) pkt. (15 seeds) \$3.65; 3+ pkts. \$3.35 each; (V) 100 seeds \$19.95; 2+ \$17.95 each; 4+ \$16.45 each

## BRANDYMASTER HYBRID SERIES VFN

**70-80 days.** This modern strain of classic Brandywine delivers world famous flavor packed into large fruits, unrivaled among similar varieties. Both Red and Yellow fruits weigh up to 1 lb. and have firm, juicy flesh with an incredible, rich tomato taste. Potato-leaved plants do well under a wide range of conditions. Fruits mature later in northern areas. All are indeterminate.

Red #00608.

Yellow #00828.

Prices, above 2, mix or match:

(A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each

## DID YOU KNOW...

**Blossom End-Rot is one of the most common tomato problems! It's a disorder that can be avoided by choosing resistant varieties, consistent watering and fertilizing with low nitrogen & calcium rich tomato specific food. Try Tomato Maker® on pg. 64.**

BIG BEEF

BIG BEEF PLUS

BIG LEAGUE

BIG ZAC

### Buffalosun Hybrid VFFF

**70 days. 2020 AAS Regional Winner (Northeast/Southeast).** The unique yellow with red/orange flame coloration is as beautiful on the outside as it is on the inside with its nicely marbled interior. Ribbed, flattened, 18 to 24 oz. huge, beefsteak-type fruits have a better texture, better crack resistance and higher yields than comparable yellow varieties. Sweet, tender flesh has the look of an heirloom without the mushiness often associated with them. In AAS trials it outlasted similar varieties when disease hit in late summer. Intermediate resistance to Late Blight. Indeterminate. **#00118. (A) pkt. (10 seeds) \$6.25; 3+ pkts. \$5.65 each**

### Burpee's Big Boy Hybrid A

**78 days.** The hallmark of this large, crack-free tomato is its absolutely superb flavor. Bright red, firm, meaty fruits often weigh 1 lb. or more and feature smooth, blemish-resistant skins. Indeterminate. **#00128. (A) pkt. (30 seeds) \$4.85; 3+ pkts. \$4.45 each; (G) 250 seeds \$19.95; 2+ \$17.95 each; 4+ \$16.45 each**

### Bush Champion II Hybrid VFFAST

**65 days.** One of the best varieties for small space gardens and containers, bar none. Compact plants grow to just 24" tall, producing extra-early yields of big, 8 to 12 oz. fruits with excellent flavor. Displays similar qualities of its popular namesake Champion and exceeds our expectations with satisfying performance in virtually every climate. Good disease resistance. Determinate. **#00148. (A) pkt. (20 seeds) \$10.45; 3+ pkts. \$9.45 each**

#### "BIG" COLLECTION

One packet each of Big Beef, Big Zac & Burpee's Big Boy. #00881(X). 3 pkts. for just \$13.50. Save 10%!

### CHEF'S CHOICE HYBRID SERIES

This award winning (except Purple and Striped) series, features superior taste and texture. Great for canning, stewing and eating fresh. All are crack resistant and indeterminate.

#### Bi Color FTA

**75 days. 2020 AAS Regional Winner (Mountain/Southwest, Southeast, West/Northwest).** Large, eye-catching fruits weigh 10 to 12 oz. each, are globe-shaped and absolutely delicious! Heirloom-type, pale yellow tomatoes are brushed with deep red splashes on the blossom end and throughout the lemony yellow flesh. Vigorous plants are heavy yielders. Scab resistant. **#00160.**

#### Black VFT

**75 days. 2019 AAS Regional Winner (Mountain/Southwest, Southeast, West/Northwest).** Large, dark red-purple, 8 to 12 oz. fruits have green shoulders and a flattened globe shape. Delicate skin surrounds very juicy, deep crimson flesh that's full of flavor and has a slight saltiness that enhances the taste. **#00164.**

#### Green VF

**90 days. 2016 AAS Winner.** Beautiful green fruits, 6 to 7" in diameter, have subtle yellow stripes and a wonderful sweet, yet tangy, flavor. Plants, with dark green foliage, produce heavy yields of large, 9 to 10 oz. beefsteak type fruits, with a flattened globe shape. A unique choice that's sure to become a staple in all your favorite dishes! **#00176.**

#### Orange FTA

**75 days. 2014 AAS Winner.** Bred from the popular heirloom tomato Amana Orange (pg. 21), this variety captures the wonderful flavor and unique color of the heirloom, but with much earlier maturity and improved disease resistance. Beefsteak-type, 5 to 6" fruits have a flattened globe shape and average 9 to 12 oz. each. Bright orange, almost neon, both inside and out – won't fade or discolor when cooked. Tomato Mosaic Virus resistant. **#00178.**

Prices, above 9, mix or match: (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each

### Country Taste Hybrid VFFT

**70 days.** Tomato lovers won't get enough of these smooth, round, deep red fruits weighing up to 1 lb. Color is consistent from the skin straight through the center. Flesh is firm and juicy, packed with real tomato flavor. Produces high yields of beefsteak fruits that pay tribute to the old-time qualities of hearty, country-style tomatoes. Great for fresh eating. Indeterminate. **#00205. (A) pkt. (20 seeds) \$5.15; 3+ pkts. \$4.65 each**

### Damsel Hybrid VN LB

**73 days.** An outstanding pink beefsteak variety with impeccable heirloom flavor! Uniform fruits weigh up to 12 oz., make an excellent slicer and are perfect in salads. In trials, it was an excellent producer, even in less than ideal conditions. Compact plants grow 4 to 5 ft. Indeterminate. #00218. (A) pkt. (10 seeds) \$5.65; 3+ pkts. \$5.15 each

DIXIE RED

### Dixie Red Hybrid VFFNA TSWV

**80-90 days.** Large firm fruits weigh 11 to 12 oz. each and have a deep oblate-shape. Plumpness, deliciousness and juiciness makes this the perfect choice for fresh salads, in soups or on those tasty BLT's. An early-main season variety bred to perform well in hot, humid climates. Highly resistant to Gray Leaf Spot. Heavy yielder. Determinate. #00221. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

GALAHAD

### Galahad Hybrid VFFFN TSWV LB

**75 days. 2020 AAS Winner.** If you're having problems growing tomatoes because of Late Blight, then you'll need to try this variety bred from parent lines that are both resistant. Large, round, great tasting, 12 oz. fruits have broad shoulders and are slightly ribbed. Excellent for canning, salsas, sauces and sandwiches. AAS judges agreed that the sweet, meaty flavor is better than that of comparable varieties and boasts good crack resistance. Strong sturdy plants are high yielding and also resistant to Gray Leaf Spot. Determinate. #00284. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each

GRAND MARSHALL

### Grand Marshall Hybrid VFFA

**78 days.** Attractive, large to extra large, 10 to 14 oz. beefsteak-type fruits are firm, smooth shouldered, deep oblate shaped and grow in clusters of 2 to 3. Mild flavored fruits have the perfect balance of acid to sugar ratio. Bred to have good performance under hot conditions and when bacterial pressure is present. Matures early for a main season hot set variety. Ideal for home gardens and fresh markets. Strong, vigorous plants produce high yields. Intermediate resistance to Gray Leaf Spot and Tomato Yellow Leaf Curl Virus. Determinate. #00314. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

GRANDMA'S PICK

### Grandma's Pick Hybrid VFNST

**78-80 days.** A modern day hybrid combining the look and taste of an heirloom beefsteak with earlier, more productive and disease resistant yields. Fruits are deeply globed, weigh 10 to 14 oz. each, have an excellent flavor and are high in lycopene. An excellent choice for home gardens, specialty markets and roadside stands. Indeterminate. #00325. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.25 each

MOUNTAIN DELIGHT

## HEIRLOOM MARRIAGE™ HYBRID SERIES

These varieties are produced from modern day unions of heirloom parents, providing hybrid vigor while maintaining the virtue and integrity of their old-fashioned beginnings. They were bred for improved yield, earlier maturity, fewer blemishes and the same old-time flavor we've all come to love.

All are indeterminate. **Also see Marzina on page 20.**

### Big Brandy

**75-80 days.** Pink beefsteak-type – a cross of Big Dwarf and Brandywine. 12 to 15 oz. #00077.

### Cherokee Carbon

**75-80 days.** Purple beefsteak fruits, 10 to 12 oz., are full of rich flavor. A cross of Cherokee Purple and Carbon. #00172.

### Genuwine

**70-75 days.** Slicing type – a cross of Costoluto Genovese and Brandywine. 10½ to 11½ oz. #00279.

Prices, above 3, per variety:

(A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

## OUR FAMOUS MOUNTAIN HYB. SERIES

Working at NCSU Mountain Crops Research Station, Randy Gardner, Ph.D., developed a family of exceptional fresh market varieties particularly well-adapted to the Southeast. While specially bred for mountain regions and higher elevations, nationwide trials have suggested that the series is well-adapted everywhere! Ideal for the home garden or fresh market.

**Also see Magic pg. 21 & Vineyard pg. 36.**

### Mountain Delight VFF

**70 days.** Similar to Mountain Fresh Plus and Mountain Spring, but plants are more compact with slightly higher yields. Fruits weigh 10 oz. and are packed with flavor. Determinate.

#00487. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each;

(D) 1/32 oz. \$10.50; 2+ \$9.50 each; 4+ \$8.60 each

### Mountain Fresh Plus VFFN EB

**79 days.** Smooth, clean fruits often exceeding 3½", are 10 to 12 oz., have uniform color and great flavor. Produces good yields. Smooth blossom scar. Determinate.

#00490. (A) pkt. (30 seeds) \$6.75; 3+ pkts. \$6.15 each;

(G) 250 seeds \$27.95; 2+ \$25.45 each; 4+ \$22.95 each

### Mountain Gem VFF TSWV LB

**74 days.** Crimson red, deliciously sweet flesh has a balanced sugar to acid flavor. Deep oblate to flattened globe-shaped, firm, 6 to 8 oz. fruits have clean blossom ends. Vigorous plants yield high concentrated sets of excellent quality fruit. Ideal for home gardens and container gardening. Highly resistant to Tomato Mosaic Virus. Determinate.

#00489. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

### DID YOU KNOW...

The majority of diseases that affect tomato plants are fungal in nature, spread by wind, rain & insects and less often from the soil itself? Fungal diseases can be prevented by using proper sanitation, planting specifically resistant varieties, rotating crops and applying the right fungicide at the right time. Try Revitalize on pg. 65.

**Mountain Majesty VFF TSWW**

**78 days.** Good yields of high quality, deep oblate to flattened globe-shaped, extra large fruits have the ability to stay firm when fully ripe. If you love the other varieties in this series, you will definitely want to include this deep red beauty in your garden. Vigorous plants offer heavy foliage to protect fruits. Includes intermediate resistance to Tomato Spotted Wilt Virus. Good crack resistance. Determinate.

#00494. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

**Mountain Merit VFFFN TSWV EB LB**

**75 days. 2014 AAS Winner.** A praise-worthy variety offering multiple resistances not typically combined in most varieties. Deep red, 8 to 10 oz. fruits are firm, oblate to flattened, with generally smooth blossom end scars – delicious and makes the perfect slicing tomato. A fresh market variety with excellent resistance to cracking. Determinate.

#00497. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each

**Mountain Pride VFFAST BS**

**70 days.** The first in the Mountain series with 6 oz. fruits that are crack resistant, jointed and green shouldered. Plants are vigorous and uniform. Determinate.

#00496. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$8.25; 2+ \$7.45 each; 4+ \$6.75 each

**Mountain Rouge VFN LB**

**73 days. 2019 AAS Winner.** This pink beauty, just like its sister varieties, has a very good disease package. Gardeners will enjoy a generous harvest of large, beefsteak-type tomatoes weighing a hefty 12 to 14 oz. each. Fruits have thick flesh with minimal seeds and a delicious flavor with just the right balance of acid and sugar. Performs especially well in cooler climates. Indeterminate.

#00498. (A) pkt. (10 seeds) \$6.95; 3+ pkts. \$6.35 each

**Mountain Spring VFF**

**72 days.** Appreciated for its superb, 8 to 10 oz. fruits with good firmness that are particularly resistant to cracking and Blossom End-Rot. Determinate.

#00500. (A) pkt. (30 seeds) \$5.85; 3+ pkts. \$5.35 each; (G) 250 seeds \$22.95; 2+ \$20.95 each; 4+ \$18.95 each

#00865(X). Get 1 packet each of all 10 Mountain varieties (including Magic on pg. 21 & Vineyard on pg. 36) for just \$43.95. Save 20%!

**Park's Whopper CR Improved Hybrid VFFN**

**65 days.** Earlier and tastier than the original Whopper, with big, red, 4" fruits that have improved disease and crack resistance, as well as a more uniform fruit size. You'll start harvesting early and pick until frost! A popular choice for fresh markets and home gardens. Vigorous, stocky plants. Indeterminate.

#00533. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each; (G) 250 seeds \$37.95; 2+ \$34.45 each; 4+ \$31.45 each

**Red Snapper Hybrid VFFAst**

**70-75 days.** Attractive, large 8 to 12 oz. fruits are deep red, smooth, firm and deeply oblate. Flesh is scarlet red and full of great tomato flavor. Makes a great slicer. Medium tall plants have dark green foliage that provides moderate cover for fruit protection. Sets well in the heat. Widely adaptable and a high yielder. Developed in cooperation with University of Florida's Food and Agricultural Science tomato breeding program. Intermediate resistance to Tomato Spotted Wilt and Tomato Yellow Leaf Curl Virus. Determinate.

#00604. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

**Roadster Hybrid VFFFA TSWW**

**65-70 days.** This candy apple red beauty will turn heads with its glossy, 8 to 12 oz., very firm fruits. Tomatoes have smooth shoulders, are globe-shaped, and have exceptional taste with rich red color inside and out. Plants have a high yield potential and are widely adaptable. Great for container gardening. Resistant to Fusarium Crown & Root Rot with intermediate resistance to Gray Leaf Spot. Determinate.

#00636. (A) pkt. (10 seeds) \$5.15; 3+ pkts. \$4.65 each

**RUBEE HYBRID VFFSt SERIES**

Early maturity, great flavor, amazing color, thin, smooth skin, crack resistance and fantastic disease resistance – this series has it all.

All are very good slicers. Highly resistant to Fusarium Crown & Root Rot, Leaf Mold and Tomato Mosaic Virus.

**Dawn**

**57-60 days.** Fruits, 8 to 12 oz., are deep oblate, smooth, firm, have light green shoulders and are deep red. Flavor has a wonderful balance of sweet with a touch of tartness and a hint of floral overtones. Compact indeterminate. #00628.

**Goddess**

**60-65 days.** High-quality, 8 to 10 oz. juicy fruits are flattened globe-shaped, firm and have a deep red color at maturity. Productive plants were top performers in trials. Features intermediate resistance to Late Blight. Indeterminate. #00629.

**Plus**

**65 days.** Juicy fruits have thick, meaty flesh, weigh 8 to 10 oz., are flattened globe-shaped, firm and deep scarlet red at maturity. Smooth shouldered fruits grow in clusters of 2 to 3. The best slicer in the series. Indeterminate. #00633.

**Prize**

**65 days.** Extra large, 9 to 10 oz. fruits are flattened globe-shaped, firm, have light green shoulders and are deep scarlet red at maturity. Sets clusters of 2 to 4, almost seedless fruits. Most popular in the series for flavor.

Super productive plants have good leaf cover. Compact indeterminate.

#00621.

### SummerPick Hybrid VFFFSt TSWV

**70-75 days.** Vine-ripened fruits have the perfect balance between acid and sweetness. An early-mid season variety with high yields of impressive 11 oz. fruits. Strong, vigorous plants produce concentrated fruit sets. Adapts well to patio containers. Excellent disease resistance. Determinate.

#00689. (A) pkt. (15 seeds) \$5.25; 3+ pkts. \$4.75 each

### Sunny Boy Hybrid VF

**70-75 days.** Striking, bright yellow, beefsteak-type fruits weigh approx. 10 to 12 oz. each and can sometimes even weigh up to 16 oz.! Fruits are globe-shaped, firm, meaty and have less seeds than comparable red varieties. Very sweet and flavorful with a hint of acid, this plump slicer is perfect in salads, on sandwiches and will really shine on vegetable trays. Plants set well and are widely adaptable. Excellent for roadside stands and farmers markets. High yielding. Indeterminate.

#00704. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

SUNNY BOY

### Super Fantastic Hybrid VFN

**70 days.** An improved version of the ever-popular Fantastic (pg. 18) with stronger disease resistance. Heavy yields of solid, meaty, smooth fruits weigh an average of 10 oz. each. Indeterminate.

#00720. (A) pkt. (30 seeds) \$7.95; 3+ pkts. \$7.25 each; (V) 100 seeds \$18.95; 2+ \$17.45 each; 4+ \$15.95 each

SUPER FANTASTIC

### Amelia VR Hybrid VFFFNSt TSWV

**75 days.** Specially bred for Southeastern gardens – this southern belle thrives in hot climates. Produces large, 8 to 10 oz. firm, uniform fruits. Very flavorful and excellent when picked green or red. Great for sandwiches, salads and salsas. Good crack resistance and performs best with moderate pruning. Perfect for container gardening. Heavy yielder. Determinate.

#00033. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each

### Andiamo Hybrid

**65 days.** A true San Marzano type. Strong, vigorous plants produce heavy yields of bright red, 5" elongated, 5 to 6 oz. fruits that are firm, meaty and loaded with sweet flavor and just the right amount of acid. Excellent for fresh eating, salsas and perfect for making pastes, sauces and for canning. Indeterminate.

#00056. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

SUPERSONIC

### Bendida Hybrid VFFT

**60-80 days.** Beautiful deep orange, glossy fruits are firm, round, average up to 7 oz. each and are high in beta carotene. Fruits grow in clusters of 6 to 7 and have a superbly, well-balanced flavor. Perfect for pastes, sauces, canning, salads and slicing. High yielding. Resistant to Leaf Mold. Semi-determinate.

#00071. (A) pkt. (15 seeds) \$4.35; 3+ pkts. \$3.95 each

TOUGH BOY

BILTMORE

BETTER BUSH

### Supersonic Hybrid VF

**75 days.** Big, red mid-season fruits with great flavor, size and quality! Firm, meaty, very large, 12 oz. fruits are slightly oblate in shape and are smooth, with excellent resistance to cracking. Sturdy plants are vigorous and disease resistant. Indeterminate.

#00732. (A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.05 each; (G) 250 seeds \$18.95; 2+ \$17.45 each; 4+ \$15.95 each

### Tough Boy Hybrid VFFNSt

**75 days.** Also known as Momotaro. Extra early and vigorous. Pink, very sweet fruits weigh approx. 1 lb. and grow in clusters of 6 to 7. Ideal for home gardens or fresh markets. Plants have medium sized leaves and medium-short internodes. Intermediate resistance to Bacterial Wilt. Crack resistant. Indeterminate.

#00778. (A) pkt. (15 seeds) \$6.75; 3+ pkts. \$6.15 each

## Is Medium to Large Your Ideal Size?

Varieties on pages 16-20 typically grow fruits 6 to 10 oz.

### Best Boy Hybrid VFN

**75 days.** Beautiful bright red, firm, 8 oz. deep globe shaped fruits are smooth and really delicious. Some claim it's better than Better Boy (pg. 12) – you be the judge! An excellent choice for mid-early production. Vigorous plants produce heavy yields. Indeterminate.

#00067. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

### Better Bush Hybrid VF

**68 days.** This early home garden variety bears all season long. Plants feature a strong central stem capable of supporting its 48" height with very little need for staking. Produces big 4" fruits that are mouth-watering, sweet and meaty, with the much-sought-after real tomato taste. If you love container gardening, definitely try this one! Determinate.

#00072. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

### Biltmore Hybrid VFFAST

**70 days.** This mid-season variety is a reliable producer with manageable plant size and an extended harvest of large, smooth, globe-shaped, 8 to 10 oz. fruit with deep red exteriors. Matures earlier than varieties of similar size with fully developed flavor that has proven tough to beat in farmers market taste tests.

Semi-determinate.

#00085. (A) pkt. (20 seeds) \$7.25; 3+ pkts. \$6.55 each

**75-80 days.** Beautiful, large, up to 6 oz., saladette/roma-type, high quality fruits. Great tasting, smooth, bright red tomatoes have an elongated oval shape, are uniform and very firm with beautiful color inside and out. Fruits grow in clusters on compact plants that have short internodes, mid vigor and excellent yield potential. Widely adaptable and performs well grown under conditions from warm to cool with good heat set ability. Highly resistant to Tomato Mosaic Virus Races 0-2. Indeterminate. #00163. (A) pkt. (10 seeds) \$6.25; 3+ pkts. \$5.65 each

## Celebrity Hybrid VFFNTAST

**70 days.** This 1984 AAS Winner established a new standard for main-crop hybrids requiring multiple disease resistance. Highly adaptable from Canada to the South. Medium-sized, globe-shaped fruits are crack resistant and average 7 oz. Semi-determinate. #00175. (A) pkt. (30 seeds) \$5.55; 3+ pkts. \$5.05 each; (G) 250 seeds \$23.95; 2+ \$21.95 each; 4+ \$19.95 each

## Celebrity Plus Hybrid VFFNTAST TSWV

**70 days.** Large, smooth 8 oz. fruits have an outstanding flavor. Widely adaptable for fresh markets and home gardens. PLUS it's highly resistant to Tomato Spotted Wilt Virus. Semi-determinate. #00195. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each

## Champion II Hybrid VFFNTA YLCV

**62-65 days.** Features more disease resistance than the original Champion Hybrid while maintaining the same delicious flavor and timing. Delivers high yields of meaty, sweet, 6 to 10 oz., bright red fruits that are great on sandwiches and burgers. Indeterminate. #00180. (A) pkt. (30 seeds) \$6.95; 3+ pkts. \$6.35 each

## Charger Hybrid VFFFAST YLCV

**72 days.** This variety takes charge of disease resistance – features strong resistance to the dreaded Yellow Leaf Curl Virus. Brilliant red, oblate, 8 to 10 oz., fruits are very firm and smooth shouldered with good flavor that's high in sugar and low in acid. A high yielding salad variety that's perfect for home gardens. Widely adaptable. Crack resistant. Determinate. #00183. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

## Defiant Hybrid VFF EB LB

**70 days.** This variety cracks the genetic code to produce the first tomato bred for resistance to the modern strains of Late Blight. High yielding plants produce 6 to 8 oz. globe-shaped fruits that combine disease resistance with great old-fashioned tomato flavor. Determinate. #00213. (A) pkt. (10 seeds) \$8.15; 3+ pkts. \$7.35 each

## Early Choice Black Hybrid FNT

**68-70 days.** A true black variety with flattened, round, 5 to 6 oz. eye-catching tomatoes that grow in clusters. Fruits have a combination of attractive maroon flesh and green gel. Flavor is delicious with the perfect acid to sugar balance. A definite attention-getter at roadside stands and in the garden. Vigorous plants produce heavy yields. Crack resistant. Indeterminate. #00236. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

## Epic Tomatoes: How to Select & Grow the Best Varieties of All Time

By Craig LeHoullier. From sowing to harvest, this book has everything you need to know about more than 200 varieties of tomatoes. A comprehensive guide to various diseases and pests of tomatoes and how to avoid them. Full color photographs throughout. 256 pages. Paperback. #53556. \$18.95 each

EARLY GIRL

**Early Girl Hybrid VFF** 🔥

**57 days.** It's hard to find tasty, full-sized fruits like this extra-early in the season! Meaty, ripe red fruits, 4 to 6 oz., are slightly flattened and bright crimson throughout. Very appealing, with firm texture and blemish-resistant skin. Heavy yields on hardy vines. Indeterminate.

**#00240. (A) pkt. (30 seeds) \$6.05; 3+ pkts. \$5.45 each; (G) 250 seeds \$23.95; 2+ \$21.95 each; 4+ \$19.95 each**

FANTASTIC

**Fantastic Hybrid VFA**

**65 days.** Globe-shaped, scarlet red, 3 to 5", medium-sized fruits are almost crack-free and rich in beefsteak flavor. Heavy yields are excellent for canning. Indeterminate.

**#00262. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (D) 1/32 oz. \$9.95; 2+ \$9.05 each; 4+ \$8.15 each**

FLORIDA 47

**Florida 47 Hybrid VFAST**

**75 days.** Home gardeners will love this variety, originally bred for commercial production, for its versatility in using fruits green or vine ripened red. Smooth, uniform fruits are deeply oblate and weigh up to 10 oz. Great for juices, sandwiches, salads and canning. Plants have excellent foliage cover, produce heavy yields and are highly disease resistant. Determinate.

**#00274. (A) pkt. (10 seeds) \$5.35; 3+ pkts. \$4.85 each**

**Fried Green Hybrid**

**80 days.** The first variety specifically bred to remain firm when cooked. Versatile fruits average 6 to 7 oz. each and can be harvested when apple green or yellow. Holds well in the field and on the shelf, so that you can make the most of each harvest. Plants continue to set throughout the season. Indeterminate.

**#00275. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each**

FRIED GREEN

**Giant Garden Paste Hybrid**

**95 days.** This delightful variety has the perfect balance of sugary sweetness and tangy acids. Gorgeous large, bright red fruits have a unique ruffled, boat shape and weigh 8 to 10 oz. Solid, meaty flesh has good gel content and is excellent for canning, sauces or eating fresh. Heavy yielder. Crack resistant. Indeterminate.

**#00296. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each**

GIANT GARDEN PASTE

**Heatmaster Hybrid VFFNTAST**

**75 days.** Bred for hot and humid tropical climates, Heatmaster has the ability to set fruit under higher temperatures than other varieties. Produces exceptional yields of large, 7 oz., firm fruits that have a good shelf life. Fruits are an attractive red and have a deep oblate shape. Excellent for fresh eating. Bacterial Wilt resistant. Determinate.

**#00348. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each**

HEATMASTER

LA ROMA III

JOLENE

JETSETTER

HOMESLICE

HUSKY RED

JET STAR

**Homeslice Hybrid VFF**

**63 days.** Want picture-perfect slices full of mouth-watering, real tomato flavor? Then grow some of these exceptionally tasty, bright red tomatoes! Vigorous and early, with heavy yields of 5 to 6 oz. fruits. Compact plants grow 18 to 24" tall – perfect for containers or small gardens. Determinate.

**#00352. (A) pkt. (15 seeds) \$5.35; 3+ pkts. \$4.85 each**

**Husky Red Hybrid VFFAST**

**68 days.** The unlimited production potential of an indeterminate and the controlled growth of a determinate combine for season-long production! Attractive fruits weigh 5 to 7 oz. Compact plants are only 4 to 4½ ft., with dark green, rugose foliage and strong, thick central stems. Ideal for small spaces, patios, planters and even larger pots. Dwarf indeterminate.

**#00367. (A) pkt. (30 seeds) \$5.75; 3+ pkts. \$5.25 each**

**Jet Star Hybrid VF** 🔥

**70 days.** Prolific producer of big, globe-shaped fruits that ripen all the way through. Excellent flavor with low acidity. Nice, compact habit. Indeterminate.

**#00392. (A) pkt. (30 seeds) \$4.75; 3+ pkts. \$4.35 each; (G) 250 seeds \$16.95; 2+ \$15.45 each; 4+ \$13.95 each**

**Jetsetter Hybrid VFFNTAST** 🔥

**64 days.** Earlier than Jet Star, with better disease resistance! Jetsetter sacrifices nothing for its early maturity – delivers real tomato flavor in large, 8 oz. fruits that are smooth, juicy, flattened globes. Consistent huge yields and good disease resistance. Indeterminate.

**#00395. (A) pkt. (30 seeds) \$4.15; 3+ pkts. \$3.75 each**

**Jolene Hybrid VFFST**

**73 days.** Attractive, large to extra-large, 8 to 10 oz. fruits have deep, dark red flesh and an excellent flavor. Early maturing, globe-shaped, 3½ to 4" fruits are firm with a clean blossom end and uniformly smooth shoulders. In trials, it displayed outstanding performance in the southeast. A great fresh market variety. Highly resistant to Fusarium Crown & Root Rot with intermediate resistance to Tomato Yellow Leaf Curl Virus. Determinate.

**#00394. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each**

**La Roma III Hybrid VFFNAST** 🔥

**76 days.** An excellent roma tomato known for its vigor and uniformity. Bright red, meaty fruits are large, 5 to 8 oz. and full of flavor. Disease resistant plants are very vigorous and produce fruit abundantly throughout the growing season. The perfect variety for any home gardener who enjoys canning or making their own pastes and sauces. Determinate.

**#00422. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each**

# A Colorful Rainbow Of Varieties

See Tomato Disease Code Key on page 9

## Lemon Boy Hybrid VFNASt

**72 days.** Lemon yellow, not golden, in color. Highly adaptable plants yield large, deep oblate fruits, averaging 6 to 7 oz. and about 3½" across. Out yields all other "golden" tomatoes available. Mild-flavored and adds an inviting color to salads. Indeterminate.

**#00427. (A) pkt. (30 seeds) \$5.85; 3+ pkts. \$5.35 each; (G) 250 seeds \$22.95; 2+ \$20.95 each; 4+ \$18.95 each**

## Lemon Boy Plus Hybrid VFFNTASt

**75 days.** Attractive 6 to 7 oz. fruits have a unique yellow color and a sweeter (with a higher Brix of 6.6), yet tangy flavor. PLUS it's highly resistant to Tobacco Mosaic Virus, Fusarium Crown & Root Rot, Tomato Torrado Virus and Leaf Mold. Indeterminate.

**#00430. (A) pkt. (15 seeds) \$4.85; 3+ pkts. \$4.45 each**

## Loki Hybrid FFNT

**70-75 days.** Delicious, medium round fruits grow up to 3¼" and have fewer blemishes than typical heirloom varieties. Early-maturing, bright red fruits are full of delicious flavor, weigh approx. 6 to 8 oz. each and make excellent slicers. Highly resistant to Tomato Mosaic Virus. Leaf Mold resistance makes it a great option for growing in high humidity areas. High yielder. Indeterminate.

**#00439. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each**

## Medusa Hybrid

**75 days.** A cross between Damsel Hybrid (pg. 14) and Cherokee Purple (pg. 22). The perfect one slicer! Large purple fruits are juicy and acidic in flavor and have an heirloom appearance. Pick when shoulders are green and allow to ripen off the vine for the best taste and reduced cracking. Expect an occasional, irregular shaped fruit (see inset picture). High yielding. Intermediate resistance to Late Blight, Verticillium Wilt and Nematodes. Indeterminate.

**#00463. (A) pkt. (10 seeds) \$6.55; 3+ pkts. \$7.75 each**

## Mountain Man Hybrid FF TSWV

**73 days.** Large, beefsteak-type, 8½ oz., round fruits are deep red inside and out. Flavor is delicious with a good balance between sweetness and acidity. Strong plants have high yield potential and multiple harvests. Good for container gardening. Great for the Eastern U.S. Determinate.

**#00492. (A) pkt. (15 seeds) \$5.25; 3+ pkts. \$4.75 each**

## Pink Girl Hybrid VFAST

**76 days.** Smooth, pinkish red, deep oblate fruits, with green shoulders, average about 6 to 8 oz. each. Sweet, juicy and mild flavored fruits are low in acid and perfect for slicing, salads and more. Perfect for home gardeners and farmers markets. Vigorous plants are heavy yielders. Excellent resistance to Gray Leaf Spot. Resistant to cracking. Indeterminate.

**#00556. (A) pkt. (30 seeds) \$5.75; 3+ pkts. \$5.25 each**

## Purple Boy Hybrid VFNT

**65-70 days.** A unique heirloom-type hybrid that offers something special to home gardens. Beautiful purple, beefsteak-type fruits have the vigor and disease resistance package typically offered by a hybrid, combined with the rich, traditional flavor that's expected of heirlooms. Round, 6 to 7 oz. fruits are packed with sweet flavor and a gorgeous color that looks great when sliced. Strong plants are heavy yielders. Highly resistant to Fusarium Crown & Root Rot and Tomato Mosaic Virus. Semi-indeterminate.

**#00587. (A) pkt. (10 seeds) \$5.15; 3+ pkts. \$4.65 each**

## Rugby Hybrid VFF

**50-70 days.** Pink, heart-shaped fruits are firm, smooth, glossy and grow in trusses of 4 to 5. Fruits weigh up to 7½ oz., have meaty flesh with a superb, well-balanced flavor and are high in beta-carotene. Excellent for canning, as well as eating fresh. High yielding plants have great foliage cover to protect fruits. Resistant to Tomato Mosaic Virus, Leaf Mold, Fusarium Crown & Root Rot and Bacterial Speck. Indeterminate.

**#00642. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each**

## Stellar Hybrid VFF LB

**70-75 days.** Beautiful red, round, 5 to 7 oz. delicious, slicing tomatoes are perfect for all uses. An excellent variety gardeners can count on. Intermediate resistance to Early Blight and Septoria Leaf Spot. To maintain the highest level of disease resistance, plant apart from other tomatoes. Ideal for small-space gardens and large containers. High yielder. Determinate.

**#00674. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each**

## Tasti-Lee® Hybrid VFFFSt

**72-75 days.** Higher lycopene – up to 40% more than other varieties – gives fruit a rich, healthy red color inside and out and boosts antioxidant activity. A true tomato flavor – great in salads, sandwiches, salsas and sauces. Determinate.

**#00755. (A) pkt. (10 seeds) \$6.55; 3+ pkts. \$5.95 each**

## Tasti-Lee 2 Hybrid VFFF YLVCV

**75 days.** Customers who have become fans of Tasti-Lee®, which can be found in super markets, have come to love this improved variety. Extra firm, 6 to 9 oz. fruits are full of excellent flavor and have a good shelf life. High lycopene content provides tomatoes with rich red color inside and out. Plants provide good fruit cover and produce high yields. Widely adaptable. Determinate.

