

# WEWALK SMART CANE 2

## ***Your Smart Mobility Companion***

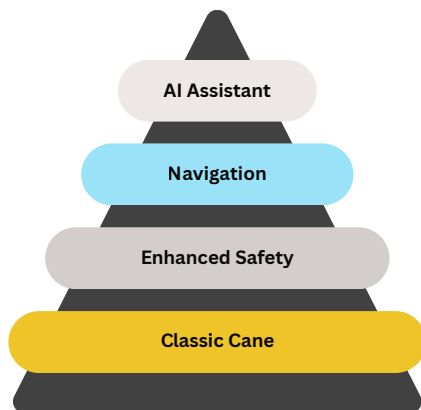

*Same size and weight as a traditional white cane.  
Smarter than ever!*

WeWALK

# WeWALK Smart Cane 2

## Usage Modes

Smart Cane 2 has 4 modes designed to meet different mobility needs – from basic ground feedback to AI-powered benefits:

## 1. Classic Cane

Use like a lightweight, weather-resistant traditional white cane for ground detection – even when not connected.

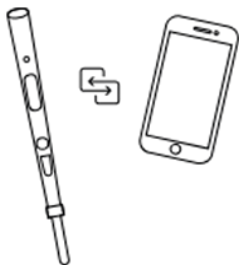

## 2. Enhanced Safety

Activate with the power button to enable smart features:

- Upper-body obstacle detection and built-in flashlight.
- Choose between vibration or sound alerts.
- Easy control via buttons.

### 3. Navigation

*In addition to all previous features, control the WeWALK app from your Smart Cane without holding your phone to get:*

- Navigation to shops, restaurants, landmarks in 3,500+ cities.
- Live public transport info and stop tracking.
- Exploration mode to discover nearby places.

### 4. AI Assistant

*In addition to all previous features, speak to your cane to get:*

- Instant answers to your questions via built-in voice assistance, including general knowledge questions on landmarks, menu items, recipes, and more – powered by GPT.
- Local info on your nearest café, restaurant or transport stop.

***\*Subscription may be required depending on your smart cane model or country. Please check details at [wewalk.io](https://www.wewalk.io).***