**#00765. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each**

### Tough Boy Gold Hybrid VFFNST

**75-85 days.** Early to extra early, deep yellow to orange, 7½ to 8 oz., deliciously sweet flavored fruits are uniform and firm. Plants have medium-sized leaves, short internodes and a better root system than similar varieties. Good setting ability under colder temperatures. A great fresh market variety that will be very appealing to home gardeners and at roadside stands. Resistant to Blossom End-Rot and Tomato Mosaic Virus. Crack resistant. Indeterminate.  
#00770. (A) pkt. (10 seeds) \$7.95; 3+ pkts. \$7.25 each

ULTIMATE OPENER

### Bellatrix Hybrid VFFT LB

**65-70 days.** Bright red roma/paste-type tomatoes grow up to 3" long by 2¼" wide. Fruits ripen in a short period of time, allowing for a large harvest over the season. Excellent for sauces and salsas. Great for growing in containers. Plants are highly resistant to Tomato Mosaic Virus. Determinate.  
#00070. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

### Early Doll Hybrid

**55 days.** Every gardener needs a variety like this one – early and packed with flavor. Produces 4 to 5 oz., bright red, globe shaped fruits that are excellent for fresh use in salsas, salads or slicing. Determinate.  
#00238. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

BELLATRIX

### Early Resilience Hybrid VFFAST LB

**115 days. 2020 AAS Winner.** An excellent variety for the home canner! Large, blocky 2" romas weigh up to 3½ oz. each and have uniform maturity. Great tasting fruits have a deep red, good quality flesh with the perfect balance of sugar to acid. Compact, bushy plants are perfect for containers. Excellent resistance to Blossom End-Rot, resulting in high yields and less fruit loss. Tolerant to Bacterial Canker of Tomato and Bacterial Spot. Determinate.  
#00243. (A) pkt. (10 seeds) \$3.85; 3+ pkts. \$3.55 each

EARLY DOLL

### Golden Rave Hybrid FT

**67 days.** Beautiful, golden yellow fruits are just 2" long and weigh up to 2 oz. A romanita-type that will perform well in a wide range of climates. Sweet fruits have little to no cracking. If yellow tomatoes aren't your usual pick, try this variety – it will give you plenty to 'rave' about. Indeterminate.  
#00318. (A) pkt. (15 seeds) \$8.95; 3+ pkts. \$8.15 each;  
(V) 100 seeds \$34.95; 2+ \$31.95 each; 4+ \$28.95 each

EARLY RESILIENCE

### Health Kick Hybrid FFTAST TSWV BS

MARZITO

**72 days.** A perfect saladette variety – healthy, fine-flavored, with better wilt resistance and fruits of the brightest red, thanks to 50% higher levels of lycopene. Juicy, plum-shaped fruits weigh about 4 oz. Plants grow about 4 ft. tall. Strong disease resistance. High yielding. Determinate.  
#00342. (A) pkt. (30 seeds) \$6.35;  
3+ pkts. \$5.75 each; (G) 250 seeds \$29.95;  
2+ \$26.95 each; 4+ \$24.45 each

GOLDEN RAVE

HEALTH KICK

HEIRLOOM MARRIAGE™ MARZINERA

LITTLE NAPOLI

INVINCIBLE

### Ultimate Opener Hybrid VF

**57 days.** More often than not, early-ripening tomatoes are under-sized, have marginal flavor and color with way too many blemishes. This tomato, developed by the same breeder of Early Girl and Better Boy Hybrids, produces blemish-free fruits about 33% larger than Early Girl with marvelous flavor that's sweet and juicy. Strong, vigorous plants are capable of tremendous yields. Strong disease resistance. Indeterminate.  
#00785. (A) pkt. (20 seeds) \$3.25; 3+ pkts. \$2.95 each;  
(D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

## Small to Medium With Big, Bold Flavor!

Varieties on pages 20 & 21 typically grow fruits 2 to 5 oz.

### Heirloom Marriage™ Marziner Hybrid

**70-75 days.** A variety from the Heirloom Marriage Series on pg. 14. Meaty, 2 to 3 oz., bright red roma/paste fruits are great for salsas, canning and cooking. A cross of San Marzano and Cream Sausage. Bred for improved yields, earlier maturity, fewer blemishes and the same old-time flavor we've all come to love. Indeterminate.  
#00171. (A) pkt. (15 seeds) \$5.35; 3+ pkts. \$4.85 each

### Invincible Hybrid VFFT YLCO

**65-70 days.** Saladette-type tomatoes are blocky, elongated, very smooth and firm. Uniform fruits weigh up to 3½ oz. each, are deep red inside and out and have a delicious flavor. Early maturing plants are vigorous, with a leafy habit that provides good cover to protect fruits. Excellent for hot areas and is a heavy yielder. Intermediate resistance to Gray Leaf Spot, Leaf Blight and Bacterial Wilt. Determinate.  
#00376. (A) pkt. (10 seeds) \$5.85; 3+ pkts. \$5.35 each

### Little Napoli Hybrid VF

**60-65 days.** A sister variety to Little Bing on pg. 36. Bright red, pear shaped, 2 to 2½ oz., roma fruits are meaty and full of flavor. Harvest enough at one time for a batch of your favorite sauce or some delicious homemade salsa. Compact plants have a tidy habit and flourish in containers. Determinate.  
#00441. (A) pkt. (15 seeds) \$5.45; 3+ pkts. \$4.95 each

### Marzito Hybrid FNT

**50-55 days.** Elongated, mini marzano-type fruits grow up to 2¼" long by ¾" wide and resemble small romas, the staple variety used for canning for generations. Flesh has a firm texture and a sweet, rich flavor. This multi-purpose tomato is versatile and perfect for eating straight-from-the-vine, cooking or canning. Highly resistant to Leaf Mold and Tomato Mosaic Virus. Indeterminate.  
#00458. (A) pkt. (10 seeds) \$5.95;  
3+ pkts. \$5.45 each

### Mountain Magic Hybrid VFF LB

**72-75 days.** A variety from the Mountain Series (pg. 14). Heirloom qualities meet modern day disease resistance in a supersweet, Campari-type tomato. Heavy producer of round, to deep round, 2 oz. fruits that are uniformly red inside and out with a long shelf life. Tolerant to Early Blight and highly resistant to Late Blight – both huge threats to tomatoes. Indeterminate.

**#00495. (A) pkt. (10 seeds) \$6.45; 3+ pkts. \$5.85 each**

### Patio Hybrid FAST

**70 days.** Perfect for container gardening or limited space. Vines are extremely compact, yet produce medium-sized, deep oblate fruits that are smooth, firm and flavorful on plants with rugose leaves. Dwarf determinate.

**#00536. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each; (G) 250 seeds \$24.95; 2+ \$22.95 each; 4+ \$20.95 each**

### Plum Regal Hybrid VFF TSWV EB LB

**80 days.** Another highly prized variety bred by Randy Gardener, Ph.D., who also developed the popular Mountain Series. High yields of large, 3 to 4 oz. fruit, with bright red color inside and out. An excellent choice for sauces. Very small blossom end scars. Plants have heavy foliage cover. Offers a broad range of disease resistance including Gray Wall and cracking. Determinate.

**#00573. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each**

### Red Racer Hybrid VFFNST

**57 days. 2018 AAS Winner.** Cocktail size, 1½" tomatoes have a good sweet/acid balance, weigh 2 oz., are uniform in size and grow in clusters. Compact plants produce huge yields 7 to 10 days earlier than comparable varieties. Ideal for small space and container gardens. One judge summed up this winner saying "Red Racer is small in size but big in taste!". Also resistant to Tomato Mosaic Virus. Determinate.

**#00605. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

### Totem Improved Hybrid

**70 days.** More fruit than foliage, compact and perfect for patios or window boxes. Just 18 to 30" tall, with small to medium, round, red, flavorful fruits produced in abundance – up to 10 lbs. per plant! Great for indoor gardens too, with its attractive dark green foliage. No staking is required. Determinate.

**#00777. (A) pkt. (15 seeds) \$5.15; 3+ pkts. \$4.65 each**

MOUNTAIN MAGIC

PATIO

## Large Open-Pollinated Tomatoes...

Varieties on pages 21-27 typically grow fruits 10 oz. and larger

### Abraham Lincoln Original

**87 days.** Beautiful dark red fruits are sweet, solid and meaty. Fruits are smooth, free from cracks and seams, and although large, ripen all the way through. Ideal for ketchup, juice or slicing. Indeterminate.

**#00014. (A) pkt. (20 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

### Amana Orange

**90 days.** Discovered by a gardener in Florida and named after a town he was fond of. Features large, up to 5" in diameter, mild beefsteak fruits of a distinctive orange color. Indeterminate.

**#00026. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

### Ananas Noire

**85 days.** Also known as Black Pineapple. Large, dark-purple fruits averaging up to 1½ lbs. have a distinctive, streaked interior of pink, red, green and yellow. Green-shouldered fruits deliver a complex, hearty tomato taste that's both sweet and rich, with smoky and acidic undertones. Makes a great tomato sauce! Needs space – regular leaf plants are large and sprawling, but earn their keep with heavy yields.

Indeterminate.

**#00031. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each**

### DID YOU KNOW...

Tomato pollen becomes sterile in high temperatures, making fruit set difficult to impossible? When growing tomatoes in warm temperatures, try using Tomato & Blossom Set Spray (pg. 65) with all-natural plant hormones to overcome the plant's resistance to fruit formation.

### Anna Russian

**65-70 days.** This luscious heirloom was reported to have been brought to Oregon by a Russian immigrant generations ago. Pinkish-red, heart-shaped fruits are large, early and juicy with outstanding flavor and weigh up to 1 lb. Wispy foliage on hardy vines. Indeterminate.

**#00037. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Artisan™ Orange Jazz

**85 days.** A large variety from the Artisan Series (pg. 32) with outstanding flavor and just a hint of fresh peach sweetness! Unique, orange beefsteak-type, 10 to 16 oz. fruits are brushed with yellow stripes. Vigorous vines produce heavy yields.

**#00054. (A) pkt. (20 seeds) \$4.45; 3+ pkts. \$4.05 each**

### Aunt Ruby's German Green LB

**80 days.** Heirloom beefsteak with a deliciously sweet flavor enhanced by a spicy undertone. Globe-shaped, 12 to 16 oz. fruits have light green, smooth skins at maturity and just a hint of yellow. Flesh is green blushed with pink, meaty and flavorful. Makes interesting juice! Indeterminate.

**#00043. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

BEEFSTEAK

### Beefsteak

**80 days.** Large, flattened, solid, meaty, juicy, brilliantly red fruits are slightly ribbed and weigh up to 2 lbs. each. An excellent slicer, with a rich, sub-acid flavor. Indeterminate.

#00065. (A) pkt. (50 seeds) \$3.75; 3+ pkts. \$3.45 each; (F) 1/16 oz. \$8.95; 2+ \$8.15 each; 4+ \$7.35 each

BLACK FROM TULA

### Black From Tula

**80-85 days.** A robust Russian heirloom and one of the largest of the dramatic blacks with dark, greenish-black shoulders on dark, brownish-red, slightly flattened fruits that grow 3 to 5" in diameter. Full-flavored, chocolate-brown flesh, with green gel, is rich and satisfying. Performs well in dry conditions. Indeterminate.

#00094. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$6.75; 2+ \$6.15 each; 4+ \$5.55 each

BLACK FROM TULA

### Black Krim LB

**69 days.** A most unusual novelty. Fruits, 8 to 12 oz., are a dark, deep red (almost a shiny black) with heavy green shoulders. Interior is a deep, reddish-green color. Sweet and tasty. Indeterminate.

#00095. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each

BLACK KRIM

### Box Car Willie

**80 days.** This old-timer is a favorite main crop variety. Smooth, red-dish-orange fruits average 10 to 16 oz. each. With an old-fashioned flavor you'll remember from childhood, these high-yielding, multi-use tomatoes will last throughout the season and are ideal for canning, freezing or for home-cooked meals. Crack resistant. Indeterminate.

#00103. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each

## BRANDYWINE SERIES

### Brandywine Original

**90-100 days.** Heirloom dating back to the 1880's. Potato leaf plants produce good yields of extra-large, up to 1 1/2 lbs., clear-skinned, light rosy-pink fruit. Considered one of the world's best-flavored tomatoes. Exhibits moderate resistance to Late Blight. Indeterminate. #00112.

### Brandywine, Black

**90-100 days.** A prolific yielder whose novel black, up to 1 lb. fruits are well-formed, oval shaped and have real tomato taste. Potato leaf plants. Indeterminate. #00091.

### Brandywine, Orange

**80 days.** Some say this is the best pure orange beefsteak available. Potato leaf plants produce enormous yields of meaty 1 lb. fruits that have a superb flavor and a nice smooth texture. Enjoy fresh, in salads, salsas and more. Indeterminate. #00109.

### Brandywine, Red

**90-100 days.** Pennsylvania Amish heirloom dating to 1885. Delicious, scarlet-red fruits weigh up to 2 lbs. Regular leaved plants. Indeterminate. #00600.

### Brandywine, Yellow

**90-100 days.** Prolific yields of golden-yellow, flattened, semi-irregular, up to 2 lb. fruits. Potato leaf. Indeterminate. #00830.

Prices, above 5, mix or match:

### DID YOU KNOW...

Cracking on tomatoes is a disorder that can be avoided? Just like Blossom End Rot, cracking is mainly caused by rapid water absorption by plants. To avoid this, plant crack resistant varieties, mulch well, water consistently at ground level, keep plants appropriately fertilized and don't let soil go from very dry to very wet.

BRANDYWINE YELLOW

### Comstock Sauce and Slice

**80-85 days.** An Italian variety originally introduced in the early 1980's. Beautiful, meaty, deep-red, roma shaped fruits weigh up to 1 lb. and have very few seeds. A dual-purpose variety excellent for canning, pastes, sauces and fresh eating. Indeterminate. #00202. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each

### Cuore de Toro (Bull's Heart)

**89 days.** This Italian heirloom, a huge pink Oxheart-type, weighs in at a gigantic 2 lbs. or more! Abundant 4" fruits on vigorous plants are a colorful pinkish-red with a wonderful sweet flavor. Indeterminate.

#00209. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$7.15; 2+ \$6.45 each; 4+ \$5.85 each

### Delicious

**77 days.** An excellent slicer. Most fruits weigh over 1 lb. – many 2 to 3 lbs. and even held the Guinness World Record of 7+ lbs. for a single fruit for 28 years! Plants produce smooth fruits that seldom crack, with small cavities, nearly solid meat and excellent flavor. Developed from Beefsteak after years of careful selection. Indeterminate.

#00131. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

### Dester

**80 days.** This German heirloom has won numerous taste test competitions! Large, 1 to 2 lb., pink beefsteak fruits with rich, sweet flavor are excellent for eating fresh or canning – a great one slicer. Gardeners will love this heavy yielding variety. Indeterminate.

#00217. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each

### Dinner Plate

**90-100 days.** Large, red fruits averaging 1½ to 2 lbs. each are radially flattened and heart-shaped. Fine quality flesh has excellent flavor. Indeterminate.

#00216. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$8.95; 2+ \$8.15 each; 4+ \$7.35 each

### Dixie Golden Giant

**85-100 days.** An unusual heirloom, grown by the Amish since the 1930's. Huge, golden-yellow beefsteak tomatoes have a delicious, fruity flavor with few seeds. Fruits weigh 1 to 2 lbs., mature earlier than similar varieties and may feature a pink blush on the blossom end. Very vigorous vines. Indeterminate.

#00219. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

### Dr. Wyche's Yellow

**80 days.** Don't be fooled by the light-yellow color – there's nothing pale about the flavor of this rich-tasting beefsteak! Slightly flattened fruits weigh up to 1 lb. and have meaty flesh that is almost porous. Blemish free fruits mature to golden-orange. Indeterminate.

#00227. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

### Fireworks

**60 days.** Exploding with a sweet, but well-balanced flavor and one of the largest super-early, slicing varieties we offer. Plants produce high yields of 8 to 12 oz. bright red, slightly flattened, 2 to 3" meaty fruits. Excellent for salads and sandwiches. Indeterminate.

#00258. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

### Georgia Streak

**90 days.** Lovely bicolor fruits are rich gold, blushed with a delicate pink. As if that wasn't enough, the real surprise is inside – the firm flesh is streaked with red! Large, globe-shaped fruits weigh 1 to 2 lbs. and have a sweet, yet hearty flavor. Indeterminate.

#00280. (A) pkt. (30 seeds) \$3.65; 3+ pkts. \$3.35 each; (D) 1/32 oz. \$7.75; 2+ \$7.05 each; 4+ \$6.35 each

### German Head

**80-90 days.** An old-time favorite with large, beefsteak-type, dark pink, crack-free fruits that have a delicious flavor and weigh 1 to 2 lbs. A nice fresh market variety. Excellent yielder. Indeterminate.

#00283. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$7.45; 2+ \$6.75 each; 4+ \$6.15 each

### German Johnson Pink

**80 days.** A potato leaf version of the heirloom German Johnson. Vigorous vines produce mildly-flavored, meaty, rough, 12 to 24 oz. fruits with pink skins, yellow shoulders and low acid flavor. May contain a small percentage of regular leaf plants. Highly rated for flavor and yield. Indeterminate.

#00289. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$7.45; 2+ \$6.75 each; 4+ \$6.15 each

### Giant Belgium

**82-90 days.** One of our most popular heirlooms. Huge, sweet fruits average 1 to 2 lbs. and have weighed in at nearly 5 lbs.! Dark pink fruits have smooth blossom ends and a low acid, mild flavor, so sweet that some growers use them to make wine. Solid meat and size means one slice per sandwich! Indeterminate.

#00299. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each

GRANNY CANTRELL'S

### Granny Cantrell's

**85 days.** Original seeds were given to Lettie Cantrell from a World War II soldier returning home from Germany. Beefsteak-type fruits weigh up to 2 lbs. and are slightly flattened. Delicious for fresh eating, cooking and canning. The perfect one-slicer for sandwiches and burgers. Won a Best of Taste award in 2006. Heavy yields. Indeterminate.

#00327. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each

### Great White

**80 days.** A magnificent, almost perfect, 14 to 16 oz. white tomato with low acidity and few seeds. Good drought and crack tolerance. Fruits are protected under vigorous, heavy foliage. Indeterminate.

#00323. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

### Henderson's Pink Ponderosa

**80 days.** First introduced in 1891 by Peter Henderson & Company who claimed it to be their most popular tomato ever and remains a home gardener's favorite today! Extra large, pink, beefsteak-type fruits weigh one pound or more – some often weighing as much as 2 lbs.! Rich and meaty flesh is thick and delicious. Great for slicing and canning. Indeterminate.

#00358. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

### Hillbilly

**85 days.** This heirloom hails from the hills of West Virginia, where they know a superb tomato when they see one! Huge, mildly-flavored, beefsteak-type fruits weigh 1 to 2 lbs. each, are low in acid and a most unusual orange-yellow, streaked and mottled in shades of red and pink. Regular potato leaf variety. Indeterminate.

#00347. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$9.95; 2+ \$9.05 each; 4+ \$8.15 each

### Italian Giant Beefsteak

**83-85 days.** This blockbuster of a beefsteak was brought over from Italy in the early 1900's and still rules the garden for sheer size, with some fruits growing larger than two fists! Deep red, flattened fruits average 1 lb. and are 4" in diameter – meaty and delicious, yield after impressive yield. Indeterminate.

#00373. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (D) 1/32 oz. \$8.95; 2+ \$8.15 each; 4+ \$7.35 each

### Kellogg's Breakfast

**80-85 days.** Lovely, pale-orange fruits are solid and meaty throughout, packed with mild, superb tasting flesh. A long-season producer of large, beefsteak-type fruits, up to 1 lb. with solid centers that have just a few seeds at the edges. Very desirable! Indeterminate.

#00415. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$8.95; 2+ \$8.15 each; 4+ \$7.35 each

### "TOP 10" COLLECTION

One packet each of Beefmaster (pg. 12), Beefsteak (pg. 22), Big Zac (pg. 12), Brandywine (pg. 22), Burpee's Big Boy (pg. 13), Delicious (pg. 23), Goliath (pg. 10), Kentucky Beefsteak, Oxheart Giant (pg. 25) & Park's Whopper Improved (pg. 15). #00886(X). 10 pkts. for just \$30.25. Save 25%!

### Kentucky Beefsteak

**115 days.** An old heirloom from the hills of its namesake, eastern Kentucky. Like most beefsteaks, the fruits are enormous, often weighing as much as 2 lbs. and lack much of the roughness usually associated with heirloom beefsteak-types. Fruits are actually quite attractive – globe to oval-shaped and a beautiful deep orange in color. Indeterminate.

#00418. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

### Lillian's Yellow Heirloom

**95-98 days.** Magnificent clear-yellow, globe-shaped, beefsteak-type fruits weigh up to 1 lb. each. Mild flesh is so rich in flavor, it actually has a creamy taste on the tongue. Vigorous, potato-leaved plants are unique in such a large-fruited, yellow variety and provide cover for heavy yields. Local heirloom from Manchester, Tennessee. Indeterminate.

#00436. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each

### Missouri Pink Love Apple

**75-85 days.** This heirloom was grown in the late 1800's by Grandpa Barnes who grew it as an ornamental, believing (as many people did at the time) that tomatoes or "love apples" were poisonous. Big, pink beefsteak-type, 3" fruits are slightly sweet with a juicy, meaty texture. Potato-leaved plants are heavy yielders. Indeterminate.

#00476. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Mortgage Lifter

**75-85 days.** Also called Radiator Charlie. Long-time favorite with good yields of very large, 1 to 2 lb., smooth, pink-skinned fruits even in droughts. Very meaty fruits with few seeds, much like Giant Belgium (pg. 23), but not quite as large. Very mild, delectable, sweet flavor. Indeterminate.

#00481. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.85 each; (D) 1/32 oz. \$9.95; 2+ \$9.05 each; 4+ \$8.15 each

### Mr. Strihey

**80 days.** Red and yellow-striped heirloom variety that adds color to any gourmet salad bar. Large, ridge-shouldered fruits weigh up to 2 lbs., are mildly-flavored and low in acid. Indeterminate.

#00506. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$8.45; 2+ \$7.65 each; 4+ \$6.95 each

# Heirlooms... All-Around Goodness!

## Mrs. Maxwell's Big Italian

**80 days.** Given seed by a friend from Italy, Mrs. Maxwell grew and saved them year after year selecting the largest, earliest and most crack resistant – the results are this heirloom beauty! Vigorous potato-leaved plants produce 1 to 2 lb., dark pink beefsteak fruits with incredible flavor. Excellent for using fresh or for canning. Indeterminate.

#00505. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

## Mushroom Basket

**75 days.** Eye-catching beauties, these 8 to 16 oz. watermelon-pink tomatoes will grab lots of attention in the garden. Uniquely pleated fruits are firm, have few seeds and a deliciously sweet flavor. No matter how you slice it, it's terrific in any dish. Heavy yielder. Indeterminate.

#00504. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## Old German

**75 days.** An heirloom originally grown by the Mennonite community of Virginia and one of the best-ever varieties for slicing. Huge fruits have an unusual boat shape and weigh 1½ to 2 lbs. each. Indeterminate.

#00519. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

## Omar's Lebanese

**80 days.** Monster tomatoes, 1 to 2 lbs., from a Lebanese hill town – luscious and incredible! Delicious, 5" pink fruits are huge, meaty and somewhat irregularly shaped, rich, sweet and juicy. A favorite of American tomato aficionados because of its excellent yield and superb flavor. High yielder. Indeterminate.

#00524. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## Orange Strawberry

**80 days.** Lovely, heart-shaped fruits have pointed tips and are almost blemish-free. Strong, sweet taste in juicy fruits that are a vibrant, deep orange when mature and average 8 oz. to 1 lb. Don't be fooled by the wispy leaves – plants are very vigorous and high yielding. Indeterminate.

#00529. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

## Oxheart, Giant

**90 days.** This giant produces large, 12 oz. to 2 lbs., firm, meaty, heart-shaped, pink fruits with thick walls, few seeds and a mild flavor. Vigorous vines produce high yields of fruits that mature late but are well worth the wait! Indeterminate. #00300. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each

## Oxheart, Orange

**80 days.** Strong vines yield numerous large, 3", vibrant golden orange heart-shaped, 10 to 12 oz. fruits. Meaty, with a delicious, well-balanced flavor and tremendous eye appeal. Indeterminate.

#00527. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## Paul Robeson

**80-90 days.** A Russian heirloom that continues to be a favorite in taste test competitions! Brick red, 8 to 12 oz. fruits have dark green shoulders and red flesh. Flavor is exceptional with a nice balance of sweetness and acidity. Named in honor of Paul Robeson, the famous actor and singer. Indeterminate.

#00540. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

## Persimmon

**80 days.** Great flavor and eye appeal! Large, plump, golden-orange fruits average 1 to 2 lbs. – meaty, with luscious flavor and only a few seeds. Vigorous plants produce good yields. Indeterminate.

#00542. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.75; 2+ \$7.05 each; 4+ \$6.35 each

## Pineapple

**85-90 days.** Enormous, uniquely-patterned, yellow-red striped fruits will be the center of attention. Beefsteak-type fruits easily grow 5" and larger, are orange-yellow with red streaks and no green shoulders. Meaty flesh has a nice mild flavor. Heavy-foliaged plants produce good yields. Indeterminate.

#00553. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each

### DID YOU KNOW...

When tomato plant leaves curl, but do not discolor, this is a physiological disorder not a disease? Leaf curl/roll can be due to several outside influences like high temperatures, especially with high humidity, but wet soil conditions, high nitrogen levels & improper pruning can also cause this to happen. Leaf curl/roll does not affect fruit formation. Keep plants healthy and ensure soil is well-draining to prevent this issue.

### "LARGEST TOP 12" COLLECTION

One packet each of our 12 largest red tomatoes in descending order:

Big Zac (pg. 12), Delicious (pg. 23), Kentucky Beefsteak (pg. 24), Beefmaster (pg. 12), Beefsteak (pg. 22), Oxheart Giant, Goliath (pg. 10), Burpee's Big Boy (pg. 13), Park's Whopper Improved (pg. 15), Abraham Lincoln Original (pg. 21), Country Taste (pg. 13) & Brandywine (pg. 22).

# Genuine Classic Flavor ...

## Ponderosa Pink

**80 days.** Extra-large, up to 1 lb., beefsteak-type fruits are like Ponderosa Red, but rosy-pink. Almost seedless, with low acidity and meaty flesh. Indeterminate.

**#00577. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each**

## Ponderosa Red

**80 days.** This old-time favorite is an extra-large, up to 1 lb., beefsteak-type with mild flavor. Almost seedless, with low acid, solid, meaty, deep red flesh. Vigorous vines produce heavily. Indeterminate.

**#00580. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$6.25; 2+ \$5.65 each; 4+ \$5.15 each**

## Pruden's Purple

**75 days.** Large, 10 oz. to 1 lb., dark pink, nearly purple fruits mature quite early, with the delicious flavor and good production that heirlooms are known for. Potato-leaved vines. Indeterminate.

**#00592. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.75; 2+ \$6.15 each; 4+ \$5.55 each**

## Rainbow (Big Rainbow) LB

**80-85 days.** Very large, orange fruits, with red spots or streaks, grow up to 4½" in diameter and weigh up to 2 lbs. Firm, meaty flesh with low acidity, has a delicious flavor and is ideal in a variety of dishes or eaten plain. Indeterminate.

**#00595. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

## Rainbow Beefsteak Blend

**77-115 days.** This eye-catching mix of colorful tomatoes has continued to impress our customers the same, if not more, as our Gourmet Rainbow Pepper Blend (pg. 42). Blend contains a full spectrum of pink, red, yellow, green, black and orange varieties, with fruits ranging from 12 oz. to 3 lbs. Indeterminate.

**#00596. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.50; 2+ \$5.90 each; 4+ \$5.40 each**

## Rose

**75-80 days.** An Amish heirloom from Pennsylvania. Large, crack resistant, 10 oz. fruits are meaty and dusty rose colored. Flavor is excellent, and is considered by some to rival Brandywine (pg. 22). Plants are vigorous and strong with good leaf cover. Indeterminate.

**#00620. (A) pkt. (20 seeds) \$3.10; 3+ pkts. \$2.85 each**

## Soldacki

**75 days.** Poland sends us this heirloom variety, memorable for its low acid and intensely sweet flavor. Dark pink fruits, flattened in shape, weigh about 1 lb. and are packed with firm flesh inside thin skins. Indeterminate.

**#00663. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

## Striped German

**80 days.** Considered by many to be one of the most popular bicolored beefsteak tomatoes ever grown! Large 12 to 16 oz. fruits – some weighing in at almost 2 lbs.! – are slightly ribbed and yellow with red marbling inside and out. Meaty fruits have a complex tropical flavor and an excellent smooth texture. A delicious beauty when sliced and also makes a great canning tomato. Heavy yielder. Indeterminate.

**#00672. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each**

## Tasmanian Chocolate

**70 days.** A unique dwarf variety. Sturdy, 2 to 3 ft. plants, with dark green rugose foliage, produce large, 8 to 12 oz., beefsteak-type fruits that ripen to a beautiful mahogany red. Full of delicious balanced flavor and perfect for eating fresh or cooked. A cross between New Big Dwarf and Paul Robeson. Great for small spaces and containers. Dwarf determinate.

**#00752. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each**

## Tasty Pink Beefsteak

**75 days.** Delicious, dark pink fruits are meaty with a mild, but tasty, classic fresh tomato flavor. Fruits average 16 to 20 oz. but can weigh up to 3 lbs. and have thin skins. Vigorous potato leaf plants produce heavy yields. Indeterminate.

**#00750. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

## Virginia Sweets

**80 days.** This bicolored heirloom has become one of our most popular varieties. Enormous 1 lb. dark yellow, beefsteak-type fruits, with red stripes are stunningly beautiful. Full of rich, super sweet flavor with just the right amount of acid. Perfect for salads, slicing and cooking. Heavy yields. Indeterminate.

**#00801. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each**

## Watermelon Beefsteak

**75 days.** An heirloom from the 1800's, with good, old-fashioned flavored fruits weighing 2 lbs. or more. Pink-skinned and very mild with purplish-red flesh. Indeterminate.

**#00803. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Wherokowhai

**75 days.** Also known as *Lucky Cross Dwarf*. A unique dwarf variety that produces large, 8 to 12 oz. beefsteak-type fruits with an excellent sweet flavor. Sturdy plants, with dark green rugose foliage, grow just 2 to 3 ft. tall and are loaded with fruit. Great for small spaces and container gardening. Wherokowhai means red/yellow in the native New Zealand language and is pronounced fer-dow-co-fi. Developed by the Dwarf Tomato Project. Dwarf Indeterminate. #00429. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

WHEROKOWHAI

### WILD BOAR SERIES

An introduction from Brad Gates, a small organic farmer, tomato breeder and grower of heirlooms since 2000. Mr. Gates, owner of Wild Boar Farms, has bred numerous tomatoes, hand picking his varieties based on flavor from over 1,000 heirlooms, crosses and hybrids. His main focus is on bicolor and striped fruits with extreme flavor and fascinating looks. Performs exceptionally well for home and market gardeners – even in areas with challenging climates. Several varieties were featured in the July/August 2013 issue of *Martha Stewart Living* magazine. These are sure to be some of the prettiest, tastiest and most unique tomatoes you'll ever grow and eat! All are indeterminate.

**See *Mint Julep* and *Sweet Carnenos Pink* on page 32.**

### Beauty King

**75-90 days.** Possibly one of the best looking and tasting, red and yellow bicolor tomatoes you'll ever try! Very sweet fruits can grow up to 20 oz. each and have meaty, yellow flesh with bright red streaks. A cross between Big Rainbow and Green Zebra. #00820.

### Janet's Jewel

**90 days.** Large, bright orange striped, beefsteak fruits – many weighing over 1 lb. each! Very meaty and sweet tasting with fruity undertones. Late but worth the wait. #00819.

### Large Barred Boar

**65-75 days.** Unique, pinkish brown tomatoes with metallic green stripes, weigh 8 to 12 oz. Flattened beefsteak fruits are very meaty and extremely flavorful. #00809.

Prices, above 6, mix or match: (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.55 each

### Wins All

**80 days.** An offspring of Ponderosa Pink (pg. 26), developed by a breeder in the 1920's for improved consistency and flavor. Produces moderate to high yields of blemish-free, 1 lb. fruits that are pink, round and juicy. The flavor is complex and rewarding – sweet and tangy, but never overwhelming. Robust potato-leaved plants, with heavy cover, resist foliage diseases and Blossom End-Rot. Indeterminate. #00825. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each

### Pineapple Pig

**75 days.** Large, creamy-yellow striped with a rose blush. Meaty, bicolor fruits grow up to 1 lb. each and are low in acid with sweet flavor. You might try it for the name, but the flavor will keep you coming back. #00817.

### Pink Berkeley Tie-Dye

**65-75 days.** Large beefsteak fruits are the color of port wine with metallic green stripes and weigh 8 to 12 oz. Its excellent sweet flavor was put to the test against Cherokee Purple in farmers markets taste tests and was preferred every time. #00811.

### Solar Flare

**75 days.** Strikingly gorgeous red fruits are 6 to 10 oz. beefsteaks with gold stripes. Luscious and meaty with a slightly sweet full tomato flavor. Good Scab resistance. #00814.

WILD BOAR BEAUTY KING

WILD BOAR JANET'S JEWEL

### Yellow Giant Belgium (Goldie)

**85-95 days.** Since the early 1800's, this heirloom has been widely grown for its vigorous vines that produce loads of giant, slightly flattened, golden globes, with mild flavor. Tasty, non-acidic fruits are highlighted by smooth blossom ends. Indeterminate. #00836. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

## Medium To Large Favorites

Varieties on pages 27-30 typically grow fruits 6 to 10 oz.

### Amish Paste

**74 days.** Dates back to the turn of the century and is the best for sauces and canning. Deep red fruits, about 8 oz., are large for canning types with real tomato flavor. Not overly acidic. Indeterminate. #00029. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.75; 2+ \$6.15 each; 4+ \$5.55 each

### Arkansas Traveler

**90 days.** Bred at the University of Arkansas by Joe McFerran as an updated version of this region's famously high quality pink tomatoes. Fruits are rough, medium-sized, about 6 oz., with an excellent, creamy, mild flavor. Highly adaptable. Indeterminate. #00040. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

### DID YOU KNOW...

Damping off is a disease responsible for killing patches of seedlings virtually overnight? It is one of the most common diseases of seedlings and can affect any variety or type of vegetable or flower. Avoid by practicing proper sanitation, always using new, fresh starting mix, new or sterilized trays & pots and do not over water.

# Old-Fashioned, Yet Trendy...

See Tomato Disease Code Key on page 9

BONNY BEST

## Bonny Best

**72 days.** An old-time favorite producing 8 to 10 oz. globed-shaped fruits that are solid and meaty. Highly adaptable and performs especially well in the North. Indeterminate.  
**#00100. (A) pkt. (50 seeds) \$3.05; 3+ pkts. \$2.75 each**

BUSH BEEFSTEAK

## Bush Beefsteak

**62 days.** The perfect sandwich-sized fruit! Solid-fleshed fruits are a deep, rich red and average 8 oz. Vigorous, bushy plants are high yielders. Determinate.  
**#00145. (A) pkt. (50 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each**

## Campbell's 33 VFA

**69 days.** Produces medium-early, 7 oz. fruits that are oblate, bright red, with green shoulders and good interior color. Sets fruit well under unfavorable conditions, with tolerance to cracking and good disease resistance. Determinate.  
**#00150. (A) pkt. (50 seeds) \$3.45; 3+ pkts. \$3.15 each; (F) 1/16 oz. \$7.55; 2+ \$6.85 each; 4+ \$6.25 each**

CAMPBELL'S 33

## Cherokee Green

**72 days.** A selection from the ever popular heirloom Cherokee Purple (pg. 22) and possibly one of the best green tomatoes you'll ever grow! Medium-sized, green fruits weigh 8 oz. or more each and show some yellowish-orange color on the blossom end when ripe. Flesh is full of bold, acidic, complex tomato flavor that green varieties are known for. Plants need to be staked for best garden performance. Bred and selected by Craig LeHoullie. Indeterminate.  
**#00159. (A) pkt. (30 seeds) \$4.05; 3+ pkts. \$3.65 each**

CHEROKEE GREEN

## Costoluto Genovese

**90 days.** An excellent performer in both gardens and greenhouses. Plants are vigorous and produce ribbed, firm, fleshy fruits that weigh up to 7 oz. and have a delicious sweet flavor. Indeterminate.  
**#00203. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$8.95; 2+ \$8.15 each; 4+ \$7.35 each**

COSTOLUTO GENOVESE

## Get Stuffed!

**75 days.** Shaped like bell peppers, completely hollow and possibly the boldest striped, stuffing tomato available. Fruits average 5 to 7 oz. and have a delicious classic tomato flavor. Good yields. Tolerant to Powdery Mildew. Indeterminate.  
**#00294. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each**

GET STUFFED!

INDIGO™ BLUE BEAUTY

HORIZON

MANITOBA

GOLDEN JUBILEE

HEINZ 1370

HOMESTEAD

## Golden Jubilee A

**72 days.** Mild flavor and low acidity make this one of the best varieties for tomato juice. Bright, golden-orange fruits, 2½ to 3" in diameter, average 6 to 7 oz. each and have meaty, thick walls. Fruits are solid, with few seeds. Medium-sized plants need staking and produce high yields, making them ideal for home gardens and fresh markets. Indeterminate.

**#00316. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

## Heinz 1370 FAST

**75-77 days.** Smooth, round, 4 to 6 oz. globes have meaty flesh. Excellent for fresh markets, as well as making ketchup, purées and sauces, as its name suggests! Fruits resist cracking and plants feature good foliage cover. Good disease resistance. Determinate.

**#00344. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each**

## Homestead FA

**80 days.** Highly adaptable, especially in hot conditions. Fruits are medium-large, very smooth, red, meaty and flavorful, averaging about 8 oz. each. Determinate.

**#00350. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

## Horizon

**75 days.** 2022's Free Trial. Heirloom beefsteak-type fruits are thick, meaty, juicy and deliciously sweet. Plants are very leafy and produce huge, 4 to 6", red, smooth, slightly heart-shaped, sometimes oblate fruits. Indeterminate.

**#00359. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each**

## Indigo™ Blue Beauty

**80 days.** A variety from the Indigo Series on pg. 30. A cross between Beauty King and a blue tomato. Meaty, pink, 4 to 8 oz., beefsteak fruits, with lovely dark, blue-black shoulders. Holds well on the vine for extended periods. Sunburn and crack resistant. Very good flavor. Indeterminate.

**#00366. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each**

## Manitoba VF

**58 days.** An extremely early variety developed by the Morden Experiment Farm in Manitoba for southern Canadian prairies. Fruits are bright red, slightly flattened, good-flavored and weigh about 6 oz. each. Particularly well-suited for extreme northern areas of Montana, Dakotas, Minnesota, Wisconsin, Michigan and New England. Easily grown in a small area. Determinate.

**#00448. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each**

### Marglobe Improved VF

**72 days.** This highly adaptable, tasty old favorite produces high yields of globe-shaped fruits on strong vines. Medium-sized, 5 to 8 oz. fruits are uniform, very sweet and thick-walled. Determinate.

**#00450. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each**

### Marion FST

**78 days.** An early rutgers type with good disease resistance. Strong vines feature medium-large, smooth, 6 oz. globes, with small blossom end scars and high yields. Especially adapted to the Southeast. Crack resistant. Indeterminate.

**#00453. (A) pkt. (50 seeds) \$3.55; 3+ pkts. \$3.25 each**

### New Yorker VA EB

**66 days.** One of our earliest standard-sized varieties. High yields of smooth, meaty, 4 to 6 oz., scarlet globes. Bush beefsteak-type plants set fruit in cool, short-season conditions. Won't split or suffer Blossom End-Rot. Determinate.

**#00515. (A) pkt. (50 seeds) \$3.35; 3+ pkts. \$3.05 each; (F) 1/16 oz. \$8.25; 2+ \$7.45 each; 4+ \$6.75 each**

### Old Brooks EB LB

**75-85 days.** Smooth, blemish-free fruits are known for their superior resistance to Blossom End-Rot. Gourmet quality flesh, with a fine, even texture. The taste is somewhat acidic, which proves to be an asset in home canning. Good all-around variety. Indeterminate.

**#00518. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

### Purple Russian

**80 days.** Also known as *Ukrainian Purple*. Original stock of this variety came from Irma Henkel in the Ukraine. Meaty, plum-shaped, 6 oz. purplish-black, smooth skinned fruits are 3 to 4" long. Sweet and flavorful – great for salsas, sauces or straight-from-the-vine. High yielding. Crack resistant. Indeterminate.

**#00591. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each**

### Rutgers VFAST

**75 days.** A popular all-purpose variety that is ideal for canning. Bright red fruits, with heavy walls, average about 7 oz. and ripen evenly from the inside out. An attractive, old-time favorite with full-bodied flavor. Disease resistant. Determinate.

**#00624. (A) pkt. (50 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$5.55; 2+ \$5.05 each; 4+ \$4.55 each**

### Sausage

**75 days.** Fruits, up to 6" long, resemble huge, red banana peppers. A prolific paste tomato with very fine-flavored meat that is especially ideal for ketchup or sauces. Indeterminate.

**#00639. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

### Sheboygan

**80 days.** Lithuanian immigrants in Wisconsin are credited with introducing this pink, paste-type heirloom in the early 1900's. Full-flavored fruits average 4 to 6 oz. and are 4" in diameter, with meaty flesh and plenty of juice, making this one of the best varieties for canning. Heavy yields. Indeterminate.

**#00644. (A) pkt. (20 seeds) \$3.05; 3+ pkts. \$2.75 each**

### Striped Stuffer

**85 days.** Bell pepper shaped fruits are completely hollow and easy to stuff. Showy, 5 to 7 oz. red fruits have golden-orange stripes and a classic tomato taste. A good yielder and highly resistant to Powdery Mildew. Indeterminate.

**#00677. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Super Sioux

**70 days.** An excellent variety for areas with hot summer temperatures since it sets fruit well in spite of the heat and dry conditions. Thick-walled, crack-free, 4 to 6 oz. red globes have an acidic flavor. Perfect for canning. Semi-determinate.

**#00726. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

### Taxi

**65-70 days.** The best yellow variety for short season areas. Bright yellow, 4 to 6 oz. fruits are smooth and blemish-free. Flesh is meaty, mild and acid free. Excellent fresh for salads, sandwiches or adds a nice color to salsas. Heavy yielder over a 3 to 4 week period. Determinate.

**#00757. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each**

### Moon Sign Book

Popular since 1905. The only almanac you'll need this spring! Includes lunar timing tips on planting and harvesting and a guide to companion plants. Also provides recommended dates on fishing, hunting and weather forecasts. Customers come back year after year because of its accuracy and reliability. This year's edition also features fascinating articles on yoga to strengthen your intuition, creating your personal moon book, the relationship between the moon and the elements, lunar incense, and more. Paperback. 320 pages. **#53454. \$11.95 each**

THESSALONIKI

# With Real Old-Time Value!

See Tomato Disease Code Key on page 9

## Thessaloniki

**68 days.** Uniform, baseball-sized, 6 to 8 oz. fruits are the trademark of this variety developed in sunny Greece. Fruits have a pleasant, mild flavor and virtually refuse to rot, even when completely red and ripe. Resistant to sunburn, cracks and spots. Perfect blossom ends resemble those of greenhouse tomatoes. Indeterminate.

#00762. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

## Wisconsin 55 EB

**75 days.** A superb tomato developed at the University of Wisconsin. Large, deep red fruits resist shoulder cracks, ripen evenly and have strong skin with solid flesh. Great for canning. Vigorous plants are tolerant to Leaf Spot and Blossom End-Rot. Semi-determinate.

#00824. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each

WISCONSIN 55

# Small to Medium Open-Pollinated Types

Varieties on pages 30-32 typically grow fruits 2 to 5 oz.

## 42 Days

**42 days.** Be the first in your neighborhood to harvest ripe tomatoes! One of the world's earliest tomatoes with an excellent flavor. Golf ball size fruits are bright red with very few seeds. While most early tomatoes originate from cooler climates, this variety is believed to have come from Mexico, so it's rather unique, as it does well in cool and warm climates. Excellent for containers. Determinate.

#00257. (A) pkt. (20 seeds) \$3.45; 3+ pkts. \$3.15 each

## Amish Gold Slicer

**80 days.** Beautiful, 3 to 4" round slicer that's been a trial favorite year after year. Fruits, up to 5 oz., are blemish-free, very firm and have excellent flavor. Great for fresh eating and canning. Extremely productive. Indeterminate.

#00034. (A) pkt. (10 seeds) \$2.95; 3+ pkts. \$2.75 each

## Black Plum LB

**80 days.** A very prolific Russian strain. Brownish-gray fruits are so sweet and meaty that some prefer it to Roma for making sauces. Also excellent when used in salads or for drying. Oval fruits average 2 to 4 oz. and turn a deep mahogany-brown at maturity. One of our best yielders for both fresh market and home use. Indeterminate.

#00097. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

42 DAYS

## Garden Peach LB

**75 days.** This unique heirloom looks very much like a small peach – it even has slightly fuzzy skin! Small, 2 oz., light-yellow fruits have a delicate, distinctive flavor that's light, clean and a little bit fruit-like. Prolific producer of juicy fruits with excellent keeping quality. Introduced to American gardens in 1862. Indeterminate.

#00276. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

AMISH GOLD SLICER

## Golden Roma

**75-90 days.** Bright yellow, 3 to 4" elongated fruits are smooth and have a sweet flavor. These very attractive 3 oz. fruits are yellow versions of typical red roma types and are considered to be a true paste tomato. Fruits are consistently meaty and have less water and fewer seeds than fresh market tomatoes. Great for fresh salsas, sautéing, roasting, drying, canning and making sauces and soups. Heavy yielder. Indeterminate.

#00308. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

BLACK PLUM

## Green Zebra LB

**78 days.** One of the most unusual varieties you'll ever grow! Fully ripened fruits are bright green with stripes of a still lighter green. Small, round, 2 to 4 oz. fruits have excellent, real tomato flavor. Plants are vigorous and indeterminate.

#00329. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (F) 1/16 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each

GARDEN PEACH

GOLDEN ROMA

GREEN ZEBRA

INDEPENDENCE DAY

## Independence Day

**55 days.** If transplanted in early May, you can have ripe tomatoes by the Fourth of July. Round, 2 to 3" pink fruits have a great tomato flavor which is not always typical with other early varieties. Perfect for salads and for slicing. Indeterminate.

#00362. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## INDIGO™ SERIES

These uniquely colored tomatoes are all high in anthocyanin (a powerful antioxidant with disease fighting properties) – making them among the healthiest tomatoes in the world and is also what causes the blue pigment.

Allow fruits to fully mature for best flavor.

Also see *Blue Beauty* on pg. 28, *Blue Berries*, *Cherry Drops & Kumquat* on pg. 35

## Apple

**70-75 days.** A cross between Indigo Rose and a red cherry tomato. The unripe green fruit, 2 to 4 oz., will show lots of purple, which is brought on by sunlight, but will eventually turn almost a true black. Excellent sweet tomato flavor. Indeterminate.

#00365. (A) pkt. (20 seeds) \$5.15; 3+ pkts. \$4.65 each

## Rose EB LB

**75-80 days.** (PVP) The first in the series. Round, 2 to 3" fruits have purple on the side exposed to light, while the shaded part starts out green and turns deep red when mature. Flesh is red with a superbly balanced, multi-faceted tomato flavor. Bred at OSU. Heavy yielder. Intermediate resistance to Powdery Mildew. Indeterminate.

#00372. (A) pkt. (30 seeds) \$5.15; 3+ pkts. \$4.65 each

#00379(X). Get 1 packet each of all 6 Indigo™ varieties (including *Blue Beauty*, *Blue Berries*, *Cherry Drops & Kumquat* on pages 28 & 35) for just \$27.95. Save 15%!

INDIGO™ ROSE

INDIGO™ APPLE

### Japanese Black Trifele

**85 days.** Heavy producer of pear-shaped fruits that are free of blemishes and cracks and range in color from intense black to dark gray, blushed with magenta. Potato leaf plants produce prolific yields of picture-perfect, 3 to 5 oz. fruits that look stunning when sliced and arranged on a plate. As delicious as it is unique. An excellent canner as it holds its flavor and color well. Indeterminate. #00382. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

### Jaune Flammée

**80 days.** A gorgeous study in contrasts, with bright orange skin surrounding reddish flesh that is a rare find in heirloom tomatoes! Fruits are slightly larger than cherry varieties, about 2 to 3 oz., with thick walls that are tender and flavorful. Sweet, high-yielding and especially valued as a salad tomato for its beautiful appearance. Indeterminate. #00384. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each

### Jersey Devil

**90 days.** An extremely prolific paste-type heirloom shaped like a banana pepper. Fruits grow to about 5 to 6", are very juicy, meaty and have few seeds. Very flavorful and excellent used in sauces and salsas. Indeterminate. #00390. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

### Martino's Roma

**75 days.** You can't go wrong with this Italian heirloom! Richly flavored, meaty, pear-shaped fruits set heavily on compact plants with rugose, dark green foliage. So productive, the 2 oz., 3" fruits tend to drop from the vine when ripe. Most often used for sauces, salsas and pastes, but is perfect for eating fresh as well. Great for farmers markets. Dwarf determinate. #00461. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (G) 250 seeds \$8.95; 2+ \$8.15 each; 4+ \$7.35 each

### Moonglow

**80 days.** Bright orange fruits glow with neon intensity against 36" vines. A high yielder and good keeper, producing loads of tasty, 3 to 4 oz., globe-shaped fruits that are dense and meaty, with thick walls and few seeds. Sweet flavor with a hint of tartness, but without that strong acidic taste. Indeterminate. #00480. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

### Oregon Spring

**60 days.** Early variety that sets loads of meaty fruits weighing 3 to 5 oz., with excellent flavor. Compact plants set fruits even in cool weather and continue to yield all season long. Nearly seedless. Perfect for ketchup and sauces. Determinate. #00530. (A) pkt. (50 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each

### Quedlinburger Fruhe Liebe

**40 days.** An extremely early German heirloom that continuously produces until frost – one of the strongest all-season producing plants you can grow. Fruits weigh approx. 2 oz. and have a great flavor and acid level for such an early variety. In trials, it was one of the best. Round, red, 1 to 2" fruits set in clusters of 4 to 6 on potato leaf plants. Yields great in hot summer temperatures and sets surprisingly well in cool climates. Indeterminate. #00588. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

### Red Pear

**70 days.** One of the rarest of the heirloom varieties still grown today! Hardy, medium-sized plants yield plenty of small, red, pear-shaped, up to 2" fruits with very few seeds. Perfect for salads, sauces or pickles. Indeterminate. #00606. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each

### Roma VF

**75 days.** Roma is considered to be the most well-known paste-type tomato, perfect for sauces, pastes and ketchup. Heavy crops of bright red, pear-shaped, 2 to 3 oz. fruits are nice and meaty, with very few seeds. Determinate. #00618. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each

### San Marzano

**80 days.** A little later than Roma, with superb flavor in long, 3½" by 1½" blocky fruits that are bright red and hang in large clusters. Holds well on the vine and in storage. Extra-high solid content is perfect for canning. Indeterminate. #00630. (A) pkt. (50 seeds) \$4.05; 3+ pkts. \$3.65 each; (F) 1/16 oz. \$8.45; 2+ \$7.65 each; 4+ \$6.95 each

### Saucy Lady

**80 days.** Possibly the best sauce tomato that we have offered for quite some time. Attractive, 3 to 4 oz. fruits are deep crimson in color and extremely firm. Excellent for making delicious sauces and pastes. Determinate. #00641. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

### Speckled Roman

**85 days.** Tomato lovers everywhere are tipping their caps to John Swenson who developed this cross of Antique Roman and Banana Legs. Orange-red, 5" long fruits are a speckled paste-type, marked by irregular yellow stripes. Meaty fruits have hearty, real tomato flavor and almost no seeds. Indeterminate. #00669. (A) pkt. (20 seeds) \$3.15; 3+ pkts. \$2.85 each; (V) 100 seeds \$8.25; 2+ \$7.45 each; 4+ \$6.75 each

### Stupice LB

**52 days.** A native of Czechoslovakia where its extreme earliness, tolerance to cold, superior flavor and high yields earned it worldwide attention. Tests show an astounding average of 87 fruits per plant. Fruits are sugary sweet and weigh up to 2 oz. Indeterminate.

**#00678. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

TEN FINGERS OF NAPLES

### Ten Fingers of Naples

**75 days.** An excellent paste-type. Elongated, pointed, 5 to 6", meaty fruits weigh up to 3 oz. and are produced in long trusses, giving them a finger-like appearance! Flavor is sweet, rich and superior to many modern day varieties. Ideal for cooking, canning and preserving. A popular heirloom from Naples, Italy. Heavy yielder. Determinate.

**#00756. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each**

UMBERTO PEAR

### Umberto Pear

**80 days.** A very old heirloom variety brought back from near extinction. Just one plant can produce up to 250 pink, meaty 2 oz. fruits. Robust flavor is excellent for both fresh eating and sauces. Indeterminate.

**#00786. (A) pkt. (10 seeds) \$2.95; 3+ pkts. \$2.75 each**

## WILD BOAR SERIES

*For full series description, see pg. 27.*

### Mint Julep

**75 days.** Also known as Michael Pollan. Plum/pear shaped, 1½ oz. fruits have a pleasant tomato taste with a nice overall sweet flavor that is less tart than other green varieties. Extremely high yields with one plant often producing as much as 5 gallons of fruit! #00810.

### Sweet Carnernos Pink

**65 days.** Beautiful rose and gold striped, 2 to 4 oz. round fruits have a deliciously sweet, slightly tangy, gourmet flavor. High yields and crack-resistant. #00816.

Prices, above 2, mix or match:

**(A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.05 each**

### Yellow Pear VFA LB

**78 days.** Vigorous vines produce high yields of 2", yellow-skinned, pear-shaped fruits that have few seeds. Slightly later than Red Pear (pg. 31), but with the same prolific yields and performance. Indeterminate.

**#00842. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.50; 2+ \$5.90 each; 4+ \$5.40 each**

# Cherry Tomatoes ...

### Apple Yellow Hybrid F LB YLCO

**110 days. 2020 AAS Winner.** Uniquely dimpled, bell-shaped fruits weigh up to 1 oz. and have a firm, meaty texture. With a Brix of 8, flavor is deliciously sweet, yet citrusy, with just the right balance of sugar/acid. Plants abundantly produce clusters of eye-catching, bright, lemon yellow, uniform fruits that grow up to 1½" – in trials, one plant produced nearly 1,000 fruits! Crack resistant and holds well on the vine. Resistant to Tomato Mosaic Virus and tolerant to Bacterial Wilt. Indeterminate.

**#00038. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each**

### Artemis Hybrid FFNT

**50-55 days.** Deliciously super-sweet, rich, red cherry tomatoes have a unique crisp, firm texture. Attractive, round, 1" fruits weigh up to ½ oz. each and are great for eating straight-from-the-vine, in sauces and salsas. Highly resistant to Leaf Mold and Tomato Mosaic Virus. Indeterminate.

**#00021. (A) pkt. (10 seeds) \$5.85; 3+ pkts. \$5.35 each**

## ARTISAN™ SERIES

Produced by a small breeder who concentrates on varieties specifically for small growers, local and specialty markets. Combines excellent flavor with unique colors, shapes, sizes and stripes. The Tigers are julienne types with a tropical flavor and can be allowed to ripen off the vine without compromising the flavor. Fruits weigh up to 1 oz. and are great for appetizers and salads to main courses. Vigorous vines produce continuously over a long growing season.

All are indeterminate. Also see Orange Jazz on pg. 21.

### Blush

**75 days.** Fruits are golden yellow with a pink blush. #00045.

### Bumble Bee Pink

**70 days.** Pink fruits are striped with yellow and are crack resistant. #00042.

### Bumble Bee Purple

**70 days.** Fruits are purple striped with green. #00044.

### Bumble Bee Sunrise

**70 days.** Beautiful orange-yellow fruits with red stripes, pink flesh and an excellent sweet, yet tangy flavor. #00036.

### Tiger Pink

**70 days.** Fruits are pink and striped with orange. #00048.

### Tiger Mix

**70-75 days.** A colorful striped mix of Blush, Green and Pink Tiger. #00049.

### Artisan™ Mix

**70-75 days.** A mix of all of the above varieties. #00041.

Prices, above 7, mix or match:

**(A) pkt. (30 seeds) \$5.15; 3+ pkts. \$4.65 each**

### Black Opal

**70 days.** Bred from the popular heirloom Black Cherry and selected for its improved growth habit, firmer texture and superior flavor. Masses of ½", attractive, round fruits are excellent for fresh eating, grilling, sauces and pastes. Extremely productive. Indeterminate.

**#00096. (A) pkt. (20 seeds) \$3.85; 3+ pkts. \$3.55 each**

### Braveheart Hybrid FTST

**60 days.** Bright red, 1 oz. cherries have a deliciously sweet and juicy, bold tomato flavor. Fruits are thin skinned and ripen quickly and uniformly, extending harvests throughout the season. Expect prolific yields on medium-sized plants that are easily managed. Crack resistant. Indeterminate.

**#00108. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.15 each**

### Brown Berry

**70 days.** Unusual fruits with appealing, earthy-brown skins. Unusual, 1" fruits have great flavor and are sweet and juicy. A very different look for fresh and cooked cuisine. Indeterminate.

**#00115. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each**

### Candyland Red

**55-60 days. 2016 AAS Winner.** Dark red, ½" fruits weigh ¼ oz. and are smaller than most cherries. Fruits have an excellent, sweet flavor! Plants have a tidier habit than other currant-types with the fruit tending to form on the outside of the plant making them easier to harvest. Indeterminate.

**#00156. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Celano Hybrid LB

**60-70 days. 2020 AAS Winner.** Deliciously super-sweet, oblong fruits weigh up to ¾ oz. each and have an average Brix of 9. In comparison to similar varieties, fruits are sweeter, have better texture and a deeper red color. Early and heavy yielding. Ideal for growing in containers. Semi-determinate.

**#00161. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each**

### Cherry Roma

**75-80 days.** Produces bountiful sets of 1" long, plum-shaped fruits with a surprising flavor that's both sweet and spicy at the same time. A real tasty treat when eaten fresh or dried to enjoy all year long! Indeterminate.

**#00191. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

### Chocolate Cherry

**70 days.** Extremely flavorful, uniform, round, chocolate-red fruits grow in trusses and measure 1". Fruits hold stems very well, don't crack and can be picked several days before completely mature and allowed to ripen off the vine without sacrificing quality. Great variety for the home gardener and fresh markets. Indeterminate.

**#00186. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each**

### Chocolate Pear

**70 days.** Gorgeous pear-shaped cherries are light red swirled with various shades of green and brown – great for farmers markets and home gardeners. Fruits have a rich tomato flavor. A consistent taste-test winner in trials. Indeterminate.

**#00165. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each**

### Chocolate Sprinkles Hybrid FNT

**50-55 days.** Beautiful 1½" cherries are red and striped with dark green. Fruits have a rich, sweet flavor and grow in trusses of 5 to 7. Produces more fruit with better flavor than similar open-pollinated varieties. Very productive and early. Indeterminate.

**#00174. (A) pkt. (10 seeds) \$5.85; 3+ pkts. \$5.35 each**

## CREAM OF THE CROP™ HYBRID SERIES

Delicious and beautiful! Even if you don't typically eat tomatoes, give these 6 varieties a try – kids will love 'em, too! Bred for improved quality, longer shelf life and better disease tolerance than comparable varieties.

All are indeterminate.

### Apricot Zebra

**60-70 days.** Golf ball sized, 1½ to 2" fruits are firm and meaty with a nice texture. Unique tangerine skins have prominent green stripes that almost disappear when fully ripe. Strong tomato flavor is rich with moderate sweetness averaging a Brix of 7.5. High yielding. #00019.

### Pink Champagne

**60-70 days.** A favorite for snacking! Dark pink, grape-shaped fruits have an amazing sweet flavor with an average Brix of 9.5, measure a little over 1" long and grow on moderately long trusses. Good yielder. #00563.

### Prairie Fire

**60-70 days.** Pointed, grape-shaped, 3" fruits have subtle gold striping and deep red flesh. In trials, it rated a Brix of 10. #00585.

### Tropical Sunset

**60-70 days.** Gorgeous, 1½" ping-pong ball sized fruits are gold with orange-pink striping and nearly translucent when ripe. Flavor is fruity and bright with an average Brix of 8. Good shelf life. A trial favorite! #00773.

Prices, above 4, mix or match:

**(A) pkt. (20 seeds) \$4.05; 3+ pkts. \$3.65 each**

### Red Torch

**60-70 days. 2019 AAS Winner.** Excellent flavor, great texture and high yields. A standout among other varieties in the specialized market of striped tomatoes. Attractive, oblong, 1½" fruits are red with golden stripes and weigh up to 1½ oz. each. Early and high yielding. #00615.

### Sparky XSL

**60-70 days. 2019 AAS Regional Winner (Heartland).** One of the few X-tended Shelf Life cherries available to home gardeners. Attractive, striped, round fruits weigh 1 oz., are 1¼" in diameter and very sweet with an average Brix of 8.5. Early and prolific. Well-suited for market growers. #00667.

Prices, above 2, mix or match:

**(A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

## Crokini Hybrid FT LB

**60-65 days. 2020 AAS Regional Winner (Southeast).** Fruits have a very sweet Brix of 8.5 and a light acidic taste giving it the perfect sweet/acid balance. Round, ½ oz. fruits are small and firm with a crunchy texture and grow in trusses of up to 12. In trials, plants had better yields than similar varieties due to its Late Blight resistance and were slightly more compact. Highly resistant to Leaf Mold with intermediate resistance to Root-Knot Nematodes and Tomato Yellow Leaf Curl Virus. Indeterminate.

#00210. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

## Cupid Hybrid FAST BS

**66 days.** There are a lot of good grape tomatoes on the market, but Cupid advances to the next level in the areas of quality, flavor, yields and holding ability. Meaty, bright red fruits are nearly as firm as Roma types and are quite crack resistant. Vigorous plants set loads of fruit in long trusses for a long season that begins early and due to a very high level of disease resistance, continues right up until frost. Indeterminate.

#00208. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each

## Ella Bella Hybrid FTSt

**70-75 days.** Small, firm, attractive fruits weigh up to nearly ½ oz. and are packed with delicious flavor. Crack resistant cherries hold well in the garden and have a good shelf life while maintaining their flavor. Yields prolifically on disease resistant plants. Highly resistant to Leaf Mold with intermediate resistance to Fusarium Crown & Root Rot, Root-Knot Nematode and Tomato Yellow Leaf Curl Virus. Indeterminate.

#00247. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each

## Fantastico Hybrid LB

**50 days. 2014 AAS Winner.** Long clusters of bright red, super-sweet fruits, with a Brix of 12, grow in clusters toward the outside of plants making them very easy to harvest. In trials, fruits resisted cracking much better than similar varieties when left on the vine past maturity. High yielding plants produce up to 12 lbs. of ½ oz. fruits! Bred for growing in small gardens – perfect in large patio containers or hanging baskets. Determinate.

#00260. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

## Fire Fly Hybrid VFT

**80 days. 2019 AAS Winner.** Attractive, round fruits are super-sweet, pale white to pale yellow, less than 1" in diameter and weigh about ½ oz. each. Delicate, translucent skins add a mild acidic flavor which enhances the juicy, sweet flesh that explodes with flavor. Perfect for snacking, roasting and in salads. Crack resistant. Indeterminate.

#00266. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.55 each

## FUNNYPLUMS™ HYBRID SERIES

**80-90 days.** Unique, plum-shaped fruits grow above the foliage creating a strikingly ornamental presentation. Cute little fruits weigh up to ½ oz., ripen early, are easy to pick and are deliciously sweet.

Ideal for growing in 4 to 6" pots and small containers – makes a perfect patio plant. Dwarf, compact plants grow up to 8 to 10" tall and wide, are very heat tolerant and produce good yields.

Do not overwater. Determinate.

**Creamy-Yellow** #00267. **Orange** #00264. **Red** #00263.

Prices, above 3, mix or match:

(A) pkt. (10 seeds) \$5.65; 3+ pkts. \$5.15 each

#00877(X). Get 1 packet each of all 3 Funnyplums™ for just \$14.25. Save 15%!

## Gardener's Delight

**72 days.** A German-bred heirloom that produces long trusses of grape-like, red, ¾" fruits in clusters of 6 to 12. Sugar-sweet, crack resistant and bears until frost. Hardy vines require staking or caging. Indeterminate.

#00277. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (G) 250 seeds \$7.45; 2+ \$6.75 each; 4+ \$6.15 each

## Geranium Kiss

**65 days.** An excellent choice for container gardening. Stocky, dwarf plants, with rugose foliage, grow just 24 to 30" tall and produce loads of golf ball sized, bright red fruits that are round with pointed ends. Tomatoes have a good texture, an exceptional flavor, grow in clusters of 10 or more and weigh about 1 oz. each. In trials, plants exhibited tolerance to Early Blight and Septoria. Bred by Alan Kapuler, Ph.D. of Peace Seeds. Dwarf determinate.

#00282. (A) pkt. (15 seeds) \$3.45; 3+ pkts. \$3.15 each

## Gold Nugget

**55 days.** Vigorous plants bear numerous golden-yellow, fine-flavored, 1" oval fruits that are often seedless. Uniform, compact plants grow to just 24" tall. Great for containers. Determinate.

#00306. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each

## Green Grape

**70 days.** No more waiting for green tomatoes to turn red and ripe without spoiling. Fruits are just under 1" across and grow profusely on vigorous plants. Very juicy and sweet. Perfect for green ketchups, soups, garnishes, sauces and hors d'oeuvres. Determinate.

#00326. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each

## Grinch Dwarf Cherry

**65 days.** Unlike the popular character it's named after, this variety is not stingy with its sweet and delicious flavor. Green to slightly yellow, 1½ to 2 oz., juicy, plum-shaped fruits occasionally have a small tip on the blossom end. Plants have rugose, potato leaf foliage, grow up to 4 ft. tall and should be supported. Great for containers. Determinate.

#00313. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## HEARTBREAKERS™ HYBRID COLLECTION

**70-85 days.** Get ready to fall in love with Dora & Twiggly whose adorable little fruits reveal a lovely heart shape when cut in half. Juicy fruits have tender skins, the perfect sugar to acid ratio and a Brix of 9%. Great indoors on windowsills, in small gardens, raised beds and in containers or hanging baskets mixed with trailing vegetables or flowers. Plants have excellent vigor and naturally remain dwarf without any pinching or pruning. Produces abundantly. Determinate.

### Dora Red

Fruits grow in clusters of approx. 8 to 10, weigh up to ½ oz. each and are about the size of a quarter. Bred for regrowth after harvest of the first fruits; plants will continue to set new fruit, but only if ripe fruit is kept harvested. Sturdy, dwarf plants have nicely branched trusses of fruit that lay outside of the foliage for easy visibility and harvest. Ideal pot size is 6 to 8". Mature plants grow to just 16" tall. #00333.

### Twiggly Series

Fruits grow in clusters, weigh approx. ¼ oz. each and are about the size of a nickel. Plants are considerably more compact than Dora. Ideal pot size is 5 to 6". Mature plants grow to just 12" tall.

**Orange #00334. Red #00331.**

Prices, above 3, mix or match:

(A) pkt. (10 seeds) \$6.65; 3+ pkts. \$6.05 each

### Heirloom Cherry Blend

**70-80 days.** A customer favorite featuring a mouth-watering selection of cherry tomato varieties that have been carefully blended to have similar growth habits. Great for fresh summer salads, vegetable trays and selling at farmers markets. Enjoy a kaleidoscope of colors that include red, pink, green, white, yellow, black and bicolors. Indeterminate.

#00346. (A) pkt. (20 seeds) \$3.55; 3+ pkts. \$3.25 each

### Husky Cherry Red Hybrid VFA

**65 days.** Season-long production of outstanding 1" fruits that feature excellent flavor. A sister to Husky Red (pg. 18), whose dwarf indeterminate habit and quality production makes it perfect for small spaces and containers.

#00357. (A) pkt. (30 seeds) \$5.05; 3+ pkts. \$4.55 each; (G) 250 seeds \$20.95; 2+ \$18.95 each; 4+ \$17.45 each

### Ildi

**53 days.** Early and high yielding, with masses of miniature yellow fruits, up to 75 per cluster! Plants naturally stop growing at 5 to 6 ft. and have three or four trusses per plant. Even after trusses are harvested and hung in cool storage, these tomatoes seldom drop. Grape-shaped with the occasional pear and always firm and sweet with a tiny bit of tartness. Yummy in salads or as a garnish – a fantastic garden performer! Indeterminate. #00369. (A) pkt. (30 seeds) \$4.15; 3+ pkts. \$3.75 each

## INDIGO™ SERIES

For full series description, see pg. 30.

### Indigo Blue Berries

**75 days.** An eye-catching cherry tomato which ripens from amethyst purple to a stunning, almost black, with a brick red bottom. Purple is great and is an all around crowd pleaser. Indeterminate. #00374.

### Indigo Cherry Drops

**65 days.** (PVP) This stunning cocktail cherry, with excellent sweet flavor, may just be the best-tasting Indigo yet! Round, 1" fruits have indigo shoulders with rosy undersides and deep red flesh. Expect huge yields – potentially 500 to 1,000 fruits per plant under ideal growing conditions! Indeterminate. #00364.

Prices, above 2, mix or match:

(A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

### Indigo Kumquat Hybrid

**75 days.** A cross between Indigo Rose and a yellow cherry tomato. Tangerine-orange, oval shaped fruits, with indigo shoulders, weigh 1 oz. and grow in clusters of up to 8. Semi-sweet flavor with an excellent fragrance. Semi-determinate. #00375. (A) pkt. (10 seeds) \$8.25; 3+ pkts. \$7.45 each

### Jasper Hybrid FF EB LB

**60 days. 2013 AAS Winner.** An outstanding disease resistant package results in extended harvests of this delightful little tomato. Small, round, ¾" red fruits weigh less than 1 oz. each with sweet, rich flavor and a pleasant creamy texture. Fruits grow on small trusses, holding their quality for a long time on the plant and after picking, resisting cracking and rot. Plants are extra vigorous and tall. Overcomes weather-related stresses with ease. Disease resistance includes Septoria Leaf Spot. Indeterminate.

#00385. (A) pkt. (10 seeds) \$5.55; 3+ pkts. \$5.05 each

## JELLY BEAN HYBRID SERIES VFFAST

**72 days.** Grape-like fruits weigh up to ¼ to ½ oz. and are aptly named for their bite-sized sweetness and intense colors. Heavy clusters of up to 30 fruits mature early on plants that have good disease resistance. Both are indeterminate.

**Red #00387. Yellow #00837.**

Prices, above 2, mix or match:

(A) pkt. (30 seeds) \$5.65; 3+ pkts. \$5.15 each; (G) 250 seeds \$24.95; 2+ \$22.95 each; 4+ \$20.95 each

KITCHEN MINIS® EDIBLE POTTED SIAM

LARGE RED CHERRY

### Jolly Hybrid N

**70-75 days. 2001 AAS Winner.** Large, pink-fruited cherry tomato with good acid content and exceptionally sweet flavor. You can expect 9 to 14 meaty fruits per cluster weighing about 1½ oz. each, with a distinct peach shape. Resists cracking. Indeterminate.

#00397. (A) pkt. (20 seeds) \$7.95; 3+ pkts. \$7.25 each

### Juliet Hybrid EB

**60 days. 1999 AAS Winner.** Famous for yielding the first elongated, grape-like fruits that don't crack! Clusters of unusual, sweet-flavored fruits cling to the vine longer than most other cherry tomatoes. Glossy red-skinned fruits weigh 1 oz. each. Resistant to Leaf Spot. Indeterminate.

#00400. (A) pkt. (10 seeds) \$3.15; 3+ pkts. \$2.85 each

### KITCHEN MINIS® EDIBLE POTTED HYBRID SERIES

**70-84 days. No garden, no problem!** Get deliciously sweet cherry fruits right from your windowsill or countertop.

Plants grow just 6 to 8" tall and wide and produce ½ to 1" fruits, stay tidy and benefit from being grown dry. Kitchen Minis® make it possible for consumers to harvest their own homegrown vegetables regularly. Each plant's harvest lasts about a month. Also great grown in patio containers. Determinate.

**Cocoa #00200. Red Velvet #00610. Siam #00650.**

Prices, above 3, mix or match:

(A) pkt. (10 seeds) \$6.85; 3+ pkts. \$6.25 each

### Large Red Cherry

**72 days.** An excellent salad tomato that grows in clusters of up to 5 on spreading, hardy vines, with dark green foliage. Full-season, high yields of deep scarlet, round, 1 to 1¼" diameter, flavorful fruits. Green fruits may be pickled while the ripe ones are used fresh or for preserves. Indeterminate.

#00424. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$5.75; 2+ \$5.25 each; 4+ \$4.75 each

### Little Bing VFF Hybrid

**60-65 days.** A sister variety to Little Napoli on pg. 20. Bright red, 1" cherry fruits. Compact plants have a tidy habit and healthy green foliage. At less than 24" tall, they flourish in containers, stay a manageable size and produce lots of tomatoes in a period of a few weeks for a large harvest. Fruits are delicious fresh or in your favorite recipes. Determinate.

#00435. (A) pkt. (15 seeds) \$5.05; 3+ pkts. \$4.55 each

### Little Birdy Red Robin

**55 days.** An extra-sweet, container-grown variety, just as good grown indoors as a potted plant. Round, red, 1¼" fruits are produced on compact, rugose leafed plants that grow just 8 to 12" tall. Ideal for windowsills, patios or hanging baskets. Dwarf determinate.

#00612. (A) pkt. (30 seeds) \$5.75; 3+ pkts. \$5.25 each; (G) 250 seeds \$21.95; 2+ \$19.95 each; 4+ \$17.95 each

LITTLE BING

LITTLE BIRDY RED ROBIN

MEXICO MIDGET

MICRO-TOM

### Mexico Midget

**60-70 days.** Old-time, south-of-the-border favorite. Tiny, red, cherry-type fruits weigh down trusses with prolific yields throughout an extended growing season. Round ½" fruits explode with irresistible flavor. Very reliable. Indeterminate.

#00466. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (G) 250 seeds \$8.95; 2+ \$8.15 each; 4+ \$7.35 each

### Micro-Tom FST

**50-60 days.** Considered to be one of the world's smallest tomato plants – grows just 6 to 8" tall and bears loads of flavorful, 1 oz., deep red fruits. An ideal house plant for windowsills and patios for vine-ripened fruits year round! Developed by the University of Florida. Resistant to Leaf Mold. Dwarf determinate.

#00468. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each; (G) 250 seeds \$27.95; 2+ \$25.45 each; 4+ \$22.95 each

### Midnight Snack Hybrid

**65-70 days. 2017 AAS Winner.** Unique cherries ripen to red with a blush of glossy black-purple on the skin when exposed to sunlight due to the accumulation of anthocyanin pigment. Plants are productive all season, yielding 1½" fruits that have a well-balanced flavor. Great in salads or eaten straight off the vine – a guilt-free treat any time of the day or night. Indeterminate.

#00469. (A) pkt. (15 seeds) \$5.45; 3+ pkts. \$4.95 each

### Mingle Mix Hybrid

**65-70 days.** Eye-catching grape tomatoes are always a home gardeners favorite and this delightful mix is destined to become a popular choice. Attractive fruits are deliciously sweet and weigh up to 1 oz. each. Perfect for snacking, salads, the ever-popular charcuterie boards and roasted or sautéed. Colors include oranges, reds, yellows and chocolates. For the best color range grow 6 plants or more. Great for farmers markets and roadside stands. High yielding. Crack resistant. Indeterminate.

#00470. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each

### Mountain Vineyard Hybrid FFF TSWV

**76 days.** A variety from the Mountain Series on pg. 14. The first of its kind – this grape tomato contains the crimson gene for high lycopene. Mature fruits are glossy dark red, firm with appealing red gel and a balanced sweet flavor. Compact vines have short internodes making fruits easier to harvest. Early heavy pruning recommended. Crack resistant. Indeterminate.

#00502. (A) pkt. (10 seeds) \$6.95; 3+ pkts. \$6.35 each

### DID YOU KNOW...

Hybrid varieties are more disease resistant than heirloom or open-pollinated types? When disease resistances are known, codes are listed after the name & sometimes additional resistances are listed in the description. The code key can be found on page 9.

MOUNTAIN VINEYARD

MINGLE MIX

MIDNIGHT SNACK

# Little Bites ...

## Natures Bites Hybrid FFT

**100 days.** A gorgeous cherry tomato with exceptional sugar content. Brilliant, bright red fruits are easily grown in home gardens for straight-from-the-vine eating. Fruits weigh ¾ oz. and grow in clusters of up to 20. Heavy yielder. Resistant to Fusarium Crown & Root Rot. Indeterminate.

#00510. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.85 each

## Orange Sunshine Hybrid

**58 days.** The qualities of these bright beauties just can't be beat! Beautiful orange, ½ oz. cherries are firm and as sweet as the ever popular Sungold (pg. 38). Adds a dash of color and flavor to salads, pizzas, sautés, and salsas. Prolific yields. Indeterminate.

#00525. (A) pkt. (15 seeds) \$5.95; 3+ pkts. \$5.45 each

## Orange Zinger Hybrid FT

**60 days.** If Sungold (pg. 38) is a favorite of yours, you're going to love this variety! Dark orange, round, 1" fruits have big tomato flavor with the perfect sweet to tangy ratio. Excellent in salads or straight-from-the-vine. Crack-resistant and high yields. Indeterminate.

#00522. (A) pkt. (20 seeds) \$5.45; 3+ pkts. \$4.95 each

## PATIO CHOICE HYBRID SERIES

**50-60 days.** Compact plants produce generous amounts of ½ oz. cherry fruits. Juicy, delicious and perfect for snacking. Specifically bred for small spaces and container gardening. Plant both for a dramatic effect. Determinate.

### Red

Plants grow 24 to 30" producing trusses that cascade in hanging baskets. #00541.

### Yellow

**2017 AAS Winner.** Enjoy fresh, roasted or sun-dried for a delicious sweet treat. Plants grow 18" and have short vines. #00535.

Prices, above 2, mix or match:

(A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

## Rainbow Cherry Blend

**63-90 days.** Get the whole rainbow in this refreshing mix of cherry tomatoes! Juicy and delicious bite-size fruits, up to 1½" across, come in a full range of colors including browns, golds, oranges, creamy whites, yellows, pinks, greens, purples and reds – even bicolors. Indeterminate.

#00598. (A) pkt. (20 seeds) \$4.35; 3+ pkts. \$3.95 each

## Rapunzel Hybrid

**68-70 days.** Named for the fairy tale character, plants produce unique,

long cascading trusses with up to 40 fruits. Very flavorful, bright red, ¾ to 1 oz. cherry tomatoes make the perfect addition to salads and veggie trays. So sweet, you'll be tempted to eat them straight-from-the-vine. Indeterminate.

#00631. (A) pkt. (15 seeds) \$5.15; 3+ pkts. \$4.65 each

## Rosella

**70 days.** From the breeder of the extremely popular Sweet Aperitif (pg. 38). This gorgeous cherry has the perfect balance of sweetness and acidity. High yielding plants produce long trusses of ½" round, thin-skinned fruits that weigh ½ oz. each. Makes a great paste tomato and can also be eaten fresh or grilled. Perfect for market gardeners and home gardeners alike. Indeterminate.

#00626. (A) pkt. (15 seeds) \$3.85; 3+ pkts. \$3.55 each

## Ruby Crush Hybrid FTSt

**60 days.** Performs well in containers, shines in the garden and has sugary-acid balanced fruits that resist cracking. Smooth, bright red fruits are solid, oval, and weigh about ½ oz. each. Unlike other determinate grape varieties, compact plants are strong, have good leaf cover and require minimal support. Resistant to Fusarium Crown & Root Rot. Determinate.

#00637. (A) pkt. (10 seeds) \$7.25; 3+ pkts. \$6.55 each

## Snowberry

**75 days.** Nicely rounded, 1½ to 2 oz. firm fruits feature a creamy-yellow color outside with a white inside, making this unique variety the closest thing to a pure white cherry available on the market today. Sturdy plants produce trusses of uniform fruits and are sweet and fruity. Indeterminate.

#00658. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each

## Sugar Lump

**65-75 days.** A sweet German heirloom that produces heavy yields straight through until frost. Clusters of 6 to 12 smooth, deep-red fruits, average ¾" to 1" in diameter. Excellent eating quality and flavor. Indeterminate.

#00684. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

## Sugar Rush Hybrid FT

**50-55 days.** Super-sweet, ¾ to 1¼" elongated fruits have a Brix of 8 to 9, grow on long trusses, are firm and have a great crunch. Plants are early maturing, very productive and grow up to 84". Indeterminate.

#00676. (A) pkt. (20 seeds) \$5.35; 3+ pkts. \$4.85 each

## Sugary Hybrid

**80 days.** 2005 AAS Winner. Sugary stands out as something really special in the world of cherry tomato competitions. Super-sweet, juicy, 2 oz. fruits, have appealing, reddish-pink skins. Huge yields of oval-shaped, slightly pointed fruits set continuously. Semi-determinate.

#00680. (A) pkt. (15 seeds) \$4.35; 3+ pkts. \$3.95 each

# With Big Flavor!

## Sun Dried Cherry Hybrid

**60-65 days.** If you love sun dried tomatoes but don't like paying those high supermarket prices, you'll want to give this variety a try! Make your own in the comfort of your home – it's more affordable AND you can control the ingredients. Round, red, 1 oz. sweet cherries with a Brix of 6 are produced in trusses that can be dried right on the vines, hung outside to dry or slow roasted in the oven. High yielding plants produce hundreds of fruit during the season. Indeterminate.  
#00701. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

SUNCHERRY EXTRA SWEET

## Suncherry Extra Sweet Hybrid FT

**55-60 days.** No hors d'oeuvre tray or salad will be complete without this bite-size delight once you taste its super-sugary sweetness. Vigorous plants produce high yields of thin-skinned, ¼ oz. fruits especially at the start of harvest. Indeterminate.  
#00693. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each; (G) 250 seeds \$30.95; 2+ \$27.95 each; 4+ \$25.45 each

SUNCHOCOLA

## Sunchocola Hybrid T

**60-67 days.** Fans of Sungold have come to love this beauty from the same breeders. Gorgeous chocolate-red, 1" fruits with a deliciously sweet, smoky flavor are very juicy and lower in acid than most typical cherry varieties. Clusters of 8 to 12 fruits, weighing approx. 1 oz. each, are grown on high yielding plants. An excellent color addition to all your favorite dishes, fresh or cooked. Indeterminate.  
#00692. (A) pkt. (10 seeds) \$6.55; 3+ pkts. \$5.95 each

## Sungold Hybrid F TSWV

**57 days.** A positively luscious, bite-size golden beauty overflowing with an abundance of fruits – thin-skinned, with a juicy flesh that holds its oh-so-sweet, fresh-from-the-vine flavor. Cascading trusses are smothered in fruits that remain ripe and ready for picking over long periods of time. Very early, and a heavy yielder both outdoors and in greenhouses. Indeterminate.  
#00696. (A) pkt. (20 seeds) \$5.25; 3+ pkts. \$4.75 each; (G) 250 seeds \$26.95; 2+ \$24.45 each; 4+ \$22.45 each

SUNGOLD

## Sungold Select

**70 days.** This open-pollinated version of our very popular Sungold has become a favorite as well! Flavor is fruity, yet tart, making these bite-sized beauties a great snacking tomato. Indeterminate.  
#00694. (A) pkt. (30 seeds) \$4.15; 3+ pkts. \$3.75 each

SWEET MILLION

SWEET APERITIF

## Sunpeach Hybrid T

**60 days.** A favorite from past summer trial gardens – we're sure you'll enjoy these sweet treats! Reddish-pink fruits are highly uniform in shape and each ½ oz. fruit bursts with fantastic flavor that is just the right balance between sweet and tangy. Skins are crack resistant, but not thick and chewy. High-yielding, disease resistant plants produce long trusses of fruits from late summer until fall. Resistant to Leaf Mold. Indeterminate.  
#00703. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each

## SunSugar Hybrid FT

**62 days.** The ultimate in cherry tomatoes, this golden yellow beauty achieves a new level of sugary-sweetness and flavor, superb texture, and a tangy true tomato taste. Fruits are a lovely golden yellow, weigh ½ oz., and possess thin skins – remarkable, considering its wonderful crack resistance, even in heavy rains. Heavy early cropper. Very vigorous – can also be grown indoors in an unheated greenhouse in cold climates. Indeterminate.  
#00711. (A) pkt. (20 seeds) \$5.35; 3+ pkts. \$4.85 each; (G) 250 seeds \$34.95; 2+ \$31.95 each; 4+ \$28.95 each

## Supersweet 100 Hybrid VF

**65 days.** Staked plants produce long strands of 100 or more super-sweet cherry tomatoes, weighing about 1 oz. each and measuring 1" in diameter. Extra-high in Vitamin C. Plants bear throughout the season. Requires staking or caging. Indeterminate.  
#00735. (A) pkt. (30 seeds) \$4.75; 3+ pkts. \$4.35 each; (G) 250 seeds \$15.95; 2+ \$14.45 each; 4+ \$12.95 each

## Sweet Aperitif

**80 days.** This fresh tomato might be *the* sweetest cherry you'll ever eat! Bright red fruits have exceptional flavor and very high levels of sugar – up to a Brix of 13 – even sweeter than Sungold and SunSugar! – that are perfectly balanced with just the right amount of acid to give this tomato a deliciously, refreshing, tangy flavor. Plants have a multi-branching habit and are completely covered with bite-sized, ½ oz. fruits. Indeterminate.  
#00736. (A) pkt. (15 seeds) \$3.65; 3+ pkts. \$3.35 each

## Sweet Million Hybrid FT

**60 days.** Terrific flavor in high yields of super-sweet cherries that have an excellent, hybrid-bred disease resistance. Long trusses of smooth, dark red, 1 to 1½" fruits are produced on large, vigorous plants. Matures early and produces until frost. Resistant to Leaf Spot. Indeterminate.  
#00747. (A) pkt. (30 seeds) \$4.75; 3+ pkts. \$4.35 each; (G) 250 seeds \$17.95; 2+ \$16.45 each; 4+ \$14.95 each

**"2nd GENERATION" COLLECTION**  
One packet each of Suncherry Extra Sweet & SunSugar. #00880(X).  
2 pkts. for just \$8.95. Save 10%!

### DID YOU KNOW...

Plants that produce a lot of flowers, but few fruits can be caused by several factors? Generally, with tomatoes this is due to a lack of pollination. Poor or weak pollination can occur when plants are too close together, not thinned properly, temperatures are too high, it rains a lot or if soil is too rich in nitrogen.

SUNGOLD SELECT

SUNPEACH

SUNSUGAR

SUPERSWEET 100

See Tomato Disease Code Key on page 9

**Sweet 'n' Neat Scarlet Improved**

**60 days.** An ultra-compact, dwarf variety bred to thrive on windowsills, decks and in containers. Strongly branched plants produce masses of sweet fruits over a long season. Petite, 1" round fruits weigh less than an ounce, with a memorable flavor that sparkles with sweetness. Determinate.

#00742. (A) pkt. (20 seeds) \$5.25; 3+ pkts. \$4.75 each

**Sweet Treats Hybrid FFTSt**

**75 days.** One of the first pink cherries in the world. Combines the flavor of pink tomatoes with the size of a cherry providing a uniquely balanced flavor of sweetness and acidity. Good aroma and great texture with attractive skins. Uniform and crack-free, 1 oz. fruits with a Brix of 8 to 9, grow in clusters of 12 to 15 fruits per truss. A perfect snack item, as well as a delicious addition in salads and in cooking. Resistant to Fusarium Crown & Root Rot and Leaf Mold. Indeterminate.

#00749. (A) pkt. (10 seeds) \$8.55; 3+ pkts. \$7.75 each

**Tiny Tim**

**60 days.** Early, dependable, tree-like, rugose leaved plants are perfect for small gardens or containers. Only 15" tall, yet yields many small, ¾" fruits. Super in salads. Dwarf determinate.

#00771. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

**Tomatoberry Garden Hybrid T**

**60-70 days.** Melt-in-your-mouth fruits resemble strawberries in appearance and taste extremely sweet. Petite, tapered, 1" fruits are deep red with thick flesh and a small inner cavity. Juicier than some cherry tomatoes and ideal for snacking. Holds well on the vine and resists cracking. Indeterminate.

#00763. (A) pkt. (10 seeds) \$7.65; 3+ pkts. \$6.95 each

**Tommy Toe EB**

**70 days.** Heirloom from the Ozark Mountains. Excellent in salads or for juices, ½ to 1" fruits are smooth, mild, glossy red and range from round to oval in shape. Resistant to Black Rot. Prolific reseed. Indeterminate.

#00774. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.45; 2+ \$5.85 each; 4+ \$5.35 each

**Tumbler Hybrid**

**45 days.** Specially bred for hanging baskets. Bushy plants have pliable stems and look fantastic when mixed in containers with Lobelia or Ivy. Yields up to 6 lbs. of bright red, delicious fruits. Determinate.

#00783. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

**Tumbling Tom Yellow**

**70 days.** This magnificent variety cascades to 20" or more, making it ideal for hanging baskets and container gardens. Sturdy plants are loaded with juicy, 1 to 2" fruits perfect for snacking and salads. A true ornamental that may seem too pretty to pick, but one sweet bite will have you coming back for more! Indeterminate.

#00767. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.85 each

**Tutti Frutti™ Stuffin XS Hybrid**

**77-91 days.** Unique, small cherries look like mini bell peppers! Bright red, 2" by 1½", blocky-shaped fruits are partly hollow making them easy to stuff – for those who don't like bell peppers, this is a tasty alternative. Makes an interesting addition to party platters. Prune and trim plants to expose fruits to sunlight and support with trellises or stakes. Perfect for growing in 7 to 9" pots. Plants have an upright growth habit. High yielder. Indeterminate.

#00780. (A) pkt. (10 seeds) \$6.25; 3+ pkts. \$5.65 each

**Valentine Hybrid**

**55 days. 2018 AAS Winner.** Redder than most typical tomatoes when fully ripe due to its high lycopene content. Deep-red, juicy fruits have a rich, complex flavor and hold longer on the vine without cracking or losing their superior quality. Flesh is firm and meaty like a Roma. For optimum flavor, pick when fruits are 1½" long by ¾" wide and deep red. Easy to harvest – fruits detach from trusses effortlessly and have an excellent shelf life. Great for fresh markets. Plants stay healthy and green even under strong Early Blight pressure. High yielding. Indeterminate.

#00798. (A) pkt. (10 seeds) \$6.95; 3+ pkts. \$6.35 each

**Yellow Cherry**

**70 days.** Lots of small, ½", pretty fruits to toss in your salads. Strong vines produce high yields of yellow jewels, preferred by taste-testers about the same percentage as Supersweet 100 (pg. 38). Indeterminate.

#00833. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.05; 2+ \$5.45 each; 4+ \$4.95 each

**Zebra Cherry Hybrid**

**70 days.** A compact, hard-to-find basket type producing loads of tangy fruits that are slightly larger than the average cherry at 1 to 1½" in diameter. Exotic fruits have red and green stripes, with dark red, flavorful, firm flesh. Ideal for small spaces. Determinate.

#00846. (A) pkt. (15 seeds) \$5.45; 3+ pkts. \$4.95 each

**Garden Helper**

**Weedcomb**

Effortlessly combs out weeds! Grabs weeds and grass by the crown and pulls them out. Weeds get stuck in the teeth so you remove and clean up with one action. Aerates the soil at the same time to promote root growth and water penetration. The comfortable, ergonomic handle features a softer, more comfortable foam and a thumb screw tightening design so an extension handle can be added. Made of steel and plated with rust-resistant zinc for a lifetime of use.

Measures 14" long. #53093. \$19.95 each

AUNT MOLLY'S

## Tomatillos/Ground Cherries

### Aunt Molly's Ground Cherry

**65-90 days.** Also known as *Cape Gooseberry*, *Husk Cherry* and *Strawberry Tomato*. An heirloom variety from Poland prized for its flavor. Golden-yellow, ½" fruits, with a strawberry-like flavor, are excellent for pies, preserves, jams and fresh eating. Productive plants, 18" tall and 24" wide, start fruiting in July and continue until frost. Indeterminate.

#02351. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.85 each

PINEAPPLE

### Pineapple

**75 days.** A unique ground cherry with a deliciously sweet and juicy pineapple flavor. Bushy, spreading plants grow 12 to 18" tall and produce loads of small, 1" yellow fruits that have a nice texture and are encased in husks. Makes an unusual, delicious salsa and is excellent in salads, desserts, jams and for canning. Indeterminate.

#00838. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

PURPLE COBAN

### Purple Coban

**70 days.** Attractive fruits are smaller than typical varieties, at approx. 1" in diameter, but they are packed with a sweet, distinctive tomatillo flavor. Fruits start off green and ripen to varying shades of mostly purple. Popular in Guatemalan cuisine. Collected in Coban, Guatemala by Baker Creek Seed Company. Indeterminate.

#00835. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Super Verde Hybrid

**75 days.** Extra large fruits are firm, weigh approx. 2½ oz. each, have strong healthy husks, an attractive green color and an above average shelf life. Sturdy plants have excellent vigor, cover and fruit set. Features better uniformity, a higher yield potential and an extended harvest window – all improvements over comparable varieties. Indeterminate.

#00867. (A) pkt. (30 seeds) \$4.15; 3+ pkts. \$3.75 each

SUPER VERDE

### Tamayo Hybrid

**65 days.** A must-have for Mexican cooking and green salsas. Tall, vigorous plants produce high yields of intense green colored, husk covered fruit – one of the largest tomatillos ever – its 2½ to 3" size will amaze you. High yielding plants have an open habit for easy harvest. Delicious fruits have an above average shelf life. Indeterminate.

#00868. (A) pkt. (20 seeds) \$7.45; 3+ pkts. \$6.75 each

TAMAYO

### Tomatillo Purple

**68 days.** A rare heirloom variety with small oval, 1 oz., 1 to 1½" fruits that ripen from green to purple. Flavor is sweet (sweeter than green tomatillos), yet tart and can be eaten straight from the vine. Makes an attractive purple salsa or try them on the grill. Skins are noticeably less sticky than most tomatillos. Easy-to-grow. Plants are 10" tall and spread 20 to 24". Indeterminate.

#00869. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

TOMATILLO PURPLE

BLACK PEARL

## Ornamental Peppers

### Black Pearl

**110-125 days. 2006 AAS Winner.** (PVP) Marvelous in mixed containers and the perfect backdrop in garden beds. Bushy, upright, 14 to 18" plants have a well-branched habit and produce shiny black fruits that are very hot. Fruits mature dark red with a rounded, slightly pointed shape. Very vigorous with a high tolerance to heat and humidity.

#07302. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each

### Chilly Chili Hybrid

**72 days. 2002 AAS Winner.** (PVP) Tapered, 2" long peppers change from greenish-yellow to orange to red in a continual display set off by lush and attractive foliage. Although non-pungent peppers are edible, their primary use is ornamental. Best when grown in full sunlight.

#07303. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each; (R) 50 seeds \$11.95; 2+ \$10.95 each; 4+ \$9.95 each

### Medusa

**72 days.** (PVP) Narrow, twisted, snake-like peppers named for Medusa's mythological hair. Compact, well-branched plants produce huge yields of 2 to 2½" pointed peppers held prominently upright over dark green foliage. Plants, 6 to 8", typically display 40 to 50 mildly pungent fruits at the same time, in a wide color spectrum ranging from ivory to yellow, orange and bright red.

#07309. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each; (R) 50 seeds \$13.95; 2+ \$12.95 each; 4+ \$11.95 each

### NuMex Easter

**90 days. 2014 AAS Winner.** Bred by the Chili Pepper Institute at NMSU. Plants, 6" tall, are very compact and filled with clusters of 4 to 6 beautiful purple, lavender, yellow and light orange conical fruits that point upward, topping dark green foliage. Fruits are produced continuously in beds, borders and containers. Easy-to-grow. Tolerates heat, drought, humidity and rain.

#07306. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

### Onyx Red™

**110-125 days. 2018 AAS Winner.** Compact, 6 to 12" plants have eye-catching foliage that turns dark black/purple under high light conditions. The contrast between the foliage and tons of shiny red fruit is striking – black fruits are equally as striking – and makes a bold statement. Vigorous plants retain their neat habit. Great for containers. Very heat tolerant.

#07308. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each

# Peppers – Always So Rewarding!

Photo courtesy of National Garden Bureau

## SEEDING

Peppers, like tomatoes and eggplants, are members of the Nightshade Family and thus similar in culture. There are a few differences, however. Peppers absolutely demand warm weather as they are more susceptible to cold weather damage. Never rush transplanting seedlings – be certain all danger of frost and cold weather has passed.

Peppers thrive in soils rich in organic matter, with adequate moisture. Grow in full sun and exercise caution when using fertilizers containing nitrogen, as plants tend to produce excess foliage rather than fruits.

Pepper seeds are best started indoors about 6 to 8 weeks prior to the last average frost date. Pre-soak seeds for 8 hours starting with warm water. After soaking seeds, rinse and sow. Use fresh seed starting mix that is free of fertilizer and has been pre-moistened. Place trays/pots on heating mats (see pg. 8) to provide consistent bottom heat between 80-86°F. Use plastic cover to help retain adequate soil moisture, spritz soil surface with water to keep soil moist, but not soggy. Germination typically takes 14 to 21 days, but hotter peppers may take longer.

Do not allow seedlings to suffer from drought or low temperatures as they develop. Keep them growing steadily and gradually harden them off prior to planting. See page 8 for more information.

## GROWING ON

Plant in full sun with an 18" spacing in the rows and a 2 ft. spacing between rows. Cultivate often but not too deep to avoid root damage. Adding mulch can help prevent weed germination and the loss of moisture.

Peppers can also develop Blossom End-Rot, so water well and provide extra calcium by foliar feeding or side-dressing. Staking can be beneficial since plants are brittle. With proper care, plants will produce until frost.

## DISEASES

We offer many disease resistant peppers, some of which have X3R<sup>®</sup> technology. These varieties feature a high resistance to Bacterial Leaf Spot (Xcv) Races 0-3, 7 and 8.

## WARM TO HOT TYPES

Colorful, hot peppers have become a staple in home gardens and earned the respect they deserve in the culinary world. They offer a full spectrum of taste and heat. With a little information and a little work, you can grow varieties that add the perfect degree of heat to specialty dishes year round.

Anaheim Chiles (also called New Mexican or Colorado Chiles) are long, green chiles that are mildly hot. Meaty, thick-walled pods get sweeter, hotter and redder as they ripen. Anchos (also called Poblanos) are also among the least hot.

Medium-hot Jalapeños are favored as middle-of-the-road chiles – not too hot and not too mild, as are the small Serrano chiles and the medium-mild Pasillas. Chipotles are dried, smoked Jalapeños.

Cayennes, both red and gold types, are very pungent.

Habaneros, once considered the world's hottest peppers, have now been surpassed on the heat scale by Bhut Jolokia (also known as Ghost Chile), Carolina Reaper and Trinidad Scorpion – all rate more than one million Scoville units!

See our **Scoville Heat Scale on Page 49!** 

## PEPPER SEED COUNT

One oz. of most pepper seed varieties contains 4,000 seeds.  
Our pkts. contain the number of seeds stated in the description.

Larger sizes contain the following approximate counts:

1/32 oz. contains 125 seeds	1/16 oz. contains 250 seeds
1/8 oz. contains 500 seeds	1/4 oz. contains 1,000 seeds

## DID YOU KNOW...

All bell peppers start out green due to chlorophyll pigments? Different colored peppers come from the loss of chlorophyll pigments and an increase of expressed pigments such as Beta-carotene & Lutein pigments found in orange & yellow bells.

Visit Our Website at [www.totallytomato.com](http://www.totallytomato.com)

# Our Sweetest Bell Peppers!

## Alliance Hybrid

**70 days.** Because of its disease resistance you'll be ensured of healthy yields of large, mostly 4-lobed, 4½" blocky fruits with thick walls and smooth skin. Fruits mature from green to deep red. Strong plants have good leaf canopy offering protection from sunscald and easy harvest of fruits. Highly resistant to Bacterial Leaf Spot Races 1-3 and 5, Potato Virus Y, Potato Yellow Mosaic Virus, Tobacco Mosaic Virus and Pepper Mottle Virus with intermediate resistance to Cucumber Mosaic Virus.  
#03105. (A) pkt. (15 seeds) \$5.95; 3+ pkts. \$5.45 each

## Baron Hybrid

**68 days.** Formerly known as *Red Beauty*. The first widely-adapted red bell, sure to be king of the reds wherever it's grown. Impressive, 4-lobed fruits are packed with heavy, sweet flesh and set early. High yielder.  
#03207. (A) pkt. (30 seeds) \$6.05; 3+ pkts. \$5.45 each;  
(V) 100 seeds \$17.95; 2+ \$16.45 each; 4+ \$14.95 each

## Big Bertha Hybrid

**70 days.** One of our most popular varieties for fresh markets, home gardens and gourmet chefs. Extra-large, mostly 4-lobed, superior fruits mature up to a full 7" long by 3½" across, turning deep green to red, with full-season fruiting. Resists Tobacco Mosaic Virus. Upright plants grow 25 to 30".  
#03116. (A) pkt. (25 seeds) \$5.95; 3+ pkts. \$5.45 each;  
(V) 100 seeds \$17.95; 2+ \$16.45 each; 4+ \$14.95 each

## Big Red

**75 days.** Large, 3 to 4-lobed blocky bells weigh about 6 oz. and are 5 to 6" long and 5" wide. Attractive fruits mature to a deep, dark red and have thick-walled, very sweet flesh. Excellent for fresh markets and home gardens. Sturdy plants grow to about 24" tall.  
#03112. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## California Wonder 300 TMR

**75 days.** Deep green to red, thick-walled with an attractive glossy flesh. Fruits are medium-sized, 4" by 4", 3 to 4-lobed, smooth and blocky. A nice stuffer. High yields on plants that grow 28" tall.  
#03121. (A) pkt. (100 seeds) \$3.35; 3+ pkts. \$3.05 each;  
(F) 1/16 oz. \$5.50; 2+ \$5.00 each; 4+ \$4.50 each

## Candy Cane Chocolate Cherry Hybrid

**70-75 days.** Attractive, variegated foliage stands out in gardens even as young plants! Attractive mini bells grow up to 3½" long by 2½" wide and ripen from green with unique white stripes to chocolate with cherry red stripes. Early-maturing fruits weigh approx. 3½ to 4½ oz. and have a sweet flavor with a crisp texture – perfect for fresh eating at any stage of ripeness. Green fruits are ready for harvest in 55 to 60 days. Great for containers.  
#03123. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each

## Chablis Hybrid

**60 days.** Early maturity means early rewards from this easy-care variety. Produces blocky, 4" by 3" fruits on plants 18 to 24" tall. Weighty fruits are super sweet, with thick walls that hold their shape. Popular for fresh salsa, salads, frying, stuffing, roasting and pickling. High yields ripen from white to orange to brilliant red. Resistant to Tobacco Mosaic Virus and Bacterial Leaf Spot.  
#03129. (A) pkt. (30 seeds) \$3.95;  
3+ pkts. \$3.65 each

CANDY CANE CHOCOLATE CHERRY

CHINESE GIANT

# Big, Little, Traditional, Gourmet ...

## Chinese Giant

**90 days.** A mild, mid-season type perfect for home gardens. Produces uniformly large fruits that have a blocky bell shape and thick walls – ideal for stuffing. Sweet flavored and ripens to a brilliant cherry red color, each averaging 4 to 5" across and 6" in length.

**#03128. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$8.95; 2+ \$8.15 each; 4+ \$7.35 each**

CHOCOLATE BEAUTY

## Chocolate Beauty Hybrid

**85 days.** One-of-a-kind variety! High quality, flavorful, medium-large, very smooth 3 and 4-lobed fruits mature from green to a very attractive chocolate color. Resists Tobacco Mosaic Virus.

**#03132. (A) pkt. (30 seeds) \$6.25; 3+ pkts. \$5.65 each**

## Early Summer Hybrid

**68-73 days.** Beautiful golden-yellow fruits will impress even the pickiest pepper critics! Extra-large, 4 to 5" fruits mature from dark green to yellow on strong plants with very impressive yields. High quality fruits are firm, smooth and glossy with thick walls and a uniform blocky shape. Excellent disease resistance.

**#03141. (A) pkt. (20 seeds) \$5.25; 3+ pkts. \$4.75 each**

EARLY SUMMER

## Early Sunstation Hybrid

**69 days.** One of the earliest, biggest and brightest yellow bells ever! Very fine, extra-large, 4½", smooth fruits mature from green to bright golden-yellow, when they are at their sweetest. An X3R® variety.

**#03142. (A) pkt. (20 seeds) \$6.75; 3+ pkts. \$6.15 each; (V) 100 seeds \$19.95; 2+ \$17.95 each; 4+ \$16.45 each**

## Encore Hybrid

**70 days.** Extra-large, 5½ to 6" blocky fruits are smooth with thick walls and are slow to turn to a deep dark red. Even under cool temperatures, plants produce abundant yields of high quality peppers that consistently maintain their large size and shape. Plants grow up to 24" and have excellent foliage cover to protect fruits against sunscald. Widely adaptable. Highly resistant to Pepper Mottle Virus and Potato Virus Y Races 0-2.

**#03138. (A) pkt. (20 seeds) \$5.15; 3+ pkts. \$4.65 each**

EARLY SUNSTATION

## Excursion II Hybrid

**75 days.** Big, blocky 4½ by 4½" bell peppers have thick walls and a juicy texture. Fruits are 4-lobed, intense deep green and ripen to a brilliant red. Compact plants produce excellent yields often with 8 to 10 fruits at the same time on a single plant. Resistant to Bacterial Spot, Tobacco Mosaic Virus and Potato Virus Y.

**#03140. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each**

ENCORE

### DID YOU KNOW...

Pepper plants are susceptible to many of the same fungal diseases as tomato plants? Techniques for reducing fungal issues include avoiding overhead watering, wide plant spacing for better air circulation, quick removal of severely infected plants, rotating crops yearly, ample amounts of clean mulch under & around plants at planting time and proper sanitation methods like cleaning hands, gloves & tools that come into contact with diseased plants.

GOURMET RED IMP.

GOURMET RAINBOW BLEND

EXCURSION II

FLAMINGO

GOLD FORTUNE

GOLDEN CALWONDER

## Flamingo Hybrid

**66 days.** Very prolific, with high yields of smooth, slightly tapered 3½" fruits. Waxy fruits mature from creamy ivory to orange-red and have crisp, sweet flesh, making this a bright choice as a salad pepper. If you've tried Gypsy (pg. 46), then try Flamingo for its improved yields and larger size. Widely adaptable plants with good TMV resistance thrive in open fields and gardens.

**#03147. (A) pkt. (20 seeds) \$7.45; 3+ pkts. \$6.75 each**

## Gold Fortune Hybrid

**80-90 days.** Delivers bold color and incredible fruit size – a whopping 6" long by 3¼" wide! Lamuyo-shaped, 9 to 10½ oz., uniform, high quality fruits are smooth, firm, thick-walled, blocky and glossy golden yellow at maturity. Tall, strong, vigorous plants are high yielding. Excellent for farmers markets. Great for containers. Highly resistant to Potato Y Virus Races 0, 1 and 2, with intermediate resistance to Powdery Mildew and Tomato Spotted Wilt Virus.

**#03152. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.25 each**

## Golden Calwonder

**72 days.** Very similar to California Wonder 300 TMR (pg. 41), except that its smooth, glossy fruits ripen to a beautiful, golden-yellow. Adds rich color and flavor to salads and dishes.

**#03154. (A) pkt. (100 seeds) \$4.25; 3+ pkts. \$3.85 each; (F) 1/16 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

## Gourmet Rainbow Blend

**65-70 days.** A formula mix of our most popular bell pepper colors. Grow a rainbow of vibrant sweet bells – red, yellow, green, orange, purple and brown – without buying more seed than you need of each! It's one of our best sellers!

**#03158. (A) pkt. (25 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$10.95; 2+ \$9.95 each; 4+ \$9.05 each**

## Gourmet Red Improved Hybrid

**70-80 days.** Big, flavorful and sure to be the perfect pick for pepper aficionados. Large, 3 to 4-lobed fruits weigh approx. 4 oz. and have a very sweet flavor. Adds a bright color to salads and veggie trays. Highly resistant to TMV, Tomato Mosaic Virus and Pepper Mild Mottle Virus. Plants, with a semi-upright habit, produce very early and abundantly.

**#03214. (A) pkt. (20 seeds) \$5.65; 3+ pkts. \$5.15 each**

### Keystone Giant Resistant III

**72-75 days.** Large fruits, 4½" by 3½", are 4-lobed and thick-walled – perfect for stuffing! Plants bear heavily, even when under stress. Tobacco Mosaic Virus tolerant.

**#03173. (A) pkt. (100 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each**

### King Arthur Hybrid

**61 days.** Formerly known as Fat 'N Sassy. Varieties bred for early yields usually give up some of their size – not so with this one – it's unmatched for its large fruit size and early maturity. Sweet, crunchy, 4-lobed fruits are approx. 4½" by 4½", thick-walled and blocky. Plants grow to about 22" and perform well under a variety of conditions. Tolerant to most diseases.

**#03144. (A) pkt. (25 seeds) \$6.25; 3+ pkts. \$5.65 each; (V) 100 seeds \$15.95; 2+ \$14.45 each; 4+ \$12.95 each**

### King of the North

**68-70 days.** Excellent in short-season gardens of Northern climates due to early bearing. Huge, blocky shaped fruits are thick-walled, bright red and measure 6" by 4". Great for stuffing. Mild taste becomes even more mellow as the fruits mature.

**#03174. (A) pkt. (25 seeds) \$3.25; 3+ pkts. \$2.95 each; (V) 100 seeds \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Liberty Belle Hybrid

**73-78 days.** The naturally dwarf habit of this patio variety makes it outstanding for container gardening. Large, blocky bells, 4 to 5½" by 3½ to 4", are an attractive light green and mature to a gorgeous bright yellow. Very sweet peppers are great for stuffing, sautéing, roasting and using fresh. High yielding plants grow up to just 20" and withstand intense heat without fruit damage. Resistant to Tobacco Mosaic Virus.

**#03169. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each**

### Majestic Red Hybrid

**70-75 days.** Large, 6 to 7", blocky peppers have a mild, sweet flavor, weigh 4 to 6 oz. each and are smooth with thick, crunchy walls. Fruits are heavy for their size and mature from green to a bright candy-apple red. Perfect for stuffing! Medium to large plants provide good foliage cover. Highly resistant to TMV and Bacterial Spot.

**#03175. (A) pkt. (15 seeds) \$4.65; 3+ pkts. \$4.25 each**

### Merlot Hybrid

**68 days.** Rich, jewel-toned, 5" by 4", blocky fruits have gourmet eye-appeal, with crisp, thick walls and very sweet flavor. High-yielding plants mature early, are adaptable to cool weather conditions as well as hot and grows 18 to 24" tall with good protection. Especially resistant to Tobacco Mosaic Virus and Bacterial Leaf Spot.

**#03190. (A) pkt. (30 seeds) \$4.05; 3+ pkts. \$3.65 each; (D) 1/32 oz. \$11.95; 2+ \$10.95 each; 4+ \$9.95 each**

### Mini Belle Blend

**60 days.** A festive, charming mix of tiny bell peppers, just 1¼", on 24" plants. Fruits have sweet, firm flesh that is surprisingly thick and flavorful. All peppers start out green and mature to a range of yellows and reds. Prolific yields. Resistant to Tobacco Mosaic Virus.

**#03187. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each**

### Muscato Hybrid

**75 days.** Deep orange, blocky, 5" by 4" bells are mostly 4-lobed, have very thick walls, are quite heavy and super sweet. Strong compact plants grow up to 24" and initially produce up to 6 peppers – after that first fruit set, they will continue to produce until the first frost. Ideal stuffed, stir-fried, roasted or fresh. Excellent for containers. Early maturing and high yielding. Resistant to Tobacco Mosaic Virus.

**#02838. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each**

### New Ace Hybrid

**65 days.** Earliness and high yields characterize this hybrid. Perfect for short growing seasons in the North. Deep green, large, 3-lobed fruits are nice fresh from the vine or for stuffing. Excellent resistance to Tomato Mosaic Virus and Tobacco Mosaic Virus.

**#03189. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.85 each; (V) 100 seeds \$9.45; 2+ \$8.55 each; 4+ \$7.75 each**

### North Star Hybrid

**60-65 days.** Extremely early and ideal for short-season areas. Deep green, 4½ by 3½" fruits turn bright red at full maturity. Plants are particularly well adapted to set blocky fruits even under unfavorable conditions. Tobacco Mosaic Virus resistant.

**#03191. (A) pkt. (30 seeds) \$7.25; 3+ pkts. \$6.55 each**

### Orange Blaze Hybrid

**65-70 days. 2011 AAS Winner.** Very sweet and early to mature, with multiple disease resistances. Gourmet-style, intense orange, 2 to 3-lobed fruits are 3 to 4" long and 1½" wide, shiny and blemish-free. Flavor and color peak at the same time, letting you time your harvests to perfection. An X3R® variety.

**#03192. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each**

### Peppers of the Americas

By Maricel E. Presilla – a three-time James Beard Award-winning author and chef-restaurateur. Culinary peppers continue to gain popularity. This stunning visual reference showcases nearly 200 varieties with descriptions, tasting notes, uses for home cooks and beautiful photographs. Also includes more than 40 recipes for spice blends, salsas, sauces, salads, vegetables, soups and main dishes. Hardcover. 352 pages.

OZARK GIANT

# All Appealing & Delicious!

## Ozark Giant

**70-85 days.** Huge, 8" long, heirloom beauties! Red fruits have a deliciously sweet flavor, are thick-walled and juicy. Can also be enjoyed at the green stage. Enjoy in salads, salsas and your favorite recipes. Sturdy plants have heavy foliage and should be supported as giant yields can weigh them down.

**#03202. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each**

## Purple Beauty

**70-75 days.** Perfect for gourmet chefs. Fruits are blocky, 3 to 4-lobed, thick-walled and dark purple. Compact plants set heavily, with good cover to protect fruits from sunscald.

**#03201. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

## Recovery Hybrid

**60 days.** Vigorous plants have an open bush habit and produce smooth, blocky 4" by 4" sweet fruits with good firmness and thick walls. Peppers are very early and quick to mature to red under warm to hot temperatures and can be eaten at any stage. Widely adaptable for cool and warm growing conditions. Perfect for fresh markets. Heavy yielder. Highly resistant to Bacterial Leaf Spot.

**#03227. (A) pkt. (20 seeds) \$5.05; 3+ pkts. \$4.55 each**

PURPLE BEAUTY

RECOVERY

## SHIELD® HYBRID SERIES

**70-75 days.** These beauties are ready to take on the latest growing challenges, most notably Bacterial Leaf Spot. Both show intermediate resistance to all 10 races of this serious pepper disease, which is especially important in the Eastern U.S. Both feature wide adaptability, very high yield potential, fruit uniformity and a strong, vigorous plant habit. Extra large fruits grow up to 4½" long by 4" wide and weigh 8 to 12 oz. each. Blocky fruits are very firm, glossy, mature from dark green to red and have impressive holding ability. Plants have good leaf cover to protect the fruits. Ninja matures about 5 days later than Samurai, with slightly heavier fruits. Great for farmers markets.

Highly resistant to Tobacco Mosaic Virus, as well.

**Ninja S10® #02823.**

**Samurai S10® #02824.**

Prices, above 2, mix or match:

**(A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

## Snackabelle Red Hybrid

**70-75 days.** Thick-walled, 2 to 2½", blunt-end peppers have a rich, sweet flavor that's great for fresh eating – green or red – holds up well through grilling and stuffing. Fruits have an "easy-out" stem and seeds – simply push down or cut around cap to release seed cavity for quick cleaning. Superior disease resistance includes Bacterial Leaf Spot Races 1-3, 7, 8 and Tobacco Mosaic Virus.

**#03216. (A) pkt. (10 seeds) \$5.65; 3+ pkts. \$5.15 each**

SHIELD® NINJA S10®

SNACKABELLE RED

TRIFECTA

TEQUILA

TAWNY PORT

SUMMER® SWEET #8610

SUPER HEAVYWEIGHT

SWEETIE PIE

## Summer Sweet® #8610 Hybrid

**73-83 days.** Well-branched plants produce heavy yields of big, blocky, 3½ to 4½" peppers that ripen from rich green to an attractive golden yellow. Smooth fruits are blemish-free and have a crisp, juicy texture and wonderful sweet flavor. Highly resistant to Bacterial Spot, Tobacco Mosaic Virus and Potato Virus Y.

**#03222. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each**

## Super Heavyweight Hybrid

**77 days.** Enormous fruits, weighing up to 9 oz. each, are thick-walled, blocky, marvelously sweet and crunchy. An eye-catching variety in the garden, this 6" by 5" bell is such a handful, you may need two hands to pick one up! Peppers ripen from green to gold and have thick flesh that's high in Vitamin C. Perfect for stuffing or eating fresh – green or yellow. Good yielder.

**#03241. (A) pkt. (25 seeds) \$5.95; 3+ pkts. \$5.45 each**

## Sweetie Pie Hybrid

**60-70 days. 2017 AAS Winner.** These small 3 oz. cuties are 2½" by 3", thick-walled, sweet and flavorful and can be eaten at both the green and red stages. Excellent fresh, grilled, stir-fried or stuffed. Compact plants have heavy yields – as many as 30 mini bells each! Perfect for containers and small space gardens.

**#03234. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each**

## Tawny Port Hybrid

**70 days.** Beautiful, port wine colored fruits have an excellent, very sweet, flavor. Four-lobed and very large, 4" by 5" bells are perfect for adding unique color to salads and stir-fries. Makes a beautiful stuffed pepper, too! Early and heavy yielding.

**#03230. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (D) 1/32 oz. \$10.95; 2+ \$9.95 each; 4+ \$9.05 each**

## Tequila Hybrid

**75 days.** A true purple sweet bell, deep in color with early maturity. Its 3 to 4-lobed fruits mature to a medium red. Attractive fruits make excellent stuffed peppers and stir-fries. Resists Tobacco Mosaic Virus.

**#03229. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each**

## Trifecta Hybrid

**50-65 days.** Extra-large, blocky, 3½" by 3½", dark green fruits turn scarlet red and have brilliant color inside and out. Delicious, thick-walled bells are perfect for stuffing, grilling and for fresh eating. Perfect for market growers. Strong

plants produce high yields and have good leaf cover to protect fruits. Highly resistant to Tobacco Mosaic Virus and Tomato Spotted Wilt Virus. **#03233. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.75 each**

### Valahia Hybrid

**65-70 days.** Blocky, 3 to 4-lobed, ivory-yellow, attractive bells weigh up to 7 oz., measure approx. 3" by 3¾" and mature to deep red. Uniform fruits have medium thick walls and a deliciously sweet flavor at both stages of maturity. Upright, vigorous plants produce high yields. Highly resistant to Tobacco Mosaic Virus, Tomato Mosaic Virus Race 2 and Blossom End-Rot.

#02826. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

### Yellow Monster

**70 days.** Harvest yields of giant, elongated fruits. Strong 27" plants bear sweet, meaty, enormous fruits that can grow up to 8" long and 4" wide. As the fruits mature from green to bright sunny yellow the sweet flavor intensifies. Perfect fresh, fried, stuffed or roasted.

#03235. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each

## Sweet Non-Bells ...

### Aruba Hybrid

**65 days.** A cubanelle-type pepper producing unique, elongated, 3 to 4-lobed fruits up to 10" long, with a distinctive flavor that is mildly sweet and fruity with a hint of heat. Perfect for salads and stir-fries. Peppers mature from lime-green to orange to red to chocolate. A vigorous yielder.

#03103. (A) pkt. (25 seeds) \$5.95; 3+ pkts. \$5.45 each; (V) 100 seeds \$12.95; 2+ \$11.95 each; 4+ \$10.95 each

### Biscayne Hybrid

**63 days.** An improved cubanelle with 5", blocky, 3 to 4-lobed fruits that have thicker walls than the older varieties. Other improvements are an earlier maturity, more prolific yields and a flavor that's sweeter than open-pollinated types.

#03221. (A) pkt. (30 seeds) \$6.25; 3+ pkts. \$5.65 each; (V) 100 seeds \$17.95; 2+ \$16.45 each; 4+ \$14.95 each

### Candy Cane Red Hybrid

**60-65 days.** These unique sweet beauties will stand out at roadside stands and in gardens. Elongated, 3½ to 4" by 1¼ to 1¾" fruits ripen from green with creamy white stripes to solid red. Thin walls and crispy texture make it perfect for fresh eating at any stage of ripeness. Plants have unusual variegated foliage giving them an ornamental look and are ideal for patio containers and small space gardening.

#03118. (A) pkt. (10 seeds) \$5.35; 3+ pkts. \$4.85 each

### Carmen Hybrid

**60 days.** 2006 AAS Winner. A distinctive horn-shaped Italian pepper with a delightful flavor that's noticeably sweeter than other varieties, raw or cooked. Firm, tapered fruits weigh approx. 5 oz., are 6" long by 2½" wide at the shoulders and mature from green to red on upright, leafy plants. Excellent yields, widely adaptable, reliable and easy-to-grow.

#03127. (A) pkt. (15 seeds) \$5.15; 3+ pkts. \$4.65 each; (V) 100 seeds \$20.95; 2+ \$18.95 each; 4+ \$17.45 each

CORNITO GIALLO

CORNITO ROSSO

CORBACI

CHERRY PICK

CAVALCADE

**"GREAT 8" COLLECTION**  
One packet each of our eight largest bells: Big Bertha (pg. 41), Chinese Giant & Early Sunsatation (pg. 42), King Arthur & King of the North (pg. 43), Ozark Giant (pg. 44), Sweet Goliath (pg. 11) & Yellow Monster. #04235(X). 8 pkts. for just \$29.95. Save 20%!

### Cavalcade Hybrid

**65-70 days.** If you're a fan of Pageant (pg. 47), you're going to love this one. Smooth, slender fruits retain their bright yellow color longer providing flexibility in harvest. Thick-walled peppers, 7½" by 1½" wide, mature to bright red and are ideal for eating fresh or for pickling. Widely adaptable and high yielding. A great variety for container gardening.

#03107. (A) pkt. (20 seeds) \$4.85; 3+ pkts. \$4.45 each

### Cherry Pick Hybrid

**68 days.** Fruits measure 1¼" by 1¼" and are uniform in size and shape. Yield is superb, with tall, 24", vigorous plants setting loads of sweet, dark green fruits that mature to red, although normally harvested in the green stage. Makes excellent pickled peppers. Disease resistant and about 25% larger than the old strains.

#03126. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each; (V) 100 seeds \$17.95; 2+ \$16.45 each; 4+ \$14.95 each

### Corbaci

**75 days.** Slender, sweet, 10 to 12" unique fruits change from light green, to yellow, to orange and finally to bright red. A perfect choice for fresh eating, pickling or frying, this rare heirloom is from Turkey and has a very rich, sweet flavor. Harvest edible, green fruits in as little as 55 days or allow to fully mature at 75 days. Plants should be staked as very heavy yields will cause the plants to fall over.

#03125. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each

## CORNITO HYBRID SERIES

**75 days.** Cornitos are only 5" long and 1 to 1½" wide at the shoulders, very early, deliciously sweet and attractive smaller versions of Carmen and Escamillo (pg. 46), with similar maturity. Perfect for grilling and roasting just like their full-size counterparts or eating fresh. Strong, sturdy plants yield prolifically all season long.

Giallo #03117.

CORNO DI TORO RED

# With A Not So Traditional Look!

## Corno di Toro Red

**72 days.** Heirloom "Horn of the Bull" pepper imported from Italy. Fruits are 8 to 10" long and curved much like its namesake. Ripens to a gorgeous red cone at maturity with superb taste and size. Tall plants are very vigorous.  
#03134. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each;  
(D) 1/32 oz. \$9.95; 2+ \$9.05 each; 4+ \$8.15 each

CREST RED

## CREST HYBRID SERIES

**50-60 days.** Medium, thick-walled, Japanese conical-type sweet peppers are 6 to 7" long. Semi-upright plants produce smooth, tapered 4 oz. deliciously sweet fruits that mature early. Good leaf canopy provides protection from sunscald. Highly resistant to Tobacco Mosaic Virus, Tomato Mosaic Virus and Pepper Mild Mottle Virus.

**Red #03135.** **Yellow #03136.**  
Prices, above 2, mix or match:  
(A) pkt. (15 seeds) \$5.65; 3+ pkts. \$5.15 each

CREST YELLOW

## Cubanelle

**65 days.** Sweet Italian frying type with a delicious taste. Long, green, thick-skinned fruits have 2 to 3 lobes and turn yellow, then bright red at maturity. Peppers measure about 5½" long by 2½" wide and are tasty when fried in olive oil.  
#03139. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each

CUBANELLE

## DELITE® HYBRID SERIES

**58-65 days.** A favorite for the whole family! Large-fruited snack peppers have very early to early maturity and good heat setting ability. Fruits grow to approx. 2½ to 4" long by 1½" wide and weigh up to 1¼ oz. each. Crunchy, flavorful peppers are smooth and firm with glossy bright colors at full maturity. High in Beta-carotene and Vitamin C, attractive fruits ripen from green to lemon yellow, deep orange and ruby red. Excellent for container gardening. Upright vigorous plants provide good fruit cover and are high yielding. Easy to care for. Highly resistant to Tobacco Mosaic Virus and Bacterial Spot Races 0-3, 7 and 8.

**Lemon #02835.** **Orange #02836.** **Ruby #02837.**  
Prices, above 3, mix or match:  
(A) pkt. (5 seeds) \$7.95; 3+ pkts. \$7.25 each

### DID YOU KNOW...

Cold night temps can cause pepper flowers to drop or prevent fruit set? Likewise, hot, dry conditions can cause flowers and newly set fruits to drop off. High temps around the time of fruit set are usually responsible for misshaped peppers.

FOOLED YOU

## Escamillo Hybrid

**77 days. 2016 AAS Winner.** Eye-catching corno di toro-type, 6 oz., golden yellow fruits are big and bold, growing up to 8" long with broad, 2½" shoulders. Peppers have an outstanding deliciously sweet flavor and are excellent raw, cooked, sautéed, stuffed or fire roasted. Peppers are held high on the plant, minimizing rot and making them easier to harvest. Plants are compact and high yielding.  
#03146. (A) pkt. (15 seeds) \$6.55; 3+ pkts. \$5.95 each

## Felicity Hybrid

**90 days.** Jalapeño type hybrid that is heatless. Continuously sets large fruits that turn from green to red when mature. Plants have strong vigor and produce high yields of peppers that weigh between 1 to 1½ oz.  
#03029. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

## Fooled You Hybrid

**65 days.** Perfect for mild sauces, salsa and stir-fries ... not pungent or hot, but still enormously flavorful. Plants grow to approx. 27" tall, bearing loads of large, thick-walled fruits measuring 3½" long and up to 1¾" wide at the shoulder, maturing from deep green to red.  
#03035. (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

## Giant Marconi Hybrid

**70 days. 2001 AAS Winner.** Not technically a marconi pepper, but displays so many similar traits it has earned the name! Large, tapered fruits grow to 8" by 3" and have a sweet, smoky flavor that's equally delectable green or red, fresh or grilled. Widely adaptable, it produces larger than normal crops. Withstands severe weather and disease.  
#03151. (A) pkt. (25 seeds) \$5.55; 3+ pkts. \$5.05 each;  
(V) 100 seeds \$15.95; 2+ \$14.45 each; 4+ \$12.95 each

## Golden Treasure

**80 days.** Italian heirloom variety with long, very attractive, 9" fruits that mature from green to shiny yellow. Peppers have a nice, sweet flavor with medium thick flesh and tender skins. Excellent for stuffing, frying, roasting and fresh eating.  
#03155. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

## Gypsy Hybrid

**60 days. 1981 AAS Winner.** An extremely early, heavy producer of wedge-shaped, tasty, 4" long by 2" wide peppers with sturdy walls and crunchy, firm, sweet flesh. A very reliable yielder

all season long. Plants grow to 18" tall. Tobacco Mosaic Virus resistant.  
#03163. (A) pkt. (25 seeds) \$5.75; 3+ pkts. \$5.25 each;  
(V) 100 seeds \$15.95; 2+ \$14.45 each; 4+ \$12.95 each

### Habanada

**70-90 days.** A heatless habanero with an irresistible tropical flavor. Extremely productive plants produce 2 to 3" fruits that ripen from lime green to fluorescent orange and can be eaten at any stage. Excellent sautéed, pickled, roasted or fresh. Bred by Dr. Michael Mazourek of Cornell University.

**#03162. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.85 each**

### Hungarian Cheese Mix Hybrid

**65-68 days.** This fun mix is very early maturing, yet sets continuous high yields. Peppers hang like ornaments on top of prolific, 18 to 24" plants. Fruits are flattened and round, with flutes around the stem end and unlike other mini-sweet peppers they have thick walls. Harvests have a long shelf life and are the perfect shape for stuffing. They also are great for salsa, fresh eating, canning or pickling – even use them as bowls for individual dip cups. Suitable for garden or container growing.

**#03215. (A) pkt. (20 seeds) \$5.25; 3+ pkts. \$4.75 each**

### Jimmy Nardello's

**80-90 days.** A sweet frying pepper that grows 8 to 10" long and is mild, sweet and just a little spicy. Tapered fruits, on bushy plants, turn bright red at maturity. Flavor is distinctive but not overwhelming. A favorite for cooking and eating raw.

**#03167. (A) pkt. (30 seeds) \$3.65; 3+ pkts. \$3.35 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Just Sweet Hybrid

**65-75 days. 2019 AAS Winner.** Attractive, unique snacking peppers are 4-lobed and look like elongated miniature bells. Fruits are approx. 3" long, have thick walls and crispy, delicate skin that's an exceptionally bright, shiny golden yellow, sometimes with hints of orange. Flavor is both sweet and tart with aromatic accents. Great eaten fresh, sautéed and stuffed. Plants are vigorous growers, up to 36" tall, and have been bred to have a strong, upright, bushy habit. Highly resistant to Tobamovirus.

**#03166. (A) pkt. (10 seeds) \$5.55; 3+ pkts. \$5.05 each**

### Lunchbox Mix

**75-83 days.** Equal amounts of red, yellow and orange snack peppers make up this colorful mix. Beautiful, mini-sized, 2 to 3" fruits are remarkably sweet and flavorful, with red being slightly smaller and noticeably sweeter. Delicious fresh as a healthy snack, in salads or sautéed. Enjoy green fruits in just 55 days. Strong plants yield well.

**#03177. (A) pkt. (15 seeds) \$5.75; 3+ pkts. \$5.25 each**

### Mama Mia Giallo Hybrid

**85 days. 2014 AAS Winner.** Bright yellow, tapered fruits grow 7 to 9" long and are very uniform with smooth skin and sweet flavor. Excellent fresh, roasted or grilled – this Italian sweet pepper is a winner both in the garden and at the dinner table. Plants are somewhat compact at 20 to 24" tall with excellent leaf coverage to protect peppers from sunburn. Strong stems support the heavy yields of up to 30 fruits per plant. Tobacco Mosaic Virus resistant.

**#03186. (A) pkt. (25 seeds) \$3.85; 3+ pkts. \$3.55 each**

### Marconi

**70-72 days.** An Italian variety with traditional long, green, sweet peppers that mature to red. Large plants bear tasty, 3-lobed fruits that grow up to 12" long and 3" across at the shoulders. Good green or red for salads and frying.

**#03183. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (D) 1/32 oz. \$9.95; 2+ \$9.05 each; 4+ \$8.15 each**

### Margaret's

**62 days.** If you love growing giant sweet peppers, this is the variety you don't want to pass up. Huge fruits, approx. 7" long, will be some of the sweetest, biggest and most attractive peppers you'll ever grow. Maturing from green to orange to bright red and finally to deep red, these thick walled fruits have an outstanding mild, sweet flavor. The original seed was hand carried from Hungary to the U.S. and carefully maintained for over 50 years. Plants bear early and prolifically.

**#03184. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Melrose

**55-75 days.** A superb heirloom brought to the U.S. from Italy many years ago. Tender and sweet, thin-skinned, 4" fruits, turn brilliant red and are produced very early. Flavor is good when harvested green, but becomes sweeter and more intense when allowed to mature. Great fresh, stuffed or fried.

**#03181. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each**

### Nadapeño

**75 days.** A great choice for those who want the jalapeño flavor, but without the heat. This variety was bred to have no heat, yet keep the flavor and appearance of traditional jalapeños – no gloves needed for chopping or slicing! Attractive fruits are 3" long, ripen from green to red and are great for fresh use, stuffing and roasting. Sturdy plants produce heavy yields. Bred by A. P. Whaley Seed Company.

**#03194. (A) pkt. (25 seeds) \$3.45; 3+ pkts. \$3.15 each**

### Pageant Hybrid

**60-65 days.** This beauty comes in first place with its quality fruits, disease resistance and high yields! A sweet banana-type producing multiple harvests of beautiful yellow, 6 to 7" long fruits all season long. Vigorous plants support elongated fruits well above the soil. Thick walled peppers are great fresh, broiled, grilled and pickled. Resistant to Bacterial Leaf Spot.

**#03197. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each**

PIMIENTO L

### Pimiento L

**95-100 days.** One of the mildest pimiento-types. Heart-shaped fruits mature from dark green to deep red. Ideal for salads, garnishes and canning. Compact, 18" plants produce high yields. Tobacco Mosaic Virus resistant.

**#03200. (A) pkt. (100 seeds) \$5.35; 3+ pkts. \$4.85 each**

### Pimiento Elite Hybrid

**75 days.** The first hybrid version of the pimiento pepper, with extra-heavy yields of thick-walled fruits measuring 3" long by 3½" across. Fruits, less heart-shaped than Pimiento L, are more oblong or oval.

**#03199. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each**

### Sheepnose Pimento

**80 days.** A tried-and-true heirloom. Pimento-shaped, 3" by 4" fruits are very sweet and meaty, making them ideal for canning, freezing and eating fresh. Plants are very productive and fruits keep for weeks in the refrigerator.

**#03212. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Sweet Banana

**66 days.** One of the most popular peppers, excellent fresh or cooked! Thick-walled, pendant fruits with sweet, mild, waxy flesh start out a pale green, ripen to yellow, then red. Prolific plants grow 16 to 24".

**#03217. (A) pkt. (100 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each**

### Sweet Cayenne

**75 days.** Sweet and Cayenne – two words that aren't typically used together! Unique, cayenne-shaped sweet peppers have crunchy thin-walls and grow up to a whopping 12" long! Excellent in stir-fries. Plants produce high yields of fruits that mature from green to red. This variety has it all – except the heat!

**#03223. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (D) 1/32 oz. \$5.50; 2+ \$5.00 each; 4+ \$4.50 each**

### Sweet Red Habanero

**80-85 days.** Habaneros have continually gained popularity among hot pepper lovers, but there are some that love the flavor they're known for, they just can't take the heat! If you're one of those people, you'll definitely want to try this heatless beauty. Attractive red, lantern-shaped peppers have the same fruity flavor, but without the scorching heat. They mature slightly earlier than standard habaneros. Plants are eye-catching grown in containers on the patio.

**#03226. (A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.05 each**

## Hot Peppers – From Mildly Spicy...

### Aji Dulce #2

**85-90 days.** Attractive peppers look just like a fiery hot, red habanero, have a similar aroma and flavor but without all the heat! Fruits have medium thick flesh and a nice fruity flavor that has only a hint of heat even when you use seeds and all. Popular in Central and South America for dishes that require that great habanero flavor but much lower levels of heat. Tall plants are very sturdy and produce an abundant harvest.

**#03101. (A) pkt. (15 seeds) \$4.35; 3+ pkts. \$3.95 each**

### Aji Rico Hybrid

**60-70 days.** 2017 AAS Winner. Thin-walled, crunchy, 3 to 4" fruits have a delicate, citrus flavor combined with a good amount of medium heat. Narrow, conical shaped fruits mature from green to red and can be eaten at any stage. Matures earlier, has more plant vigor and is more productive than comparable open-pollinated types. Perfect for eating fresh, in salsas and making hot sauces. Dries well for a homemade spicy paprika.

**#03752. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each**

### Sweet Sunset Hybrid

**85-90 days.** 2015 AAS Regional Winner (Heartland, Southeast, West/Northwest). Colorful, thick-walled banana peppers range from yellow to orange to red. Great fresh, as well as for frying, pickling or cutting into rings for salads, sandwiches and pizza toppings. Compact plants are perfect for container and small space gardening. High-yielding, vigorous, produces early, often and continues late into the season. An X3R® variety.

**#03218. (A) pkt. (15 seeds) \$5.95; 3+ pkts. \$5.45 each**

### Tennessee Cheese

**82 days.** An ancient heirloom recovered from seeds donated by a couple living in Kingston, Tennessee. Originally from Spain, where it is still used as a staple in many dishes. Fruits are round, apple or tomato-shaped, with a flattened base and a thick, delicious skin. Perfect for stuffing like a bell, fresh, pickled, canned or dried for paprika.

**#03228. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (D) 1/32 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each**

### Tricked You Hybrid

**90 days.** An improved version of our very popular Fooled You (pg. 46) that has become a favorite in its own right. Easy-to-grow, 4" fruits have excellent jalapeño flavor without the heat. Great for combining with hot jalapeños to customize the level of heat in homemade salsa and hot sauce. An X3R® variety.

**#03090. (A) pkt. (15 seeds) \$5.75; 3+ pkts. \$5.25 each**

### Yummy Orange Hybrid

**73 days.** Large, sturdy plants continuously set loads of petite, 2½" by 1¼" fruits. These tender-crisp, super sweet, nearly seedless delights are perfect for vegetable trays, used with dips, stuffed with cheese or grilled on skewers. Keeps well for a long time without refrigeration.

**#03240. (A) pkt. (15 seeds) \$5.35; 3+ pkts. \$4.85 each**

**PLEASE NOTE:**  
Seeds & fruits can be very hot!  
We suggest wearing plastic gloves when handling these varieties.

*Cultural and environmental conditions like heat, drought and ripeness at harvest can affect the potential heat of a pepper.*

### Aleppo

**80 days.** Attractive, thin-walled fruits grow 4 to 6" long, are mostly 3-lobed and ripen from green to rich red to burgundy. Moderately hot with about 10,000 Scoville units. Flavor is sweet and smoky with a kick of heat. Grown in Aleppo, Syria for centuries where it was traditionally used for drying and crushing into pepper flakes or grinding into powder. Fruits can also be enjoyed fresh. Very productive plants can grow 3 to 4 ft. tall.

**#03776. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Anaheim Chili

**75 days.** One of the most popular chili peppers. Two-celled, medium-hot fruits, with medium thick, dark green flesh, ripen to bright red. Continuous bearing, high yielding, vigorous. 24 to 30" plants are bushy and upright, providing good foliage cover.

**#03001. (A) pkt. (100 seeds) \$3.75; 3+ pkts. \$3.45 each; (F) 1/16 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Ancho Gigantia

**80 days.** 2022's *Free Trial*. Thick-walled, 3" long by 2¼" wide peppers are mildly hot with a Scoville rating of 2,000. Green fruits mature to red and can be eaten at either stage. Perfect fresh, roasted, stuffed and dried (in the red stage).

**#09200. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Big Jim

**75-80 days.** Released by New Mexico State University. One of the largest of the chile peppers, with mildly hot fruits measuring 10 to 12" long and weighing up to 4 oz. Excellent for Chiles Rellenos. Sturdy 24 to 36" plants yield 24 to 30 peppers per plant which tend to ripen all at the same time.

**#03008. (A) pkt. (50 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Biggie Chile™ Hybrid

**68 days.** (*Sahuaro Cultivar*) An improved Big Chile II with stronger plants and a heavier leaf canopy that protects fruits from sun-scauld. It has the same great qualities – early maturity, huge yields,

impressive, thick walled fruits up to 9" long and a mild rating of 500 Scovilles on average. Light green fruits will mature to a bright red if left on the vine. Great for roasting or slicing to add the perfect zest to pizzas or salads. Resistant to Pepper Mild Mottle Virus.

**#03009. (A) pkt. (20 seeds) \$5.55; 3+ pkts. \$5.05 each; (V) 100 seeds \$16.95; 2+ \$15.45 each; 4+ \$13.95 each**

CARRANZA

CAJUN BELLE

BURNING BUSH

BUENA MULATA

BIQUINHO YELLOW

## BIQUINHO SERIES

**90-95 days.** Commonly referred to as "Little Beak" peppers. Tapering to a point, adorable, little 1" fruits look like an inverted teardrop. Rates just 500 to 1,000 Scovilles – for a dash of spice, consider adding to your favorite dish. Great raw, cooked or pickled. Makes a unique garnish, as well.

### Red

Bright red fruits have a slightly smoky flavor with a very mild hot fruitiness. **#03005.**

### Yellow

Brilliant yellow fruits have a light tart, lemony flavor with a slight hot twist. **#03007.**

Prices, above 2, mix or match:

**(A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each**

### Buena Mulata

**75 days.** Stunning heirloom plants are extremely ornamental and produce loads of round, tapered, 6" long fruits. Pods ripen from violet to brown to deep-red – as fruits ripen to red they will get sweeter and meatier. Heat level is similar to a cayenne and great for fresh use or drying. Perfect in the garden or in containers. Traces back to the early 20th century to Horace Pippin, an African American folk artist.

**#03766. (A) pkt. (25 seeds) \$3.25; 3+ pkts. \$2.95 each**

### Burning Bush™ Hybrid

**85-100 days.** Connoisseurs of hot peppers know that the best varieties temper heat with a touch of sweet. Medium-large fruits have plenty of fire at the leading edge with a pleasant aftertaste. Strong plants produce excellent sets of firm fruits that mature green to orange, averaging 1½" by 3" in length. The earliest-maturing variety of its type on the market, up to 3 weeks earlier, with a Scoville rating of 15,000 to 20,000.

**#03022. (A) pkt. (15 seeds) \$5.05; 3+ pkts. \$4.55 each**

### Cajun Belle

**61 days.** 2010 AAS Winner. The perfect combination of mildly spicy, but still sweet flavor makes this the perfect choice to add zing to salsas, salads and stir-fry dishes. Fruits ripen green to red and can be eaten at either stage. Uniform plants reach 24" in width and height, producing plentiful yields of firm-walled fruits that average 3½ to 4" at maturity. Space plants 14 to 18" apart in full sun for best results.

**#03019. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each**

### Carranza Hybrid

**90 days.** Unlike most peppers, anchos/poblanos prefer cool growing conditions – not this variety – it was specially bred for performing in the heat. Large, 7" by 3", mostly 2-lobed fruits have a classic poblano shape. Mildly spicy fruits have a Scoville rating of approx. 500. Compact plants make harvesting easier. High yielding. Perfect for farmers markets. Intermediate resistance to Root-Knot Nematode.

**#03769. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

### DID YOU KNOW...

The hotter the pepper variety, the hotter the bottom heat should be for germination? Hot peppers contain high levels of capsaicin which can inhibit germination. Optimal soil temps for germination should be between 85-95°F. Be patient, some hot pepper seeds can take nearly a month to germinate. Pre-soaking seed also helps speed up germination!

ALEPPO

ANAHEIM CHILI

ANCHO GIGANTIA

BIG JIM

BIGGIE CHILE™

BIQUINHO RED

CAYENNE LARGE RED THICK

### Cayenne Large Red Thick

**75 days.** Quite hot, thick-fleshed, 6" by 3/4" fruits are a favorite for using dried, pickled or in sauces. Concentrated sets of pendant fruits – wrinkled, tapered and curved – are borne on strong upright plants. Ripens from a lustrous dark green to a brilliant scarlet.

**#03016. (A) pkt. (100 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$4.95; 2+ \$4.55 each; 4+ \$4.15 each**

CAYENNETTA

### Cayennetta Hybrid

**69 days. 2012 AAS Winner.** Attractive in containers or patio gardens with a prolific display of colorful, cascading fruits that are protected from sun scorch by the dense canopy of foliage. Elongated, mildly spicy, 3 to 4" green fruits mature to glossy red. An all-around good choice for home gardeners.

**#03012. (A) pkt. (10 seeds) \$6.75; 3+ pkts. \$6.15 each**

### Count Dracula

**110 days.** Jet black leaves and purple flowers create a striking display on sturdy, 2 ft. plants. Adding to the drama are 2" long, black fruits which ripen to blood red. With a rating of 25,000 Scovilles, these spicy hot peppers definitely have a bite.

**#03006. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each**

CRAIG'S GRANDÉ JALAPEÑO

### Craig's Grandé Jalapeño

**70 days.** A great garden staple for jalapeño lovers. Large, 3 to 4" long fruits weigh 3 oz. and have thick flesh making them great for stuffing, roasting, drying, pickling or using fresh. Matures from green to red when they are at their hottest. Short, stocky plants are loaded with hefty fruits from mid-summer up until frost.

**#03759. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each**

### Devil Serrano

**73 days.** High yields of dark green, finger-sized, glossy fruits begin to mature early so you can enjoy them all season, but be prepared – with a rating of 6,000 Scoville units, it's quite hot. Prized for its vigorous habit and extended shelf life, both in the U.S. and Mexico. Semi-determinate plants are easy to harvest, with less sprawl and a more efficient use of garden space.

**#03080. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each**

CRAIG'S GRANDÉ JALAPEÑO

### Dragon Grilling Hybrid

**75-80 days.** A unique hybrid selected from Shishito and Padrón peppers, combining the best traits from both varieties to get the perfect grilling, roasting or stir-fry pepper. Fruits are not spicy when picked young, tender and green at less than 2" long, however, when fruits are fully matured to red, they can be quite spicy, similar to a jalapeño. Red pods can also be dried and used for mild to medium chile flakes. Plants are high yielding.

**#03765. (A) pkt. (25 seeds) \$3.85; 3+ pkts. \$3.55 each**

DEVIL SERRANO

HERNANDEZ

GONG BAO

DRAGON GRILLING

EARLY JALAPEÑO

EMERALD FIRE

FISH

GARDEN SALSA

### Early Jalapeño

**60-65 days.** Ideal for Mexican dishes. Deep green, sausage-shaped, 3 1/2" by 1 1/2" fruits mature to red and are great for pickling, too. Just like Jalapeño, but earlier and better adapted to cool, coastal conditions. Compact, non-brittle bushes.

**#03028. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$6.25; 2+ \$5.65 each; 4+ \$5.15 each**

### Emerald Fire Hybrid

**90 days. 2015 AAS Winner.** Compact plants boast extra large, 3 1/2", very tasty, jalapeño fruits with 2,500 Scoville units. Perfect for stuffing, grilling or using in salsa. Thick walled with very little cracking, even after maturing to red. A high yielding X3R® variety featuring better disease resistance than similar types.

**#03039. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each**

### Fish

**90 days.** An heirloom considered by many to be the best variety to use when cooking fish and shellfish. High yields of very hot, pointed fruits, about 1 1/2" long, range from white with green stripes, to orange with brown stripes, to a brilliant red – some deep purple, too. Plants, 18 to 24", feature decorative green and purple foliage splashed with white. Makes an attractive ornamental, as well.

**#03033. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (D) 1/32 oz. \$7.95; 2+ \$7.25 each; 4+ \$6.55 each**

### Garden Salsa Hybrid

**73 days.** A chile pepper developed specifically to capitalize on the growing popularity of salsas. Fruits are 8" long by 1" across and are usually picked green for salsa (they mature red). Peppers, 2,500 to 3,000 Scovilles, get hotter in dry weather and are great for pickling. Resists Tobacco Mosaic Virus.

**#03036. (A) pkt. (25 seeds) \$5.95; 3+ pkts. \$5.45 each; (V) 100 seeds \$17.95; 2+ \$16.45 each; 4+ \$14.95 each**

### Gong Bao Hybrid

**85 days.** Named for the popular Chinese dish, the slender, thin-walled, 3 to 5" long peppers have a deliciously spicy flavor. Peppers have a Scoville rating of 3,000 to 6,000 and can be used fresh or cooked – also easy to dry for use throughout the year. High yielding plants set fruit continuously.

**#03075. (A) pkt. (15 seeds) \$5.95; 3+ pkts. \$5.45 each**

### Hernandez Hybrid

**75 days.** Classic fresno-type chili peppers have a distinctive, mild to medium heat. Very attractive, bright red, conical, 2 to 3" fruits have thick, delicious flesh that develops a fruitier and smokier flavor as they mature. Excellent for eating fresh, in sauces, stuffed or roasted – green peppers are great for pickling. Sturdy plants grow up to 24" and produce abundantly.

**#03775. (A) pkt. (30 seeds) \$4.65; 3+ pkts. \$4.25 each**

## Kitchen Helpers

### GRIP-EZ® Pepper Corer

Serrated edges and sharp inner teeth easily remove core and seeds from peppers. Stainless steel blade with a soft santoprene handle. Great for small to medium size peppers. Dishwasher safe. Measures 8" long.

**#54058. \$10.95 each**

### Holy Molé Hybrid 🌶️

**85 days. 2007 AAS Winner.** Gourmet quality fruits are bright green at early maturity, then darken to warm brown over the next 2 weeks. Crunchy fruits grow 7 to 9" long and 1½" wide. Not overly spicy at just 700 Scovilles and used as a staple in Mexico's famous Molé sauce and many other dishes. Early crops are most often sliced for toppings and baking, while the dark brown, fully mature fruits can be dried and ground. Sturdy 3 ft. plants produce multiple harvests.

#03046. (A) pkt. (20 seeds) \$5.85; 3+ pkts. \$5.35 each

### Hot Sunset Hybrid 🌶️

**85 days. 2015 AAS Winner.** Banana pepper lovers who desire a prolific and earlier harvest of delicious and spicy fruits with 600 to 800 Scovilles, are sure to make this X3R® variety a favorite. Thick-walled peppers have a great flavor, unlike other hot peppers where heat is all you get. Vigorous plants produce tasty and attractive fruits, up to 7", all season long. Perfect fresh, grilled, roasted or pickled.

#03054. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

### Hungarian Yellow Wax 🌶️

**67 days.** Spicy, fairly hot, banana-shaped fruits are 6" long and 1½" across and are perfect for pickling. Matures from light yellow to bright red. Best hot pepper for cooler climates. Ever-bearing plants are 16 to 24" tall, strong and upright.

#03045. (A) pkt. (100 seeds) \$3.35; 3+ pkts. \$3.05 each; (F) 1/16 oz. \$5.55; 2+ \$5.05 each; 4+ \$4.55 each

### Inferno Hot Banana Hybrid 🌶️

**60 days.** Early, high yielder produces big, 8" long by 1½" wide fruits that are ultra-smooth, with outstanding flavor – just hot enough to taste good with everything. Matures from yellow to red and has a Scoville rating of 800 to 1,000.

#03048. (A) pkt. (20 seeds) \$5.25; 3+ pkts. \$4.75 each; (V) 100 seeds \$19.95; 2+ \$17.95 each; 4+ \$16.45 each

### La Bomba II Hybrid 🌶️

**56 days.** A high-quality jalapeño with good flavor and medium heat. Large, 2¾" long by 1" wide, dark green fruits have thick walls with little to no etching and are great fresh or used for poppers. Strong, upright plants have a sturdy main stem for easy harvest, plus a dense leaf canopy to help prevent sunscald. Resists Potato Virus Y. Good for container gardening.

#03057. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

### Pepper Popper Pan

Cast iron, 9" pan is pre-seasoned with a rust proof coating and has eight pepper shaped wells. Can be used on stove tops, grills, campfires or in the oven. Easy cleanup.

Instructions and recipes included. #54054. \$22.95 each

### Longhorn Hybrid 🌶️

**85-95 days.** Long, 6 to 9" fruits are much larger than comparable varieties and have an unusual curl at the end – hence the name Longhorn. Peppers have an excellent spicy flavor with a Scoville rating of just 15,000 to 20,000. Vigorous plants can be grown in containers, but will require support due to the large volume of fruit.

#03782. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

### Mad Hatter Hybrid 🌶️

**65-75 days. 2017 AAS Winner.** Judges were impressed with this plant's vigor, earliness, high yields, large fruits and awesome taste. Uniquely shaped, specialty peppers, 2 to 3½" by 2 to 2½", have a delicate floral scent and rich flavor that intensifies as it matures. In hot, dry climates some fruits will have a touch of heat close to the seed cavity, but the 'wings' are always sweet. Excellent fresh, pickled or stuffed. Plants are very productive, yielding more than similar open-pollinated varieties.

#03178. (A) pkt. (10 seeds) \$6.15; 3+ pkts. \$5.55 each

### Mariachi Hybrid 🌶️

**66 days. 2006 AAS Winner.** Delicious, mild, fleshy, 4" by 2" fruits are low in pungency and have a Scoville rating of just 500 to 600 when grown under non-stressful conditions. Fruits mature red but are usually harvested yellow. Ready a full 10 days earlier than most other chile types. Delicate gourmet flavor with fruity overtones lends itself well to cooking, grilling, pickling and salads. Widely adaptable, 24" plants set fruits continuously.

#03058. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each

### Mexibell Hybrid 🌶️

**70 days. 1988 AAS Winner.** A bell pepper with a mild chile flavor? Absolutely! Plants grow up to 26" tall, bearing lots of 3 to 4-lobed fruits with firm flesh. Peppers ripen from green to chocolate to red and can be eaten at any stage. Tolerant to Tobacco Mosaic Virus.

#03056. (A) pkt. (30 seeds) \$4.35; 3+ pkts. \$3.95 each

### Mexican Sunset Hybrid 🌶️

**60-65 days. 2018 AAS Winner.** Thick-walled, conical 6 to 7" hungarian-type, hot wax peppers mature from pale green to light yellow to orange and finally to a bright red. Spicy fruits have an average of 9,000 to 10,000 Scovilles and can be eaten at any stage. Delicious fresh, stuffed, baked, grilled or pickled. Highly ornamental, compact, bushy plants set fruits early and prolifically, creating a brilliant display of colors as they mature. Perfect for containers and small space gardens. TMV resistant.

#03746. (A) pkt. (25 seeds) \$4.05; 3+ pkts. \$3.65 each

### Paquimé Hybrid 🌶️

**70 days.** Consistently produces super-sized jalapeños that grow to nearly 5"! Fruits have a subtle to medium heat that doesn't linger on the tongue and become overwhelming. High quality peppers are smooth, firm and have thick walls that are the perfect size and shape for stuffing, grilling or for poppers. Sturdy plants grow up to 24" and easily support the heavy fruit load. Highly resistant to Potato Virus Y. Intermediate resistance to Root-Knot Nematodes.

#03787. (A) pkt. (15 seeds) \$5.25; 3+ pkts. \$4.75 each

PEPERONCINO, GOLDEN GREEK

### Peperoncino, Golden Greek 🌶️

**72 days.** You've seen these peppers pickled in gourmet shops and on salad bars. Abundant yields of thin, yellowish-green fruits, 2 to 4" long, are mildly hot with excellent flavor. Harvest when fruits are at the green stage. Vigorous plants grow to 30" tall. **#03195. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

PETER, RED

### Peter, Red 🌶️

**90 days.** The original strain from the Alfreys. Demand has continued to far exceed supply of this ornery old heirloom, grown as much to shock the prudish as for its culinary value! Pods are 4 to 6" long, blunt-ended and mature to a deep red – excellent for chili powder. Dense plants grow 20 to 30" tall. **#03071. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each**

### Pot-a-peño Hybrid 🌶️

**60-65 days. 2021 AAS Regional Winner (Great Lakes, West/Northwest)!** Unique cascading habit is perfect for hanging baskets or containers. Early maturing, 3 to 4" jalapeño fruits hang down beneath the plant for easy harvest – yet another unique trait! Green fruits have a traditional spicy flavor in 45 to 50 days or left to fully mature to bright red, they have a sweet, mildly hot flavor at less than 500 Scovilles. Plants, 12 to 15", have a dense canopy of small, dark green leaves to protect fruits. High yielding. **#03067. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each**

POT-A-PEÑO

### Primero Red Habanero Hybrid 🌶️

**75-80 days.** Big, bright red, 2 to 3½" beauties are larger than typical habaneros with about one third of the heat – enjoy traditional habanero flavor without the extreme burn! One of the earliest maturing habaneros available on today's market. Great fresh, roasted and in salsas. Excellent for container gardening. Huge yielder. Intermediate resistance to Tomato Spotted Wilt Virus. **#03789. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each**

PRIMERO RED HABANERO

### Purple Jalapeño 🌶️

**75 days.** Fruits start out green, then turn purple for a long time before turning red at maturity. Peppers are slightly larger than regular jalapeños. Excellent for salsas, salads, stuffing and pickling. Plants are very productive. **#03073. (A) pkt. (30 seeds) \$4.05; 3+ pkts. \$3.65 each**

### Red Ember Hybrid 🌶️

**75 days. 2018 AAS Winner.** A specialty cayenne type with bright red, ½ oz. attractive fruits that grow up to 4½" by 1". Versatile peppers have thicker walls and a flavor that is tastier than the traditional cayenne – pleasantly sweet and spicy, with just enough heat without being overwhelming. Excellent fresh, cooked or dried. Plants yield heavily even under cool weather conditions. **#03790. (A) pkt. (15 seeds) \$5.95; 3+ pkts. \$5.45 each**

PURPLE JALAPEÑO

### DID YOU KNOW...

Capsaicinoid levels in the fruit is what dictates the heat level of the pepper? When plants are grown in high temperatures and lean on water, capsaicin content increases making peppers taste hotter. The reverse is also true, cooler growing conditions and more water during fruit development typically favors a more mild pepper flavor.

SWEET HEAT

SRIRACHA

RED EMBER

ROULETTE

SERRANO CHILI

SPICY SLICE

### Roulette Hybrid 🌶️

**85 days. 2018 AAS Winner.** The same shape, size and color of traditional hot habaneros but with a Scoville rating of just 100! Large, red, uniform 3" by 1½" fruits have thick walls and a nice citrusy habanero flavor. In trials, plants easily produced up to 100 peppers by the end of the season. Excellent fresh, pickled, roasted and sauteed. Widely adaptable. **#03220. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each**

### Serrano Chili 🌶️

**85 days.** Whether picked green or red, when fully mature, this is one spicy pepper! Vigorous 30" plants are covered with flavorful, 2" thin-walled fruits. Perfect for chili sauce, salsa, hot pepper vinegar and pickles. **#03083. (A) pkt. (100 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$5.50; 2+ \$5.00 each; 4+ \$4.50 each**

### Spicy Slice Hybrid 🌶️

**65 days.** Extra-large, 4 to 4¾" tasty fruits mature from dark green to red, are firm, smooth, slice well and have a Scoville rating of 4,000 to 6,000. High yielding plants provide good leaf cover. Perfect for fresh market. Early maturing and widely adaptable throughout the U.S. Resistant to Bacterial Spot with intermediate resistance to Tobacco Etch. **#03082. (A) pkt. (20 seeds) \$6.15; 3+ pkts. \$5.55 each**

### Sriracha Hybrid 🌶️

**65-70 days.** Attractive, large, 5" by 1¼", dark green, chili-type fruits are firm and uniform with shiny, smooth skin and thick walls. Flavor is mildly hot, but not overpowering with a Scoville rating of approx. 2,500 units. Perfect for slicing, roasting and pickling. Peppers have a long shelf life. **#03793. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each**

### Sweet Heat Hybrid 🌶️

**56 days.** Sweet and mildly spicy flavor – like a peperoncino, but with smoky undertones. Early and prolific, with loads of fruits that average 3 to 4" long by 1 to 1½" wide. A perfect choice for grilling and salsa. Can be eaten at the green or red stage. Plants are compact and bushy. **#03088. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each**

### Takara Hybrid

**60 days.** A special hybrid version of the classic open-pollinated shishito type with the same shape, size and quality, but with better uniformity. Small, 3½" by 1" fruits have a mild, but rich, flavor. Excellent sautéed, in stir-fries, grilled and eaten fresh. Compact plants have a spreading, well-branched habit, short internodes and are high yielding. Great for containers and small space gardens. **#03232. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each**

### Trident Hybrid

**80-85 days.** Extra-large, ancho/poblano peppers grow up to 7" long by 3½" wide and mature from mid-dark green to deep red. Glossy fruits are mildly hot at 250 to 1,500 Scovilles, weigh approx. 5½ oz., are firm, straight and have a high percentage of two lobes. Peppers have a good dry weight ratio and are excellent fresh or dried. Plants produce multiple harvests and maintain fruit size. Great for farmers markets and roadside stands. Vigorous plants produce high yields and are widely adaptable. Highly resistant to Tobacco Mosaic Virus. **#03794. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each**

### Trinidad Perfume

**80-85 days.** A sweet seasoning pepper that looks like a traditional habanero, but without the heat, although fruits can reach up to 500 Scoville units. Fruits grow 1 to 1½" long and mature from green to a golden orange. Extremely flavorful and has a delicious scent when cooked. Also can be used for pickling or fresh eating. Sturdy plants grow 2 ft. tall and are extremely prolific. **#03086. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.85 each**

## To Something In Between ...

### Bulgarian Carrot

**65-68 days.** A charming heirloom whose seed was supposedly smuggled out through the Iron Curtain years ago. Fluorescent orange, 3½" fruits seem to almost glow with a brilliant hue and intense flavor – fruity and pungent at the same time – adding a colorful tint to glazes, marinades and salsas. **#03011. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each**

### Cayenne Blend

**60-75 days.** Add some dramatic flair to your garden with this well-balanced blend of Cayenne varieties in a rainbow of colors – red, orange, yellow, purple and green. All are similar in shape and texture, with firm, tapered 3" fruits that keep their color when dried. Very ornamental. Requires only average soil and occasional watering to produce prolific yields. **#03020. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each**

### Cayenne Long Thin

**72 days.** Long, slender, slightly wrinkled peppers are very hot and especially good for pickles, canning and drying. Excellent for chili and homemade salsa. Two-celled fruits start out dark green, mature to a brilliant, fiery red and are no thicker than a pencil. **#03018. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$5.45; 2+ \$4.95 each; 4+ \$4.55 each**

### Utri

**55-75 days.** An heirloom brought to the U.S. in 1909 by Rose Utrie. Hungarian type, medium hot peppers ripen from light green to dark green to red. The level of heat depends on how much of the interior ribbing is left after the peppers are cleaned. When the interior ribs are completely removed, fruits have a very pleasant, mild spiciness – if not removed, heat is a bit less than a jalapeño. Fruits are thin skinned and good for eating fresh, cooking and drying. Dried fruit maintains its heat level and can be ground for spicy paprika. Very productive. **#03795. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each**

### Volcano Hybrid

**60-70 days.** Hungarian type variety with slightly taller plants and larger fruits than Hungarian Yellow Wax (pg. 51). Pendant shaped fruits, 4 to 6" long, are glossy greenish-yellow to red at maturity and are mildly pungent averaging 2,000 to 4,000 Scovilles. Excellent for pickling, roasting and fresh use. **#03097. (A) pkt. (20 seeds) \$3.25; 3+ pkts. \$2.95 each**

### Chiltepin

**90 days.** Don't be fooled by the unassuming size of these pea-like, ½" fruits – they pack a wallop! At 50,000 to 100,000 Scovilles, it's one hot pepper – some continue to rate this variety even higher on the heat scale. Prolific plants produce extremely hot peppers whose small size is very versatile in recipes. **#03024. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.95; 2+ \$6.35 each; 4+ \$5.75 each**

### Giant Ristra Hybrid

**80 days. 2014 AAS Winner.** It looks like a pretty, red Marconi pepper, but has the heat of a cayenne with a Scoville rating between 30,000 and 50,000. Elongated, 6 to 7" fruits should be picked when red and are excellent fresh, roasted or dried. Can also be used to make a beautiful ristra of dried peppers. Compact, bushy plants produce high yields of uniform peppers. Easy-to-grow. Tobacco Mosaic Virus tolerant. **#03061. (A) pkt. (25 seeds) \$3.85; 3+ pkts. \$3.55 each**

**65 days.** Very hot, thin, red and glossy – this superb variety doesn't do anything halfway! Elongated, curved fruits on 4 ft. plants grow to 7" or more in length. Harvest and use at the green or red stage. #03070. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$6.25; 2+ \$5.65 each; 4+ \$5.15 each

### JALAPEÑO SPICE SERIES

**65 days.** Jalapeños are probably the most popular spicy pepper in the world and interest will continue to peak with these NuMex varieties. Bright, colorful peppers, 2 to 3" long by 1" wide, have major eye appeal and will stand out in salsas and other fresh recipes. Plants grow up to 24" and are great for container gardening.

### Lemon

Fruits ripen from green to bright yellow and are mild to medium hot at 25,000 Scoville units. #03780.

### Orange

Fruits ripen from green to orange and have a great fruity/citrus flavor. Hottest of the series at 79,000 Scoville units. #03783.

### Pumpkin

Green fruits ripen to a stunning pumpkin-orange, a color normally only found in bell peppers. Mild to medium hot at 22,000 Scoville units. The most productive of the series. #03784.

Prices, above 3, mix or match:

(A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

### Lemon Drop

**100 days.** Terrifically hot, citrus-flavored heirloom popular as a seasoning in Peru, its country of origin. Bright yellow, crinkled, cone-shaped fruits are about 2½" long, ½" wide and average less than 15 seeds per pepper. Dense plants, about 2 ft. high and wide, are typically covered with fruits. Makes an excellent choice for container gardening.

#03055. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each

## To Fire Breathing Heat!

### Armageddon Hybrid

**70-75 days.** The world's first hybrid super-hot chili with a Scoville rating of 1.3 million! Pale green, pendant-shaped fruits grow up to 2" by 1½", have a small tip/tail and ripen to bright red. Compared to Carolina Reaper, this variety matures up to 2 weeks earlier and some taste testers have rated it hotter – try it if you dare! Features improved plant vigor, fruit uniformity and less days to maturity compared to open-pollinated varieties. Vigorous, uniform and early fruiting with exceptional yields.

#03010. (A) pkt. (5 seeds) \$6.95; 3+ pkts. \$6.35 each

### Bhut Jolokia

**80-85 days.** Also known as Ghost Chile. The Guinness Book of World Records hottest pepper in the world from 2007 through 2010 measuring over one million units on the Scoville scale! More than a novelty, these orange-red peppers, which grow up to 3½" long at maturity, can be used to spice up cuisine but should be eaten with extreme caution and kept away from eyes.

#03004. (A) pkt. (10 seeds) \$4.55; 3+ pkts. \$4.15 each

### Buffy Hybrid

**70 days.** 2022 AAS Winner. In trials, plants produced more than 250 fruits each! Juicy, thick-walled fruits grow to approx. 1½" long by ½" wide and ripen from green to bright red. Pungent, aromatic fruits are slightly larger and mature earlier compared to Tabasco and are perfect for pickling. Peppers are held high on the plants creating ornamental appeal and make for easy harvest. Ideal for large containers. Disease tolerant plants are strong, healthy, upright and produce good yields.

#03777. (A) pkt. (10 seeds) \$4.55; 3+ pkts. \$4.15 each

### Caribbean Blend

**90-120 days.** Warning – this mix is blistering in its heat! A blend of some of our most popular, hottest Caribbean varieties including a colorful range of habaneros, scotch bonnets and several others in varying sizes and shapes.

**#03013. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$6.50; 2+ \$5.90 each; 4+ \$5.40 each**

### Carolina Reaper

**90 days.** Officially the hottest pepper in the world as ranked by Guinness Records – Scoville units typically average a whopping 1.5 million and peak at 2.2 million! Devilish looking fruits, 1½" wide by 2" long, are fiery red with a unique little stinger tail. Has a surprisingly good flavor once you get past the heat – if you dare! This scorcher was bred in Rock Hill, SC.

**#03755. (A) pkt. (20 seeds) \$6.95; 3+ pkts. \$6.35 each**

### Chaak Hybrid

**75 days.** Habanero fruits are uniform, quickly ripen from green to golden yellow and finally to orange and have an average of 200,000 Scovilles. Heavy, thick-walled, 2½" long by 1½" wide fruits weigh approx. ½ oz. each and have fruity/floral undertones once you get past the heat. Matures up to 2 weeks earlier than similar varieties and has a good shelf life. Strong, vigorous plants are upright, have short internodes and hold fruit well. High yielding. Crack tolerant. Intermediate resistance to Tomato Spotted Wilt Virus.

**#03778. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.75 each**

### CIENFUEGOS HYBRID SERIES

**80-85 days.** High yielding, extremely hot habaneros mature ten days earlier than open-pollinated varieties and have better uniformity. Great for making hot salsas, cooking and pickling.

#### Orange

Classic orange fruits are 1½" by ¾" and have a fruity hot flavor. Scoville rating is 200,000 to 300,000. **#03770.**

#### Red

Bright carmen red fruits are 2" by 1". Scoville rating is 300,000 to 400,000. **#03771.**

#### Yellow

Bright yellow fruits are 2½" by 1", fruity and very fragrant. Scoville rating is 250,000 to 350,000. **#03772.**

#### Mix

A mix of all of the above varieties. **#03032.**

**Prices, above 4, mix or match:**

**(A) pkt. (20 seeds) \$3.25; 3+ pkts. \$2.95 each**

### Habanero Chocolate

**85-100 days.** An outstanding variety made superior in every way through quality breeding. Crunchy, 1½ to 2½" fruits pack some serious heat and are very flavorful. Extra-versatile in the kitchen, adding just the right kick to stir-fries, salsas and sauces. High yielder.

**#03047. (A) pkt. (30 seeds) \$3.65; 3+ pkts. \$3.35 each; (D) 1/32 oz. \$7.25; 2+ \$6.55 each; 4+ \$5.95 each**

### Habanero Orange

**95 days.** The original strain. Among the hottest ever measured! Reportedly 1,000 times hotter than Jalapeño! Lantern-shaped, 1" by 1½" peppers, with thin, wrinkled, light green flesh, ripen to a lovely golden orange. A favorite for sauces. Slow to germinate and must be grown in warm, moist conditions. High-yielding plants grow 36" tall.

**#03040. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.85 each; (F) 1/16 oz. \$5.95; 2+ \$5.45 each; 4+ \$4.95 each**

### Trinidad Scorpion (Moruga)

**100 days.** One of the hottest chili's on the planet! Wrinkled, lantern-shaped peppers ripen to a searing red-orange and have a tender fruit-like flavor which makes for the perfect sweet-hot combination. Averages 1.2 million Scovilles and has reached over 2 million! Use extreme caution when handling these super hot fruits! Plants will act as a perennial if overwintered in mild climates or if brought indoors in the North.

**#03002. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each**

### Wicked Ghost Hybrid

**90 days.** Caution! With an extremely high heat level – an estimated Scoville rating of more than 800,000 – this pepper seriously brings the heat. Smooth skinned, deep red, pointed, lantern shaped, 2½" peppers are very attractive and wrinkled like habaneros. Fruits mature about 10 to 12 days earlier and have higher yields than open-pollinated ghost varieties.

**#03798. (A) pkt. (30 seeds) \$3.85; 3+ pkts. \$3.55 each**

# Cucumbers – Some Burpless, Some Seedless ...

ALIBI

## Alibi Hybrid

**50-55 days.** Harvest medium green, delicious fruits at 2" for smooth gherkin pickles or allow to reach maturity at 3 to 4". Strong growing, vigorous plants are heavy yielders and are resistant to Powdery and Downy Mildew.

#02002. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (G) 250 seeds \$6.95; 2+ \$6.35 each; 4+ \$5.75 each

ARTIST

## Artist Hybrid

**45 days.** Fine-spined gherkins have an excellent flavor that is not bitter and are great fresh or pickled. A parthenocarpic variety that does not require pollination. Enjoy abundant yields over a long harvest season. Highly resistant to Cucumber Mosaic Virus with additional resistances to other common cucumber diseases.

#02006. (A) pkt. (30 seeds) \$6.15; 3+ pkts. \$5.55 each; (G) 250 seeds \$20.95; 2+ \$18.95 each; 4+ \$17.45 each

## Barese

**60 days.** Sweet, bitter-free Italian heirloom novelty. Harvest fruits young for use as a traditional cucumber or allow to grow larger and use as a melon. Spineless fruits have a downy peach type fuzz. Very productive.

#02102. (A) pkt. (10 seeds) \$3.25; 3+ pkts. \$2.95 each

BARESE

## Bush Crop

**62 days.** Compact bushy plants produce 6 to 8" fruits that are deliciously crisp and tender. Perfect for containers or small garden spaces as vines are short. An excellent pickling variety. Scab resistant.

#02210. (A) pkt. (50 seeds) \$3.55; 3+ pkts. \$3.25 each

BUSH CROP

## Bush Pickle

**50 days.** Compact vines produce 3 to 4" fruits that make tasty, crisp, whole pickles. Vines are compact, yet very prolific. Perfect for small gardens and containers.

#02220. (A) pkt. (50 seeds) \$3.35; 3+ pkts. \$3.05 each

## Diva

**58 days. 2002 AAS Winner.** All-female, parthenocarpic variety. Very crisp, sweet, bitter-free and ideal for slicing. Fruits are spineless and bright green, with glossy tender skins. Burpless and seedless. Best harvested at 4 to 8". Very disease resistant.

EUREKA

## Double Yield

**50 days.** Be amazed with the impressive yields of this old timer originally introduced in the early 1920's – the more it's picked, the more it produces! Dark green, slender fruits are 6" long with excellent flavor. Ideal for making pickles or eating straight-from-the-vine. Heat tolerant.

#02011. (A) pkt. (10 seeds) \$3.55; 3+ pkts. \$3.25 each

## Early Fortune

**55 days.** Also known as *Special Dark Green*. Introduced in 1906, this variety was described as "the earliest and best white spine cucumber ever offered". Fruits, 7 to 8" long and 2" in diameter, have a fresh clean taste that's almost never bitter. A very dependable performer.

#02111. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## Early Spring Burpless Hybrid

**58 days.** An excellent home garden variety with a taste that's as big as its fruit! Pale green, 10 to 12" fruits will grow straight when staked or will curl if left alone. Fruits are smooth and white spined. A bitter-free, burpless variety that is great when sliced – peeled or not. Early and a good yielder.

#02109. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

## Eureka Hybrid

**57 days.** Uniform, crisp fruits are very green from the earliest stages, making them a marvelous pickling variety when 1½ to 5" long. Harvest for salads when tiny, or at any stage up to full maturity at 7". Monoecious and virtually trouble-free. Excellent disease resistance. Best grown on a fence or trellis for easy harvest.

#02018. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each;

(W) 500 seeds \$19.95; 2+ \$17.95 each; 4+ \$16.45 each

## Fanfare Hybrid

**63 days. 1994 AAS Winner.** Slender, deep green, uniform, attractive fruits are 8 to 9" long. Crisp flesh has a deliciously mild flavor. Produces over a longer period than other varieties. Great for containers, home gardens and market growers. Semi-dwarf, monoecious plants with 2 to 2½ ft. long vines, produce heavy, high quality yields. Resistant to Powdery Mildew, Scab, Cucumber Mosaic Virus, Angular Leaf Spot and Anthracnose.

#02115. (A) pkt. (25 seeds) \$5.45; 3+ pkts. \$4.95 each

## General Lee Hybrid

**66 days.** Delicious, uniform 8" slicing cucumbers have white spines, are attractive dark green and very straight. Originally bred for southern gardens, this prolific producer has proven its ability to perform in the North as well. Plants handle stress well. Resistant to Powdery Mildew and Scab with intermediate resistance to Cucumber Mosaic Virus.

#02117. (A) pkt. (30 seeds) \$4.75; 3+ pkts. \$4.35 each

### DID YOU KNOW...

Parthenocarpic plants can produce fruits without pollination? Many modern hybrid cucumber varieties have been bred with this beneficial feature. Parthenocarpic fruits will be virtually seedless as well.

### Gherking Hybrid

**50-55 days.** Early, large yields of bitter-free fruits won't become bitter even when left on the vine too long. Dark green, 3 to 5" gherkins with white spines, are perfect for pickling and fresh eating. Strong vigorous plants are parthenocarpic and gynoecious. Excellent tolerance to Scab and Cucumber Mosaic Virus with intermediate resistance to Powdery and Downy Mildew.

#02026. (A) pkt. (20 seeds) \$4.85; 3+ pkts. \$4.45 each

### Goliath Hybrid

**45-50 days.** Tasty, productive and highly disease resistant. Gynoecious plants produce loads of dark green, nearly spineless fruits, up to 8" long that have a nice texture. Holds well on the vine. Resistant to CMV, Powdery Mildew, Anthracnose, Scab and more. Great for market growers.

#02116. (A) pkt. (30 seeds) \$3.85; 3+ pkts. \$3.55 each

### Green Light Hybrid

**30-37 days. 2020 AAS Winner.** Compared to similar seedless varieties, yields were higher, maturity was earlier and more attractive, with a superior taste. Pick at 3 to 4" for sweet, crisp mini cukes that can be enjoyed with or without peeling. Makes a good pickler, as well. Grow vining plants on stakes or trellises for a more productive, easier harvest and cleaner fruits.

#02120. (A) pkt. (30 seeds) \$4.85; 3+ pkts. \$4.45 each

### Homemade Pickles

**55 days.** Medium-green fruits, with small white spines, are specially bred for making the best pickles you've ever tasted. Harvest when 1 1/2" long for tiny sweets, or 5 to 6" long for robust dills and spears. Solid and crisp with superb flavor.

#02020. (A) pkt. (100 seeds) \$4.25; 3+ pkts. \$3.85 each

### IzNIK Hybrid

**60 days.** Demand continues to be high for this terrific parthenocarpic female variety, so order early! Thin-skinned, smooth, crisp fruits are best when harvested at 3 to 4". Vining plants have small leaves, high yields and a compact habit – the perfect choice for patio containers and trellis gardens. Very versatile.

#02019. (A) pkt. (10 seeds) \$6.95; 3+ pkts. \$6.35 each

### Manny Hybrid

**50 days.** Why pay expensive supermarket prices when you can grow your own? Gourmet quality, 5 to 6" cucumbers are delicately sweet, with exceptionally tender, shiny skins. Great eaten fresh, in salads or pickled. A good choice for container gardening. Plants are parthenocarpic, have intermediate Powdery Mildew resistance and don't have to be supported but expect higher yields when trellised.

#02225. (A) pkt. (15 seeds) \$5.85; 3+ pkts. \$5.35 each

**DID YOU KNOW...**  
Powdery Mildew is the most commonly occurring disease on cucumbers? Avoiding it is easy by following these tips: choose resistant varieties, prevent water stress by heavy mulching and consistent watering, carefully pick off infected leaves as soon as they appear and apply a preventative fungicide before outbreaks occur. Try Monterey Garden Phos™ on the Order Form.

### Dill Dukat Herb

**70 days.** Easy-to-grow and perfect for pickling your favorite cukes. Produces more foliage before forming seeds than other varieties. Flower heads grow up to 10" across.

#02252. (A) pkt. (1,000 seeds) \$3.55; 3+ pkts. \$3.25 each

MEXICAN SOUR

MARTINI

MARKETER

### Marketer

**55-70 days. 1943 AAS Winner.** A great slicer for salads and makes delicious pickle chips. Slender, dark green, 8 to 9" fruits have a sweet, mild flavor. Vigorous, heat resistant plants are very productive with a long harvest season. White spined.

#02132. (A) pkt. (100 seeds) \$3.25; 3+ pkts. \$2.95 each; (C) 1,000 seeds \$5.95; 2+ \$5.45 each; 4+ \$4.95 each

### Martini Hybrid

**69-74 days.** This unique beauty stands out from the competition with a pale white exterior that won't turn yellow! Fruits are bitter-free, very sweet and crunchy with tender skins that don't need to be peeled if harvested at approx. 5 to 6". Vining, monoecious plants are heavy yielders of high-quality, straight fruit – even in the heat of summer. Powdery Mildew resistant.

#02131. (A) pkt. (15 seeds) \$4.55; 3+ pkts. \$4.15 each

### Mexican Sour Gherkin

**60-70 days.** Generous yields of 1 to 2" fruits look like miniature watermelons and even fall off the vines when ripe. Sweet cucumber flavor, followed by a surprising sourness, lead you to believe they are already pickled! Excellent variety for trellises.

#02024. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

### Mini-Me Hybrid

**45 days.** Now you can grow those mini, healthy, pricey treats you purchase in the grocery store in your own garden. The perfect snacking cucumber, these 3 to 4" fruits are crispy and delicious. Attractive, uniform cukes are dark green with shiny, smooth skins that don't need to be peeled. Plants produce high yields of 2 to 5 fruits per node early and continue all season long. Beit-alpha type.

#02025. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

### Mini Munch Hybrid

**50-65 days.** The one-bite, seedless snack cucumber! Pick when 3" long and enjoy as a fresh, healthy snack. Fruits have very smooth, deep green skins that require no peeling and flesh that has a crispy crunch and delicious, mild flavor. Parthenocarpic and all-female flowering plants set multiple flowers and fruits per node resulting in terrific yields even under less than optimum conditions. Powdery Mildew tolerant.

#02227. (A) pkt. (10 seeds) \$8.95; 3+ pkts. \$8.15 each

MUNCHER

### Muncher

**60-65 days.** Very tender variety that is excellent for fresh eating right out of the garden. Nearly spineless fruits are 6 to 8" long and 3" wide on strong vigorous vines. Non-bitter, burpless and can be eaten at any stage of growth. For pickles, pick when the fruits are 4 to 6" long.

**#02133. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each**

PAINTED SERPENT

### Painted Serpent

**55-70 days.** These unique, Armenian type, burpless cucumbers can grow up to 36" long and curl into snake-like shapes! Fruits are light green with dark green stripes, slender and ribbed with a mild delicious flavor that is best when harvested at 8 to 15".

**#02138. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each**

### Parisian Gherkin Hybrid

**50 days. 2015 AAS Winner.** An excellent, 2 to 4", mini cucumber that can be picked at midget or small stage for pickling. Numerous black spined fruits can also be enjoyed fresh in salads and slaws. Crisp with a sweet flavor. Semi-vining plants can be grown in the garden or in staked patio containers. Very easy-to-grow, produces quickly and is resistant to Scab, CMV and tolerant to Powdery Mildew.

**#02031. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each**

PARISIAN GHERKIN

### Patio Snacker Hybrid

**39 days.** Dark green-skinned, 8" fruits have a good flavor, crunchy texture and a bitter-free peel – great for straight-from-the-vine eating. Controlled, yet vigorous, short branching vines are a great fit for small gardens or large containers with a small trellis. Free-flowering, monoecious plants are high yielding with continuous harvests.

**#02032. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each**

PATIO SNACKER

### Pick A Bushel Hybrid

**50 days. 2014 AAS Winner.** Be prepared to pick lots of cukes from these compact plants. Medium green, white-spined fruits are sweet, firm and crisp. Pick at 3" gherkin size for great pickles or allow to grow to 6" for slicing fresh in salads. The semi-bush vines grow only 24" tall, so they are well-suited for growing in patio containers as well as the garden. Plants have excellent heat tolerance and disease resistances to Cucumber Mosaic Virus, Scab and Mottle Mosaic Virus.

**#02039. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each**

### Picklers Pride Mix

**53-65 days.** A blend of white spined, medium to dark green, crispy cukes. Expect abundant yields of early, mid and late season fruits that are perfect for making delicious homemade pickles or eating fresh.

**#02041. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

PICK A BUSHEL

SUMMER TOP

PICKLERS PRIDE MIX

SALAD BUSH

SALADMORE BUSH

SOUTHERN DELIGHT

SUMMER DANCE

### Salad Bush Hybrid

**57 days. 1988 AAS Winner.** Dark green, 8" fruits are tender and crisp. Compact plants require only 2 ft. of garden space – perfect for patio gardening and hanging baskets. Good disease resistance.

**#02230. (A) pkt. (20 seeds) \$6.95; 3+ pkts. \$6.35 each**

### Saladmore Bush Hybrid

**55 days. 2014 AAS Winner.** Vines spread only 24", yet produce an average of 10 to 12 fruits per plant. Harvest small, dark green fruits for pickles or allow them to fully mature, 7 to 8", for fresh use. Crisp flesh has a mild, sweet flavor. Keep fruits picked to extend the harvest season. Perfect for growing in containers or smaller gardens where space is limited. Resistant to CMV, Scab, Anthracnose and Powdery Mildew.

**#02142. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Southern Delight Hybrid

**60 days.** One of the best hybrid cukes for continuous yields of late spring to fall crops. Fruits have a crisp and delicious texture from the time they're small when harvested for pickling, right through full maturity at 8 to 10" long and 1" diameter. Deep green skin becomes glossier in high heat. Particularly well-suited to warm climates, but proven reliable under a variety of conditions. Strong disease tolerance.

**#02153. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Summer Dance Hybrid

**70 days.** Japanese burpless type producing uniform fruits that are glossy, deep green and 8½ to 9" long. A vigorous grower that produces many lateral vines for high yields. Highly resistant to Downy Mildew and Powdery Mildew with moderate resistance to *Corynespora* Leaf Spot. Heat tolerant.

**#02159. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.15 each**

### Summer Top Hybrid

**65-70 days.** Easy-to-grow. Early Japanese type. Burpless, deep green, 10" long fruits are straight and uniform, with few white spines. Heat tolerant and high-yielding, especially when grown off the ground where light and air can circulate. Superior resistance to Downy Mildew, Powdery Mildew, Anthracnose and Cucumber Mosaic Virus.

**#02161. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each**

### Suyo Long

**60 days.** An Asian heirloom burpless cucumber that grows up to 16" long. Fruits are delicious, tender, crispy and non-bitter. Excellent for fresh eating or pickling – makes excellent bread and butter pickles. Fruits are spiny when young, become smoother at maturity and tend to curl on one end so trellis vines for straighter cukes. Plants produce excellent yields, are widely adaptable and heat tolerant.

**#02167. (A) pkt. (50 seeds) \$3.55; 3+ pkts. \$3.25 each**

### Sweet Slice Hybrid

**62 days.** Sweet, burpless and non-bitter. Fruits, 10 to 12", are slim, dark green and very mild. Does not need peeling. Very vigorous vines, with excellent yields, are highly disease resistant.

**#02160. (A) pkt. (30 seeds) \$6.95; 3+ pkts. \$6.35 each**

# All Just Plain Great!

## Sweet Success Hybrid

**58 days. 1983 AAS Winner.** The first AAS winning seedless cucumber. For seedless fruits, grow in a greenhouse where it cannot be pollinated. Fruits grow up to 12" long and are slender, with thin, smooth skin. One of the very sweetest – burpless, too! Best when trellised.

**#02170. (A) pkt. (15 seeds) \$7.25; 3+ pkts. \$6.55 each; (V) 100 seeds \$30.95; 2+ \$27.95 each; 4+ \$25.45 each**

## Tanja

**58 days.** The ultimate burpless cuke. Bitter-free. Slim fruits, up to 14" long, have dark green skins and tender, crisp flesh that has outstanding flavor. A premium home garden slicing cucumber in Europe and widely adapted for successful growing almost anywhere. Also suitable for growing in greenhouses. Plants yield prolifically and continue to bear over a long harvest period.

**#02178. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each**

## Tasty Green Hybrid

**62 days.** Slim fruits, 10" long by 2" across, have dark green skins with small, white spines. Bitter-free and burpless. Can be grown in hot, humid areas and has strong tolerance to Mosaic mildews.

**#02180. (A) pkt. (30 seeds) \$4.65; 3+ pkts. \$4.25 each**

## Tasty King Hybrid

**62 days.** Delicious fruits are dark green, burpless, 10" long, thin-skinned and tender. Vines are vigorous with excellent disease resistance. A dependable high yielder.

**#02182. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$13.95; 2+ \$12.95 each; 4+ \$11.95 each**

## Tendergreen Burpless

**55 days.** Extra sweet, non-bitter flavor – even with its thin skin left on. Cukes grow to about 6½" long by 1½" across, are slightly blocky and light green, with white spines. Tender flesh is ideal for slicing or pickling. Downy Mildew resistant.

**#02186. (A) pkt. (100 seeds) \$3.45; 3+ pkts. \$3.15 each**

## A-Frame Trellis

Grow healthier plants with better fruits and easier harvesting. The secret is allowing plants to grow off the ground preventing diseases, pests and poor quality fruits. Green powder coated metal frame folds and unfolds for easy setup and convenient storage. 58"H x 42"W. **#54274. \$54.95; 2 or more \$52.95 each**

SWEET SUCCESS

TANJA

TASTY GREEN

**DID YOU KNOW...** Cucumber beetles are responsible for spreading Bacterial Wilt disease to cucumbers? Management relies on removing host weed plants and using products such as Bug Buster-O (pg. 65) or Sticky Strip Insect Traps (visit our website) to monitor for adult beetles.

# Egg'ceptional Eggplants!

## Black Beauty

**80 days.** Produces many large, 1 to 3 lb. fruits per plant – each one rich, deep purplish black and enormous. Tender and tasty at all stages – fried, steamed, grilled or stuffed. Retains color and holds well in storage.

**#02271. (A) Pkt. (850 seeds) \$3.55; 3+ pkts. \$3.25 each**

## Fairy Tale Hybrid

**50 days. 2005 AAS Winner.** Lavender flowers produce clusters of elongated fruits marked by white stripes. Best harvested at 4" long by 1¾" across for sweet, bitter-free, nearly seedless eating. Attractive, soft green foliage and unique habit make it a natural for containers, ornamentals and gardens. Plants, 18 to 24", are much smaller than typical varieties and set fruits two weeks earlier.

**#02277. (A) pkt. (25 seeds) \$6.95; 3+ pkts. \$6.35 each**

## Goya Hybrid

**74 days.** Attractive, 6 to 8", extra firm, round to globe-shaped fruits, with green spineless, flat calyxes. Delicious flesh is great for making pastes, dips and sauces. Good shelf life. High yielding.

**#02281. (A) pkt. (25 seeds) \$4.65; 3+ pkts. \$4.25 each**

## Gretel Hybrid

**55 days. 2009 AAS Winner.** Clustered, 3 to 4" fruits are very sweet and firm. Tender skins and few seeds make this an excellent choice for grilling and sautéing. Harvest frequently to encourage setting throughout the season. Plants grow up to 42" tall.

**#02276. (A) pkt. (25 seeds) \$6.95; 3+ pkts. \$6.35 each**

## Hansel Hybrid

**55 days. 2008 AAS Winner.** Clustered, 2 to 10"

fruits mature to dark purple with no bitterness and few seeds. Compact plants, under 36" tall, produce heavy yields of tender fruits over a long growing season. Widely adapted and miles ahead of the older, open-pollinated types.

**#02279. (A) pkt. (25 seeds) \$6.95; 3+ pkts. \$6.35 each**

## Millionaire Hybrid

**63 days.** One of the most popular oriental varieties on the market. Long, slender fruits, up to 12" long, have smooth, tender, brilliant black skins and nearly seedless flesh. Delicious flavor makes them excellent for stir-fries and other popular Asian dishes. Upright plants produce early and vigorously.

**#02288. (A) pkt. (25 seeds) \$3.85; 3+ pkts. \$3.55 each**

## Patio Baby Hybrid

**45 days. 2014 AAS Winner.** Produces a prolific number of 2 to 3" egg-shaped, glossy, purple-black fruits. Taste is excellent, mild and less bitter than comparable varieties. Try roasted or in dips and salads. Thornless leaves and calyxes allow for painless harvesting. Great used as an ornamental edible in garden beds and containers. Plants grow less than 24" tall.

**#02289. (A) pkt. (15 seeds) \$5.55; 3+ pkts. \$5.05 each**

# Flavorful Fruity Fixin's!

AMBROSIA

## Ambrosia Hybrid Cantaloupe 🍌

**86 days.** Features a terrific, sweet flavor that's distinctively different. Round fruits, with peach-colored flesh, average 4 to 5 lbs. each, have heavy nets and light sutures. A favorite of gardeners and fresh markets. Resists Powdery Mildew.  
**#02618. (A) pkt. (25 seeds) \$7.55; 3+ pkts. \$6.85 each**

BURPEE

## Burpee Hybrid PMT Cantaloupe

**82 days.** Tops for quality, flavor and yield! Round to slightly oval fruits, 4 to 4½ lbs., have dark orange, firm, juicy flesh and strong netting patterns and ribs. Highly adaptable nationwide, but particularly to Northern states.  
**#02623. (A) pkt. (25 seeds) \$7.45; 3+ pkts. \$6.75 each**

## Orange SilverWave Hybrid Melon

**75 days. 2019 AAS Winner.** An exotic, 3 to 4 lb., oval melon with extremely sweet, orange flesh and unique rind color. Vigorous vines produce up to 6 fruits each. Trellis plants for better disease control. Resistant to Melon Necrotic Spot Virus and Melon Fusarium Wilt.  
**#02631. (A) pkt. (20 seeds) \$5.15; 3+ pkts. \$4.65 each**

ORANGE SILVERWAVE

## Savor Charentais Hybrid Melon

**85 days.** High yielding, classic French Charentais type. Small, 2 lb. melons with pale green, smooth skin and extra-sweet, aromatic, bright orange flesh. Disease resistant.  
**#02696. (A) pkt. (30 seeds) \$8.75; 3+ pkts. \$7.95 each**

## Faerie Hybrid Watermelon 🍌

**60 days. 2012 AAS Winner.** Creamy-yellow rinds have thin stripes with sweet, pink-red flesh with a high sugar content and crisp texture. Vines are vigorous, yet spread only to 11 ft., so it takes up less garden space. Slightly oval, 7 by 8" melons weigh just 4 to 6 lbs. each. Disease tolerant. Prolific yielder.  
**#04110. (A) pkt. (20 seeds) \$6.85; 3+ pkts. \$6.25 each**

SAVOR CHARENTAIS

## Gold in Gold Hybrid Watermelon 🍌

**70 days. 2017 AAS Winner.** Excellent tasting, bright yellow fruits have gold stripes and golden-orange flesh that is crisp with a high sugar content. Oblong melons, 11 to 16 lbs., have strong rinds that resist cracking or bursting. Makes a perfect icebox melon. Early and high yielding with improved disease resistance.  
**#04119. (A) pkt. (25 seeds) \$5.95; 3+ pkts. \$5.45 each**

FAERIE

**WATERMELON SEED LIABILITY NOTICE.** We assure that our watermelon seeds meet federal germination standards, but claim no responsibility for losses caused by seed-borne organisms.

PILGRIM

IMPROVED MEYER LEMON

MINI LOVE

SOLITAIRE

## Harvest Moon Hybrid Watermelon

**80-100 days. 2013 AAS Winner.** The first seedless watermelon to win an AAS award! Compact vines produce seedless, 18 to 20 lb. fruits with sweet, crisp, pinkish-red flesh and dark green rinds with yellow spots. Very productive. Plant 1 pollinator (included) for every 3 plants to ensure fruiting.  
**#04121. (A) pkt. (10 seeds) \$9.95; 3+ pkts. \$9.05 each**

## Mini Love Hybrid Watermelon

**70 days. 2017 AAS Winner.** Personal-sized, 7 to 9 lb. fruits are perfect for small space gardens. Fruits have sweet, crisp, deep red, juicy flesh, few seeds and thin, but strong, crack and split resistant rinds. Short, 3 to 4 ft. vines produce up to 6 fruits per plant. Not prone to Powdery Mildew. **Cannot ship to SC.**  
**#04069. (A) pkt. (10 seeds) \$6.75; 3+ pkts. \$6.15 each**

## Solitaire Hybrid Watermelon

**85 days.** Mini, seedless, round fruits are larger than a softball but smaller than a soccer ball, weighing 3½ to 5 lbs. each. Deep red flesh is crisp and very sweet. A great choice for short season areas. Plant 1 pollinator (included) for every 3 plants to ensure fruiting. **Cannot ship to SC.**  
**#04077. (A) pkt. (10 seeds) \$9.95; 3+ pkts. \$9.05 each**

## Improved Meyer Lemon Tree 🍌

Enjoy fresh citrus all year, even in northern locations. A cross between a lemon and a mandarin orange. Easy-to-grow with the ability to bloom and set fruit all year. Fragrant, white flowers are followed by large, orange-yellow fruits perfect for juicing, cooking and baking. Trees rarely exceed 5 ft. tall. Place in a sunny location. Move inside to a well lit room before the first hard frost. Heavy yielding trees are self-pollinating and bear fruit in 1 to 2 years. Ships in gallon pots. Zones 9-10. **Cannot ship to AK, AZ, CA, FL, HI or TX.**  
**#30970. \$44.95 each; 3+ \$42.95 each**

## Pilgrim Cranberry Plants

A versatile and nutritious fruit that makes lovely ornamentals and ground covers, as well. Grows to just 6" tall with evergreen foliage. Berries ripen in the fall. Hardy to -30°F. Ships in 3" pots. Zones 4-9.  
**#30280. \$16.95 each; 3+ \$15.45 each; 6+ \$13.95 each**

## Pink Lemonade Blueberry Plants

Just as flavorful and high in healthful benefits as blue varieties. Use for fresh eating, baking and freezing. Ornamental, 4 to 5 ft., plants are covered with pale pink, bell-shaped flowers in spring and fruits from mid-July through August. Glossy green leaves become bright orange and scarlet in fall. Grow same as standard blueberries. Ships in a one qt. pot. Zones 4-8.  
**Cannot ship to AK, GA, HI, MI or WA.**

PINK LEMONADE

**#30141. \$19.95 each; 2+ \$17.95 each; 5+ \$15.95 each**

# Fresh & Healthy Salad Fixin's!

## Aspabroc Hybrid Baby Broccoli

**50-60 days.** This baby broccoli is known as Broccolini in the produce section of your grocery store and on restaurant menus. Resembles a broccoli raab with an asparagus stem and has a mild taste. Easy-to-grow and requires little space. After first maturity of the central shoots, plants will set 3 to 5 shoots shortly thereafter and continue for about 4 weeks in mild weather.

#01460. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

## Rainbow Hybrid Carrot

**70 days.** Cylindrical, 7 to 8" roots in yellow, white, light and dark orange and coral, each with a distinctive flavor. High sugar content.

#01671. (A) pkt. (500 seeds) \$3.95; 3+ pkts. \$3.65 each

## Carrots Love Tomatoes

By Louise Riotte. Learn the secrets of companion planting and watch your garden thrive! Create plant relationships that result in natural insect control, weed control and increased yields simply by identifying good and bad plant companions. This illustrated guide contains hundreds of interesting and educational facts. 224 pages.

#55469. \$14.95 each

## Baby Hybrid Cauliflower

**28 days.** There's no doubt this "baby" will be in big demand! It's the smallest and cutest cauliflower available on the market today. Each plant produces a small, compact, 2 to 3" head AND as an added bonus, its leaves are edible – raw or cooked! Due to its size, it's ideal for growing in small pots and containers. For true baby heads, plant 6 to 10" apart, otherwise heads will be larger.

#01704. (A) pkt. (20 seeds) \$5.15; 3+ pkts. \$4.65 each

## Cheddar Hybrid Cauliflower

**68 days.** Curds really are orange through and through! Smooth, dome-shaped heads have almost as much Beta-carotene as carrots. Fantastic flavor and texture guarantees gourmet enjoyment cooked or raw. Color deepens when cooked. Prefers moderate to cool temperatures.

#01706. (A) pkt. (20 seeds) \$7.65; 3+ pkts. \$6.95 each

## DePurple Hybrid Cauliflower

**68 days.** Unique attractive lavender-pink variety. Heads grow 7½ to 8" and have contrasting white stems. Flavor is excellent and the color holds when cooked. Uniform heads are dense and dome-shaped with tight curds. Wrapper leaves provide good protection. Plants are widely adaptable. Ideal for both spring and fall plantings.

#01715. (A) pkt. (20 seeds) \$6.55; 3+ pkts. \$5.95 each

## "COLORFUL CAULIFLOWER" COLLECTION

One packet each of Cheddar, DePurple & Snow Crown. #01732(X). 3 pkts. for just \$16.25. Save 15%!

### DID YOU KNOW...

Most garden insects can be eliminated by utilizing our Giant Fleece Easy Tunnel on pg. 67. If pests do appear, most can be effectively eliminated by using organic products listed on pg. 65 and the Order Form.

AUTUMN STAR

PRIZM

ARISTOTLE

DEPURPLE

SNOW CROWN

## Snow Crown Hybrid Cauliflower

**60-70 days. AAS Winner.** Heavy yields of uniformly shaped, semi-dome, 2 lb.

heads, 8" across. Vigor and overall quality make this a top choice of serious growers everywhere.

#01730. (A) pkt. (100 seeds) \$5.05; 3+ pkts. \$4.55 each

## Aristotle Basil Herb

**60 days.** Compact with tightly packed, tiny leaves that create pretty, pale green mounds. Easy-to-pick and has a classic basil taste and aroma. Perfect for patio gardens, containers and window boxes. Plants have a dense, bushy habit that spreads to 15". Grows 12" tall, but is best when harvested at about 6".

#02359. (A) pkt. (50 seeds) \$4.75; 3+ pkts. \$4.35 each

## Prizm Hybrid (Baby leaf) Kale

**50-60 days. 2016 AAS Winner.** Attractive, tight, ruffle-edged leaves are short and content in containers and gardens. Easy to maintain, almost stemless, 3½ to 4" stalks are quick to re-leaf. Harvest early and often for a continual supply. Excellent tasting, almost nutty flavored leaves are tender enough to enjoy in fresh salads, but also hold up well when cooked. Easy-to-grow.

#01457. (A) pkt. (100 seeds) \$5.25; 3+ pkts. \$4.75 each

## Autumn Star Hybrid Kalettes®

**110 days.** A cross between brussels sprouts and kale, this easy to prepare, kale-like vegetable was developed using traditional breeding techniques. Florets grow along thick stalks and are mature when 2" in diameter. Simply cut and eat – no tough stems to remove! Great sautéed, roasted, grilled and raw. Grow like brussels sprouts.

#01458. (A) pkt. (15 seeds) \$6.95; 3+ pkts. \$6.35 each

## Konan Hybrid Kohlrabi

**42-50 days. 2016 AAS Winner.** Smooth, globe-shaped bulbs grow to about 6" in diameter and have snow-white flesh with a nice crunchy texture and a juicy, mild radish/cabbage flavor. Grow in containers or gardens. Upright, uniform leaves resist insect damage so plants stay healthy all season long.

#02487. (A) pkt. (50 seeds) \$5.85; 3+ pkts. \$5.35 each

## Green Ice Lettuce

**45 days.** This loose-leaf type is in high demand for all types of salads due to its sweet, vitamin-rich, crispy leaves. Slow to bolt and doesn't become bitter in hot weather.

#02560. (A) pkt. (1,000 seeds) \$3.85; 3+ pkts. \$3.55 each

## Bon Vivant Mesclun Blend

**35-45 days.** A gourmet mix of exotic leaf lettuces of the best flavors, textures and colors. Includes deep reds and bronze tones and greens ranging from the lightest greens to the darkest emeralds.

#02568. (A) pkt. (1,000 seeds) \$3.05; 3+ pkts. \$2.75 each

### Totally Tomatoes Microgreen Blend

10-14 days. Grow your own fresh greens indoors, year round. Microgreens develop 1 to 2 sets of true leaves before harvest – both stems and leaves are edible. This colorful blend consists of red and gold beets, red kale, purple kohlrabi and white swiss chard. We recommend using a soilless growing medium like the Terrafibre™ mats (pg. 63), to decrease the risk of soil borne disease. One oz. sows 1 to 2 flats depending on how thickly seed is sown. Can also be grown as sprouts.

#04447. (L) 1 oz. \$6.25; 2+ \$5.65 each; 4+ \$5.15 each

### Candy Hybrid Onion

85 days. Extremely early cross between a long-day and a short-day onion. Jumbo bulbs have mild, sweet, white flesh. Small-necked and a golden-brown outside – inside, they have large, thick rings with mostly single centers. A good keeper when cured. Grows well anywhere in the U.S. (Sow in spring.)

#02722. (A) pkt. (250 seeds) \$4.55; 3+ pkts. \$4.15 each

#02722PL. 1 bunch (40-50 plants, depending on size) \$15.95 each; 2+ bunches \$14.45 each;

5+ bunches \$12.95 each

Cannot ship plants to AK, HI, ID and WA.

### Warrior Bunching Onion

60 days. 2016 AAS Winner. An easy-to-grow bunching onion. Grows quickly producing a very uniform crop of slender, crisp, ½" wide stalks that are easy to harvest and clean. Holds up in the garden longer than similar varieties. Use raw to add texture, flavor and color to all kinds of dishes or try them grilled.

#02741. (A) pkt. (250 seeds) \$3.55; 3+ pkts. \$3.25 each

### Warrior Red Bunching Onion

60 days. The red version of our award winning bunching white Warrior above. White stems are long and slender with small red bulbs. Its flavor is mild and adds the perfect amount of color to any dish, fresh or cooked. These lovely deep burgundy colored bunching onions grow approx. 24 to 26" tall as a scallion. This variety also works great for a microgreen.

#02742. (A) pkt. (250 seeds) \$3.10; 3+ pkts. \$2.85 each

SWEET BABY

WATERMELON

SUNNY DELIGHT

BRIGHT LIGHTS

### Toy Choy Hybrid Pak Choy

30-35 days. An early maturing, 5", mini Pak Choy, with crisp, white stalks and smooth, dark green leaves. Excellent mild flavor. Enjoy sautéed, roasted or in stir-fries. Great for summer growing.

#02807. (A) pkt. (200 seeds) \$4.55; 3+ pkts. \$4.15 each

### Easter Egg Blend II Radish

30 days. A multicolored mix of globe-shaped, 1" roots in a delightful array of colors – pink, red, lavender, purple and white all with white interiors. Crispy, mild taste. Great in salads or as part of a colorful relish tray.

#03345. (A) pkt. (500 seeds) \$3.95; 3+ pkts. \$3.65 each

### Sweet Baby Hybrid Radish

40-45 days. 2016 AAS Winner. Outstanding flavor, quality and uniformity. Crisp, crunchy and slightly spicy, 3" elongated, purple radishes are tasty. Interior color ranges from pale purple to white with violet streaks to mostly white with a few purple splashes of color. Enjoy multiple harvests with this early maturing variety.

#03319. (A) pkt. (100 seeds) \$4.75; 3+ pkts. \$4.35 each

### Watermelon Radish

59 days. A charming heirloom – crisp, mild and even a little sweet! Cream-colored, 2 to 4" roots slice open to mimic a tiny watermelon – green "rind" with brilliant pinkish red flesh. Prominent tops make them easy to pick even when small, when they tend to be the most colorful. Add one-of-a-kind flair to garnishes, salads, appetizers, stews, stir-fries and more. Roots hold well without turning woody.

#03394. (A) pkt. (250 seeds) \$3.55; 3+ pkts. \$3.25 each

### Sunny Delight Hybrid Squash

40 days. Matures earlier, resists greening better and holds its flat, scalloped shape longer on the vine than similar varieties. Uniquely shaped fruits, with small blossom scars, appear in abundance on semi-bush plants with an open habit for easy harvest. Ideal as a baby vegetable.

#03586. (A) pkt. (20 seeds) \$5.15; 3+ pkts. \$4.65 each

### Bright Lights Swiss Chard

60 days. 1998 AAS Winner. Brings pizzazz to the table with its stems of gold, pink, orange, purple, red and white and mild chard flavor. Begin harvesting the vitamin-rich, glossy green, savoyed leaves in 4 to 5 weeks and let them grow back for repeated cuttings. Use greens fresh, steamed or like spinach. Strong bolt resistance.

#03742. (A) pkt. (200 seeds) \$3.95; 3+ pkts. \$3.65 each

### Easypick Gold II Hybrid Zucchini

45-50 days. Count on easy and continuous harvesting on plants with nearly spineless leaves and stems. Simply twist the slender, 10" fruit to pick – less scarring and clean harvest means longer shelf life. An excellent fresh-eating variety that can also be used for roasting, steaming and stir-fries or try some on the grill. Plants have an open habit.

#03533. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

EASYPICK GOLD II

## Kitchen/Harvest Helpers

### Fiskars® Fast-Prep Kitchen Shears

A unique design makes it easy to quickly cut herbs, veggies and even meat without a knife or cutting board. Engineered to maximize the power of your thumb and index finger to improve control. Stainless steel blades stay sharp through heavy use. Storage sheath included for safety. Dishwasher safe. Measures 7". **#54281. \$23.95**

### Colander Trug

The perfect kitchen and garden companion. From the garden or the grocer, this large, lightweight, easy-to-use colander is perfect for harvesting and cleaning fruits and vegetables. Features drainage holes in one end – simply rinse, tilt and drain. Made of durable, recycled plastic with sturdy handles that fold down for convenient storage. Measures 22"L x 12"W x 4¾"H and weighs just ½ lb. **#54654. \$25.95; 2+ \$23.45 each**

## Seed Starting

### Microgreens Starter Kit

Kit includes 10 TerraFibre™ mats, one 21"L x 11"W x 2½"D standard flat and one clear humidity dome. **#51425. \$44.95**

### TerraFibre™ Grow Mats

Simply sprinkle seeds on the mat, press down and water. Mats have excellent water absorption capability and can be used for sprouts as well. Made with the fibrous by-product of industrial hemp plants and are 100% biodegradable and compostable. Measures 10" x 20". **#53249. Pkg. of 10, \$31.95**

### Purple Cow Organics® Seed Starter Mix

OMRI Listed. Get seedlings off to a strong start. Compost based mix for seed starting in trays, blocks or small containers. Contains naturally occurring beneficial microorganisms and enough fertility for most transplants for up to 45 days – or until the roots begin to outgrow the space. **#54342. 12 Qts., \$21.95**  
**#54343. 1 Cubic ft., \$34.95**

### Espoma® Organic Seed Starter Mix

A premium potting mix enhanced with Myco-tone™, a proprietary blend of 11 different strains of mycorrhizae, excellent for all seedlings and cuttings. Uses up to 30% less water than ordinary soils, improves transplant survival and growth and promotes bigger root growth for increased water uptake. Increases drought tolerance and other environmental stresses, improves soil structure and increases fertilization utilization. **#54395. 8 Qts., \$15.95**

### Q-Plug Starter Kit

Includes everything needed to start seeds and cuttings using a unique float system that gives plants constant access to the ideal air-to-water ratio – never over-water again! Extra large plugs encourage vigorous, deep root growth and remove from the insert easily with no damage to the plant. Includes a 21"L x 11"W x 2½"D heavy duty seed tray, a 7"H dome with three vents, a 55 cell reusable floating styrofoam insert with large 1½" cells and 55 aerated Q-Plugs. Instructions included.

**#53826(X). \$39.95**  
**#84555. Extra Trays, \$16.95 each**  
**#85245. Extra Domes, \$10.95 each**  
**#53823. Q-Plug 55 Pack Refills, \$29.95 each**  
**#53824. Extra 55 Cell Styrofoam Inserts, \$9.95 each**

## Eco Friendly Helpers

### EcoGrow™ Enviro-Grow Containers

Made from recycled paper and natural ingredients that breakdown over time. Ideal for transplanting seedlings or starting seeds indoors. Fiber material breathes like clay to keep roots healthy. At planting time, peel off the bottom of the pot, position in the hole, place the bottom beside it and fill with soil. Completely compostable and biodegradable. **#54320. 3-3/4" Round Pots, 10 for \$6.95; 50 for \$21.95**  
**#54318. Carry Trays for 3-3/4" Pots, \$6.95 each; 5 for \$21.95**

### Cowpots™

Made from 100% natural composted cow manure, completely odorless and biodegradable. As plants grow, roots are able to penetrate the sides of the pot for better root growth, while absorbing valuable nutrients. Transplant directly into the soil so there is no transplant shock. Pots fully decompose within weeks, leaving valuable nutrients and organic matter behind. Environmentally friendly. **#54375. 3" Pots, Pkg. of 12, \$11.95; 2+ \$10.45 each**  
**#54376. 4" Pots, Pkg. of 12, \$12.95; 2+ \$11.50 each**

## Greenhouses

### Light-Booster Double Plant House

A wider version of the Light-Booster Single Plant House on page 8, with more shelf space and 4 full height zippers that allow the front 2 panels to be individually rolled up. 59"W x 63"H x 15.7"D. **#52957. \$179.95**

### SunBlaster™ Nanodome Mini Greenhouse

Custom kit includes everything you need to start seedlings, propagate fresh cuttings or grow fresh herbs all year long! The high dome incorporates light tracks engineered to receive lighting bi-directionally. Includes 7" Nanodome with vents (for optimum temperature and humidity control), 1020 double thick tray and a SunBlaster™ 18" T5 light. **#52942. \$62.95**

### Tomato Greenhouse

Get the most from tomato plants with their own red mini-greenhouses – color enhances tomato growth up to 20%. Allows air circulation and heat retention for faster growing tomatoes while protecting against damaging weather and pests. Fits over most tomato cages or can be attached to stakes. Made of perforated plastic film with UV stabilizers added for longer life. Each package will cover 5 to 7 plants. **#52988. 28" W x 20" L, \$13.95** **#52989. 38" W x 20" L, \$15.95**

### DID YOU KNOW...

There are 3 main factors to get consistently good seed germination? **1. Proper bottom temperature - Many seeds germinate with 70-75°F bottom heat, but 80-85°F is best for tomato & pepper seeds. See Seedling Heat Mats on page 8.** **2. Proper media moisture - Pre-moisten mix & after sowing, cover trays with plastic or domes to keep the media properly moist.** **3. Oxygen - Use a seed starting mix that offers proper oxygen for seeds. Never use potting soil, as it is too dense.**

## Composting

### RollMix™ Composter

Home composting has never been easier or quicker – it's possible to make your own compost in as little as 6 weeks! All you need to do is add water, a variety of kitchen waste and roll it. Its compact size makes it perfect to compost anywhere you have limited space. Made of durable, polyethylene fabric that traps heat, holds odors in and keeps pests out. Makes approx. 32 gallons of compost, measures 26"L x 22"D and weighs less than 3 lbs.! Folds flat for easy storage. Instructional guide included. **#53076. \$44.95; 2+ \$41.95 each**

## Lighting

### Hydrofarm T5 4ft. 4 Tube Premier System w/Bulbs

Delivers performance, flexibility and high lumen output in any growing environment. These daisy-chainable systems allow multiple hanging configurations to meet your needs. Combines German specular aluminum with energy-efficient/high-output T5 bulbs that are twice as efficient as ordinary grow lights. 10 ft. grounded power cord and four T5 bulbs included. **#82110. \$224.95**  
**T5 Replacement 4 ft. Bulbs #74671. Pkg. of 4, \$49.95**

# Disease Control & Fertilizers

## Neptune's Harvest Tomato & Veg Formula 2-4-2

The perfect complete fertilizer for tomatoes, vegetables and more. Made from fresh fish, seaweed, molasses, yucca extract and humic acids, this formula was uniquely designed for plants with intense growth or "vegging" stages. Growers will see increased stalk/stem mass resulting in higher yields. In addition, it provides necessary nutrients to keep plants vigorous with strong root zones and lush foliage, increasing tolerance to various diseases, temperature and drought.

**#51266. 32 oz., \$26.95**  
**#51267. Gallon, \$52.95**

## Happy Frog® Tomato & Vegetable 5-7-3 Fertilizer

OMRI Listed. Bring more nutrition to your table! Tomatoes, soft fruits and veggies require a special nutritional mix to ensure high yields. Contains premium ingredients like bat guano, kelp meal, alfalfa meal, fish meal and naturally occurring organic material that is formed when organic matter decomposes. Also contains calcium which helps prevent Blossom End-Rot and boosts stronger cell walls, helping plants fight off disease. Feeds plants and produces high quality fruits. **Cannot ship to AK, HI or IL.**

**#51119. 4 lbs., \$19.95**

## Neptune's Harvest Fish & Seaweed Fertilizer 2-3-1

OMRI Listed. All natural, 100% organic. Get the best of both products with this organic fertilizer that perfectly blends fish hydrolysate and seaweed ensuring a complete fertilization program. Fish and seaweed are known to increase the natural sugars in plants which results in increased yields, improved

shelf life of fruits and vegetables, as well as stronger, more colorful foliage and flowers. It does not deplete natural soil elements and has no odor. Mix 1 oz. per gallon of water and apply every 2 to 3 weeks.

**#51221. 18 oz., \$17.95**  
**#51222. 36 oz., \$23.95**

## Neptune's Harvest Crab & Lobster Shell 5-3-0 Organic Plant Food

An excellent dry organic source of nitrogen, phosphorus, calcium and magnesium. Retains moisture in soil and builds organic matter. Gives roots something to grab onto, for a food source, creating a deeper root system. Integrated into the soil, it encourages chitin eating bacteria which helps control/eliminate ants, grubs, fungus and root nematodes. Placed around plants, it keeps slugs and snails off. Also helps choke out weeds and keep moles, voles, mice, etc. from digging up bulbs and root vegetables. Perfect for use in flower beds, vegetable gardens and on lawns and turf. Safe for pets and kids.

**#55438. 4 lbs., \$18.95**

## Coop Poop™ Organic Tomato Plant Food

OMRI Listed. Contains 8% calcium for strong roots and plants. Low odor and high performance. Low dust application. Natural nutrients for plants and soils to improve plant health, growth and development. Offers all the nutrition without any harmful ingredients. **#51011. 4 lb. Reclosable Bag, \$13.95**

## Espoma® Tomato-tone® 3-4-6

Fertile soil, a pH of 6.5 to 7.5 and plenty of Tomato-tone® will produce super tomato yields! This formula is based on recommendations of six university studies. High organic content prevents rapid foliage growth at the expense of blooms. Provides all 15 essential nutrients for optimum growth. Mix according to directions and feed your tomatoes twice a month.

**#86945. (A) 4 lbs., \$10.95**

## Monterey® Foli-Cal®

A liquid formulation of calcium used to prevent and treat plant disorders associated with calcium deficiency such as Blossom End-Rot on tomatoes, peppers and melons. Can also be used on other vegetables, fruit trees and vine crops. It complements good soil fertility by supplying nutrients directly to the foliage and fruit of crops during critical growth stages.

**Cannot ship to AK, HI, KY, ND or WY.**

**#50401. Pint, \$16.95**

## Tomato Maker™ 4-2-6

Grow healthier and more delicious tomatoes! Corrects deficiencies responsible for Blossom End-Rot. A unique blend of natural sources of nutrients combined with calcium, magnesium and iron which helps to stimulate growth and yields. Can also be used on most other fruits and vegetables.

**Cannot ship to AK, HI or MS.**  
**#89257. 3 lb. Reclosable Bag, \$14.95**

## John & Bob's Soil Optimizer

OMRI Listed. Avoid heavy digging and lugging cumbersome bags of humus to repair poor soil. This 100% organic blend of concentrated, fully decomposed humus and other essential soil additives is simply spread over existing lawns or gardens and watered in. It's completely safe with no risk of burning plants or over-applying. Spreading 3 lbs. over 1,000 sq. ft. gives the same result as working in hundreds of pounds of compost humus. When applied as directed, it's guaranteed to start improving soil that season.

**#51106. 3 lbs., \$27.95**  
**#51107. 6 lbs., \$40.95**

## Old Truck Organics Tomato & Vegetable Plant Food 5-3-3

High quality, organic fertilizer with 25% MYKOS mycorrhizae (an all natural root enhancing soil microbe) plus kelp and humic acid. Helps

transplants establish more quickly, flowers appear sooner and fruits and vegetables ripen even earlier! Each bag has at least 85,000 microbes that will immediately begin to help plants absorb nutrients and water. Calcium combined with increased mineral uptake from the mycorrhizae, helps protect tomatoes from Blossom End-Rot. Use on tomatoes, herbs and vegetables. Treats up to 100 sq. ft. or 28 one gallon tomato plants.

**#50511. 2.2 lb. Reclosable Bag, \$18.95**

## Old Truck Organics MYKO Start Paks 5-2-3

Biodegradable Transplant Paks. Organic fertilizer with 25% MYKOS mycorrhizae plus kelp and humic acid. Increases drought tolerance! Designed for transplanting and staggering in containers, raised beds and in-ground gardens. Just place a few in the transplant hole for weeks of vigorous plant growth. Provides 4 weeks of nutrient supply. Holds the fertilizer in place until plants need it. Each pak contains at least 300 microbes to help get plants started off right. Use on flowers, fruits, herbs and vegetables. Treats up to 24 plants.

**#50512. 24 Starter Paks, \$18.95**

## Wiggle Worm Soil Builder

100% organic fertilizer produced naturally by earthworms. Earthworm castings are one of the purest forms of sustained release plant food. Castings won't burn even the most delicate plants, are naturally odor-free and improve soil structure, aeration and drainage. They are also rich in beneficial bacteria and microbes to help plants absorb nutrients. Mix with soil when potting or use as a top-dress in garden beds.

**#58014. (C) 15 lbs., \$19.95**

## Algoplus Fertilizer

This patented, all natural fertilizer revolutionized vegetable production! Its most remarkable feature is that it's 100% mineral based – no chlorides, carbonates or sodium – plus it's odorless, colorless and environmentally safe. It encourages rapid cell growth using three major elements along with micronutrients. Contains a higher percentage of potassium to promote production of larger tomatoes. Use on cucumbers, melons and peppers as well. Use one capful per gallon of water as a regular feed or ½ capful to spray directly on the foliage and watch the amazing results. A one-liter bottle makes 100 gallons. Water soluble.

**#51081. 4-6-8 Tomato**  
**#51080. 6-6-6 All-Purpose**  
**Prices, above 2:**  
**\$19.95 each; 2+ \$18.95 each**

### Sea Magic™ Seaweed Extract

A natural growth activator. Dries quickly using special methods to keep its natural growth enhancers and disease fighting substances intact. Apply every 2 to 3 weeks as directed and watch everything grow bigger and better. Ideal for ornamentals, lawns, fruits, vegetables and more. A one oz. packet makes

up to 66 gallons. **#51150. \$11.95**

### Jack's Classic® All Purpose 20-20-20

Water soluble plant food considered the industry standard of general purpose fertilizers by professional growers. Feeds both through the roots and the leaves. This formula of nitrogen, phosphorus and potassium provides fast green-up and rapid leaf expansion. For use on all your indoor and outdoor plants. Indoors it is especially effective on foliage plants. A proven performer in the vegetable garden for generations.

**#56316. (B) 4 lbs., \$29.95**

### Bonide® Tomato & Blossom Set Spray

This natural hormone-type spray makes blossoms set fruit even under adverse conditions. Promotes flowering, increased blossom set and increased fruit yield. Also for use on beans, cucumbers, eggplants, melons, okra, peppers, strawberries and grapes. **Cannot ship to AK, CA or HI.**

**#50440. 8 oz. Pump Spray, \$10.95**

## BioFungicides

### Monterey® Complete Disease Control

OMRI Listed. Prevents both fungal and bacterial plant diseases. This broad spectrum formula is approved for organic gardening and treats a wide range of diseases including Powdery Mildew, Botrytis, Early and Late Blight, Fire Blight, Fusarium and Pythium. Active ingredient Bacillus amyloliquefaciens strain D747, colonizes the roots to prevent diseases. Apply as both a foliar spray and soil drench, indoors and outdoors, on vegetables and ornamentals. Mix approx. 1 tsp. per gallon of water.

**Cannot ship to AK, HI or ND. #55755. 16 oz. Concentrate, \$24.95**

### Bonide® Revitalize® BioFungicide

For organic gardening. Triggers plant immune response and colonizes roots. A high potency biofungicide/bactericide that controls blights, molds, rots, spots and mildews on vegetables, fruits, nuts, ornamentals, lawns, houseplants and tropical plants grown inside or out. May be used right up to the day of harvest. Makes up to 96 gallons. Foliar spray or soil drench. **#50046. 16 oz. Concentrate, \$17.95**

## Insecticide

### Monterey® Bug Buster-0 Insect Control

OMRI Listed. This organic insecticide controls over 100 insects. A natural pyrethrin, it quickly knocks down and kills cucumber beetles, japanese beetles, stink bugs, tomato hornworms and many more insects. It can be used on fruits, vegetables and ornamentals – even on the day of harvest. Easy-to-use. One of the few organic treatments for onion mag-gots. Dilute 1 to 1.4 fluid ounces in one gallon of water to cover 1,000 sq. ft. **Cannot ship to AK, AR, AZ, HI, ID, IA, KY, NE, NV, ND, WV or WY. #50012. 8 oz. Concentrate, \$38.95**

## Insecticide/Fungicide

### Organocide™ Bee Safe 3-in-1 Garden Spray

OMRI Listed. A patented blend of sesame and fish oils so safe you can enter your garden and yard immediately after application. Kills aphids, whiteflies, spider mites, fungus gnats, thrips, mealy bugs, scale insects and more. Controls Powdery and Downy Mildews, Black Spot, Greasy Spot and more. Use on fruits, vegetables, flowers, ornamentals, trees and shrubs. May be used right up to the day of harvest. Makes 10 gallons of spray. **Cannot ship to AK, DC or HI. #88626. 32 oz. Concentrate, \$29.95**

## Repellents

### Victor® Quick-Strike™ Gopher & Mole Gasser

Safe and easy-to-use, smoke from self-igniting sticks penetrate deeply into burrows and tunnels. With a long burn time, they ensure successful pest control. Kills moles, pocket gophers, woodchucks, skunks and more. No lighter necessary. Waterproof and windproof.

**#56007. Pkg. of 4, \$16.95**

### Green Screen® Deer and Rabbit Repellent

Proven to protect prized plants and flowers. Ideal for home gardens, orchards and vineyards. Comprised of a proprietary mixture of bone meal, blood meal and pepper, bags emit an offensive odor that is effective in discouraging wildlife. Easy-to-use. Hang from plants, stakes or trees. 100% organic and non-toxic. Resealable plastic pouch contains 10-2 oz., pre-filled, cotton draw string bags. **#52092. \$12.95**

## Weed Prevention

### Preen® Vegetable Garden Natural Weed Preventer

Enjoy a weed-free vegetable garden without all the work. The organic way to keep weeds from sprouting. Use in fruit, vegetable, herb, and landscape beds anytime during the growing season to save time from backbreaking weeding. Formulated to control some of the toughest weeds like clover, bluegrass, crabgrass, foxtail, lambsquarters and plantain. Just sprinkle once a month to prevent weeds from returning. Safe around kids and pets. Covers 250 sq. ft. **Cannot ship to AK, DC, HI or SD. #89854. (A) 5 lbs., \$29.95**

### Monterey® Vegetable And Ornamental Weeder

One of the few weed killers safe to use on vegetable gardens. This preemergence herbicide kills weeds before they germinate. Controls grasses and broadleaf weeds for up to 5 months. Can also be used around trees, shrubs, roses and other ornamentals. 3 oz. mixed in 2 gallons of water treats 1,000 sq. ft. Active ingredient Trifluralin. **Cannot ship to AK, DC, HI or WA. #50375. Pint, \$28.95**

### Bonide® Grass Beater®

Kills weedy grasses without injuring desirable plants. This systemic post-emergent herbicide can be sprayed over flower beds, trees, shrubs, ground covers and vegetable plants to eliminate quackgrass and other weedy annual and perennial grasses. Stops growth of weed grasses within 2 days. **#52330. 8 oz. Concentrate, \$29.95**

### Preen® Extended Control Weed Preventer

Stops weeds before they start – one application blocks weeds for up to 6 months! Apply anytime during growing season or in the fall to stop winter and early spring germination. Safe for use around more than 600 ornamentals. Covers 805 sq. ft. **Cannot ship to AK, CA, HI or NY. #55668. 4.93 lbs., \$46.95**

### Bonide® BurnOut® Weed Killer

All-natural organic weed and grass killer. Faster and safer than harsh chemicals, BurnOut® is made from plant-based, pet-safe ingredients. Kills weeds completely within 24 hours. Breaks down within 2 days of application so you can replant. Safe to use around ponds or streams and vegetable plants. Non-selective – eradicates even the toughest plants. One gallon of mixed spray treats 1,500 sq. ft. **#52334. Quart Concentrate, \$24.95**

# Soil Testing & Analyzing

## Professional Soil Test Kit

For the homeowner desiring accurate, detailed soil analysis at a reasonable cost. Kit contains 10 tests each of soil pH, Nitrogen, Phosphorus and Potash. Includes instructions for amending soils based on test results. Packed in a sturdy plastic carrying case.

**#51345. 40 Test Kit, \$24.95**  
**#51346. Supersized 80 Test Kit, \$37.95**

## 4-Way Analyzer

Measures the four most important aspects of plant health – light, soil moisture, soil pH and soil fertility. It determines the light level where the plant is located, and the moisture level where it counts – at the roots. Soil pH is measured on a scale of 0 to 9, and a combined Nitrogen, Phosphorus, Pot-

ash reading is determined using USDA standards. No batteries required. One year manufacturer's warranty. **#51307. \$37.95**

## Tomato Grower's Test Kit

An easy-to-use test to check Nitrogen, Phosphorus, pH and Potash to grow stronger, healthier tomatoes! Kit contains 4 tests. Instructions included. **#51320. WAS \$6.75 NOW \$4.95**

## Electronic Soil Tester

Tests soil pH and fertilizer levels in a quick, one-minute test. Directions include ideal pH range for 350 plants and easy guidelines for soil correction. Convenient slide switch. Requires one AA battery, not included. **#51309. \$34.95**

## CHECK ACCEPTANCE POLICY

When you provide a check payment, you authorize us to process a one-time ACH debit entry for up to the amount of your check. You also authorize us to process credit adjustments to your bank account if a refund is needed. If you have insufficient funds to cover your payment, you authorize us to collect your payment plus a fee of \$40 from your account. Funds may be withdrawn from your account on the same day we receive your payment. Sending a paper check increases processing time and you may not receive your check back from your financial institution.

**Just Bag 'Em!**

**Tomato Patio Planter Bags**

Easy-to-use planters for balcony and patio gardens. The perfect solution for people who want to garden, but don't have the space. These tomato-red bags are bright accents for patios and have a reinforced woven handle on each side so they're easy to slide around. Constructed of tough polyethylene and made

to last for several seasons. Equipped with reinforced drainage holes so plants don't become water-logged. Bags are 14" in diameter, 18" deep, hold 40 liters of medium and can accommodate 2 or 3 plants depending on variety. #53886. Pkg. of 3, \$20.95

**Tomato Planter Bags**

Love home grown tomatoes but don't have room for a garden? These bags are perfect for decks, balconies and patios. Holds up to two plants, depending on the variety and deep enough for stakes or tomato cages to support plants. Seams are porous to provide drainage. Made of woven polyethylene with wipe clean surfaces and webbed handles for easy mobility. Folds flat for easy storage. Measures 15"H x 12 1/2"D.

#53732. Pkg. of 3, \$18.95

**Protection**

**Twist-Up Tomato Cloche**

Get plants in the ground earlier! Protects tomato, pepper and other tall plants against blight, slugs and harsh weather. Pops up quickly and folds down neatly. Works well with our popular Tomato Patio Planter™ Bags above. Made of clear plastic to allow plenty of sunlight and warmth that plants need to grow. Includes aeration vents and ground pegs to hold in place. Measures 1'7 1/2"D x 3'7 1/4"H and weighs 1 3/4 lbs. #84101. \$29.95; 2+ \$27.95 each

**Micromesh™ Tomato Tube**

Beat the bugs without the chemicals! Offers simple, inexpensive crop protection for tomato plants. Made of ultra-fine 0.6mm micromesh netting that protects against the weather and insects as small as aphids and flea beetles, as well as birds and other animals. Tubes can be supported with canes (not included) and secured at the top with wire ties (included). Remove to allow pollination. Measures 6'7"L x

1'11 1/2"D. #89404. Pkg. of 3, \$31.95; 2+ \$29.95 each

**GIANT EASY TUNNELS**

Features a patented, all-in-one design that opens like an accordion and sets up quickly. Simply insert the sturdy, rust-proof, galvanized steel hoops, that are sewn into the fabric, in the ground. Sides lift up to allow easy access to plants. Closable draw-string ends open for ventilation. Covers larger plants or double rows. Provides year-round protection against insects, birds and animals. Tunnels measure 118"L x 24"W x 18"H.

**Fleece**

Protects against frost and harsh weather, while allowing air,

moisture and sunlight to filter through. Made from UV-stabilized, heavy-weight, polypropylene fleece. #53738. \$32.95

**Net**

Provides shade against strong sunlight helping to prevent scorched plants and conserve moisture. Made from UV-stabilized, high-density, 5mm mesh polyethylene. #53729. \$40.95

## VARIETIES FOR FRESH FROM THE GARDEN FLAVOR!

### BlushingStar Hybrid Tomato

**70-75 days.** Combines tasty heirloom flavor with modern hybrid performance. Early maturing, pink beefsteak-type, 12 to 16 oz. fruits are juicy, sweet and savory. Large fruits grow to approx. 2½" by 4" and are perfect for eating fresh or for use in canning. Resistant to Late Blight and Septoria Leaf Spot. Indeterminate.

#00101. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each

### Trailblazer Hybrid Bell Pepper

**70-75 days.** Large, 8 to 9 oz., blocky, 3 to 4-lobed bells have firm, thick walls. Crispy fruits grow up to 3½" long by 3¼" wide and have a sweet, rich flavor. Peppers have a strong, bright yellow color that lasts longer so they are slower to turn gold/orange, distinguishing this variety from others. Can be enjoyed at the green stage in 50 to 55 days. Fruits have a good shelf life and are perfect for stuffing. Upright plants grow 20 to 30" tall and are highly resistant to Bacterial Leaf Spot Races 1-3, 7 and 8.

#02839. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.25 each

### Tomato Love: 44 Mouthwatering Recipes for Salads, Sauces, Stews and More

*By Joy Howard.* A collection of delicious recipes celebrating tomatoes – the #1 grown fruit in the world! There's nothing quite like fresh tomatoes picked from the vine – canned and jarred, they can be enjoyed year-round as well. These recipes include new takes on old classics like red sauce and tomato soup, along with a mix of fresh ideas ranging from sweet to spicy, barbecue sauces to stews and salads. Home cooks and backyard gardeners overwhelmed with the bounty of the season will find dozens of inspiring ideas for introducing variety into the everyday repertoire of meals. This cookbook makes it easy to put good food on the table with fresh and nourishing ingredients that are readily available, delicious recipes and easy cooking steps. Recipes are shown with full color photographs. Paperback. 104 pages. #53557. \$14.95 each

### Sun Dipper Hybrid FNT Tomato

**60-65 days.** Unique, eye-catching, elongated fruits are an attractive orange. Fruits are 2 to 2½" long by ½" wide and have a delicious, juicy flavor. Perfectly shaped for dipping and visually appealing on vegetable platters. Note that pruning plants to 1 to 2 leaders can increase fruit size up to 3 to 4" long. Upright plants grow approx. 60 to 84". Indeterminate.

#00706. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.35 each

### Wildcat Hybrid Hot Pepper

**75 days. 2023 AAS Regional Winner (Mountain/Southwest, Southeast)! Extra-large, 8 to 12" fruits weigh 2 to 3 oz., and have meaty flesh that's thicker than comparisons. Fruits are straighter than traditional cayennes, have a nice smoky, sweet flavor and a Scoville rating of 500 to 1,500 units. Great for containers. Easy to harvest. Uniform growth habit and mild heat level makes this a good multi-purpose pepper. High yielding. Highly resistant to Potato Y Virus, Tobamo Virus and intermediate resistance to Fusarium Wilt.**

#03098. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each
